Re: Notice of Intent (NOI) to Discharge to Waters of the United States
Permit No. NMG010065

Dear Mr. Jeff True,

The NOI for permit coverage under the National Pollutant Discharge Elimination System General Permit for Discharges from Concentrated Animal Feeding Operations in New Mexico (No. NMG01000) dated September 1, 2016, and the nutrient management practices submitted for your facility have been determined to be complete. Enclosed is a copy of the proposed terms of the Nutrient Management Plan to be incorporated into the permit.

Any comments you wish to make may be submitted in writing within the 30-day Public Notice period. After all comments have been received, the Agency will make a final decision regarding coverage of your facility under the general permit. If appropriate, your facility will be granted coverage under the general permit upon written notification by the Agency. If you have any questions, please contact William F. Cooper of my staff by telephone at: (214) 665-6443, or by email at: cooper.williamf@epa.gov.

Sincerely,

Maria L. Martinez
