

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation's water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

## CITY OF PROVO

---

**PROJECT NAME:** Aquifer, Storage, and Recovery Program

**LOCATION:** Provo, UT

**INVITED WIFIA LOAN AMOUNT:** \$34 million

**POPULATION SERVED BY PROJECT:** 117,000

**PROJECT TYPE:** Drinking Water

### PROJECT DESCRIPTION:

The Provo Aquifer, Storage, and Recovery Program (Phase 3) will design and construct the aquifer storage and recharge projects identified through planning efforts to create a sustainable water supply for Provo City. The purpose of the project is to build long-term drought resilience by increasing the City's reliable water supply year-round, including during times of drought.

## FY 2020 SELECTION ROUND

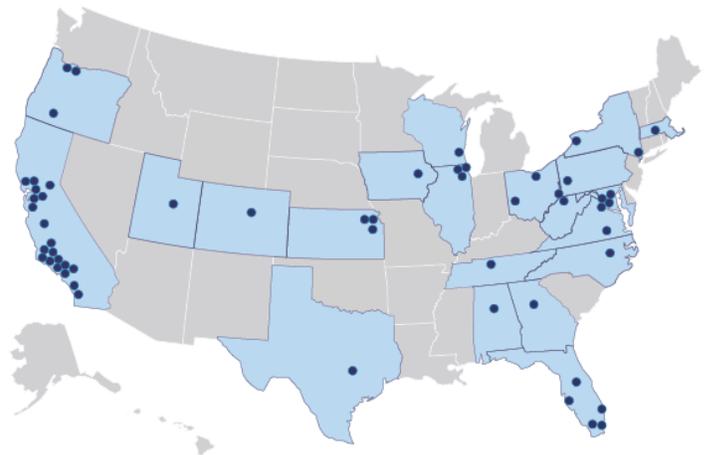

---

**NUMBER OF PROJECTS SELECTED:** 55

**TOTAL LOAN AMOUNT:** \$5.1 billion

**TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED:** \$12.5 billion

**NUMBER OF PEOPLE IMPACTED:**  
25 million in 20 states

Selected projects must submit an application for a WIFIA loan, pass a creditworthiness assessment, negotiate a mutually agreeable term sheet, and execute a credit agreement to receive WIFIA funding. An invitation to apply indicates that EPA believes the selected projects will be able to attain WIFIA loans.
