

City of Lawton, OK RFP for LFG End Use Project - 4/2/21 Deadline

As a service to our Partners and other stakeholders, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **request for proposals (RFP) from the City of Lawton, Oklahoma** for a **landfill gas (LFG) end use project at the City of Lawton Landfill**. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is based on the RFP.

The City of Lawton seeks proposals from companies who can provide all aspects of a successfully managed and operated project to **collect and process the LFG** from the City's landfill. The City will **consider various processing alternatives**, including renewable credits, medium-Btu, power generation, and pipeline injection. Proposals should also include an evaluation of the landfill's existing gas collection and control system.

Clarifications, questions and other requests for information related to the RFP must be submitted at least **15 days prior to the proposal deadline** and emailed to Larry Wolcott at larry.wolcott@lawtonok.gov or faxed to 580-581-3421. **Proposals** must be received by **5:00 PM [CST]** on **April 2, 2021**.

Please refer to the RFP for complete details. The **RFP is available** through the City's website at <https://www.lawtonok.gov/sites/default/files/files/widget/2021-02/City%20of%20Lawton%20Landfill%20Gas%20End%20Use%20RFP%202021.pdf>.

To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.
