PREPARATION OF THE DRAFT PERMIT, EPA REQUEST FOR CWA § 401 CERTIFICATION, AND PROPOSED ISSUANCE OF A STATE SURFACE WATER PERMIT:

EPA is issuing for public notice and comment the Draft NPDES Permit for the Little Bay Seafood facility, which discharges lobster holding water, water from baitfish wetting, fish container rinse water, and truck rinse water. The effluent limits and permit conditions imposed have been drafted pursuant to, and assure compliance with, the CWA, including EPA-approved State Surface Water Quality Standards at Env-Wq 1700 et seq. NHDES cooperated with EPA in the development of the Draft NPDES Permit. NHDES plans to adopt EPA's permit under Chapter 485-A of the New Hampshire Statutes (NH RSA 485-A:13, I(a)).

In addition, EPA has requested that NHDES grant or deny certification of this Draft Permit pursuant to Section 401 of the CWA and implementing regulations. Under federal regulations governing the NPDES program at 40 Code of Federal Regulations (CFR) § 124.53(e), state certification shall contain conditions that are necessary to assure compliance with the applicable provisions of CWA sections 208(e), 301, 302, 303, 306, and 307 and with appropriate requirements of State law, including any conditions more stringent than those in the Draft Permit that NHDES finds necessary to meet these requirements. In

addition, NHDES may provide a statement of the extent to which each condition of the Draft Permit can be made less stringent without violating the requirements of State law.

Comments, including those pertaining to EPA's request for CWA § 401 certification and/or NHDES proposed issuance of a State Surface Water Permit, should be submitted to the EPA contact at the address or email address listed above. Upon the close of the public comment period, EPA will make all comments available to NHDES.
