

EPA Seeks Comments on Draft Underground Injection Permit

Lambda Energy Resources LLC

Missaukee County, Michigan

March 2020

How to comment

You may comment on the proposed permit approval in writing. Please refer to Frank S. Horner Trustee #7 (Norwich Unit Tract 4-7), MI-113-2R-0065

Mail or email your comments to:

Kayla A. Schmalle
U.S. EPA, Water Division
UIC Section (WP-16J)
77 W. Jackson Blvd.
Chicago, IL 60604-3590
Email: schmalle.kayla@epa.gov
Phone: 312-353-3944

Comment period

The Agency will accept written comments until May 22, 2020.

Information

You may see the draft permit at:
<http://go.usa.gov/3JwFP>

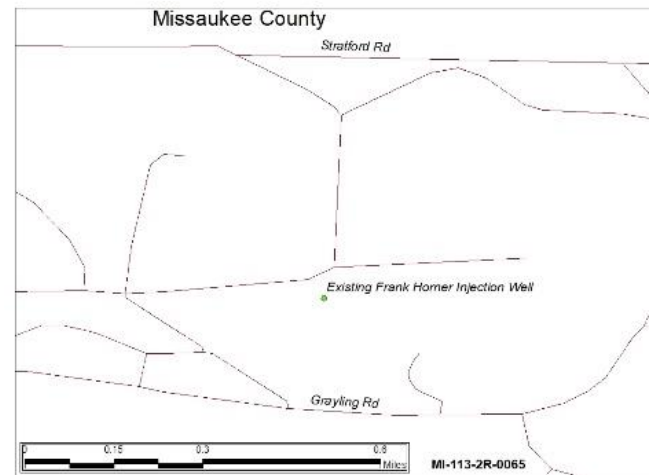

Administrative Record

You may see the full administrative record, including all data Lambda Energy Resources, LLC submitted, at the EPA's Chicago regional office (*address above*), 9 a.m. to 4 p.m., weekdays. For an appointment to see the files, contact Kayla A. Schmalle (*see above*).

Right to appeal

You have the right to appeal any final permit decision if you make an official comment during the comment period or participate in the public hearing. (A public hearing is not planned at this time.) The first appeal must be made to the Environmental Appeals Board.

The U. S. Environmental Protection Agency plans to allow Lambda Energy Resources LLC, 12012 Wickchester, Suite 300, Houston, TX, 77079 to inject fluid underground by approving the company's application for what EPA calls a Class II injection well permit.

If EPA makes its approval final, Lambda Energy Resources LLC may inject fresh water into a rock formation 3136 feet below the surface through a well at NW ¼, Section 12, 24N, 5W, Missaukee County. Lambda Energy Resources LLC must also apply for a permit from the Michigan Department of Environment, Great Lakes & Energy (MDEGLE).

EPA is accepting comments from the public on this proposed permit approval (*see box, left*). The public comment period includes 60 days for comments as required by law, plus an additional three days for any delay caused by mailing.

During the comment period, you may ask EPA – in writing – to hold a formal public hearing (*see address, left*). Be sure to say specifically what issues you want to raise. EPA will hold a hearing if there is significant interest. If there is a hearing, EPA will publish a notice at least 30 days prior. You will have an opportunity to make oral comments or submit written comments. EPA will consider all comments it receives, and then issue a final decision along with a response to significant comments.

The Safe Drinking Water Act requires EPA to regulate the underground injection of fluids through wells to protect the quality of underground sources of drinking water. Issuing permits is one way EPA does this. You can find the regulations governing underground injection wells at Title 40 of the Code of Federal Regulations, Parts 144 and 146.

EPA does not have the authority to change the surface location of the injection well. If you have questions or concerns about the well's location, contact the MDEGLE, P.O. Box 30256, Lansing, Michigan 48909 and phone number (517) 284-6826.
