

## Save the Date! LMOP Special Sessions in March 2020

# LMOP Special Sessions

**March 2020**

The U.S. EPA Landfill Methane Outreach Program (LMOP) is pleased to announce that we are collaborating with the Solid Waste Association of North America (SWANA) to organize **LMOP Special Sessions** in conjunction with SWANA's upcoming [43rd Annual Landfill Gas and Biogas Symposium](#) in **Atlanta, Georgia**, from March 23-26, 2020.

The agenda for the LMOP Special Sessions is currently being developed. **If you are interested in speaking, please contact LMOP with your proposed topic by December 31, 2019**, at [lmop@epa.gov](mailto:lmop@epa.gov). We are especially interested in presentations discussing case studies, best practices or trends in landfill gas recovery, methane emissions mitigation and organic waste management. Note that LMOP will not consider presentations focused on marketing products or services.

More details about the LMOP Sessions will be available soon on the [LMOP website](#). If you have any **questions about the LMOP Sessions**, please contact LMOP [through our website](#).
