EPA Subaward Policy Appendix B: National Term and Condition for Subawards

If the recipient chooses to pass funds from this assistance agreement to other entities, the recipient must comply with applicable provisions of 2 CFR Part 200 and the EPA Subaward Policy, which may be found at https://www.epa.gov/sites/production/files/2016-02/documents/grants_policy_issuance_gpi_16_01.pdf.

As a pass-through entity, the recipient agrees to:

1. Be responsible for selecting subrecipients and as appropriate conducting subaward competitions using a system for properly differentiating between subrecipients and procurement contractors under the standards at 2 CFR 200.331 and EPA’s supplemental guidance in Appendix A of the EPA Subaward Policy.

   (a) For-profit organizations and individual consultants, in almost all cases, are not eligible subrecipients under EPA financial assistance programs and the pass-through entity must obtain prior written approval from EPA’s Award Official for subawards to these entities unless the EPA-approved budget and work plan for this agreement contain a precise description of such subawards.

   (b) Stipends and travel assistance for trainees (including interns) and similar individuals who are not employees of the pass-through entity must be classified as participant support costs rather than subawards as provided in 2 CFR 200.1 Participant support costs, 2 CFR 200.1 Subaward, and EPA’s Guidance on Participant Support Costs.

   (c) Subsidies, rebates and similar payments to participants in EPA funded programs to encourage environmental stewardship are also classified as Participant support costs as provided in 2 CFR 1500.1 and EPA’s Guidance on Participant Support Costs.

2. Establish and follow a system that ensures all subaward agreements are in writing and contain all of the elements required by 2 CFR 200.332(a). EPA has developed a template for subaward agreements that is available in Appendix D of the EPA Subaward Policy.

3. Prior to making subawards, ensure that each subrecipient has a “unique entity identifier.” This identifier is required for registering in the System for Award Management (SAM) and by 2 CFR Part 25 and 2 CFR 200.332(a)(1). The unique entity identifier currently is the subrecipient’s Data Universal Numbering System (DUNS) number. Information regarding obtaining a DUNS number and registering in SAM is available in the General Condition of the pass-through entity’s agreement with EPA entitled “Central Contractor Registration/System for Award Management and Universal Identifier Requirements” T&C of the pass-through entity’s agreement with the EPA.

4. Ensure that subrecipients are aware that they are subject to the same requirements as those that apply to the pass-through entity’s EPA award as required by 2 CFR 200.332(a)(2). These requirements include, among others:

   (a) Title VI of the Civil Rights Act and other Federal statutes and regulations prohibiting discrimination in Federal financial assistance programs, as applicable.
(b) Reporting Subawards and Executive Compensation under Federal Funding Accountability and Transparency Act (FFATA) set forth in the General Condition pass-through entity’s agreement with EPA entitled “Reporting Subawards and Executive Compensation.”

(c) Limitations on individual consultant fees as set forth in 2 CFR 1500.10 and the General Condition of the pass-through entity’s agreement with EPA entitled “Consultant Fee Cap.”

(d) EPA’s prohibition on paying management fees as set forth in General Condition of the pass-through entity’s agreement with EPA entitled “Management Fees.”

(e) The Procurement Standards in 2 CFR Part 200 including those requiring competition when the subrecipient acquires goods and services from contractors (including consultants) and Domestic preferences for procurements at 2 CFR 200.322.

Other statutes, regulations and Executive Orders that may apply to subawards are described at Information on Requirements that Pass-Through Entities must “Flow Down” to Subrecipients. Many Federal requirements are agreement or program specific and EPA encourages pass-through entities to review the terms of their assistance agreement carefully and consult with their EPA Project Officer for advice if necessary.

5. Ensure, for states and other public recipients, that subawards are not conditioned in a manner that would disadvantage applicants for subawards based on their religious character.

6. Establish and follow a system for evaluating subrecipient risks of noncompliance with Federal statutes, regulations and the terms and conditions of the subaward as required by 2 CFR 200.332(b) and document the evaluation. Risk factors may include:

   Prior experience with same or similar subawards;

   (a) Results of previous audits;

   (b) Whether new or substantially changed personnel or systems, and;

   (c) Extent and results of Federal awarding agency or the pass-through entity’s monitoring.

7. Establish and follow a process for deciding whether to impose additional requirements on subrecipients based on risk factors as required by 2 CFR 200.332(c). Examples of additional requirements authorized by 2 CFR 200.208 include:

   (a) Requiring payments as reimbursements rather than advance payments;

   (b) Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given period of performance;

   (c) Requiring additional, more detailed financial reports;

   (d) Requiring additional project monitoring;
(e) Requiring the non-Federal entity to obtain technical or management assistance, and

(f) Establishing additional prior approvals.

8. Establish and follow a system for monitoring subrecipient performance that includes the elements required by 2 CFR 200.331(d) and report the results of the monitoring in performance reports as provided in the reporting terms and conditions of this agreement.

9. Establish and maintain an accounting system which ensures compliance with the $25,000 limitation at 2 CFR 200.1, Modified Total Direct Costs, if applicable, on including subaward costs in Modified Total Direct Costs for the purposes of distributing indirect costs. Recipients with Federally approved indirect cost rates that use a different basis for distributing indirect costs to subawards must comply with their Indirect Cost Rate Agreement.

10. Work with EPA’s Project Officer to obtain the written consent of EPA’s Office of International and Tribal Affairs (OITA), prior to awarding a subaward to a foreign or international organization, or a subaward to be performed in a foreign country even if that subaward is described in a proposed scope of work.

11. Obtain written approval from EPA’s Award Official for any subawards that are not described in the approved work plan in accordance with 2 CFR 200.308.

12. Obtain the written approval of EPA’s Award Official prior to awarding a subaward to an individual if the EPA-approved scope of work does not include a description of subawards to individuals.

13. Establish and follow written procedures under 2 CFR 200.302(b)(7) for determining that subaward costs are allowable in accordance with 2 CFR Part 200, Subpart E and the terms and conditions of this award. These procedures may provide for allowability determinations on a pre-award basis, through ongoing monitoring of costs that subrecipients incur, or a combination of both approaches provided the pass-through entity documents its determinations.

14. Establish and maintain a system under 2 CFR 200.332(d)(3) and 2 CFR 200.521 for issuing management decisions for audits of subrecipients that relate to Federal awards. However, the recipient remains accountable to EPA for ensuring that unallowable subaward costs initially paid by EPA are reimbursed or mitigated through offset with allowable costs whether the recipient recovers those costs from the subrecipient or not.

15. As provided in 2 CFR 200.333, pass-through entities must obtain EPA approval to make fixed amount subawards. EPA is restricting the use of fixed amount subawards to a limited number of situations that are authorized in official EPA pilot projects. Recipients should consult with their EPA Project Officer regarding the status of these pilot projects.

By accepting this award, the recipient is certifying that it either has systems in place to comply with the requirements described in Items 1 through 14 above or will refrain from making subawards until the systems are designed and implemented.
