

# EPA's BEACH Report: California 2009 Swimming Season

May 2010

## Introduction

The BEACH Act of 2000 requires that coastal and Great Lakes states and territories report to EPA on beach monitoring and notification data for their coastal recreation waters. The BEACH Act defines coastal recreation waters as the Great Lakes and coastal waters (including coastal estuaries) that states, territories, and authorized tribes officially recognize or designate for swimming, bathing, surfing, or similar activities in the water.

This fact sheet summarizes beach monitoring and notification data submitted to EPA by the State of California for the 2009 swimming season.

Figure 1. California coastal counties.

Table 1. Breakdown of monitored and unmonitored coastal beaches by county for 2009.

County	Total Beaches	Monitored	Not Monitored
DEL NORTE	12	12	0
HUMBOLT	28	28	0
LOS ANGELES	50	50	0
MARIN	28	28	0
MENDOCINO	21	21	0
MONTEREY	25	25	0
ORANGE	24	24	0
SAN DIEGO	77	77	0
SAN FRANCISCO	7	7	0
SAN LUIS OBISPO	17	17	0
SAN MATEO	41	41	0
SANTA BARBARA	34	34	0
SANTA CRUZ	28	28	0
SONOMA	7	7	0
VENTURA	35	35	0
<b>TOTALS</b>	<b>434</b>	<b>434</b>	<b>0</b>

## 2009 Summary Results

### How many notification actions were reported and how long were they?

California's approach is to issue a beach advisory when water quality standards are exceeded at a particular beach that warns people to avoid contact with the water. A total of 173 monitored beaches had at least one advisory issued during the 2009 swimming season. Figure 2 presents a full breakdown of notification action durations.

### What percentage of days were beaches under a notification action?

For California's 2009 swimming season, actions were reported about 6 percent of the time (Figure 3).

### How do 2009 results compare to previous years?

Table 2 compares 2009 notification action data with monitored beach data from previous years.

### What pollution sources possibly affect investigated monitored beaches?

Every investigated monitored beach indicated that unidentified sources affected their beach (Figure 4).

## For More Information

For general information about beaches:

For information about beaches in California visit the Web site: [www.waterboards.ca.gov/beachquality/](http://www.waterboards.ca.gov/beachquality/) or contact Michael W. Gjerde, California Beach Coordinator at the State Water Resources Control Board at (916) 341-5283.

Figure 2: Beach notification actions by duration.

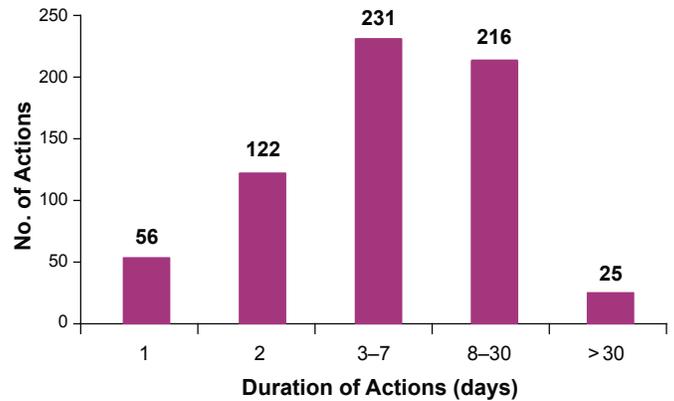

Figure 3: Beach days with and without notification actions.

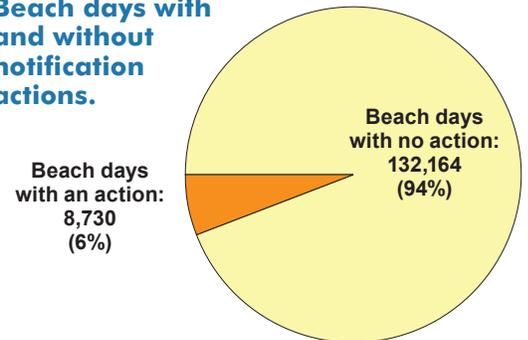

Table 2. Beach notification actions, 2007-2009.

	2007	2008	2009
Number of monitored beaches	424	433	434
Number of beaches affected by notification actions	138	139	173
Percentage of beaches affected by notification actions	33%	32%	40%
Percentage of beach days affected by notification actions	5%	6%	6%

Figure 4: Percent of investigated monitored beaches affected by possible pollution sources (434 beaches).
