

OVERVIEW

AGENCY: ENVIRONMENTAL PROTECTION AGENCY (EPA)

TITLE: FY22 GUIDELINES FOR BROWNFIELD ASSESSMENT GRANTS

ACTION: Request for Applications (RFA)

RFA NO.: EPA-OLEM-OBLR-21-04

CATALOG OF FEDERAL DOMESTIC ASSISTANCE (CFDA) NO.: 66.818

DATE: The closing date and time for receipt of applications is **December 1, 2021**, 11:59 p.m. Eastern Time (ET). Applications must be submitted through www.grants.gov. Applications received after 11:59 p.m. ET on **December 1, 2021**, will not be considered. Please refer to the *Due Date and Submission Instructions* in [Section IV.B.](#) and [Appendix 1](#) for further instructions.

SUMMARY: The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Brownfields Utilization, Investment, and Local Development (BUILD) Act (P.L. 115-141), requires the U.S. Environmental Protection Agency (EPA) to publish guidance for grants to assess and clean up brownfield sites. EPA's Brownfields Program provides funds to empower states, communities, tribes, and nonprofit organizations to prevent, inventory, assess, clean up, and reuse brownfield sites. This guidance provides information on applying for Assessment Grants.

EPA continues to provide flexibility to applicants experiencing challenges related to COVID-19. Please see the **Flexibilities Available to Organizations Impacted by COVID-19** clause in Section IV of EPA's Solicitation Clauses at www.epa.gov/grants/epa-solicitation-clauses and the instructions outlined in [Section IV.B.](#) of this announcement.

In FY22, EPA is soliciting applications for the following Assessment Grant types:

- Community-wide Assessment Grants – up to \$500,000
- Site-specific Assessment Grants – up to \$350,000
- **NEW:** Community-wide Assessment Grants for States and Tribes – up to \$2 million

Note, a solicitation for new Assessment Coalition Grants is not available in FY22.

Entities applying for a Community-wide Assessment Grant that have flexible local laws to conduct assessments beyond their jurisdictional boundaries can formally partner with other eligible entities through a Memorandum of Agreement (similar to a partnership under the Assessment Coalition model) to expand the community-wide assessment scope of work beyond the applicant's boundaries and to ensure site access. If selected for funding, the scope of work in the workplan will outline the boundaries of the Community-wide Assessment Grant, describe any partnerships and access agreements, and explain how the grant funds will be spent. A Memorandum of Agreement (MOA) or similar agreement documenting the partnership's site selection process must be in place prior to the expenditure of any funds that are awarded.

The list of entities that can apply for an FY22 **Community-wide Assessment Grant for States and Tribes** include:

- State.
- Indian tribe other than in Alaska and Intertribal Consortia comprised of eligible Indian tribes.
- Alaska Native Regional Corporation, Alaska Native Village Corporation, and Metlakatla Indian Community.

Please refer to [Section III.A.](#) for additional information on the eligible entities.

Community-wide and Site-specific Assessment Grant applicants: Current EPA Brownfields Assessment Grant recipients must demonstrate that payment has been received from EPA (also known as ‘drawn down’), and drawn down funds have been disbursed, for at least 70.00% of the funding for each Assessment cooperative agreement they have with EPA by **October 1, 2021**, in order to apply for additional Assessment Grant funding under this solicitation. [This requirement does not apply to entities applying for an FY22 Community-wide Assessment Grant for States and Tribes.]

Entities that were previously awarded a Brownfields Multipurpose Grant that would like to apply for an FY22 Community-wide Assessment Grant or Site-specific Assessment Grant must demonstrate that payment has been received from EPA (also known as ‘drawn down’), and drawn down funds have been disbursed, for at least 70.00% of the funding for the Multipurpose cooperative agreement by **October 1, 2021**.

For the purposes of these guidelines, the term “grant” refers to the cooperative agreement that EPA will award to a successful applicant. Please refer to [Section II.C.](#) for a description of EPA’s anticipated substantial involvement in the cooperative agreements awarded under these guidelines.

EPA urges applicants to review the FY22 Brownfields Frequently Asked Questions (FAQs), which can be found at www.epa.gov/brownfields/frequently-asked-questions-about-multipurpose-assessment-rlf-and-cleanup-grants.

In addition, prior to naming a contractor (including a consultant) or subrecipient in your application, please carefully review [Section III.B.3.](#) and [Section IV.H.](#) of these guidelines and Section D. in the FY22 [FAQs](#).

FUNDING/AWARDS: EPA anticipates awarding an estimated 69 Assessment Grants for an estimated \$47 million, including 9 Community-wide Assessment Grants for States and Tribes for an estimated \$17 million, subject to the quality of applications received, availability of funds, and other applicable considerations.

SECTION I. – FUNDING OPPORTUNITY DESCRIPTION

The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) was amended by the Small Business Liability Relief and Brownfields Revitalization Act in 2002 to include Section 104(k), which provides federal financial assistance authorities for brownfields revitalization, including grants for assessment, cleanup, and revolving loan funds. The Brownfields Utilization, Investment, and Local Development (BUILD) Act enacted in 2018 reauthorized EPA’s Brownfields Program and made additional amendments to CERCLA that affect EPA’s brownfield grant authorities, and ownership and liability provisions. (Note: References to CERCLA in this solicitation refer to CERCLA as amended by the 2002 Small Business Liability Relief and Brownfields Revitalization Act and the 2018 BUILD Act.)

A brownfield site is defined in CERCLA § 101(39) as real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of hazardous substances, pollutants, contaminants, controlled substances, petroleum or petroleum products, or is mine-scarred land.

A critical part of EPA’s Brownfields Program is to ensure that residents living in communities historically affected by economic disinvestment, health disparities, and environmental contamination have an opportunity to benefit from brownfields redevelopment. EPA’s Brownfields Program has a rich history rooted in environmental justice and is committed to helping communities revitalize brownfield properties, mitigate potential health risks, and restore economic vitality.

As described in [Section V.A.](#) of this announcement, applications will be evaluated based on the extent to which the applicant demonstrates: a vision for the reuse and redevelopment of brownfield sites and a strategy for leveraging resources to help accomplish the vision; the environmental, social, health and economic needs and benefits of the target area; strong community engagement; reasonable costs and eligible tasks and appropriate use of grant funding; the capacity for managing and successfully implementing the cooperative agreement; and other factors.

I.A. Description of Grant

Assessment Grants provide funding for developing inventories of brownfield sites, prioritizing sites, conducting community involvement activities, conducting planning, conducting site assessments, developing site-specific cleanup plans, and developing reuse plans related to brownfield sites. A portion of the Assessment Grant funding must be used to conduct site assessments. Assessment Grant funds may not be used to conduct cleanup activities.

Conducting Brownfields Planning & Developing Site Reuse Plans

Successful brownfields reuse and redevelopment often depends on early consideration of the range of potential future uses for each brownfield site. Local community priorities, market conditions, infrastructure availability, environmental contamination, public health issues, and local ordinances shape brownfield site reuse opportunities. Having a site reuse plan grounded in

these local conditions will directly influence how that site is characterized, assessed, and cleaned up.

Where multiple sites are connected through location, infrastructure, economic, social, and environmental conditions, EPA encourages communities to take an area-wide approach to planning for the assessment, cleanup, and reuse of these brownfield sites. This focus on multiple brownfield sites will result in more coordinated strategies for cleanup and area revitalization versus a site-by-site focus. For more information on site reuse plans and examples of eligible planning activities, please refer to the FY22 [FAQs](#)¹ and [Planning Program Fact Sheets](#).²

Summary of Assessment Grant Options

Applicants may apply for a Community-wide and/or a Site-specific Assessment Grant or apply for Community-wide Assessment Grant for States and Tribes.

- **Community-wide Assessment Grants** are appropriate when a specific site is not identified and the applicant plans to spend grant funds on more than one brownfield site in its community.
- **Site-specific Assessment Grants** are appropriate when a specific site is identified and the applicant plans to spend grant funds on this one site only.
- **Community-wide Assessment Grants for States and Tribes** are only available to state agencies, tribes, and eligible native corporations in Alaska. An applicant must plan to use grant funds to assess a minimum of 10 brownfield sites in disadvantaged communities throughout its jurisdiction.

Applicants that exceed the number of applications allowable for Assessment Grants will be contacted, prior to review of any of the applications by EPA, to determine which application(s) the applicant will withdraw from the competition. The table below summarizes the funding parameters for each type of Assessment Grant.

1. Community-Wide	2. Site-Specific	3. Community-wide Assessment Grants for States and Tribes
Up to \$500,000 to address sites contaminated by hazardous substances and/or petroleum Note, for the purposes of this solicitation, the cost of assessment activities on an individual site may not exceed \$200,000 per grant	Up to \$200,000 to address a site contaminated by hazardous substances and/or petroleum	Up to \$2,000,000 to address sites contaminated by hazardous substances and/or petroleum
No waiver of funding limit	May request a waiver for up to \$350,000	No waiver of funding limit

¹ The FY22 *Brownfields Frequently Asked Questions (FAQs)* are available at www.epa.gov/brownfields/frequently-asked-questions-about-multipurpose-assessment-rlf-and-cleanup-grants.

² The *Planning Program Fact Sheets* are available at www.epa.gov/brownfields/information-eligible-planning-activities.

1. Community-Wide	2. Site-Specific	3. Community-wide Assessment Grants for States and Tribes
Period of performance is 3 years.	Period of performance is 3 years.	Period of performance is 5 years.
May only apply for one Community-wide Grant; may also apply for one Site-specific Grant; may not apply for a Community-wide Assessment Grant for States and Tribes.	May only apply for one Site-specific Assessment Grant; may also apply for one Community-wide Grant; may not apply for a Community-wide Assessment Grant for States and Tribes.	May only apply for one a Community-wide Assessment Grant for States and Tribes; may not apply for an individual Community-wide or Site-specific Grant.

1. Community-wide Assessment Grants

Applicants may request up to \$500,000 to address sites contaminated by hazardous substances³ (i.e., sites with potential contamination of hazardous substances, pollutants, or contaminants) and/or petroleum⁴ (i.e., sites with potential petroleum contamination). For the purposes of this solicitation, the cost of assessment activities carried out at each approved, eligible site may not exceed \$200,000 per grant.

Applicants can apply for only one Community-wide Assessment Grant. An applicant that applies for a Community-wide Assessment Grant may also apply for a Site-specific Assessment Grant, but may not apply for a Community-wide Assessment Grant for States and Tribes.

2. Site-specific Assessment Grants

Applicants may request up to \$200,000 to address hazardous substances³ and/or petroleum⁴ contamination at a specified site. Applicants can apply for only one Site-specific Assessment Grant and applicants must respond to the additional threshold criteria in [Section III.C.](#) concerning site eligibility and eligibility related to the type of contamination at the site.

If the site is co-mingled with both hazardous substances and petroleum contamination and the hazardous substances and petroleum-contaminated areas of the site are distinguishable, the application must address both eligibility criteria. If the hazardous substances and petroleum are co-mingled and not easily distinguishable, the applicant must indicate which contaminant is predominant and respond to the appropriate site eligibility criteria. (Contact your Regional Brownfields Contact listed in [Section VII.](#) for more information.) Note that an applicant cannot propose an alternate site if the site identified in the application is determined by EPA to be ineligible for Brownfields Grant funding.

³ Hazardous substance sites eligible for funding are those sites with the presence or potential presence of hazardous substances, pollutants, contaminants, sites that are contaminated with controlled substances or that are mine-scarred lands. For more information, please refer to the FY22 [FAQs](#).

⁴ Petroleum sites eligible for funding are those sites that meet the definition set forth in CERCLA § 101(39)(D)(ii)(II), as further described in Section 1.3.2. in the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#).

Applicants may request a waiver of the \$200,000 limit and request up to \$350,000 for a single site based on the anticipated level of contamination, size, or status of ownership of the site. Applicants requesting a waiver must attach a **one-page** justification for the waiver request. EPA will consider requests on a case-by-case basis. Refer to the threshold criterion in [Section III.C.7.](#) for additional information.

An applicant that submits a Site-specific Assessment Grant application may also apply for a Community-wide Assessment Grant, but may not apply for a Community-wide Assessment Grant for States and Tribes.

3. Community-wide Assessment Grants for States and Tribes

Community-wide Assessment Grants for States and Tribes are available to:

- states (i.e., state agencies that are subject to the direct control of the governor or other elected executive officials such as environmental agencies, transportation agencies, health departments, parks and recreation departments, and departments of commerce); and
- tribes (i.e., Indian tribes other than in Alaska, and Intertribal Consortia comprised of eligible Indian tribes, Alaska Native Regional Corporations, Alaska Native Village Corporations, and the Metlakatla Indian Community).

Note, state and tribal universities and colleges are not eligible for Community-wide Assessment Grants for States and Tribes but may apply for other types of Assessment Grants if they are otherwise eligible (e.g., are exempt from taxation under section 501(c)(3) of the Internal Revenue Code).

Applicants may request funding up to \$2,000,000 to address sites contaminated by hazardous substances⁵ (i.e., sites with potential contamination of hazardous substances, pollutants, or contaminants) and/or petroleum⁶ (i.e., sites with potential petroleum contamination) throughout their jurisdiction. For the purposes of this solicitation, the cost of assessment activities carried out at each approved, eligible site may not exceed \$200,000 per grant. Recipients of a Community-wide Assessment Grant for States and Tribes will be required to assess a minimum of 10 sites.

EPA will only accept one Community-wide Assessment Grant Application per eligible state agency as defined above and one application per tribe. If EPA receives more than one application per state (regardless if the applications are submitted by different eligible state agencies), EPA will only select the highest-ranking application that qualifies for selection. An applicant that applies for a Community-wide Assessment Grant for State and Tribes may not apply for Community-wide Assessment Grant or Site-specific Assessment Grant funding.

⁵ Hazardous substance sites eligible for funding are those sites with the presence or potential presence of hazardous substances, pollutants, contaminants, sites that are contaminated with controlled substances or that are mine-scarred lands. For more information, please refer to the FY22 [FAQs](#).

⁶ Petroleum sites eligible for funding are those sites that meet the definition set forth in CERCLA § 101(39)(D)(ii)(II), as further described in Section 1.3.2. in the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#).

If a tribe's reservation is included in an application submitted by an intertribal consortium, that tribe may not also submit an application for a Community-wide Assessment Grant.

For examples of grant project accomplishments across the country, please see the EPA [Brownfield Grant Recipients Success Stories](#).⁷ For more information on a range of brownfield funding topics, please refer to the FY22 [FAQs](#).

I.B. Uses of Grant Funds

In addition to direct costs associated with the inventory, site prioritization, community involvement, site reuse planning, assessment, and cleanup planning for brownfield sites, Assessment Grant funds may be used for:

1. Direct costs associated with programmatic management of the grant, such as required performance reporting and environmental oversight.

All costs charged to Assessment Grants must be consistent with the requirements at 2 CFR Part 200, Subpart E.

2. A local government (as defined in 2 CFR § 200.1, *Local Government*, and summarized in [Section III.A.](#) of these guidelines and the [Health Monitoring Fact Sheet](#)⁸) may use up to 10% of its grant funds for the following activities:
 - a. health monitoring of populations exposed to hazardous substances from a brownfield site; and
 - b. monitoring and enforcement of any institutional control used to prevent human exposure to any hazardous substance from a brownfield site.
3. A portion of the Brownfields Grant may be used to purchase environmental insurance. (See the FY22 [FAQs](#) for additional information on purchasing environmental insurance.)

Grant funds cannot be used for the payment of:

1. Direct costs for proposal preparation;
2. a penalty or fine;
3. a federal cost share requirement (for example, a cost share required by other federal funds);
4. administrative costs, including all indirect costs and direct costs for grant administration, in excess of five (5) percent of the total amount of EPA grant funding, with the exception of financial and performance reporting costs (which are considered allowable programmatic costs and not subject to the 5% limitation);

⁷ The Brownfield Grant Recipient Success Stories are available at www.epa.gov/brownfields/brownfield-grant-recipient-success-stories.

⁸ The Health Monitoring Fact Sheet is available at www.epa.gov/brownfields/brownfields-public-health-and-health-monitoring.

5. a response cost at a brownfield site for which the recipient of the grant or a subaward is potentially liable under CERCLA § 107;
6. a cost of compliance with any federal law, excluding the cost of compliance with laws applicable to the cleanup; or
7. unallowable costs (e.g., lobbying) under 2 CFR Part 200, Subpart E.

See the FY22 [FAQs](#) for additional information on ineligible grant activities and unallowable costs.

I.C. EPA Strategic Plan Linkage

The activities to be funded under this announcement support [EPA's FY 2018-2022 Strategic Plan](#).⁹ Awards made under this announcement will support Goal 1 – A Cleaner, Healthier Environment, Objective 3 – Revitalize Land and Prevent Contamination of [EPA's Strategic Plan](#). All applications must be for projects that support this goal and objective.

I.D. Measuring Environmental Results: Anticipated Outputs/Outcomes

EPA requires that applicants adequately describe environmental outputs and outcomes to be achieved under assistance agreements.¹⁰ Applicants must include specific statements describing the environmental results of the proposed project in terms of well-defined outputs and, to the maximum extent practicable, well-defined outcomes that will demonstrate how the project will contribute to the goal and objective described above in [Section I.C.](#)

Applicants are required to describe how funding will help EPA achieve environmental outputs and outcomes in their responses to the ranking criteria in [Section IV.E](#). Outputs and outcomes specific to each project will be identified as deliverables in the negotiated workplan if the application is selected for award. Recipients will be expected to report progress toward the attainment of expected project outputs and outcomes during the project performance period. Outputs and outcomes are defined as follows:

1. Outputs

The term “outputs” refers to an environmental activity, effort, and/or associated work products related to an environmental goal or objective that will be produced or provided over a period of time or by a specified date. Outputs may be quantitative or qualitative but must be measurable during the project period. The expected outputs for the grants awarded under these guidelines may include but are not limited to the number of brownfield sites identified in inventories, development of an area-wide plan, number of Phase I and Phase II environmental site assessments, and number of community meetings held.

⁹ EPA's Strategic Plan is available at www.epa.gov/planandbudget/fy-2018-2022-epa-strategic-plan.

¹⁰ EPA Order 5700.7, EPA's Policy for Environmental Results under EPA Assistance Agreements is available at www.epa.gov/grants/epa-order-57007a1-epas-policy-environmental-results-under-epa-assistance-agreements.

2. Outcomes

The term “outcomes” refers to the result, effect, or consequence that will occur from carrying out the activities under the grant. Outcomes may be environmental, behavioral, health-related, or programmatic; must be qualitative or quantitative, and may not necessarily be achievable during the project period. Expected outcomes of Brownfield Grants include the number of jobs created and funding leveraged through the economic reuse of sites; the number of acres made ready for reuse; acres of greenspace created for communities; and the minimized exposure to hazardous substances and petroleum contamination.

I.E. Supporting Environmental Justice

EPA defines environmental justice as the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. EPA has this goal for all communities and persons across the nation. Environmental justice will be achieved when everyone enjoys the same degree of protection from environmental and health hazards and equal access to the decision-making process to have a healthy environment in which to live, learn, and work.¹¹

Some communities experience disproportionate and adverse environmental, human health, climate-related and other cumulative impacts, as well as the accompanying economic challenges of such impacts. These disproportionate and adverse impacts result from industrial, governmental, commercial and/or other actions, and are likely to affect low-income and minorities.

Environmental justice can be supported through equitable development approaches and intentional strategies to ensure that low-income and minority communities not only participate in but also benefit from decisions that shape their neighborhoods and regions. There are many different approaches that promote equitable development, such as ensuring a mix of housing types across a range of incomes; access to fresh food; access to jobs; and access to local capital. Programs or policies can be put in place to help ensure creation or integration of affordable housing; local or first-source hiring of contractor or subrecipient employees provided the recipient does not impose geographic preferences for procurements in violation of 2 CFR 200.319(c); minority contracting pursuant to 40 CFR Part 33; inclusionary zoning (where a percentage of new housing is designated as affordable housing); healthy food retailers in places where they do not exist (e.g., food deserts); co-operative ownership models where local residents come together to run a community-owned, jointly owned business enterprise; rent control or community land trusts (to help keep property affordable for residents); supportive local entrepreneurial activities; and adherence to equal lending opportunities.

Applicants should discuss and provide specific examples of how the proposed Brownfields Assessment Grant project will address environmental justice challenges in [Section IV.E.](#)

¹¹ For more information, please visit www.epa.gov/environmentaljustice.

SECTION II. – AWARD INFORMATION

II.A. What is the Amount of Available Funding?

The estimated total funding available for Assessment Grants under this solicitation is approximately \$47 million. EPA anticipates awarding an estimated 69 Assessment Grants, including awarding 9 Community-wide Assessment Grants for States and Tribes for approximately \$17 million, subject to the availability of funds, quality of applications, and other applicable considerations.

In addition, EPA reserves the right to award additional grants under this competition should additional funding become available. Any additional selections for awards will be made no later than six months from the date of the original selection decisions. EPA reserves the right to reject all applications and make no awards under this announcement or make fewer awards than anticipated.

In appropriate circumstances, EPA reserves the right to partially fund applications by funding discrete portions or phases of proposed projects. To maintain the integrity of the competition and selection process, EPA, if it decides to partially fund an application, will do so in a manner that does not prejudice any applicants or affect the basis upon which the application, or portion thereof, was evaluated and selected for award.

II.B. What is the Project Period for Awards Resulting from this Solicitation?

The project period for Community-wide and Site-specific Assessment Grants is up to three years and up to five years for Community-wide Assessment Grants for States and Tribes.

II.C. Substantial Involvement

The Brownfields Assessment Grant will be awarded in the form of a cooperative agreement. Cooperative agreements permit the EPA Project Officer to be substantially involved in overseeing the work performed by the selected recipients. Although EPA will negotiate precise terms and conditions related to substantial involvement as part of the award process, the anticipated substantial federal involvement for this project may include, but is not limited to:

- Close monitoring of the recipient's performance to verify the results;
- Collaboration during the performance of the scope of work including participation in project activities, to the extent permissible under EPA policies. Examples of collaboration include:
 - Consultation between EPA staff and the recipients on effective methods of carrying out the scope of work provided the recipient makes the final decision on how to perform authorized activities.
 - Advice from EPA staff on how to access publicly available information on EPA or other federal agency websites.
 - With the consent of the recipient, EPA staff may provide technical advice to recipient contractors or subrecipients provided the recipient approves any expenditures of funds necessary to follow advice from EPA staff. (The recipient remains accountable for performing contract and subaward management as

specified in 2 CFR § 200.318 and 2 CFR § 200.332 as well as the terms of the EPA cooperative agreement.)

- EPA staff participation in meetings, webinars, and similar events upon the request of the recipient or in connection with a co-sponsorship agreement.
- Reviewing proposed procurements in accordance with 2 CFR § 200.325, as well as the substantive terms of proposed contracts or subawards as appropriate;
- Reviewing the qualifications of key personnel (EPA does not have the authority to select employees or contractors, including consultants, employed by the award recipient);
- Reviewing and commenting on quarterly and annual reports prepared under the cooperative agreement (the final decision on the content of reports rests with the recipient or subrecipients receiving pass-through awards);
- Verifying sites meet applicable site eligibility criteria; and
- Participation in periodic telephone conference calls to share ideas, project successes and challenges, etc., with EPA.

SECTION III. – ELIGIBILITY INFORMATION AND THRESHOLD CRITERIA

III.A. Who Can Apply?

The following information indicates which entities are eligible to apply for a **Community-wide** Assessment Grant and **Site-specific** Assessment Grant.

- General Purpose Unit of Local Government. [For purposes of the EPA Brownfields Grant Program, EPA uses the definition of *Local government* at 2 CFR § 200.1: Local government means a county, municipality, city, town, township, local public authority (including any public and Indian housing agency under the United States Housing Act of 1937), school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under state law), any other regional or interstate government entity, or any agency or instrumentality of a local government.]
- Land Clearance Authority or another quasi-governmental entity that operates under the supervision and control of, or as an agent of, a General Purpose Unit of Local Government.
- Government Entity Created by State Legislature.
- Regional Council or group of General Purpose Units of Local Government.
- Redevelopment Agency that is chartered or otherwise sanctioned by a state.
- State.
- Indian tribe other than in Alaska. (The exclusion of Tribes from Alaska, with the exception of the Metlakatla Indian Community as noted below, from Brownfields Grant eligibility is statutory at CERCLA § 104(k)(1)). Intertribal Consortia, comprised of eligible Indian tribes, are eligible for funding in accordance with EPA's policy for funding intertribal consortia published in the *Federal Register* on November 4, 2002, at 67 Fed. Reg. 67181. This policy also may be obtained from your Regional Brownfields Contact listed in [Section VII.](#))
- Alaska Native Regional Corporation, Alaska Native Village Corporation, and Metlakatla Indian Community. (Alaska Native Regional Corporations and Alaska Native Village

Corporations are defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601 and following). For more information, please refer to the FY22 [FAQs](#).)

- Nonprofit organization described in section 501(c)(3) of the Internal Revenue Code.
- Limited liability corporation in which all managing members are 501(c)(3) nonprofit organizations or limited liability corporations whose sole members are 501(c)(3) nonprofit organizations.
- Limited partnership in which all general partners are 501(c)(3) nonprofit organizations or limited corporations whose sole members are 501(c)(3) nonprofit organizations.
- Qualified community development entity as defined in section 45D(c)(1) of the Internal Revenue Code of 1986.

The following information indicates which entities are eligible to apply for a **Community-wide Assessment Grant for States and Tribes**.

- State.
- Indian tribe other than in Alaska. (The exclusion of Tribes from Alaska, with the exception of the Metlakatla Indian Community as noted below, from Brownfields Grant eligibility is statutory at CERCLA § 104(k)(1)). Intertribal Consortia, comprised of eligible Indian tribes, are eligible for funding in accordance with EPA's policy for funding intertribal consortia published in the *Federal Register* on November 4, 2002, at 67 Fed. Reg. 67181. This policy also may be obtained from your Regional Brownfields Contact listed in [Section VII](#).)
- Alaska Native Regional Corporation, Alaska Native Village Corporation, and Metlakatla Indian Community. (Alaska Native Regional Corporations and Alaska Native Village Corporations are defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601 and following). For more information, please refer to the FY22 [FAQs](#).)

Note, individual entities, for-profit organizations, and nonprofit organizations exempt from taxation under section 501(c)(4) of the Internal Revenue Code that lobby are not eligible to receive Brownfields Grants.

III.B. Threshold Criteria for Assessment Grants

This section contains the threshold eligibility criteria that ensure applicants are eligible to receive an Assessment Grant. Threshold criteria are pass/fail and are based on certain requests for information identified below. The information you submit will be used by EPA solely to make eligibility determinations for Brownfield Grants and is not legally binding for other purposes including federal, state, or tribal enforcement actions. Only those applications that pass all the threshold criteria will be evaluated against the evaluation criteria in [Section V.A.](#) of this announcement.

Applicants that exceed the number and type of applications allowable (as outlined in [Section I.A.](#)) will be contacted, prior to review of any of the applications by EPA, to determine which application(s) the applicant will withdraw from the competition. EPA considers departments of the same state, tribal, or city governments to be the same applicant, unless they report to different elected executives (even if they have different unique entity identifiers, e.g., DUNS number).

Applicants deemed ineligible for funding consideration as a result of the threshold eligibility review will be notified within 15 calendar days of the ineligibility determination.

If an application is submitted that includes any ineligible tasks or activities, that portion of the application will be ineligible for funding and may, depending on the extent to which it affects the application, render the entire application ineligible for funding.

EPA staff will respond to questions regarding threshold eligibility criteria, administrative issues related to the submission of the application, and requests for clarification about this announcement. For purposes of the threshold eligibility review, EPA, if necessary, may seek clarification of applicant information that is included in the application and/or consider information from other sources, including EPA files. Such communications shall not be used to correct application deficiencies or material omissions, materially alter the application or project proposed, or discuss changes to the applicant's responses to any evaluation or selection criteria.

In order to maintain the integrity of the competition process, EPA staff cannot meet with individual applicants to discuss draft applications, provide informal comments on draft applications, or provide advice to applicants on how to respond to ranking criteria. EPA's limitations on staff involvement with grant applicants are described in [EPA's Policy for Competition of Assistance Agreements](#).¹²

Applications must substantially comply with the submission instructions and requirements set forth in [Section IV](#) of this announcement or they will be rejected. Pages exceeding the page limits described in [Section IV.C](#) for the Narrative Information Sheet and the Narrative, and attachments not specifically required, will not be reviewed.

In addition, applications must be submitted through www.grants.gov as stated in [Section IV](#) and [Appendix 1](#) of this announcement (except in the limited circumstances where another mode of submission is specifically allowed for as explained in [Appendix 1](#)) on or before the application submission deadline. Applicants are responsible for following the submission instructions in [Section IV](#) and [Appendix 1](#) of this announcement to ensure that their application is submitted on time.

Applications received after the submission deadline will be considered late and deemed ineligible without further consideration unless the applicant can clearly demonstrate that it was late due to EPA mishandling or because of technical problems associated with www.grants.gov or relevant www.sam.gov system issues. An applicant's failure to timely submit their application through www.grants.gov because they did not timely or properly register in www.sam.gov or www.grants.gov will not be considered an acceptable reason to consider a late submission.

EPA will verify that the Data Universal Number System (DUNS) number listed on the application is the correct DUNS number for the applicant's organization/department. If the correct DUNS number is not included in the application, the application may be deemed ineligible. Applicants need to ensure that the correct Authorized Organization Representative

¹² EPA Order 5700.5A1, *EPA's Policy for Competition of Assistance Agreements* is available at www.epa.gov/grants/epa-order-57005a1-epas-policy-competition-assistance-agreements.

(AOR) and DUNS number of the entity that will receive the award and will be held accountable by EPA for the proper expenditure of funds are listed on the application.

Note: Assessment Grants do not require applicants to provide a cost share or match.

Responses to each item below are required and must be included as an attachment to the Narrative that is included in the application submitted to EPA. See [Section IV.C.](#) for a complete list of required documents that must be submitted.

1. Applicant Eligibility

From the list of eligible entities in [Section III.A., *Who Can Apply?*](#), indicate your applicant type and provide information that demonstrates how you are an eligible entity for an Assessment Grant.

- For entities that are cities, counties, tribes, or states, affirm that the organization is eligible for funding.
- For government entities other than cities, counties, tribes, or states, attach documentation of your eligibility (e.g., resolutions, statutes, etc.).
- For nonprofit organizations, or organizations comprised of nonprofit organizations, provide documentation as an attachment to the Narrative demonstrating tax-exempt status under section 501(c)(3) of the Internal Revenue Code.
- For qualified community development entities, provide documentation as an attachment to the Narrative certifying the organization's status.

2. Community Involvement

Provide information that demonstrates how you intend to inform and involve the community and other stakeholders in the planning, implementation, and other brownfield assessment activities described in your application.

3. Named Contractors and Subrecipients

EPA does not require or encourage applicants to name procurement contractors (including consultants) or subrecipients in applications for Brownfields grant funding. However, if an applicant chooses to identify a procurement contractor(s) or subrecipient(s) to conduct work proposed in this application, the applicant must comply with the following requirements even if the entity is referred to as a “partner” in the application.

Note – Successful applicants that do not name procurement contractors or subrecipients in their applications must also comply with the requirements described below, regardless if the contractor was procured before or after the EPA cooperative agreement is awarded. For example, firms or individual consultants that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements as provided in [2 CFR § 200.319\(b\)](#).

- **Contractors.** Applicants, other than state applicants, that identify a procurement contractor(s) in their application where the amount of the contract will be more than the micro-purchase threshold in [2 CFR § 200.320\(a\)\(1\)](#) (\$10,000 for most applicants) must demonstrate, in their application, how the contractor (including consultants) was selected in compliance with the fair and open competition requirements in 2 CFR Part 200 and 2 CFR Part 1500. EPA provides guidance on complying with the competition requirements in the [Best Practice Guide for Procuring Services, Supplies, and Equipment Under EPA Assistance Agreements](#).¹³ For example, EPA will not accept sole source justifications for proposed procurement contracts for services such as environmental consulting, engineering, and remediation that are available in the commercial marketplace.

Describe the procurement procedures that were followed to hire the contractor(s) that is named in this application and include information on **where and when** the Request for Proposals/Request for Qualifications was posted. Alternatively, state ‘n/a’ or ‘not applicable’ if a contractor is not named in this application.

- **Subrecipients.** All applicants, including states, must demonstrate that the named subrecipient is eligible for a subaward in compliance with [Appendix A of EPA’s Subaward Policy](#).¹⁴ This policy provides, among other things, that transactions between recipients and for-profit firms and individual consultants are procurement contracts rather than subawards when the transaction involves the acquisition of services from the firm or individual.

Refer to [EPA’s Contracts and Subawards Solicitation Clause](#)¹⁵ for additional guidance on these requirements which must be met for all contractors (except for micro-purchases as described above) and/or subrecipients specifically named in the application.

Describe how the named subrecipient is eligible for a subaward (e.g., is a nonprofit organization or unit of government). Alternatively, state ‘n/a’ or ‘not applicable’ if a subrecipient is not named.

Failure to demonstrate compliance with these requirements in the application will result in rejection of the application. EPA staff may contact the applicant to clarify issues or obtain additional information before making a final determination of compliance and rejection of the application. Please see Section D. in the FY22 [FAQs](#) for additional guidance.

¹³ EPA’s *Best Practice Guide for Procuring Services, Supplies, and Equipment Under EPA Assistance Agreements* is available at www.epa.gov/grants/best-practice-guide-procuring-services-supplies-and-equipment-under-epa-assistance-agreements.

¹⁴ *Appendix A of EPA’s Subaward Policy* is available at www.epa.gov/sites/production/files/2020-11/documents/gpi-16-01-subaward-policy_app-a.pdf.

¹⁵ EPA’s *Solicitation Clauses* are available at www.epa.gov/grants/epa-solicitation-clauses.

Entities applying for a **Community-wide Assessment Grant** and **Site-specific Assessment Grant** must provide a response to III.B.4., *Expenditure of Existing Grant Funds*.

4. Expenditure of Existing Grant Funds

Current EPA Brownfields Assessment Grant recipients and Multipurpose Grant recipients must demonstrate that payment has been received from EPA (also known as ‘drawn down’), and drawn down funds have been disbursed, for at least 70.00% of the funding for each Assessment and Multipurpose cooperative agreement they have with EPA by **October 1, 2021**, in order to apply for Assessment Grant funding under this solicitation.

In order to demonstrate this, applicants must attach a copy of a financial record displaying the amount of cooperative agreement funds drawn down (e.g., a report from the Automated Standard Application for Payments (ASAP) or general ledger entries). If necessary, applicants may contact the assigned EPA project officer for the cooperative agreement(s) or Jerry Minor-Gordon (minor-gordon.jerry@epa.gov) to obtain draw down information from EPA’s grant financial database (Compass Data Warehouse). Disbursements of drawn down funds must comply with requirements in [EPA’s General Terms and Conditions](#) for timely disbursement of EPA funds (i.e., recipients other than states must substantially disburse all of the funds within 5 business days of draw down).

Alternatively, the applicant must affirm it does not have an open EPA Brownfields Assessment Grant or Multipurpose Grant.

III.C. Additional Threshold Criteria for Site-Specific Applications Only

In addition to the threshold criteria listed above in [Section III.B.](#), applicants applying for Site-specific Assessment Grant funding must provide the information outlined below. The following items provide important information related to determining if a proposed site is eligible for Brownfields Grant funding.

1. Basic Site Information

Identify: a) the name of the site; b) the address of the site, including zip code; and c) the current owner of the site.

2. Status and History of Contamination at the Site

Identify: a) whether this site is contaminated by hazardous substances or petroleum; b) the operational history and current use(s) of the site; c) environmental concerns, if known, at the site; and d) how the site became contaminated, and to the extent possible, describe the nature and extent of the contamination.

3. Brownfields Site Definition

To be eligible for Brownfields Grant funding, sites must meet the definition of a brownfield under CERCLA § 101(39) as described in the [Information on Sites Eligible for Brownfields](#)

[Funding under CERCLA § 104\(k\)](#).¹⁶ The following types of properties are not eligible for Brownfields Grant funding:

- facilities listed (or proposed for listing) on the National Priorities List (NPL);
- facilities subject to unilateral administrative orders, court orders, administrative orders on consent, or judicial consent decrees issued to or entered into by parties under CERCLA; and
- facilities that are subject to the jurisdiction, custody, or control of the U.S. government. (Note: Land held in trust by the U.S. government for an Indian tribe is eligible for funding.)

Affirm that the site is: a) not listed or proposed for listing on the National Priorities List; b) not subject to unilateral administrative orders, court orders, administrative orders on consent, or judicial consent decrees issued to or entered into by parties under CERCLA; and c) not subject to the jurisdiction, custody, or control of the U.S. government. (Please refer to CERCLA §§ 101(39)(B)(ii), (iii), and (vii) and the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#).)

4. **Enforcement or Other Actions**

Identify known ongoing or anticipated environmental enforcement or other actions related to the site for which Brownfields Grant funding is sought. If there are known ongoing or anticipated environmental enforcement or other actions related to the site, provide information on any inquiries, or orders from federal, state, or local government entities that the applicant is aware of regarding the responsibility of any party (including the applicant) for the contamination, or hazardous substances at the site, including any liens. The information provided in this section may be verified, and EPA may conduct an independent review of information related to the applicant's responsibility for the contamination or hazardous substances at the site, or the site's eligibility.

Alternatively, affirm there are no known ongoing or anticipated environmental enforcement or other actions related to the site for which Brownfields Grant funding is sought.

5. **Sites Requiring a Property-Specific Determination**

Certain types of sites require a property-specific determination in order to be eligible for Brownfields Grant funding. Please refer to Section 1.5 in the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#) and the information below to determine whether your site requires a property-specific determination. If your site requires a property-specific determination, then you must attach the information requested in the FY22 [FAQs](#). **If not required, affirm that the site does not need a Property-Specific Determination.**

The following special classes of property require a "Property-Specific Determination" from EPA to be eligible for Brownfields Grant funding:

- properties subject to planned or ongoing removal actions under CERCLA;
- properties with facilities that have been issued or entered into a unilateral administrative order, a court order, an administrative order on consent, or judicial

¹⁶ *Information on Sites Eligible for Brownfields Funding under CERCLA § 104(k)* is available at www.epa.gov/brownfields/information-sites-eligible-brownfields-funding-under-cercla-ss-104k.

consent decree or to which a permit has been issued by the United States or an authorized state under the Resource Conservation and Recovery Act (RCRA), the Federal Water Pollution Control Act (FWPCA), the Toxic Substances Control Act (TSCA), or the Safe Drinking Water Act (SDWA);

- properties with facilities subject to RCRA corrective action (§ 3004(u) or § 3008(h)) to which a corrective action permit or order has been issued or modified to require the implementation of corrective measures;
- properties that are land disposal units that have submitted a RCRA closure notification or that are subject to closure requirements specified in a closure plan or permit;
- properties where there has been a release of polychlorinated biphenyls (PCBs) and all, or part, of the property is subject to TSCA remediation; and
- properties that include facilities receiving monies for cleanup from the Leaking Underground Storage Tank (LUST) Trust Fund (see the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#) for a definition of LUST Trust Fund sites).

EPA's approval of Property-Specific Determinations will be based on whether or not awarding a grant will protect human health and the environment, and either promote economic development or enable the property to be used for parks, greenways, and similar recreational or nonprofit purposes. Property-Specific Determination requests must be included in your application as an attachment and do not count toward the page limit¹⁷ for the Narrative. (See the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#) for more information or contact your Regional Brownfields Contact listed in [Section VII](#), if you think your site requires a Property-Specific Determination.)

6. Threshold Criteria Related to CERCLA/Petroleum Liability

Entities liable for contamination on the site are not eligible for Brownfields Grant funding. The following items are intended to help EPA ensure that you are not liable under CERCLA § 107 for response costs at the site(s) designated in your Narrative, or determine, if necessary, that your site(s) is eligible for funding as a petroleum site(s). Please respond to the following items fully and in the order that they appear. Note, based on your responses, EPA may need to obtain additional information to make a determination.

If the site is contaminated with hazardous substances, please **respond to all the items under a.**

If the site is contaminated with petroleum or petroleum product, please **respond to all the items under b.**, including the requirement to provide a petroleum determination letter.

If the site is co-mingled with hazardous substances and petroleum contaminants, determine whether the predominant contaminant is hazardous substances or petroleum, and respond to the corresponding items (as noted above).

¹⁷ Community-wide and Site-specific Assessment Grant applications are limited to 10 pages; Community-wide Assessment Grant Applications for States and Tribes are limited to 12 pages.

If the site is contaminated with hazardous substances and petroleum, and the hazardous substances and petroleum contaminated areas of the site are distinguishable, **respond to all the items under a. and b.**, including the requirement to provide a petroleum determination letter.

a. Property Ownership Eligibility – Hazardous Substance Sites

For sites contaminated by hazardous substances, persons, including government entities, who may be found liable for the contamination under CERCLA § 107 are not eligible for grants. Liable parties may include all current owners and operators, former owners and operators of the site at the time of disposal of hazardous substances, and parties that arranged for, or contributed to, the disposal or treatment of hazardous substances on the site. Therefore, even owners who did not cause or contribute to the contamination may be held liable.¹⁸

To be eligible for a Brownfields Grant to address hazardous substances at a brownfield property, eligible entities must demonstrate that they:

- Are exempt from CERCLA liability; or
- Qualify for funding because the property is publicly owned and was acquired prior to January 11, 2002; or
- Meet the requirements for asserting an affirmative defense to CERCLA liability through one of the landowner liability protections (e.g., the bona fide prospective purchaser liability protection per CERCLA § 101(40)).

Please review sections i., ii., and iii. below and only provide responses **to the section that pertains to your circumstance**.

For additional information on the CERCLA liability framework and protections that may apply to local government acquisitions of contaminated property, see [EPA's Guidance: Superfund Liability Protections for Local Government Acquisitions](#).¹⁹

i. EXEMPTIONS TO CERCLA LIABILITY

(1) Applicant Does NOT/Will Not Own the Site at Time of Application Submission

If you, the applicant, do not own the site to be assessed, please:

- (a) affirm that you did not arrange for the disposal of hazardous substances at the site or transport hazardous substances to the site, and that you did not cause or contribute to any releases of hazardous substances at the site;
- (b) describe your relationship with the owner and the owner's role in the work to be performed; and
- (c) indicate how you will gain access to the site.

¹⁸ Note that under Section 7 of the BUILD Act, a government entity that acquired property prior to January 11, 2002 is eligible for Brownfields Grant funding even if it does not qualify as a BFPP, so long as the entity did not cause or contribute to the release or threat of release of a hazardous substance at the property.

¹⁹ *EPA's Guidance: Superfund Liability Protections for Local Government Acquisitions* is available at www.epa.gov/enforcement/guidance-superfund-liability-protections-local-government-acquisitions.

(2) Indian Tribes

EPA has not considered Indian tribes to be liable under CERCLA and, therefore, tribes are exempt from demonstrating that they meet the requirements of a CERCLA liability defense to be eligible for a Brownfields Grant.

Affirm the applicant is an Indian tribe and is therefore exempt from demonstrating that they meet the requirements of a CERCLA liability defense.

(3) Alaska Native Village Corporations and Alaska Native Regional Corporations

Alaska Native Village Corporations and Alaska Native Regional Corporations that acquired title to property from the U.S. Government under the Alaska Native Claims Settlement Act are excluded from the CERCLA definition of 'owner/operator' and are therefore exempt from CERCLA liability for any previous contamination at the property provided that the Alaska Native Village Corporation or Alaska Native Regional Corporation did not cause or contribute to the release or threatened release of a hazardous substance. Entities that satisfy these conditions are eligible for a Brownfields Grant.

Note, Alaska Native Village Corporations and Alaska Native Regional Corporations that purchased the subject property must respond to section ii. or section iii. below as appropriate.

Provide the following to demonstrate that the Alaska Native Village Corporation or Alaska Native Regional Corporation is exempt from CERCLA liability:

- (a) Describe in detail the circumstances of the acquisition.
- (b) Provide the date on which property was acquired.
- (c) Identify whether you caused or contributed to any release of hazardous substances at the site.

(4) Property Acquired Under Certain Circumstances by Units of State and Local Government

Per CERCLA § 101(20)(D), state and local units of government that acquired ownership or control of a property by any of the circumstances listed below and did not cause or contribute to the release or threatened release of a hazardous substance at the property, are exempt from liability for any previous contamination at that property and, therefore, do **not** have to demonstrate that they meet the requirements of a CERCLA liability defense to be eligible for a Brownfields Grant. Such circumstances include:

- Seizure or in connection with law enforcement activity;
- Bankruptcy;
- Tax delinquency; or
- Abandonment.

Further, EPA will treat acquisitions by escheat and inter-governmental transfers through uniquely governmental functions as exempt from liability if the other conditions in CERCLA § 101(20)(D) are met.

See the FY22 [FAQs](#) for additional information on the types of acquisitions that are not exempt from CERCLA liability.

Provide the following to demonstrate that the State or local government is exempt from CERCLA liability:

- (a) Describe in detail the circumstances (from the list above) under which the property was acquired.
- (b) Provide the date on which the property was acquired.
- (c) Identify whether all disposal of hazardous substances at the site occurred before you acquired the property.
- (d) Affirm that you have not caused or contributed to any release of hazardous substances at the site.
- (e) Affirm that you have not, at any time, arranged for the disposal of hazardous substances at the site or transported hazardous substances to the site.

ii. EXCEPTIONS TO MEETING THE REQUIREMENTS FOR ASSERTING AN AFFIRMATIVE DEFENSE TO CERCLA LIABILITY

(1) Publicly Owned Brownfield Sites Acquired Prior to January 11, 2002

Per CERCLA § 104(k)(2)(C), if an applicant that is a public entity (such as a state or local government) acquired property prior to January 11, 2002, the applicant is eligible for a Brownfields Grant and may use grant funds to address contamination at the property, even if the entity does not qualify as a bona fide prospective purchaser, provided the applicant did not cause or contribute to the release or threatened release of a hazardous substance at the property.

Provide the following information to demonstrate that the applicant qualifies for the exception at CERCLA § 104(k)(2)(C):

- (a) Describe in detail the circumstances under which the property was acquired.
- (b) Provide the date on which the property was acquired.
- (c) Identify whether all disposal of hazardous substances at the site occurred before you acquired the property.
- (d) Affirm that you have not caused or contributed to any release of hazardous substances at the site.
- (e) Affirm that you have not, at any time, arranged for the disposal of hazardous substances at the site or transported hazardous substances to the site.

iii. LANDOWNER PROTECTIONS FROM CERCLA LIABILITY

To be eligible to expend Brownfields Grant funding at a site owned by an eligible entity (including state, local government, nonprofit organizations, etc.), the applicant must establish that it is a bona fide prospective purchaser (BFPP), contiguous

property owner (CPO), or innocent landowner (ILO), as defined in CERCLA, unless the applicant qualifies for one of the exemptions from liability noted earlier in this section of the guidelines.

Applicants asserting that they meet the BFPP, CPO, or ILO liability protection must review EPA's [Landowner Liability Protections](#)²⁰ webpage and contact the Regional Brownfields Contact listed in [Section VII](#), to determine which eligibility criteria apply. For more comprehensive guidance on the landowner liability protections, see [EPA's Enforcement Discretion Guidance Regarding Statutory Criteria for Those Who May Qualify as CERCLA Bona Fide Prospective Purchasers, Contiguous Property Owners, or Innocent Landowners \("Common Elements"\)](#).²¹

(1) Bona Fide Prospective Purchaser Liability Protection

Applicants that acquired property after January 11, 2002, and are asserting the BFPP liability protection (the most common liability protection) must demonstrate that they complied or are complying with all of the requirements listed below.

- The owner must have acquired title to a property after January 11, 2002.
- The owner must have conducted all appropriate inquiries (AAI) prior to acquiring the property. AAI, typically met by conducting a Phase I Environmental Site Assessment using the ASTM E1527-13 (or ASTM E2247-16) standard practice, must be conducted or updated within one year prior to the date the property is acquired (i.e., the date on which the entity takes title to the property). In addition, certain aspects of the AAI or Phase I Environmental Site Assessment must be updated, prior to property acquisition, if the activities were conducted more than six months prior to the date of acquisition.
- The owner must not be liable in any way for contamination at the site or affiliated with any other person potentially liable for the contamination. (Affiliations include familial, contractual, financial, or corporate relationships that are the result of a reorganization of a business entity with potential liability.)
- All disposal of hazardous substances at the site occurred before the person acquired the site.
- The owner must exercise appropriate care by taking reasonable steps to address releases, including stopping continuing releases and preventing threatened future releases and exposures to hazardous substances on the site.
- The owner must comply with any land use restrictions and not impede the effectiveness or integrity of any institutional controls associated with response actions at the site.
- The owner must provide full cooperation, assistance, and access to authorized persons.

²⁰ The *Landowner Liability Protections* are available at www.epa.gov/enforcement/landowner-liability-protections.

²¹ The "Common Elements" guidance is available at www.epa.gov/enforcement/common-elements-guidance.

- The owner must comply with any CERCLA information requests and administrative subpoenas, and provide all legally required notices with respect to the discovery or release of any hazardous substances found at the site.
- The owner must not impede performance of a response action or natural resource restoration.

Demonstrate that the applicant meets the requirements for the BFPP CERCLA liability protection.

(a) Information on the Property Acquisition You may combine responses to the following into one response, though please be sure to answer each item fully. Provide information on:

- (i) how you acquired (or will acquire) ownership (e.g., negotiated purchase from a private individual, voluntary purchase or transfer from another governmental unit, donation or gift, inheritance or bequest, eminent domain, or other circumstance (describe));
- (ii) the date you acquired or will acquire the property;
- (iii) the name and identity of the party from whom you acquired or will acquire ownership (i.e., the transferor); and
- (iv) all familial, contractual, corporate, or financial relationships or affiliations you have or had with all prior owners or operators (or other potentially responsible parties) of the property (including the person or entity from which you acquired the property).

(b) Pre-Purchase Inquiry Describe any inquiry by you or others into the previous ownership, uses of the property, and environmental conditions conducted prior to taking ownership. Please include the items below in your description.

- (i) The types of site assessments performed (e.g., ASTM E1527-13 Phase I), the dates of each assessment, and the entity for which they were performed (state whether the assessment was performed specifically for you, or if not, the name of the party that had the assessment performed and that party's relationship to you).
- (ii) Who performed the AAI investigation or Phase I environmental site assessments and identify his/her qualifications to perform such work.
- (iii) If the original AAI investigation or Phase I environmental site assessment was conducted more than 180 days prior to the date you acquired the property, affirm that you conducted the appropriate updates in the original assessment within 180 days prior to your acquisition of the property in order to take advantage of the bona fide prospective purchaser provision.

(c) Timing and/or Contribution Toward Hazardous Substances Disposal Identify whether all disposal of hazardous substances at the site occurred before you acquired (or will acquire) the property and whether you caused or contributed to any release of hazardous substances at the site. Affirm that you have not, at any time, arranged for the disposal of hazardous substances at the site or transported hazardous substances to the site.

- (d) Post-Acquisition Uses Describe all uses of the property since you acquired ownership (or the uses that you anticipate once you acquire the property) through the present, including any uses by persons or entities other than you. Please provide a timeline with the names of all current and prior users during the time of your ownership; the dates of all uses; the details of each use, including the rights or other reason pursuant to which the use was claimed or taken (e.g., lease, license, trespass); and your relationship to the current and prior users.
- (e) Continuing Obligations Describe in detail the **reasonable steps**²² you took with respect to hazardous substances found at the site to:
- (i) stop any continuing releases;
 - (ii) prevent any threatened future release; and
 - (iii) prevent or limit exposure to any previously released hazardous substance.

Please confirm your commitment to:

- (i) comply with any land use restrictions and not impede the effectiveness or integrity of any institutional controls;
- (ii) assist and cooperate with those performing the assessment and provide access to the property;
- (iii) comply with all information requests and administrative subpoenas that have or may be issued in connection with the property; and
- (iv) provide all legally required notices.

For further information, please see FY22 [FAQs](#) on All Appropriate Inquiries and the [Brownfields All Appropriate Inquiries](#)²³ webpage.

Non-Publicly Owned Sites Acquired Prior to January 11, 2002

Although the statute limits eligibility for the BFPP liability protection to entities that acquire property after January 11, 2002, a Brownfields Grant applicant that is not a public entity (such as a nonprofit organization), for grant purposes only, is eligible for a grant if it acquired the site prior to January 11, 2002, provided the applicant can demonstrate it performed environmental due diligence that was customary at the time and did not cause or contribute to the release or threatened release of a hazardous substance. (For a site acquired by a public entity prior to January 11, 2002, please review [Section III.B.10.a.ii.](#) above.)

For applicants that are not public entities that acquired a property prior to January 11, 2002, provide the information requested below.

²² Please note that reasonable steps may include actions such as limiting access to the property, monitoring known contaminants, and complying with state and/or local requirements. The steps taken to prevent or limit exposure to previously released hazardous substances may depend, for example, on such things as the location of the site in relation to the public and whether the public has been known to use (or even trespass on) the site.

²³ The *Brownfields All Appropriate Inquiries* webpage is available at www.epa.gov/brownfields/brownfields-all-appropriate-inquiries.

- (a) Describe in detail the circumstances of the acquisition.
- (b) Provide the date on which the property was acquired.
- (c) Discuss the environmental due diligence you performed prior to your acquisition of the site and/or affirm that it was customary at the time of acquisition.
- (d) Identify whether all disposal of hazardous substances at the site occurred before you acquired the property.
- (e) Affirm that you have not caused or contributed to any release of hazardous substances at the site.
- (f) Affirm that you have not, at any time, arranged for the disposal of hazardous substances at the site or transported hazardous substances to the site.
- (g) Describe in detail the **reasonable steps**²⁴ you took with respect to hazardous substances found at the site to:
 - i. stop any continuing releases;
 - ii. prevent any threatened future release; and
 - iii. prevent or limit exposure to any previously released hazardous substance.

For more information on the CERCLA landowner liability protections, please refer to [Fact Sheet: EPA Brownfields Grants, CERCLA Liability, and All Appropriate Inquiries](#).²⁵

Applicants may also call the Regional Brownfields Contact listed in [Section VII](#), with questions about BFPP, CPO, or ILO eligibility.

b. Property Ownership Eligibility – Petroleum Sites

In addition to the basic Brownfield Grant eligibility criteria, eligibility for petroleum sites is determined by applying the criteria established in the statute: there can be no viable responsible party, the applicant cannot be potentially liable for cleaning up the site, and the site must not be subject to a RCRA corrective action order. If a party is identified as being responsible for contamination at the site and that party is financially viable, then the site is not eligible for Brownfields Grant funding (refer to Section 1.3.2. in the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#) for more information). Generally, petroleum site eligibility will be determined by the state. Where the state is unable to make the eligibility determination, EPA will make the determination. EPA will make the determination for tribes.

Non-tribal applicants must provide the information required for a petroleum site eligibility determination (listed below) to your state so that the state can make the

²⁴ Please note that reasonable steps may include actions such as limiting access to the property, monitoring known contaminants, and complying with state and/or local requirements. The steps taken to prevent or limit exposure to previously released hazardous substances may depend, for example, on such things as the location of the site in relation to the public and whether the public has been known to use (or even trespass on) the site.

²⁵ *Fact Sheet: EPA Brownfields Grants, CERCLA Liability, and All Appropriate Inquiries* is available at www.epa.gov/brownfields/fact-sheet-epa-brownfields-grants-cercla-liability-and-all-appropriate-inquiries.

necessary determination on petroleum site eligibility. You must provide EPA with a copy of the state determination letter as an attachment to your Narrative. If the state does not make the determination before the application due date or is unable to make the determination, please attach a copy of the request you sent to the state. (**Note:** You must provide EPA with the date you submitted your request to the state to make the petroleum site determination. EPA will make the petroleum site eligibility determination if a state is unable to do so following a request from an applicant.) Also, in your letter to the state, please request that the state provide information regarding whether it applied EPA's guidelines in making the petroleum determination, or if not, what standard it applied.

Tribal applicants must submit the information required for a petroleum site eligibility determination (listed below) as an attachment to your Narrative. EPA will make the petroleum site eligibility determinations for tribes.

i. INFORMATION REQUIRED FOR A PETROLEUM SITE ELIGIBILITY DETERMINATION

- (1) Current and Immediate Past Owners Identify the current and immediate past owner of the site. For purposes of petroleum eligibility determinations in these guidelines only, the current owner is the entity that will own the site at time of application submission.
- (2) Acquisition of Site Identify when and by what method the current owner acquired the property (e.g., purchase, tax foreclosure, donation, eminent domain).
- (3) No Responsible Party for the Site Identify whether the current and immediate past owner (which includes, if applicable, the applicant): (i) dispensed or disposed of petroleum or petroleum product contamination, or exacerbated the existing petroleum contamination at the site; (ii) owned the site when any dispensing or disposal of petroleum (by others) took place; and (iii) took reasonable steps with regard to the contamination at the site.
- (4) Assessed by a Person Not Potentially Liable Identify whether you (the applicant) dispensed or disposed of petroleum or petroleum product, or exacerbated the existing petroleum contamination at the site, and whether you took reasonable steps with regard to the contamination at the site.
- (5) Judgments, Orders, or Third-Party Suits Provide information that no responsible party (including the applicant) is identified for the site, through either:
 - (a) a judgment rendered in a court of law or an administrative order that would require any person to assess, investigate, or clean up the site; or
 - (b) an enforcement action by federal or state authorities against any party that would require any person to assess, investigate, or clean up the site; or
 - (c) a citizen suit, contribution action, or other third-party claim brought against the current or immediate past owner, that would, if successful, require the assessment, investigation, or cleanup of the site.

(6) Subject to RCRA Identify whether the site is subject to any order under § 9003(h) of the Solid Waste Disposal Act.

(7) Financial Viability of Responsible Parties For any current or immediate past owners identified as responsible for the contamination at the site, provide information regarding whether they have the financial capability to satisfy their obligations under federal or state law to assess, investigate, or clean up the site.

Note: If no responsible party is identified in (3) or (4) above, then the petroleum-contaminated site may be eligible for funding. If a responsible party is identified above, EPA or the state must next determine whether that party is viable. If any such party is determined to be viable, then the petroleum-contaminated site may not be eligible for funding. For more information, see the [Information on Sites Eligible for Brownfields Funding under CERCLA § 104\(k\)](#).

7. Waiver of the \$200,000 Limit

Entities that are applying for a Site-specific Assessment Grant may request a waiver of the \$200,000 limit and request up to \$350,000 for a single site based on the anticipated level of contamination, size, or status of ownership of the site. Applicants requesting a waiver must attach a **one-page** justification for the waiver request and cite all sources for data provided. Additional pages will not be considered. The justification should include a description of the extent of contamination at the site, the size of the site, and the reasons for requesting additional funding. For more information on the site-specific waiver justification, please refer to the FY22 [FAQs](#).

Successful applicants will be notified at the time of the grant announcement if their waiver of the \$200,000 funding limit was approved. If the waiver is not approved, the application may still be selected for funding, up to \$200,000.

III.D. Additional Threshold Criteria for Community-wide Assessment Grants for States and Tribes Only

In addition to the threshold criteria listed above in [Section III.B.](#), applicants applying for Community-wide Assessment Grant for States and Tribes must provide the information outlined below.

1. Target Areas and Priority Sites

Applicants must propose at least three target areas and five priority sites, including at least one priority site in each target area, in the Narrative. Address this threshold criterion by providing a response to [Section IV.D.4.](#) in the Narrative Information Sheet. On the Narrative Information Sheet, list each target area and the address of each priority site.

Note, if the application is selected for funding, the target areas and priority sites discussed in the Narrative will be incorporated into the workplan that is negotiated with EPA. Recipients must assess a minimum of 10 sites; therefore, additional priority sites may be selected throughout the period of performance.

SECTION IV. – APPLICATION SUBMISSION INFORMATION

IV.A. How to Obtain an Application Package

A copy of these guidelines can be obtained from the [EPA Brownfields Program](#) website²⁶ or through [www.grants.gov](#).

IV.B. Due Date and Submission Instructions

Your organization's Authorized Organization Representative (AOR) must submit your complete application package²⁷ electronically to EPA through [www.grants.gov](#). Applications must be received no later than 11:59 p.m. ET on **December 1, 2021**. Please allow enough time to successfully submit your application package and allow for unexpected errors that may require you to resubmit. Occasionally, technical and other issues arise when using [www.grants.gov](#).

Applications received after 11:59 p.m. ET on **December 1, 2021**, will not be considered for funding.

In order to submit an application through [www.grants.gov](#), your organization must:

- Have an active DUNS number;
- Have an active System for Award Management (SAM) account in [www.sam.gov](#);
- Be registered in [www.grants.gov](#); and
- Have the E-Business Point of Contact designate an AOR in [www.grants.gov](#).

The registration process for all the above items **may take a month or more to complete**. Please refer to the FY22 [FAQs](#) for additional information on the registration requirements.

The electronic submission of your application must be made by the AOR of your institution who is registered with [www.grants.gov](#) and is authorized to sign applications for federal assistance. Refer to [Appendix 1](#) for specific instructions on how to apply through [www.grants.gov](#).

If you do not have the technical capability to apply electronically through [www.grants.gov](#) because of limited or no Internet access which prevents you from being able to upload the required application materials to [www.grants.gov](#), please refer to the procedures in [Appendix 1](#).

You should make every effort to complete the registration process in order to apply through [www.grants.gov](#). However, if you are experiencing technical difficulties in applying through [www.grants.gov](#) because of operational or other issues related to COVID-19, you may request to submit the application by email. Email your request (which must include an explanation of the COVID-19 related issue you are experiencing and the specific reason you are unable to submit the application through [www.grants.gov](#)) and the complete application to Jerry Minor-Gordon (minor-gordon.jerry@epa.gov) by December 1, 2021, at 11:59 PM ET. Requests will be reviewed on a case-by-case basis. There is no guarantee EPA will accept the submission outside

²⁶ The EPA Brownfields Program website is available at [www.epa.gov/brownfields](#).

²⁷ Note, for the purposes of this competition, the “application package” includes the required federal forms available at [www.grants.gov](#), as well as the Narrative Information Sheet, the Narrative and associated attachments.

of www.grants.gov. Requests received after December 1, 2021, at 11:59 PM ET will not be reviewed or considered.

If you submit more than one application for the same, identical project (either in error or to replace a previously submitted application), EPA will only review the most recently received application for that project unless you notify Jerry Minor-Gordon (minor-gordon.jerry@epa.gov) and specify which application you want EPA to review.

IV.C. Content and Form of Application Submission

Applicants must submit separate applications for Community-wide Assessment Grant funding, Site-specific Assessment Grant funding, and Community-wide Assessment Grant for States and Tribes funding. Each application must stand on its own merits based on the responses to the relevant ranking criteria in [Section IV.E.](#) for the type of grant submitted and must not reference information in another application.

All application materials must be in English. The Narrative Information Sheet and the Narrative must be typed, single-spaced, on letter-sized (8.5 x 11-inch) paper, and should **use standard Times New Roman, Arial, or Calibri fonts with a 12-point font size**. The Application Submission Checklist below outlines the documents to include in the application. Extraneous materials, including photos, graphics, and attachments not listed, will not be considered.

APPLICATION SUBMISSION CHECKLIST

<ul style="list-style-type: none">Federal application materials required by www.grants.gov (see Appendix 1)
<ul style="list-style-type: none">Narrative Information Sheet (3-page limit, single-spaced) (see Section IV.D.)
<ul style="list-style-type: none">Narrative Information Sheet Attachment:<ul style="list-style-type: none">Letter from the state or tribal environmental authority (see Section IV.D.8.)
<ul style="list-style-type: none">The Narrative, which includes responses to the ranking criteria (10-page limit, single-spaced for Community-wide and Site-specific applications and 12-page limit, single-spaced for Community-wide Assessment Grant Applications for States and Tribes) (see Section IV.E.)
<ul style="list-style-type: none">Threshold Criteria Responses (as an attachment(s)): <i>Community-wide Assessment Grant Applications:</i><ul style="list-style-type: none">A statement of applicant eligibility if a city, county, state, or tribe (see Section III.B.1.)Documentation of applicant eligibility if other than a city, county, state, or tribe; e.g., resolutions, statutes, documentation of 501(c)(3) tax-exempt status or qualified community development entity (see Section III.B.1.)Description of community involvement (see Section III.B.2.)Discussion on named contractors and subrecipients; or an affirmative statement that a contractor/subrecipient has not been procured/named (see Section III.B.3.)Documentation of the available balance on each open Assessment Grant and Multipurpose Grant; or an affirmative statement that the applicant does not have an open Assessment Grant or Multipurpose Grant (see Section III.B.4.)

Site-Specific Assessment Grant Applications:

- A statement of applicant eligibility if a city, county, state, or tribe (see [Section III.B.1.](#))
- Documentation of applicant eligibility if other than a city, county, state, or tribe; e.g., resolutions, statutes, documentation of 501(c)(3) tax-exempt status or qualified community development entity (see [Section III.B.1.](#))
- Description of community involvement (see [Section III.B.2.](#))
- Discussion on named contractors and subrecipients; or an affirmative statement that a contractor/subrecipient has not been procured/named (see [Section III.B.3.](#))
- Documentation of the available balance on each open Assessment Grant and Multipurpose Grant; or an affirmative statement that the applicant does not have an open Assessment Grant or Multipurpose Grant (see [Section III.B.4.](#))
- Basic site information (see [Section III.C.1.](#))
- Status of history of contamination at the site (see [Section III.C.2.](#))
- An affirmative statement that site meets the definition of a brownfield site (see [Section III.C.3.](#))
- Information on enforcement or other actions or an affirmation that there are no enforcement or other actions (see [Section III.C.4.](#))
- Property-specific determination information or an affirmative statement that a Property-specific determination is not required (see [Section III.C.5.](#))
- Property ownership eligibility information for hazardous substances sites, if applicable (see [Section III.C.6.a.](#))
- Property ownership eligibility information for petroleum sites, if applicable (see [Section III.C.6.b.](#))
- Waiver request of the \$200,000 limit, if applicable (see [Section III.C.7.](#))

Community-wide Assessment Grant Applications for States and Tribes:

- A statement of applicant eligibility if a city, county, state, or tribe (see [Section III.B.1.](#))
- Documentation of applicant eligibility if other than a city, county, state, or tribe; e.g., resolutions, statutes, documentation of 501(c)(3) tax-exempt status or qualified community development entity (see [Section III.B.1.](#))
- Description of community involvement (see [Section III.B.2.](#))
- Discussion on named contractors and subrecipients; or an affirmative statement that a contractor/subrecipient has not been procured/named (see [Section III.B.3.](#))
- Documentation of the available balance on each open Assessment Grant and Multipurpose Grant; or an affirmative statement that the applicant does not have an open Assessment Grant or Multipurpose Grant (see [Section III.B.4.](#))
- A statement on the number of target areas and priority sites (see [Section III.D.1.](#) and [Section IV.D.4.](#))

IV.D. Narrative Information Sheet

The Narrative Information Sheet must address the information below and shall not exceed three, single-spaced pages. Do not include a summary or overview of your narrative/project. Any pages submitted over the page limit will not be considered. Applicants are to submit a separate Narrative Information Sheet with each application. EPA does not consider information in the Narrative Information Sheet to be responses to the ranking criteria. Each Narrative Information Sheet must be on the applicant's official letterhead.

1. Applicant Identification Provide the name and full address of the entity applying for funds. This is the agency or organization that will receive the grant and be accountable to EPA for the proper expenditure of funds.
2. Funding Requested
 - a. Assessment Grant Type Indicate “Community-wide,” “Site-specific,” or “Community-wide Assessment Grant for States and Tribes.”
 - b. Federal Funds Requested
 - i. \$_____ (Include the amount being requested from EPA. Refer to the [Summary of Assessment Grant Options](#) for the funding limits for each grant type.)
 - ii. Indicate if you are requesting a waiver of the \$200,000 limit (Site-specific Assessment Grant applicants only).
3. Location Provide the a) city, b) county, and c) state or reservation, tribally owned lands, tribal fee lands, etc., of the community(ies) that you propose to serve.
4. Target Area and Priority Site/Property Information
 - Community-wide Assessment Grant applicants, other than tribes:
 - List the target area(s) discussed in the Narrative.
 - For each target area that is smaller than a city/town, list the census tract number(s) within the target area. (Please see the FY22 [FAQs](#) for guidance on how to find a census tract.)
 - Provide the address of the priority site(s) proposed in the Narrative.
 - Community-wide Assessment Grant for States and Tribes applicants:
 - List the target areas and the priority sites discussed in the Narrative (at least three target areas and at least five priority sites, with at least one priority site in each target area).
 - *State applicants only:*
 - For each target area that is smaller than a city/town, list the census tract number(s) within the target area. (Please see the FY22 [FAQs](#) for guidance on how to find a census tract.)
 - Provide the address of the priority sites proposed in the Narrative.
 - Site-specific Assessment Grant applicants: Provide the property name and complete site address, including zip code.
5. Contacts
 - a. Project Director Provide the name, phone number, email address, and mailing address of the Project Director assigned to this proposed project. This person should be the main point of contact for the project and should be the person responsible for the project’s day-to-day operations. The Project Director may be contacted if other information is needed.
 - b. Chief Executive/Highest Ranking Elected Official Provide the name, phone number, email address, and mailing address of the applicant’s Chief Executive or highest ranking elected official. For example, if your organization is a municipal form of government,

provide this information for the Mayor or County Commissioner. Otherwise, provide this information for your organization's Executive Director or President. These individuals may be contacted if other information is needed.

6. Population

- If you are a city/town, provide the population of your jurisdiction.
- If you are a county/parish/borough, state, or regional organization that covers a geographic area with more than one city/town, provide the population of the city(ies)/town(s) in which each priority site/proposed site/target area is located.
- If you are a nonprofit organization exempt from taxation under section 501(c)(3) or qualified community development entity, provide the population of the city(ies)/town(s) in which each priority site/proposed site/target area is located.
- If you are a tribe, provide the number of tribal/non-tribal members affected.

Population data can be found at www.census.gov.

7. Other Factors Applicants claiming one or more of the other factors below must provide a summary in the Narrative on the applicable other factor(s). Please identify which of the below items apply to your community/proposed project by noting the corresponding Narrative page number. **If none of the Other Factors apply to your community/proposed project, please provide a statement to that effect.**

Sample Format for Providing Information on the Other Factors	Page #
Community population is 10,000 or less.	
The applicant is, or will assist, a federally recognized Indian tribe or United States territory.	
The priority site(s) is impacted by mine-scarred land.	
The priority site(s) is adjacent to a body of water (i.e., the border of the priority site(s) is contiguous or partially contiguous to the body of water, or would be contiguous or partially contiguous with a body of water but for a street, road, or other public thoroughfare separating them).	
The priority site(s) is in a federally designated flood plain.	
The reuse of the priority site(s) will facilitate renewable energy from wind, solar, or geothermal energy.	
The reuse of the priority site(s) will incorporate energy efficiency measures.	
30% or more of the overall project budget will be spent on eligible reuse/area-wide planning activities, as described in Section I.A. , for priority site(s) within the target area.	
The target area(s) is located within a community in which a coal-fired power plant has recently closed (2011 or later) or is closing.	

8. Letter from the State or Tribal Environmental Authority (not included in the three-page limit)
For an applicant other than a state or tribal environmental authority, attach a current letter from the appropriate state or tribal environmental authority acknowledging that the applicant plans to conduct assessment activities and is planning to apply for FY22 federal brownfields grant funds. Letters regarding applications from prior years are not acceptable.

If you are applying for multiple types of grants, you need to receive only one letter from your state or tribal authority acknowledging the relevant grant activities. However, you must provide a copy of this letter, as an attachment, with each of your applications. Please note that general correspondence and documents evidencing state involvement with the project (i.e., state enforcement orders or state notice letters) are not acceptable. Coordinate early with your state or tribal environmental authority in order to allow adequate time for you to obtain the acknowledgment letter and include it in your application.

9. Releasing Copies of Applications

In concert with EPA's commitment to conducting business in an open and transparent manner, copies of applications submitted under this solicitation may be made publicly available on [EPA's Office of Brownfields and Land Revitalization](#) website or other public website for a period of time after the selected applications are announced. EPA recommends that applications not include trade secrets or commercial or financial information that is confidential or privileged, or sensitive information, if disclosed, that would invade another individual's personal privacy (e.g., an individual's salary, personal email addresses, etc.). However, if such information is included, it will be treated in accordance with [40 CFR § 2.203](#). (Review [Section IV.G.](#) for more information.)

Clearly indicate which portion(s) of the application you are claiming as confidential, privileged, or sensitive information, or state 'n/a' or 'not applicable' if the application does not have confidential, privileged, or sensitive information. As provided at 40 CFR § 2.203(b) if no claim of confidential treatment accompanies the information when it is received by EPA, it may be made available to the public by EPA without further notice to the submitter.

IV.E. Narrative/Ranking Criteria

The Narrative (including citations) shall not exceed 10 single-spaced pages for Community-wide Assessment Grant applications and Site-specific Assessment Grant applications, and 12 single-spaced pages for Community-wide Assessment Grant Applications for States and Tribes. Any pages submitted over the page limit will not be evaluated.

The Narrative must include clear, concise, and factual responses to all ranking criteria and sub-criteria below. The Narrative must provide sufficient detail to allow for an evaluation of the merits of the application. **A response to a criterion/sub-criterion that is included in a different section of the Narrative may not be scored as favorably.** If a criterion does not apply, clearly state this. **Any criterion left unanswered may result in zero points given for that criterion.** Responses to the criteria should include the criteria number and title but need not restate the entire text of the criteria.

1. PROJECT AREA DESCRIPTION AND PLANS FOR REVITALIZATION

a. Target Area and Brownfields

Community-wide Assessment Grant Applications for States and Tribes – Note, if the application is selected for funding, the target areas and priority sites discussed in the Narrative will be incorporated into the workplan that is negotiated with EPA. Recipients must assess a minimum of 10 sites throughout the period of performance. Therefore, additional priority sites may be selected after award.

i. Background and Description of Target Area

Provide a brief description of the city(ies), town(s), or geographic area(s) targeted by this application to provide background on its cultural and/or industrial history that establishes the brownfield challenges and their impact.

Within the city(ies), town(s), or geographic area(s) discussed above, identify and describe the specific target area(s) where you plan to perform assessment activities, such as a neighborhood, district, corridor, or census tract. *Depending on the scope and design of your project, one or more target areas may be presented.*

- *Community-wide Assessment Grant Applications for States and Tribes* – Identify and describe at least three specific target areas where you plan to perform assessment activities.
 - *State applicants only* – Additionally, indicate which target areas are in metropolitan statistical areas versus non-metropolitan statistical areas. (To determine if the target is in a metropolitan statistical area or non-metropolitan statistical area for the purposes of this criterion, go to www.huduser.gov/portal/datasets/geotools.html.)

ii. Description of the Priority Brownfield Site(s)

- *Community-wide Assessment Grant and/or Site-specific Assessment Grant Applications* – Provide an overview of the brownfield sites in the target area(s) with information such as number, size, and environmental concerns. Then, specifically highlight one or more sites that are a priority and discuss why the site(s) is a priority for assessment and reuse. Include information such as past and current land uses, current site conditions (including structures), and potentially related environmental issues.
- *Community-wide Assessment Grant Applications for States and Tribes* – Provide an overview of the brownfield sites in the target areas with information such as number, size, and environmental concerns. Then, specifically highlight at least five sites that are a priority, including at least one site in each target area, and discuss why the sites are a priority for assessment and reuse. Include information

such as past and current land uses, current site conditions (including structures), and potentially related environmental issues.

b. Revitalization of the Target Area

i. Reuse Strategy and Alignment with Revitalization Plans

Describe the reuse strategy, or projected reuse, for the priority brownfield site(s) to be assessed in the target area(s), and discuss how the reuse strategy/projected reuse aligns with and advances the local government's land use and revitalization plans or related community priorities.

ii. Outcomes and Benefits of Reuse Strategy

Describe the potential of the proposed project or revitalization plans to stimulate economic development in the target area(s) upon completion of the cleanup of the priority sites, and/or how the grant will facilitate the creation of, preservation of, or addition to a park, a greenway, undeveloped property, recreational property, or other property used for nonprofit purposes in the target area(s).

If applicable, describe how the reuse of the priority site(s) will facilitate renewable energy from wind, solar, or geothermal energy; or will incorporate energy efficiency measures.

- *Community-wide Assessment Grant and/or Site-specific Assessment Grant Applications* – Additionally, if applicable, describe how the proposed project or revitalization plans will benefit a disadvantaged community(ies). (Please refer to the FY22 [FAQs](#) for examples of variables that define a disadvantaged community as determined by [Executive Order 14008 Section 223, Justice40 Initiative](#).²⁸)
- *Community-wide Assessment Grant Applications for States and Tribes* – Additionally, describe how the proposed project or revitalization plans will benefit disadvantaged communities. (Please refer to the FY22 [FAQs](#) for examples of variables that define a disadvantaged community as determined by [Executive Order 14008 Section 223, Justice40 Initiative](#).²⁹)

c. Strategy for Leveraging Resources

i. Resources Needed for Site Reuse

Describe the applicant's eligibility for monetary funding from other resources and how the grant will stimulate the availability of additional funds for environmental site assessment or remediation, and subsequent reuse.

²⁸ Executive Order 14008 Section 223, *Justice40 Initiative* is available at www.whitehouse.gov/briefing-room/presidential-actions/2021/01/27/executive-order-on-tackling-the-climate-crisis-at-home-and-abroad/.

²⁹ Executive Order 14008 Section 223, *Justice40 Initiative* is available at www.whitehouse.gov/briefing-room/presidential-actions/2021/01/27/executive-order-on-tackling-the-climate-crisis-at-home-and-abroad/.

Identify potential key funding resources that will be sought to support the completion of the assessment, remediation, and/or reuse strategy (e.g., demolition activities, redevelopment activities, etc.) for the priority site(s). (Do not duplicate sources discussed in 3.a. *Description of Tasks/Activities and Outputs*.)

ii. Use of Existing Infrastructure

Describe how work performed under this grant will facilitate the use of existing infrastructure at the priority site(s) and/or within the target area(s).

If additional infrastructure needs or upgrades are key to the revitalization plans for the priority site(s), describe the infrastructure needs/upgrades and funding resources that will be sought to implement that work.

2. COMMUNITY NEED AND COMMUNITY ENGAGEMENT

a. **Community Need**

i. The Community's Need for Funding

Describe how this grant will meet the needs of the community(ies) (i.e., the city(ies), town(s), or geographic area(s) targeted in this application) that has an inability to draw on other initial sources of funding to carry out environmental assessment or remediation, and subsequent reuse in the target area(s) because of the small population and/or low-income of the community.

- *Community-wide Assessment Grant Applications for States and Tribes, State applicants only* – Additionally, describe how this funding will serve communities that do not have the capacity to apply for and manage their own Brownfields Grant and would otherwise not have access to Brownfield Grant resources to address brownfield sites.

ii. Threats to Sensitive Populations

Applicants are encouraged to include data from [EPA's EJSCREEN Tool](#)³⁰ (or other EJ-focused geospatial mapping tools) in the Narrative to help characterize and describe the target area(s) and its community(ies)/population(s). Data from other sources (e.g., studies, census, and third-party reports) can also be included to give a more complete picture of the impacted communities and populations. Instructions, resources, and tutorials on how to use EJSCREEN are included at the hyperlink above. For more information on using EJSCREEN data in your Brownfields Grant application, please refer to the FY22 [FAQs](#) and a recorded demonstration available on [EPA's Brownfields Program website](#).³¹

³⁰ EPA's EJSCREEN Tool is available at www.epa.gov/ejscreen.

³¹ A recorded demonstration on how to use EJScreen is available at <https://www.epa.gov/brownfields/ejscreen-demonstration-brownfield-grant-applications>.

(1) Health or Welfare of Sensitive Populations

Identify children, pregnant women, minority or low-income communities, or other sensitive populations in the target area(s). Describe the health or welfare issues of such groups and discuss how this grant and reuse strategy/projected site reuse(s) will address those issues and/or will facilitate the identification and reduction of threats to the health or welfare of such groups.

(2) Greater Than Normal Incidence of Disease and Adverse Health Conditions

Describe how this grant and reuse strategy/projected site reuse(s) will address, or facilitate the identification and reduction of, threats to populations in the target area(s) that suffer from a greater-than-normal incidence of diseases or conditions (including cancer, asthma, or birth defects) that may be associated with exposure to hazardous substances, pollutants, contaminants, or petroleum.

(3) Promoting Environmental Justice

Describe how this grant and reuse strategy/projected site reuse(s) will promote environmental justice in the target area(s) and/or will support populations in the target area(s) that disproportionately share the negative environmental consequences resulting from industrial, governmental, and/or commercial operations or policies.

Please refer to the FY22 [FAQs](#) for information on welfare, sensitive populations, and environmental justice (also defined in [Section I.E.](#)).

b. Community Engagement

To conserve space, you may present information for 2.b.i. and 2.b.ii. in the same response and/or use the suggested table format below.

i. Project Involvement

Identify the local organizations/entities/groups that will be involved in, and provide assistance/information to you to assist in, the performance of the project.

- *Community-wide Assessment Grant Applications for States and Tribes* – In addition to the entities identified above, discuss your plan to identify and engage local organizations/entities/groups to be involved in the project as additional target areas and priority sites are identified throughout the period of performance.

Project involvement may be provided by a broad and diverse group of entities including, but not limited to, community organizations (e.g., neighborhood groups, citizen groups, business organizations, etc.), as well as property owners, lenders, developers, cities/towns within a regional organization's target area, entities that are a part of a formal partnership agreement (e.g., coalition members), and the general public.

ii. Project Roles

Describe the role each identified local organization/entity/group will have in the project including how it will be involved in making decisions with respect to site selection, cleanup, and future reuse of the brownfield sites, including the priority site(s).

- *Site-specific Assessment Grant Applications* – Additionally, discuss your plan to involve community groups or representatives directly affected by the site.

Sample Format for List of Organizations/Entities/Groups & Roles

Name of organization/entity/group	Point of contact (name, email & phone)	Specific involvement in the project or assistance provided
<i>Add rows as needed</i>		

iii. Incorporating Community Input

Discuss your plan to communicate project progress to the local community, the local organizations/entities/groups that will be involved in the project, and residents/groups in (or in closest proximity to) the target area(s), including the frequency and by what method(s) you will use (including methods that offer an alternative to in-person community engagement in the event of social distancing or other restrictions as a result of COVID-19) and how input will be solicited, considered, and responded to.

3. TASK DESCRIPTIONS, COST ESTIMATES, AND MEASURING PROGRESS

Local government applicants may use up to 10% of the total grant award for health monitoring activities. The health monitoring activities must be associated with brownfield sites at which at least a Phase II environmental site assessment is conducted and is contaminated with hazardous substances. Partnership with the local health agency is required. Please review the [Health Monitoring Fact Sheet](#) for more information.

Cooperative agreements with successful applicants under this solicitation will be subject to the administrative cost limitation described at CERCLA § 104(k)(5)(E). Successful applicants may only use up to 5% of the total amount of EPA funds for their own administrative costs (direct costs for grant administration and indirect costs). For example, if EPA awards \$500,000 to an applicant, the 5% cap for administrative costs equals \$25,000. The limitation on administrative costs does not apply to otherwise allowable programmatic costs (including indirect costs) charged by procurement contractors. Note that EPA considers costs for performance and financial reporting to be allowable programmatic costs that are not subject to the 5% limitation. Costs must be classified as direct or indirect consistently and applicants may not classify the same cost in both categories.

For applications that include indirect costs in the budget and are selected for funding, an EPA Grants Specialist or Grants Management Officer may request a copy of the indirect cost rate

agreement that was negotiated with the cognizant agency before the cooperative agreement is awarded.

Cooperative agreements with successful Community-wide Assessment Grant for States and Tribes applicants under this solicitation will require the recipient to assess a minimum of 10 sites throughout their jurisdiction.

Do not include activities that are ineligible uses of funds under EPA's Assessment Grant (e.g., land acquisition; building demolition that is not necessary to assess contamination at the site; building construction, site preparation, or remediation).

Please refer to the FY22 [FAQs](#) for additional examples of eligible and ineligible uses of funds (including administrative costs). For questions not covered by the FY22 [FAQs](#), contact your Regional Brownfields Contact listed in [Section VII](#).

a. Description of Tasks/Activities and Outputs

Provide a list and description of the tasks/activities required to implement the proposed project. You may respond to this criterion using the sample format for each task/activity.

Sample Format for Tasks/Activities

Task/Activity:
i. Project Implementation <ul style="list-style-type: none">▪ Discussion of EPA-funded tasks/activities for the priority site(s):▪ Discussion of EPA-funded tasks/activities for non-priority site(s), if applicable:▪ Non-EPA grant resources needed to carry out tasks/activities, if applicable:
ii. Anticipated Project Schedule:
iii. Task/Activity Lead:
iv. Outputs:

i. Project Implementation

- Discuss the EPA-funded tasks/activities that will take place to address the priority brownfield site(s) in the target area(s); and if applicable, discuss the anticipated EPA-funded tasks/activities to occur beyond the priority site(s), in or outside the target area(s).

Typical eligible tasks/activities may include cooperative agreement oversight, procuring a Qualified Environmental Professional, inventory work, securing site access, community engagement, site selection, Phase I and Phase II environmental site assessments, cleanup planning at a specific site, and coordination with the local health agency on health monitoring activities. Planning tasks/activities³² may include reuse planning, the development of an

³² For more information on eligible planning activities, review the *Planning Program Fact Sheets* at www.epa.gov/brownfields/information-eligible-planning-activities.

area-wide plan, conducting market feasibility studies, evaluating infrastructure needs, etc.

- If applicable, identify tasks/activities that are necessary to carry out the grant that will be contributed by sources other than the EPA grant, such as in-kind resources or funding contributed by your organization. (For example, the applicant does not charge the EPA grant for salary dollars and therefore contributes its own resources to carry out programmatic oversight activities or grant administration.) (Do not duplicate sources listed in *I.c.i. Resources Needed for Site Reuse*.)
- Community-wide Assessment Grant Applications for States and Tribes – Additionally, describe how additional target areas/sites, beyond the target area/priority sites identified in the Narrative, will be identified for assessment and list the criteria that will be used to prioritize sites for selection.

ii. Anticipated Project Schedule

Discuss the anticipated schedule and timing for the EPA-funded activities outlined above in *3.a.i. Project Implementation* during the period of performance (3 years for Community-wide Assessment Grant and Site-specific Assessment Grant applications, and 5 years for Community-wide Assessment Grant Applications for States and Tribes).

iii. Task/Activity Lead

For each task/activity, identify the lead entity(ies) overseeing the various activities (i.e., the applicant, qualified environmental professional, or other identified entity). If an entity(ies) other than the applicant is the lead, explain why the lead entity(ies) (and not the applicant) is appropriate to oversee the activity(ies). (*Note, the local health agency must be involved in health monitoring activities.*)

iv. Outputs

Identify, and quantify as appropriate, the anticipated outputs/deliverables for each activity/task.

Outputs may include, but are not limited to, quarterly reports, site inventories, Phase I and Phase II environmental site assessment reports, site cleanup plans, an area-wide plan, or community meetings. (Refer to [Section I.D.](#) for an explanation of outputs.)

b. Cost Estimates

Provide information on how cost estimates for each task were developed (per budget category, including direct administrative costs (if applicable), and indirect administrative costs (if applicable)), and, where appropriate, present costs per unit. Note, the total amount of direct and indirect administrative costs cannot exceed 5% of the total EPA-requested funds. (*Per the evaluation criterion in [Section V.A.3.b.](#), responses will be evaluated against two sub-criteria.*)

For information on best practices for preparing budgets for applications for EPA grants, refer to the [Interim General Budget Development Guidance for Applicants and Recipients of EPA Financial Assistance](#).³³

You may use the sample table format below to present how you plan to allocate grant funds for tasks/activities described in [Section IV.E.3.a.](#) by budget category. Replace the task number heading in the sample table with the actual title of the task.

Only include costs to be covered by EPA grant funds in this table. Leveraged resources should not be included in the budget table.

Do not distinguish between hazardous substances and petroleum funding requests. Provide budget information in one table.

Examples of costs per unit may include:

Task 2, Phase I Environmental Site Assessments

- *Personnel Costs*: 20 hours at average rate of \$50/hr = \$1,000
- *Contractual Costs*: 5 Phase I site assessments at average cost of \$3,500 = \$17,500

Sample Format for Budget (do not change Budget Categories)

Budget Categories		Project Tasks (\$)				Total
		(Task 1)	(Task 2)	(Task 3)	(Task 4)	
Direct Costs	Personnel					
	Fringe Benefits					
	Travel ¹					
	Equipment ²					
	Supplies					
	Contractual					
	Other (include subawards) (specify type) _____					
Total Direct Costs ³						
Indirect Costs ³						
Total Budget (Total Direct Costs + Indirect Costs)						
¹ Travel to brownfields-related training conferences is an acceptable use of these grant funds. ² EPA defines equipment as items that cost \$5,000 or more with a useful life of more than one year unless the applicant has a lower threshold for equipment costs. Items costing less than \$5,000 (e.g., lap top computers) are considered supplies. Generally, equipment is not required for Brownfield Grants. ³ Administrative costs (direct and/or indirect) for the Assessment Grant applicant itself cannot exceed 5% of the total EPA-requested funds.						

³³ The *Interim General Budget Development Guidance for Applicants and Recipients of EPA Financial Assistance* is available at <https://www.epa.gov/grants/rain-2019-g02>.

c. Measuring Environmental Results

Discuss how you plan to track, measure, and evaluate your progress in achieving project outputs, overall project results, and eventual project outcomes. (Definitions of outputs and outcomes are provided in [Section I.D.](#))

4. PROGRAMMATIC CAPABILITY AND PAST PERFORMANCE

Provide responses for the organization that is applying for funding.

a. Programmatic Capability

To conserve space, you may present information for 4.a.i. and 4.a.iii. in the same response.

i. Organizational Capacity

Discuss the applicant's organizational capacity for carrying out the programmatic, administrative, and financial requirements of the project and grant.

ii. Organizational Structure

Describe the organizational structure you will utilize to ensure the timely and successful expenditure of funds and completion of all technical, administrative, and financial requirements of the project and grant.

iii. Description of Key Staff

Provide a brief discussion of the key staff that will work together to successfully implement the grant, including their roles, expertise, qualifications, and experience. (If the qualified environmental professional is a contractor (including individual consultants) named in the application, refer to the requirement in [Section III.B.3.](#) on demonstrating compliance with competitive procurement procedures.)

iv. Acquiring Additional Resources

Describe the system(s) you have in place to appropriately acquire any additional expertise and resources (e.g., contractors or subrecipients) per grant requirements to successfully complete the project. (Refer to [Section IV.H.](#) regarding the difference between contractors and subrecipients.)

b. Past Performance and Accomplishments

If you have ever received an EPA Brownfields Multipurpose Grant, Assessment Grant, Revolving Loan Fund Grant, Cleanup Grant, and/or 128(a) Grant please respond to **item i.** below. (Do not include information on Targeted Brownfields Assessments, Area-Wide Planning Grants, Environmental Workforce Development & Job Training Grants, and subawards from another Brownfields Grant recipient.)

If you have never received an EPA Brownfields Grant, but have received other federal or non-federal assistance agreements (such as a grant or cooperative agreement), please respond to **item ii.** below.

If you have never received any type of federal or non-federal assistance agreements, please indicate this in response to **item iii.** below.

i. Currently Has or Previously Received an EPA Brownfields Grant

Identify and provide information regarding each of your current and/or most recent EPA Brownfields Grant(s) (no more than three). Demonstrate how you successfully managed the grant(s), and successfully performed all phases of work under each grant by providing information on the items listed below.

(1) Accomplishments

Describe the accomplishments (including specific outputs and outcomes) of the current/prior grant(s), including at a minimum, the number of sites assessed and/or cleaned up. Discuss whether these outputs and outcomes were accurately reflected in the Assessment, Cleanup and Redevelopment Exchange System (ACRES) at the time of this application submission; and if not, please explain why.

(2) Compliance with Grant Requirements

Discuss your compliance with the workplan, schedule, and terms and conditions under the current/prior grant(s) and discuss your history of timely and acceptable quarterly performance and grant deliverables, as well as ongoing ACRES reporting. For applicants that were previously awarded an Assessment Grant, indicate what percentage of the most recent Assessment Grant funds were spent on direct assessment tasks/activities (i.e., Phase I and Phase II environmental site assessments). Include whether you have made and have reported on, or are making and reporting on, progress towards achieving the expected results of the grant in a timely manner. If not, discuss what corrective measures you took, or are taking, and how the corrective measures were effective, documented, and communicated.

For all open EPA Brownfields Grant(s) indicate the grant period (start and end date), if there are funds remaining, and the plan to expend the funds by the end of the *Period of performance* as defined in 2 CFR § 200.1.

For all closed EPA Brownfields Grant(s), indicate if there were funds remaining when the grant closed, the amount of remaining funds, and a brief explanation of why the funds were not expended.

– OR –

ii. Has Not Received an EPA Brownfields Grant but has Received Other Federal or Non-Federal Assistance Agreements

Identify and describe each of your current and/or most recent federally and non-federally funded assistance agreements (no more than three) *that are most similar in size, scope, and relevance to the proposed project*. Demonstrate how you successfully managed the agreement(s), and successfully performed all phases of work under each agreement by providing the following information.

(1) Purpose and Accomplishments

Describe the awarding agency/organization, amount of funding awarded, and purpose of the assistance agreement(s) you have received.

Discuss the accomplishments (including specific outputs and outcomes) of the project supported by the assistance agreement(s), including specific measures of success for the project supported by each type of agreement received.

(2) Compliance with Grant Requirements

Describe your compliance with the workplan, schedule, and terms and conditions under the current/prior assistance agreement(s) and discuss your history of timely and acceptable reporting, as required by the awarding agency/organization.

Include whether you have made and have reported on, or are making and reporting on, progress towards achieving the expected results of the agreement in a timely manner. If not, discuss what corrective measures you took, or are taking, and how the corrective measures were effective, documented, and communicated.

– OR –

iii. Never Received Any Type of Federal or Non-Federal Assistance Agreements

Affirm that your organization never received any type of federal or non-federal assistance agreement (grant or cooperative agreement). (*Applicants that indicate that they do not have a history of performing assistance agreements will receive a “neutral” 8-point score for this factor. However, failure to indicate anything in response to this sub-criterion may result in zero points.*)

IV.F. Leveraging

Matching funds are not required under this competition. Although cost sharing or matching is not required as a condition of eligibility under this competition, EPA will evaluate an applicant’s responses to the *I.c.i. Resources Needed for Site Reuse* criterion.

Leveraging is generally when an applicant proposes to provide its own additional funds/resources or those from third-party sources to support or complement the project they are awarded under the competition which are above and beyond the EPA grant funds awarded. Any leveraged funds/resources and their source must be identified in the Narrative. Leveraged funds and resources may take various forms as noted below.

While voluntary cost share is generally a form of leveraging it will not be considered under this solicitation. *Voluntary committed cost sharing* as defined at 2 CFR § 200.1 is when an applicant voluntarily proposes a legally binding commitment to cover costs or provide contributions to support the project when a cost share is not required. Under this solicitation, applicants should not propose a voluntary cost share. **EPA will not consider or evaluate any proposed voluntary cost share.**

Leveraging. Leveraging may be met by funding from another federal grant, from an applicant's own resources, or resources from other third-party sources. This form of leveraging should not be included in the budget and the costs need not be eligible and allowable project costs under the EPA assistance agreement. While this form of leveraging should not be included in the budget, the grant workplan should include a statement indicating that the applicant is expected to produce the proposed leveraging consistent with the terms of the announcement and the applicant's Narrative. If applicants propose to provide this form of leveraging, EPA expects them to make the effort to secure the leveraged resources described in their Narrative. If the proposed leveraging does not materialize during grant performance, then EPA may reconsider the legitimacy of the award and/or take other appropriate action as authorized by 2 CFR Parts 200 or 1500.

IV.G. Confidential Business Information

As discussed in [Section IV.D.](#), *Narrative Information Sheet*, EPA recommends that you do not include confidential business information (CBI) in your application. However, if CBI is included, it will be treated in accordance with [40 CFR 2.203](#). Applicants must clearly indicate which portion(s) of their application they are claiming as CBI. EPA will evaluate such claims in accordance with [40 CFR Part 2](#). If no claim of confidentiality is made, EPA is not required to make the inquiry to the applicant otherwise required by [40 CFR 2.204\(c\)\(2\)](#) prior to disclosure. The agency protects competitive applications from disclosure under applicable provisions of the Freedom of Information Act prior to the completion of the competitive selection process.

IV.H. Additional Provisions for Applicants Incorporated into the Solicitation

Additional provisions that apply to this solicitation and/or awards made under this solicitation, including but not limited to those related to confidential business information, contracts and subawards under grants, and application assistance and communications, can be found in [EPA's Solicitation Clauses](#).³⁴ These and the other provisions in [EPA's Solicitation Clauses](#) are important and applicants must review them when preparing applications for this solicitation. If you are unable to access these provisions electronically, please contact the Regional Brownfields Contact listed in [Section VII](#). to obtain the provisions.

³⁴ EPA's *Solicitation Clauses* are available at www.epa.gov/grants/epa-solicitation-clauses.

SECTION V. – NARRATIVE REVIEW INFORMATION

V.A. Evaluation Criteria

If your application passes the threshold eligibility review (see [Section III.B.](#), and [Section III.C.](#) or [III.D. if applicable](#)), the information you provide in response to [Section IV.E.](#) (Narrative/Ranking Criteria) will be evaluated per the criteria below and scored by a national evaluation panel. Community-wide Assessment Grant applications and Site-specific Assessment Grant applications may be assigned up to 160 points, and Community-wide Assessment Grant Applications for States and Tribes may be assigned up to 175 points.

Criteria (Maximum Points per Criterion)
<u>1. PROJECT AREA DESCRIPTION AND PLANS FOR REVITALIZATION</u> 40 points for Community-wide and Site-specific Assessment Grant Applications 45 points for Community-wide Assessment Grant Applications for States and Tribes
Each application will be evaluated on the quality and extent to which it addresses the following:
1.a. Target Area and Brownfields (15 points)
<u>1.a.i. Background and Description of Target Area (5 points)</u> The extent to which the brief description of the city(ies), town(s), or geographic area(s) targeted by this application provides background on its cultural and/or industrial history that establishes the brownfield challenges and the degree to which the challenges impact the community(ies).
<ul style="list-style-type: none">• Additionally, <i>a Community-wide Assessment Grant application and Site-specific Grant application</i> will be evaluated on the extent to which a specific target area(s) where assessment activities will be performed is clearly defined within the identified city(ies), town(s), or geographic area(s).• Additionally, <i>a Community-wide Assessment Grant Application for States and Tribes</i> will be evaluated on the extent to which <u>at least three</u> specific target areas where assessment activities will be performed are clearly defined within the identified city(ies), town(s), or geographic area(s).<ul style="list-style-type: none">○ Further, <i>an application from a State entity</i> will be evaluated on the extent to which at least one target area is in a metropolitan statistical area and at least one target area is in a non-metropolitan statistical area. <i>(Note, a response will be evaluated less favorably if all of the target areas are in metropolitan statistical areas or if all of the target areas are in non-metropolitan statistical areas.)</i>
<u>1.a.ii. Description of the Priority Brownfield Site(s) (10 points)</u> <u>Community-wide Assessment Grant and/or Site-specific Assessment Grant Applications</u> The extent to which the response provides a clear overview of the brownfield sites in the target area(s). The degree to which one or more sites are highlighted as a priority and the degree to

which the priority site(s) is clearly described. The degree to which it is clear why the site(s) identified as a priority for assessment and reuse has been selected.

Community-wide Assessment Grant Applications for States and Tribes

The extent to which the response provides a clear overview of the brownfield sites in the target areas. The degree to which at least five sites are highlighted as a priority and the degree to which the priority sites are clearly described, including at least one site in each target area. The degree to which it is clear why the sites identified as a priority for assessment and reuse has been selected. *(Note, applicants that do not discuss at least one priority site in each target area or do not discuss at least five priority sites will be evaluated less favorably.)*

1.b. Revitalization of the Target Area (10 points for Community-wide and Site-specific Assessment Grant applications; 15 points for Community-wide Assessment Grant Applications for States and Tribes)

1.b.i. Reuse Strategy and Alignment with Revitalization Plans (5 points)

The extent to which a reuse strategy/projected reuse is clearly identified for the priority brownfield site(s) to be assessed in the target area(s), and the extent to which the reuse strategy/projected reuse clearly aligns with and advances the local government's land use and revitalization plans or related community priorities.

1.b.ii. Outcomes and Benefits of Reuse Strategy (5 points for Community-wide and Site-specific Assessment Grant applications; 10 points for Community-wide Assessment Grant Applications for States and Tribes)

Community-wide and Site-specific Assessment Grant applications (5 points)

Given the type of community being served (e.g., urban, rural, tribal, etc.), the degree to which the proposed project or revitalization plans will potentially stimulate economic and/or non-economic development in the target area(s) upon completion of the cleanup of the priority site(s), and the degree to which these outcomes clearly correlate with the applicant's reuse strategy.

When applicable, the extent to which the reuse of the priority site(s) will facilitate renewable energy from wind, solar, or geothermal energy, or will incorporate energy efficiency measures.

When applicable, the degree to which the proposed project or revitalization plans will benefit a disadvantaged community. *(Note: In order to potentially receive the maximum points under this criterion, the proposed project or revitalization plan must benefit a disadvantaged community.)*

Community-wide Assessment Grant Applications for States and Tribes (10 points)

- Given the type of community being served (e.g., urban, rural, tribal, etc.), the degree to which the proposed project or revitalization plans will potentially stimulate economic and/or non-economic development in the target area(s) upon completion of the cleanup of the priority site(s), and the degree to which these outcomes clearly correlate with the applicant's reuse strategy.

When applicable, the extent to which the reuse of the priority site(s) will facilitate renewable energy from wind, solar, or geothermal energy, or will incorporate energy efficiency measures. (5 points)

- The degree to which the proposed project or revitalization plans will benefit disadvantaged communities. (5 points)

1.c. Strategy for Leveraging Resources (15 points)

1.c.i. Resources Needed for Site Reuse (10 points)

- The extent to which the applicant is eligible for monetary funding from other resources, and the extent to which the grant will stimulate the availability of additional funds for environmental site assessment or remediation, and subsequent reuse. (5 points)
- The extent to which the potential key funding resources can be used to support the completion of the assessment, remediation, and/or reuse of the priority site(s). *(Note, a response may not earn full points if the applicant duplicates sources that are listed in 3.a. Description of Tasks/Activities and Outputs.)* (5 points)

1.c.ii. Use of Existing Infrastructure (5 points)

The extent to which work performed under this grant will facilitate the use of existing infrastructure at the priority site(s) and/or within the target area(s).

If additional infrastructure needs or upgrades are key to the revitalization plans for the priority site(s), the extent to which the applicant provides a clear description of the infrastructure needs/upgrades and the extent to which the identified funding resources that will be sought to implement the work are relevant to the project.

2. COMMUNITY NEED AND COMMUNITY ENGAGEMENT

40 points for Community-wide and Site-specific Assessment Grant Applications
45 points for Community-wide Assessment Grant Applications for States and Tribes

Each application will be evaluated on the quality and extent to which it addresses the following:

2.a. Community Need (25 points for Community-wide and Site-specific applications; 30 points for Community-wide Assessment Grant Applications for States and Tribes)

2.a.i. The Community's Need for Funding (5 points for Community-wide and Site-specific applications; 10 points for Community-wide Assessment Grant Applications for States and Tribes)

The extent to which this grant will meet the needs of the community(ies) (i.e., the city(ies), town(s), or geographic area(s) targeted in this application) that has an inability to draw on other initial sources of funding to carry out environmental assessment or remediation, and subsequent reuse in the target area(s) because the community has a small population and/or is low-income. *(Note, responses must discuss a community(ies) that has a small population and/or is low-income to be evaluated favorably.)* (5 points)

- Additionally, ***an application from a State entity*** (applying for a *Community-wide Assessment Grant for States and Tribe*) will be evaluated on the extent to which this funding will serve communities that do not have the capacity to apply for and manage their own Brownfields Grant and would otherwise not have access to Brownfield Grant resources to address brownfield sites. (5 points)

2.a.ii. Threats to Sensitive Populations (20 points)

(1) Health or Welfare of Sensitive Populations (5 points)

The degree to which the sensitive populations within the target area(s) are clearly identified, the severity of the health or welfare issues experienced by the sensitive populations in the target area(s), and the extent to which this grant and reuse strategy/projected site reuse(s) will address those issues and/or will facilitate the identification and reduction of threats to the health or welfare of such groups.

(2) Greater Than Normal Incidence of Disease and Adverse Health Conditions (5 points)

The extent to which this grant and reuse strategy/projected site reuse(s) will address, or facilitate the identification and reduction of, threats to populations in the target area(s) that suffer from a greater-than-normal incidence of diseases or conditions (including cancer, asthma, or birth defects) that may be associated with exposure to hazardous substances, pollutants, contaminants, or petroleum. *(Note, projects that address a greater-than-normal incidence of cancer, asthma, or birth defects will be evaluated more favorably.)*

(3) Promoting Environmental Justice (10 points)

The extent to which this grant and reuse strategy/projected site reuse(s) will promote environmental justice in the target area(s) and/or will support populations in the target area(s) that disproportionately share the negative environmental consequences resulting from industrial, governmental and/or commercial operations or policies.

2.b. Community Engagement (15 points)

Per the ranking criterion in [Section IV.E.2.b.](#), applicants may consolidate information for 2.b.i. and 2.b.ii. into one response. Reviewers must evaluate the response against the sub-criteria outlined below.

2.b.i. Project Involvement (5 points)

The degree to which the applicant identifies local organizations/entities/groups that are relevant to the proposed project and the degree to which different types of organizations/entities/groups will be involved in and provide assistance/information to assist in the performance of the project.

- Additionally, ***a Community-wide Assessment Grant Application for States and Tribes*** will be evaluated on the extent to which the applicant has a sound plan to identify and engage local organizations/entities/groups to be involved in the project as additional target areas and priority sites are identified throughout the period of performance.

2.b.ii. Project Roles (5 points)

The degree to which each identified local organization/entity/group will have meaningful involvement in the project and the extent to which partners will be involved in making decisions with respect to site selection, cleanup, and future reuse of the brownfield sites, including the priority site(s).

- Additionally, *a Site-specific Assessment Grant application* will be evaluated on the extent to which the plan also demonstrates meaningful efforts to involve community groups or representatives directly affected by the site.

2.b.iii. Incorporating Community Input (5 points)

The extent to which the plan to communicate project progress to the local community, local organizations/entities/groups that will be involved in the project, and residents/groups in (or in closest proximity to) the target area(s) will be effective and appropriate, and the extent to which their input will be solicited, considered, and responded to in an intentional way. The extent to which the proposed methods offer an alternative to in-person community engagement in the event of social distancing or other restrictions as a result of COVID-19.

3. TASK DESCRIPTIONS, COST ESTIMATES, AND MEASURING PROGRESS

45 Points for Community-wide and Site-specific Assessment Grant Applications

50 points for Community-wide Assessment Grant Applications for States and Tribes

Each application will be evaluated on the quality and extent to which it addresses the following:

3.a. Description of Tasks/Activities and Outputs (25 points for Community-wide and Site-specific applications; 30 points for Community-wide Assessment Grant Applications for States and Tribes)

3.a.i. Project Implementation (10 points for Community-wide and Site-specific applications; 15 points for Community-wide Assessment Grant Applications for States and Tribes)

The degree to which the EPA-funded tasks/activities are eligible, specific, and appropriate to the goals of the proposed project, and the degree to which the response demonstrates a sound plan to address the priority brownfield site(s) in the target area(s).

When applicable, the degree to which the EPA-funded tasks/activities to occur beyond the priority site(s), in or outside the target area(s) are eligible, specific, and appropriate, and the degree to which the response demonstrates a sound plan.

(Note, responses that include ineligible tasks/activities will be evaluated less favorably.)

When applicable, the extent to which other resources (e.g., in-kind resources) will bridge the gap between the EPA grant and tasks/activities necessary to bring the grant to successful completion. *(Note, a response may not earn full points if the applicant duplicates sources that are listed in 1.c.i. Resources Needed for Site Reuse.)*

- Identifying Additional Target Areas/Sites (5 points)

Additionally, *a Community-wide Assessment Grant Application for States and Tribes* will be evaluated on the degree to which there is a clear plan to identify additional target areas/sites for assessment and the degree to which the criteria that will be used to prioritize sites for selection considers target areas/sites throughout the applicant's jurisdiction and target areas with disadvantaged communities.

- Further, *an application from a State entity* will be evaluated on the extent to which the criteria used to prioritize additional sites considers target areas with disadvantaged communities in metropolitan and non-metropolitan statistical areas.

3.a.ii. Anticipated Project Schedule (5 points)

The extent to which the project schedule milestones are achievable and the likelihood that the activities will be completed within the period of performance (3 years for Community-side and Site-specific applications and 5 years for Community-wide Assessment Grant Applications for States and Tribes).

3.a.iii. Task/Activity Lead (5 points)

The extent to which the lead entity(ies) for each task/activity is clearly identified and the extent to which the lead entity(ies) overseeing each task/activity is appropriate.

When applicable, the degree to which the local health agency is involved in health monitoring activities.

3.a.iv. Outputs (5 points)

The degree of quality of the specific outputs and the extent to which the outputs clearly correlate with the proposed project.

3.b. Cost Estimates (15 points)

Per the ranking criterion [Section IV.E.3.b.](#), applicants will consolidate information for 3.b.i. – 3.b.ii. into one response. Reviewers must evaluate the response against the sub-criteria outlined below.

3.b.i. Development of Cost Estimates (10 points)

The degree of clarity on how each cost estimate was developed (including direct and/or indirect administrative costs, if applicable) and the extent to which costs per unit are presented in detail.

3.b.ii. Application of Cost Estimates (5 points)

The extent to which each proposed cost estimate is reasonable and realistic to implement the project/grant and clearly correlates with the proposed tasks/activities.

(Notes:

- *Projects that allocate at least 60% of the funds to tasks directly associated with site-specific work (i.e., Phase I and Phase II environmental site assessments and site-specific cleanup planning) will be evaluated more favorably.*

- *Administrative costs that exceed 5% of the total EPA-requested funds will be evaluated less favorably.*
- ***Community-wide Assessment Grant Applications for States and Tribes** that include cost estimates that are not reasonable or realistic to implement the project/grant will be evaluated less favorably. For example, applicants that request more funds than is reasonably justified in the Narrative to complete the proposed project/grant.)*

3.c. Measuring Environmental Results (5 points)

The extent to which the plan and mechanism to track, measure, and evaluate progress in achieving expected project outputs, overall project results, and eventual project outcomes are reasonable, appropriate, and clearly correlate with information previously presented in the Narrative.

4. PROGRAMMATIC CAPABILITY AND PAST PERFORMANCE

35 points for All Applications

Each application will be evaluated on the quality and extent to which it addresses the following:

4.a. Programmatic Capability (20 points)

Per the ranking criterion in [Section IV.E.4.a.](#), applicants may consolidate information for 4.a.i. and 4.a.iii. into one response. Reviewers must evaluate the response against the sub-criteria outlined below.

4.a.i. Organizational Capacity (5 points)

The degree to which the applicant's organization has the capacity to carry out the programmatic, administrative, and financial requirements to successfully manage the project and grant.

4.a.ii. Organizational Structure (5 points)

The degree to which the team will be structured to ensure the timely and successful expenditure of funds to complete all technical, administrative, and financial requirements of the project and grant.

4.a.iii. Description of Key Staff (5 points)

The degree to which key staff have expertise, qualifications, and experience that will result in the successful administration of the grant.

4.a.iv. Acquiring Additional Resources (5 points)

The degree to which the applicant's organization has a system in place to acquire any additional expertise and resources (e.g., contractors or subrecipients) required to successfully complete the project.

4.b. Past Performance and Accomplishments (15 points)

In evaluating an applicant's response to this criterion, in addition to the information provided by the applicant, EPA may consider relevant information from other sources including

information from EPA files and/or from other federal or non-federal grantors to verify or supplement information provided by the applicant.

4.b.i. Currently Has or Previously Received an EPA Brownfields Grant (15 points)

The degree to which there is demonstrated ability to successfully manage the grant based on current/past EPA Brownfields Grant(s) (i.e., Multipurpose Grant, Assessment Grant, Revolving Loan Fund Grant, Cleanup Grant, or 128(a) Grant) and the extent to which the applicant successfully performed all phases of work under the grant.

(1) Accomplishments (5 points)

The extent to which meaningful accomplishments (including specific outputs and outcomes) were achieved under current/prior grant(s), including at a minimum, the number of sites assessed and/or cleaned up, and the extent to which outputs and outcomes were accurately reflected in ACRES at the time of this application submission.

(2) Compliance with Grant Requirements (10 points)

- The extent of compliance with the workplan, schedule, and terms and conditions under the current/prior grant(s), and the extent to which there is a demonstrated history of timely and acceptable quarterly performance and grant deliverables, as well as ongoing ACRES reporting. When applicable, the extent to which at least 50% of the most recent Assessment Grant funds were spent on direct assessment tasks/activities (i.e., Phase I and Phase II environmental site assessments).

The degree to which progress was made (and reported on), or is being made, towards achieving the expected results of the grant(s) in a timely manner. If expected results were not being reported on, the extent to which the measures taken to correct the situation were reasonable and appropriate or there is an adequate explanation for lack of reporting. (5 points)

- The extent to which funds from any open EPA Brownfields Grant(s) (i.e., Multipurpose Grant, Assessment Grant, Revolving Loan Fund Grant, Cleanup Grant, or 128(a) Grant) are committed to ongoing eligible grant activities or will support the tasks/activities described in the Narrative. The likelihood that all grant funds under the current grant(s) will be expended by the end of the *Period of performance* as defined in 2 CFR § 200.1.

For all closed EPA Brownfield Grants, the extent to which there is a reasonable explanation of why funds remained when the grant closed, and the degree to which the applicant made every effort to spend the remaining funds within the *Period of performance*. (5 points)

– OR –

4.b.ii. Has Not Received an EPA Brownfields Grant but has Received Other Federal or Non-Federal Assistance Agreements (15 points)

The degree to which the applicant demonstrates its ability to successfully manage the grant and

perform all phases of work under the grant based on current/prior federal or non-federal assistance agreements.

(1) Purpose and Accomplishments (5 points)

The extent to which a similar past federal or non-federal assistance agreement(s) is identified (in terms of size, scope, and relevance to the proposed project).

The extent to which meaningful project accomplishments (including specific outputs and outcomes) were achieved under the assistance agreement(s), including specific measures of success for the project supported by each type of agreement received.

(2) Compliance with Grant Requirements (10 points)

The extent of compliance with the workplan, schedule, and terms and conditions under the current/prior assistance agreement(s), and the extent to which there is a demonstrated history of timely and acceptable reporting, as required by the awarding agency/organization.

The degree to which progress was made (and reported on), or is being made, towards achieving the expected results of the agreement(s) in a timely manner. If expected results were not achieved, the extent to which the measures taken to correct the situation were reasonable and appropriate.

– OR –

4.b.iii. Never Received Any Type of Federal or Non-Federal Assistance Agreements (8 points)

The extent to which it is clearly affirmed that the organization never received any type of federal or non-federal assistance agreement. *(These applicants will receive a “neutral” score of 8 points. Applicants that fail to indicate anything in response to this sub-criterion may result in zero points.)*

V.B. Other Factors and Considerations

In making the final selections from among the most highly ranked applicants on each of the lists discussed in [Section V.C.](#), EPA’s Headquarters Selection Official may consider the factors below as appropriate. Applicants should provide a summary in the Narrative on the applicable other factors and note the corresponding page number in the [Narrative Information Sheet](#). Other factors include:

- Whether the community population is 10,000 or less;
- whether the applicant is a federally recognized Indian tribe or United States territory or whether the project is assisting a tribe or territory;
- whether the priority site(s) is impacted by mine-scarred land;
- whether the priority site(s) is adjacent to a body of water;
- whether the priority site(s) is in a federally designated flood plain;
- whether reuse of the priority site(s) will facilitate renewable energy from wind, solar, or geothermal energy;
- whether reuse of the priority site(s) will incorporate energy efficiency measures;

- whether 30% or more of the overall project budget will be spent on eligible reuse/area-wide planning activities, as described in [Section I.A.](#), for priority site(s) within the target area; and
- whether the target area(s) is located within a community in which a coal-fired power plant has recently closed (2011 or later) or is closing.

Additionally, EPA’s Headquarters Selection Official may take the following considerations into account when making final selections:

- fair distribution of funds between urban and non-urban areas;
- whether the applicant’s jurisdiction is located within, or includes, a county experiencing “persistent poverty” where 20% or more of its population has lived in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates;
- the distribution of funds among EPA’s ten Regions; and
- whether the target area(s) is located within, or includes, a census tract in which 20% or more of the population lives below the national poverty level as measured by the 2019 American Community Survey (ACS) 5-year estimates from the United States Census Bureau.

V.C. Review and Selection Process

Timely submitted applications will initially be reviewed by the EPA Regional Office which covers the location of the project to determine compliance with the applicable threshold criteria for Assessment Grants ([Section III.B.](#), and [Section III.C.](#) or [Section III.D.](#), as applicable). All applications that pass the threshold criteria review will be evaluated by national evaluation panels. The national evaluation panels will be comprised of EPA staff and potentially other federal agency representatives chosen for their expertise in the range of activities associated with the brownfield assessments. Eligible applications will be evaluated based on the criteria described in [Section V.A.](#) and ranking lists of applicants will be developed.

For selection purposes, EPA’s Office of Brownfields and Land Revitalization (OBLR) will prepare three ranked lists of applications.

Applications for a Community-wide or Site-specific Assessment Grant:

One list will be comprised of “new applicants” defined as:

- applicants who have never received an EPA Brownfields Multipurpose, Assessment, RLF, or Cleanup Grant, or
- applicants who were awarded a Brownfields Multipurpose, Assessment, RLF, or Cleanup Grant that closed in 2013 or earlier.

A second list will be comprised of “existing and recent recipients” defined as:

- applicants who have an open Brownfields Multipurpose, Assessment, RLF, or Cleanup Grant, or
- applicants who were awarded a Brownfields Multipurpose, Assessment, RLF, or Cleanup Grant that closed in 2014 or later.

Community-wide Assessment Grant Applications for States and Tribes will be ranked on a third list. Note, if EPA receives more than one application per state (regardless if the applications are

submitted by different eligible state agencies), EPA will only select the highest-ranking application that qualifies for selection.

EPA expects to select approximately 60 of the highest ranked Community-wide and Site-specific Assessment Grant applications and intends to use approximately 50% of the total amount of funding available under this category for grants to “new applicants.” This percentage is an estimate and is subject to change based on funding levels, the quality of applications received, and other applicable considerations. Additionally, EPA expects to select approximately 9 of the highest ranked Community-wide Assessment Grant Applications for States and Tribes.

The Office of Brownfields and Land Revitalization (OBLR) will provide the three lists to the Headquarters Selection Official, who is responsible for further consideration of the applications and final selection of grant recipients. Applications will be selected for award based on their evaluated point scores, the availability of funds, and, as appropriate, the other factors and considerations described in [Section V.B.](#)

V.D. Additional Provisions for Applicants Incorporated into the Solicitation

Additional provisions that apply to this solicitation and/or awards made under this solicitation including the clause on Reporting and Use of Information Concerning Recipient Integrity and Performance can be found in [EPA's Solicitation Clauses](#). These and the other provisions in [EPA's Solicitation Clauses](#) are important and applicants must review them when preparing applications for this solicitation. If you are unable to access these provisions electronically, please contact the Regional Brownfields Contact listed in [Section VII.](#) to obtain the provisions.

SECTION VI. – AWARD ADMINISTRATION INFORMATION

VI.A. Award Notices

Applicants who fail the threshold eligibility requirements will be notified within 15 calendar days of EPA's determination of ineligibility. EPA will notify applicants who are not selected for award based on the evaluation criteria and other considerations within 15 calendar days of EPA's final decision on selections for this competition.

EPA anticipates notification to successful applicants will be made via telephone, email, or postal mail by late Spring 2022. The notification will be sent to the Project Director and Chief Executive/Highest Ranking Elected Official listed in the Narrative Information Sheet in [Section IV.D.](#) This notification, which informs the applicant that its application is selected and is being recommended for award, is not an authorization to begin work. The official notification of an award will be made by the Regional Grants Management Official for regional awards.

Applicants are cautioned that only a grants officer is authorized to bind the Government to the obligation of funds; selection does not guarantee an award will be made. For example, statutory authorization, funding, or other issues discovered during the award process may affect the ability of EPA to make an award to an applicant. The award notice, signed by an EPA grants officer, is the authorizing document and will be provided through email or postal mail. The

successful applicant may need to prepare and submit additional documents and forms (e.g., a workplan), which must be approved by EPA before the grant can officially be awarded. The time between notification of selection and award of a grant can take up to 90 days or longer.

VI.B. Administrative and National Policy Requirements

Funding will be awarded as a cooperative agreement. The applicants who are selected for award will work with an EPA Project Officer to finalize the required federal application package and to negotiate the cooperative agreement workplan. It is EPA's expectation that the selected applicants will complete the award process within six months of the announcement.

Approved cooperative agreements will include terms and conditions (including any applicable Davis Bacon requirements) that will be binding on the recipient. Terms and conditions specify what recipients must do to ensure that grant-related and Brownfields Program-related requirements are met. Applicants also will be required to submit progress reports in accordance with grant regulations found in 2 CFR § 200.329.

An applicant that receives an award under this announcement is expected to manage assistance agreement funds efficiently and effectively, and make sufficient progress towards completing the project activities described in the workplan in a timely manner. The assistance agreement will include terms and conditions implementing this requirement.

VI.C. Reporting Requirements

During the life of the cooperative agreement, recipients are required to submit progress reports to the EPA Project Officer within 30 days after each reporting period. The reporting period (i.e., quarterly, annually) is identified in the terms and conditions of the cooperative agreement. These reports cover work status, work progress, difficulties encountered, an accounting of financial expenditures, preliminary data results, anticipated activities, and any changes in key personnel involved with the project. Site-specific accomplishments are reported on Property Profile Forms and can be submitted electronically to EPA's ACRES reporting system. Information provided in the quarterly reports and submitted in ACRES helps EPA monitor the community's progress with implementing their project and also directly supports the continuation of the Brownfields Program by highlighting measurable site-specific accomplishments to the public and Congress.

At the end of the cooperative agreement, a final project report also is required. The final report will summarize accomplishments, expenditures, outcomes, outputs, lessons learned, and any other resources leveraged during the project and how they were used.

VI.D. Brownfield Programmatic Requirements

Brownfield Grant recipients must comply with all applicable federal and state laws to ensure that the assessment and cleanup protect human health and the environment. Brownfield Grant recipients also must comply with the program's technical requirements, which may include, but are not limited to, requirements for: Quality Assurance requirements, historic properties or threatened and endangered species, all appropriate inquiries, sufficient progress, collection of post-grant information, and protections of nearby and sensitive populations. For additional information on these requirements, please review the [Brownfield Programmatic Requirements](#).

VI.E. Disputes

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005) which can be found on the [Grant Competition Dispute Resolution Procedures](#) website. Copies of these procedures may also be requested by contacting the Regional Brownfields Contact listed in [Section VII.](#) of this announcement. Note, the FR notice references regulations at 40 CFR Parts 30 and 31 that have been superseded by regulations in 2 CFR Parts 200 and 1500. Notwithstanding the regulatory changes, the procedures for competition-related disputes remain unchanged from the procedures described at 70 FR 3629, 3630, as indicated in 2 CFR Part 1500, Subpart E.

VI.F. Additional Provisions for Applicants Incorporated into the Solicitation

Additional provisions that apply to this solicitation and/or awards made under this solicitation, including but not limited to those related to DUNS, SAM, copyrights, disputes, and administrative capability, can be found in [EPA's Solicitation Clauses](#). These and the other provisions in [EPA's Solicitation Clauses](#) are important and applicants must review them when preparing applications for this solicitation. If you are unable to access these provisions electronically, please contact the Regional Brownfields Contact listed in [Section VII.](#) to obtain the provisions.

SECTION VII. – EPA REGIONAL BROWNFIELD PROGRAM CONTACTS

EPA Regional Contact and States		Address
EPA Region 1 Christine Lombard Lombard.Chris@epa.gov Phone: (617) 918-1305	CT, ME, MA, NH, RI, VT	5 Post Office Square Suite 100, Mail code: OSRR7-2 Boston, MA 02109-3912
EPA Region 2 Alison Devine Devine.Alison@epa.gov Phone: (212) 637-4158	NJ, NY, PR, VI	290 Broadway; 25th Floor New York, NY 10007
EPA Region 3 Gianna Rosati Rosati.Gianna@epa.gov Phone: (215) 814-3406	DE, DC, MD, PA, VA, WV	1650 Arch Street Mail Code 3LD50 Philadelphia, PA 19103
EPA Region 4 Sara Janovitz Janovitz.Sara@epa.gov Phone: (404) 562-9870	AL, FL, GA, KY, MS, NC, SC, TN	Atlanta Federal Center 61 Forsyth Street, S.W. 10th FL Atlanta, GA 30303-8960
EPA Region 5 Brittney Nadler Nadler.Brittney@epa.gov Phone: (312) 886-5740	IL, IN, MI, MN, OH, WI	77 West Jackson Boulevard Mail Code LP-5J Chicago, IL 60604-3507
EPA Region 6 Denise Williams Williams.Denise@epa.gov Phone: (214) 665-9749	AR, LA, NM, OK, TX	1201 Elm Street Suite 1200 Dallas, TX 75270-2162
EPA Region 7 Susan Klein R7_Brownfields@epa.gov Phone: (913) 551-7786	IA, KS, MO, NE	11201 Renner Blvd Lenexa, KS 66219
EPA Region 8 Melisa Devincenzi Devincenzi.Melisa@epa.gov Phone: (303) 312-6377	CO, MT, ND, SD, UT, WY	1595 Wynkoop Street (EPR-B) Denver, CO 80202-1129
EPA Region 9 Noemi Emeric-Ford Emeric-Ford.Noemi@epa.gov Phone: (213) 244-1821	AZ, CA, HI, NV, Pacific Island Territories	75 Hawthorne Street, SFD6-1 San Francisco, CA 94105
EPA Region 10 Terri Griffith Griffith.Terri@epa.gov Phone: (206) 553-8511	AK, ID, OR, WA	1200 Sixth Avenue, Suite 155 Mailstop: ECL-133 Seattle, WA 98101

Appendix 1

Grants.gov Application Submission Instructions

A. Requirements to Submit Through Grants.gov and Limited Exception Procedures

Applicants must apply electronically through www.grants.gov under this funding opportunity based on the www.grants.gov instructions in this announcement. If your organization has no access to the Internet or access is very limited, you may request an exception for the remainder of this calendar year by following the procedures outlined at www.epa.gov/grants/exceptions-grantsgov-submission-requirement. Please note that your request must be received at least 15 calendar days before the application due date to allow enough time to negotiate alternative submission methods. Issues with submissions with respect to this opportunity only are addressed in section *c. Technical Issues with Submission* below.

B. Submission Instructions

The electronic submission of your application must be made by an official representative of your institution who is registered with www.grants.gov and is authorized to sign applications for federal assistance. For more information on the registration requirements that must be completed in order to submit an application through www.grants.gov, go to www.grants.gov and click on “Applicants” on the top of the page and then go to the “Get Registered” link on the page. If your organization is not currently registered with www.grants.gov, please encourage your office to designate an Authorized Organization Representative (AOR) and ask that individual to begin the registration process as soon as possible. Please note that the registration process also requires that your organization have a DUNS number and a current registration with the System for Award Management (SAM) and the process of obtaining both could take a month or more. Applicants must ensure that all registration requirements are met in order to apply for this opportunity through www.grants.gov and should ensure that all such requirements have been met well in advance of the submission deadline. Registration on www.grants.gov, www.sam.gov, and DUNS number assignment is FREE. Please see [RAIN-2021-G01](http://www.epa.gov/grants/rain-2021-g01) at www.epa.gov/grants/rain-2021-g01 for information about EPA's implementation of the upcoming Government-wide transition from DUNS to Unique Entity Identifier (UEI).

Applicants need to ensure that the AOR who submits the application through www.grants.gov and whose DUNS number is listed on the application is an AOR for the applicant listed on the application. Additionally, the DUNS number listed on the application must be registered to the applicant organization's SAM account. If not, the application may be deemed ineligible.

To begin the application process under this grant announcement, go to www.grants.gov and click on “Applicants” on the top of the page and then “Apply for Grants” from the dropdown menu and then follow the instructions accordingly. Please note: To apply through www.grants.gov, you must use Adobe Reader software and download the compatible Adobe Reader version. For more information about Adobe Reader, to verify compatibility, or to download the free software, please visit www.grants.gov/web/grants/applicants/adobe-software-compatibility.html. You may also be able to access the application package for this announcement by searching for the opportunity on www.grants.gov. Go to www.grants.gov and then click on “Search Grants” at

the top of the page and enter the Funding Opportunity Number, **EPA-OLEM-OBLR-21-04**, or the CFDA number that applies to the announcement (**CFDA 66.818**), in the appropriate field and click the “Search” button.

Please note: All applications must now be submitted through [Grants.gov](https://www.grants.gov) using the “Workspace” feature. Information on the Workspace feature can be found at the [Grants.gov Workspace Overview Page](https://www.grants.gov/web/grants/applicants/workspace-overview.html) at www.grants.gov/web/grants/applicants/workspace-overview.html.

Application Submission Deadline: Your organization’s AOR must successfully submit your complete application package electronically to EPA through www.grants.gov **no later than December 1, 2021, 11:59 p.m. ET**. Please allow for enough time to successfully submit your application materials and allow for unexpected errors that may require you to resubmit.

Please submit *all* of the application materials described below using the www.grants.gov application package that you downloaded using the instructions above.

Application Materials: The following forms and documents are required under this announcement.

1. Application for Federal Assistance (SF-424)
2. Budget Information for Non-Construction Programs (SF-424A)
3. EPA Key Contacts Form 5700-54
4. Preaward Compliance Review Report (EPA Form 4700-4)
5. Project Narrative Attachment form – attach the Narrative Information Sheet, the Narrative, and required attachments as one file, if possible. See [Section IV.C.](#) for details on the required content and the associated page limits.

Note: A workplan is not required under this announcement. Applicants that are selected for funding will negotiate the workplan with EPA before the cooperative agreement is awarded.

After signing and successfully submitting the application package, within 24 to 48 hours the AOR should receive notification emails from www.grants.gov with the following subject lines:

1. GRANT##### Grants.gov Submission Receipt
2. GRANT##### Grants.gov Submission Validation Receipt for Application

If the AOR did not receive either notification emails listed above, contact the www.grants.gov Help Desk at 1-800-518-4726. The Help Desk is open 24/7 (except federal holidays).

After the application package is retrieved out of the www.grants.gov system by EPA, the AOR should receive the following notification emails from www.grants.gov:

3. GRANT##### Grants.gov Grantor Agency Retrieval Receipt for Application
4. GRANT##### Grants.gov Agency Tracking Number Assignment for Application

Applications submitted through www.grants.gov will be time and date stamped electronically. If you have not received a confirmation of receipt from EPA (not from www.grants.gov) within 30 days of the application deadline, please contact Jerry Minor-Gordon at minor-gordon.jerry@epa.gov. Failure to do so may result in your application not being reviewed.

C. Technical Issues with Submission

1. Once the application package has been completed, the “Submit” button should be enabled. If the “Submit” button is not active, please call www.grants.gov for assistance at 1-800-518-4726. Applicants who are outside the U.S. at the time of submittal and are not able to access the toll-free number may reach a www.grants.gov representative by calling 606-545-5035. Applicants should save the completed application package with two different file names before providing it to the AOR to avoid having to re-create the package should submission problems be experienced or a revised application needs to be submitted.
2. Submitting the application: The application package must be transferred to www.grants.gov by an AOR. The AOR should close all other software before attempting to submit the application package. Click the “submit” button of the application package. Your Internet browser will launch and a sign-in page will appear. **Note: Minor problems are not uncommon with transfers to www.grants.gov. It is essential to allow sufficient time to ensure that your application is submitted to www.grants.gov BEFORE the due date.** The www.grants.gov support desk operates 24 hours a day, seven days a week, except federal holidays.

A successful transfer will end with an on-screen acknowledgment. For documentation purposes, print or screen capture this acknowledgment. If a submission problem occurs, reboot the computer – turning the power off may be necessary – and re-attempt the submission.

Note: www.grants.gov issues a “case number” upon a request for assistance.

3. Transmission difficulties: If transmission difficulties that result in a late transmission, no transmission, or rejection of the transmitted application are experienced, and following the above instructions do not resolve the problem so that the application is submitted to www.grants.gov by the deadline date and time, follow the guidance below. EPA will make a decision concerning acceptance of each late submission on a case-by-case basis. All emails, as described below, are to be sent to Jerry Minor-Gordon (minor-gordon.jerry@epa.gov) with the Funding Opportunity Number, EPA-OLEM-OBLR-21-04, in the subject line. If you are unable to email, contact Jerry Minor-Gordon by phone at 202-566-1817. Be aware that EPA will only consider accepting applications that were unable to transmit due to www.grants.gov or relevant www.sam.gov system issues or for unforeseen exigent circumstances, such as extreme weather interfering with Internet access. Failure of an applicant to submit timely because they did not properly or timely register in www.sam.gov or www.grants.gov is not an acceptable reason to justify acceptance of a late submittal.
 - a. If you are experiencing problems resulting in an inability to upload the application to www.grants.gov, it is essential to call www.grants.gov for assistance at 1-800-518-4726 before the application deadline. Applicants who are outside the U.S. at the time of submittal and are not able to access the toll-free number may reach a www.grants.gov representative by calling 606-545-5035. Be sure to obtain a case number from www.grants.gov. If the problems stem from unforeseen exigent circumstances unrelated

to www.grants.gov, such as extreme weather interfering with Internet access, contact Jerry Minor-Gordon (202-566-1817).

- b. Unsuccessful transfer of the application package: If a successful transfer of the application cannot be accomplished even with assistance from www.grants.gov due to electronic submission system issues or unforeseen exigent circumstances, and you have already attempted to resolve the issue by contacting Grants.gov, send an email message to minor-gordon.jerry@epa.gov prior to the application deadline. The email message must document the problem and include the www.grants.gov case number as well as the entire application in PDF format as an attachment.
- c. www.grants.gov rejection of the application package: If a notification is received from www.grants.gov stating that the application has been rejected for reasons other than late submittal and it is too late to reapply, promptly send an email to Jerry Minor-Gordon (minor-gordon.jerry@epa.gov) with the Funding Opportunity Number, EPA-OLEM-OBLR-21-04, in the subject line within one business day of the closing date of this solicitation. The email should include any materials provided by www.grants.gov and attach the entire application in PDF format.

Please note that successful submission through www.grants.gov or via email does not necessarily mean your application is eligible for award.
