

LFG Energy Project Opportunity in NC - 8/12 Meeting

As a service to our Partners and other stakeholders, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **request for proposals (RFP) from Catawba County, North Carolina for an LFG energy project at the Blackburn Landfill**. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is based on the RFP.

The County is soliciting proposals from qualified companies to **develop a renewable energy project using the landfill gas (LFG) collected at the Blackburn Landfill and pay the County for the LFG**. The County will consider proposals for technically and financially feasible beneficial uses, including electricity generation, direct use of medium-Btu LFG, production of renewable natural gas, or other technologies. The County owns and operates the Blackburn Landfill, and also owns and operates an existing LFG electricity project which will be discontinued due to the age of the engine gensets.

All correspondence regarding this RFP must be directed to **Tina Wright**, Purchasing Department, at tinawright@catawbacountync.gov, (828) 465-8224.
