On Tuesday, March 17, 2020, Alexandra Dapolito Dunn, the EPA Assistant Administrator for Chemical Safety and Pollution Prevention, signed the following document:

- **Action:** Final Rule.
- **Title:** Chemical Data Reporting; Extension of the 2020 Submission Period
- **FRL #:** 10006-39
- **Docket ID #:** EPA-HQ-OPPT-2018-0321

EPA is submitting this document for publication in the *Federal Register* (FR). EPA is providing this document solely for the convenience of interested parties. It is not the official version of the document for purposes of public notice and comment under the Administrative Procedure Act. This document is not disseminated for purposes of EPA's Information Quality Guidelines and does not represent an Agency determination or policy. While we have taken steps to ensure the accuracy of this Internet version of the document that was signed, the official version will publish in a forthcoming FR publication, which will appear on the Government Printing Office's govinfo website (https://www.govinfo.gov/app/collection/fr) and on Regulations.gov (https://www.regulations.gov) in the docket identified above.

Once the official version of this document is published in the *Federal Register*, this version will be removed from the Internet and replaced with a link to the official version. At that time, you will also be able to access the on-line docket for this *Federal Register* document at http://www.regulations.gov.

For further information about the docket and, if applicable, instructions for commenting, please consult the ADDRESSES section in the front of the Federal Register document.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 711

RIN 2070-AK33

Chemical Data Reporting; Extension of the 2020 Submission Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is amending the Toxic Substances Control Act (TSCA) Chemical Data Reporting (CDR) regulations by extending the submission deadline for 2020 reports from September 30, 2020, to November 30, 2020. This is a one-time extension for the 2020 submission period only. The CDR regulations require manufacturers (including importers) of certain chemical substances included on the TSCA Chemical Substance Inventory (TSCA Inventory) to report data on the manufacturing, processing, and use of the chemical substances.

DATES: This final rule is effective [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2018-0321, is available at http://www.regulations.gov or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave., NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280. Please
review the visitor instructions and additional information about the docket available at

http://www.epa.gov/dockets.

FOR FURTHER INFORMATION CONTACT: For technical information contact: Susan Sharkey, Chemical Control Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 564-8789; email address: sharkey.susan@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you manufacture (including import) chemical substances listed on the TSCA Inventory. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include but are not limited to:

• Chemical manufacturers (including importers) (NAICS codes 325 and 324110, e.g., chemical manufacturing and processing and petroleum refineries).

• Chemical users and processors who may manufacture a byproduct chemical substance (NAICS codes 22, 322, 331, and 3344, e.g., utilities, paper manufacturing, primary metal manufacturing, and semiconductor and other electronic component manufacturing).

B. What Action is the Agency Taking?
The 2020 CDR submission period is from June 1 to September 30, 2020 (40 CFR 711.20). EPA is issuing this amendment to extend the deadline for 2020 CDR submission reports until November 30, 2020. This is a one-time extension: subsequent submission periods (recurring every four years, next in 2024) are not being amended.

The Agency is taking this action to provide additional time for the regulated community to familiarize themselves with the changes to the CDR reporting requirements as a result of the CDR Revisions Final Rule (FRL-10006-56) that published elsewhere in this Federal Register and to allow time for reporters to familiarize themselves with an updated public version of the reporting tool. EPA believes it is appropriate to extend the reporting period to allow the regulated community additional time to submit their reports. With respect to the timing of this action, the need for the Agency to extend the deadline arose, in part, as a result of the time needed to develop a final rule (the CDR Revisions Final Rule (FRL-10006-56) that published elsewhere in this Federal Register) while addressing public comments received, to incorporate broader Agency policy decisions relevant to data reporting, and to carry out interagency review of the CDR Revisions Final Rule.

C. What is the Agency's Authority for Taking this Action?

The CDR rule was issued pursuant to the authority of TSCA section 8(a), 15 U.S.C. 2607(a). In addition, under section 553(b)(3)(B) of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(3)(B), an agency may issue a final rule without a prior proposal if it finds that notice and public participatory procedures are impracticable, unnecessary, or contrary to the public interest. In this case, the Agency finds that normal notice and public process rulemaking is impracticable and unnecessary because this is just an extension of the reporting period. Given that the current reporting deadline is September 30, 2020, it is impracticable to follow notice and
comment procedures to extend that deadline because the typical notice and comment rulemaking process would not allow a rule to be finalized before the current reporting deadline, and is unnecessary because extending the deadline is an administrative rulemaking.

This action does not alter the substantive CDR reporting requirements in any way. The Agency also believes the one-time extension will not result in a significant delay in the processing and availability of CDR information to potential users. Further, this action is consistent with the public interest because it is designed to facilitate compliance with the CDR rule and to ensure that the 2020 collection includes accurate data on chemical manufacturing, processing, and use in the United States. Finally, any impact on the regulated community is expected to be beneficial given that the one-time extension provides additional time to submit accurate CDR reports to EPA.

Similarly, under APA section 553(d), 5 U.S.C. 553(d), an agency may make a rule immediately effective “for good cause found and published with the rule.” For the reasons discussed in this unit, EPA believes that there is “good cause” to make this amendment effective upon publication in the Federal Register.

II. Statutory and Executive Order Reviews

Additional information about these statutes and Executive Orders can be found at http://www2.epa.gov/laws-regulations/laws-and-executive-orders.

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is classified as a final rule because it makes an amendment to the Code of Federal Regulations (CFR). The amendment to the CFR is necessary to allow for a one-time extension to the 2020 CDR reporting period. This action does not impose any new requirements
or amend substantive requirements. As such, this action is not a “significant regulatory action” under Executive Order 12866 (58 FR 51735, October 4, 1993) and Executive Order 13563 (76 FR 3821, January 21, 2011).

B. Paperwork Reduction Act (PRA)

This action does not contain any new or revised information collections subject to OMB approval under the PRA, 44 U.S.C. 3501 et seq. Information collection activities contained in CDR are already approved by the Office of Management and Budget (OMB) under OMB Control No. 2070-0162 (EPA ICR No. 1884).

C. Regulatory Flexibility Act (RFA)

This action is not subject to the RFA, 5 U.S.C. 601 et seq. The RFA applies only to rules subject to notice and comment rulemaking requirements under the APA, 5 U.S.C. 553, or any other statute. This rule is not subject to notice and comment requirements under the APA because the Agency has invoked the APA “good cause” exemption.

D. Unfunded Mandates Reform Act (UMRA)

This action will not impose any enforceable duty or contain any unfunded mandate as described under Title II of UMRA, 2 U.S.C. 1531-1538 et seq.

E. Executive Order 13132: Federalism

This action will not have federalism impacts as defined in Executive Order 13132 (64 FR 43255, August 10, 1999) because this action will not have substantial direct effects on States, on the relationship between the Federal Government and States, or on the distribution of power and responsibilities between the Federal Government and States.

F. Executive Order 13175: Consultation and Coordination with Indian Tribal Governments

This action will not have tribal implications as defined in Executive Order 13175 (65 FR
67249, November 9, 2000) because this action will not have substantial direct effects on tribal
governments, on the relationship between the Federal Government and Indian tribes, or on the
distribution of power and responsibilities between the Federal Government and Indian tribes.

G. Executive Order 13045: Protection of Children from Environmental Health Risks and Safety
Risks

This action is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997),
because this is not an economically significant regulatory action as defined under Executive
Order 12866, and it does not address environmental health or safety risks disproportionately
affecting children.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy
Supply, Distribution, or Use

This action is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001),
because this action is not expected to affect energy supply, distribution, or use and because this
action is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act (NTTAA)

Since this action does not involve any technical standards, NTTAA section 12(d), 15
U.S.C. 272 note, does not apply to this action.

J. Executive Order 12898: Federal Actions to Address Environmental Justice in Minority
Populations and Low-Income Populations

This action does not entail special considerations of environmental justice related issues
as delineated by Executive Order 12898 (59 FR 7629, February 16, 1994).

III. Congressional Review Act (CRA)

This action is subject to the CRA, 5 U.S.C. 801 et seq., and EPA will submit a rule report
to each House of the Congress and to the Comptroller General of the United States. The CRA allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and comment rulemaking procedures are impracticable, unnecessary or contrary to the public interest (5 U.S.C. 808(2)). The EPA has made a good cause finding for this rule as discussed in Unit I.C., including the basis for that finding.

List of Subjects in 40 CFR Part 711

   Environmental protection, Chemicals, Confidential Business Information (CBI), Hazardous materials, Importer, Manufacturer, Reporting and recordkeeping requirements.

Alexandra Dapolito Dunn,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.
Therefore, 40 CFR chapter I is amended as follows:

PART 711--[AMENDED]

1. The authority citation for part 711 continues to read as follows:

2. In § 711.20, revise the third sentence to read as follows.

§ 711.20 When to report.

*** The 2020 CDR submission period is from June 1, 2020, to November 30, 2020. Subsequent recurring submission periods are from June 1 to September 30 at 4-year intervals, beginning in 2024. ***
