00:00:00,560 --> 00:00:04,147 Victoria Robinson: All right, so would like to again, welcome everybody to our call.

### 2

00:00:04,171 --> 00:00:08,343 These calls are part of our regular ongoing conversation

# 3

00:00:08,367 --> 00:00:11,428 about environmental justice at the EPA.

# 4

00:00:11,452 --> 00:00:16,320 Today's call will focus on Justice40,

# 5

00:00:16,320 --> 00:00:20,688 and in particular how it intersects with EPA's Brownfields Program.

# 6

00:00:20,712 --> 00:00:24,320 But before we start that conversation, I'm going to ask Charles Lee

1

00:00:24,320 --> 00:00:27,601 to provide some EJ program updates.

#### 8

00:00:27,625 --> 00:00:34,320 Charles, you can go ahead and open your video and unmute your line.

# 9

00:00:37,200 --> 00:00:41,074 Charles Lee: Great, am I on?

#### 10

00:00:41,098 --> 00:00:43,111 Victoria Robinson: Yes, you are.

# 11

00:00:43,135 --> 00:00:47,842 Charles Lee: Thank you, thanks Victoria and good afternoon everyone.

# 12

00:00:47,866 --> 00:00:54,874 Just wanted to start with of course, the focus today being Justice40, 00:00:54,898 --> 00:01:00,392 some milestones from-- some milestones related to Justice40,

14 00:01:00,516 --> 00:01:05,201 of course that on August 19th all agencies,

15 00:01:05,225 --> 00:01:09,840 including EPA submitted their stakeholder engagement plan.

16 00:01:09,840 --> 00:01:14,682 Actually this is-- this session and many to come are part

17 00:01:14,706 --> 00:01:24,844 of the EPA's efforts in a agency-wide coordinated way to do engagement around Justice40.

# 18 00:01:24,868 --> 00:01:29,360 The next milestone coming up is September 17th

# 00:01:29,360 --> 00:01:38,044 which is 60 days out from the OMB guidance on Justice40, are going to be submitted to OMB

#### 20

00:01:38,268 --> 00:01:43,759 and those are going to include the agency plans for the cover programs

# 21

00:01:43,759 --> 00:01:49,600 to maximize their benefits, significant barriers or constraints

# 22

00:01:49,600 --> 00:01:54,207 for maximizing benefits, opportunities and or resources needed

# 23

00:01:54,231 --> 00:01:58,769 that may address these identified barriers and constraints

# 24

00:01:58,793 --> 00:02:05,448 and timelines for important milestones in the specific plans of cover programs.

#### 19

00:02:05,572 --> 00:02:11,761 So that is the milestones also just to let everyone know,

### 26

00:02:11,785 --> 00:02:14,763 this is a pretty dynamic process

# 27

00:02:14,987 --> 00:02:19,440 and so there's a lot of conversations between federal agencies

# 28

00:02:19,464 --> 00:02:25,448 and with OMB on a regular basis to plan, learn from each other

# 29

00:02:25,472 --> 00:02:34,800 and to kind of chart out a pathway forward in a way that really builds on the experiences

# 30

00:02:34,800 --> 00:02:38,035 and lessons learned from each other.

00:02:38,059 --> 00:02:44,560 So that's the first update, the second one has to do with the EPA strategic plan,

#### 32

00:02:44,560 --> 00:02:49,164 and the reason this is important is because of all the planning documents

# 33

00:02:49,388 --> 00:02:54,361 for federal agencies, the strategic plan is probably the most important,

# 34

00:02:54,385 --> 00:02:59,184 in terms of setting a big-high level strategic goals

# 35

00:02:59,208 --> 00:03:05,200 and performance metrics, accountability metrics associated with them.

# 36 00:03:05,200 --> 00:03:09,559 So for the first time in EPA history,

00:03:09,583 --> 00:03:17,280 the strategic plan has a what they call a strategic goal or a whole separate area

#### 38

00:03:17,280 --> 00:03:24,560 devoted to taking decisive action on environmental justice and civil rights.

# 39

00:03:24,560 --> 00:03:36,647 It should be noted that EPA has heretofore carried out his mission

### 40

00:03:36,671 --> 00:03:41,368 his mission based upon three principles which are sound science, the road law

# 41

00:03:41,392 --> 00:03:49,280 and transparency and the fourth one had now been added which is justice and equity.

# 42

00:03:49,280 --> 00:03:51,708 So this is a very significant document

43

00:03:51,732 --> 00:03:55,351 and we probably would plan to have a couple of sessions

44

00:03:55,375 --> 00:04:01,455 of these engagement sessions focus on it over the next several weeks or months.

# 45

00:04:01,479 --> 00:04:08,548 So I think that should do it Victoria in terms of our specifics updates.

# 46

00:04:08,572 --> 00:04:14,353 So let me now move on to provide the introduction for Elyse Sutkus

47 00:04:14,377 --> 00:04:17,127 from the brownfields program.

# 48

00:04:17,151 --> 00:04:24,175 The brownfields program is probably, is one of the programs I throughout my-- the course

#### 49

00:04:24,199 --> 00:04:31,360 of my own career has been very interested in because of the opportunities there

#### 50

00:04:31,360 --> 00:04:37,520 for working within communities and cleaning up and revitalizing communities.

# 51

00:04:37,520 --> 00:04:43,388 And I think this really has shown itself over its history to be just that it

# 52

00:04:43,412 --> 00:04:48,968 and of course most of these communities are environmental justice communities,

#### 53

00:04:48,992 --> 00:04:54,836 where-- which are disproportionately impacted by not only environmental harms

54 00:04:54,960 --> 00:05:01,748 and risks but also lack of you know opportunities in terms of jobs

55 00:05:01,772 --> 00:05:07,140 and economic development and health care, and so forth.

# 56

00:05:07,164 --> 00:05:11,379 So that's just a little bit of a backdrop in terms of why.

# 57

00:05:11,403 --> 00:05:18,720 This-- we're so glad that this program has been has stepped up as one of

# 58

00:05:18,720 --> 00:05:20,987 the programs under Justice40.

# 59

00:05:21,011 --> 00:05:24,639 So with that Elyse, I'll turn it over to you.

60 00:05:24,639 --> 00:05:27,907 Victoria Robinson: Before you get started, Elyse is a reminder to us all as presenters

61 00:05:27,931 --> 00:05:31,419 because we do have simultaneous strength-- interpretation

# 62

00:05:31,443 --> 00:05:34,623 that we need to slow down and I'm very guilty of this.

### 63

00:05:34,647 --> 00:05:39,094 So we need to slow down to allow for accurate interpretation.

# 64

00:05:39,118 --> 00:05:40,800 Thank you very much.

65 00:05:40,800 --> 00:05:42,720 Go ahead, Elyse.

66 00:05:42,720 --> 00:05:45,151 Elyse Sutkus: All right, thank you Charles and thank you Victoria.

#### 67

00:05:45,175 --> 00:05:47,840 Hello everyone, my name is Elyse Sutkus,

# 68

00:05:47,864 --> 00:05:52,800 and I work in EPA's Office of Brownfields and Land Revitalization

# 69

00:05:52,800 --> 00:05:56,639 at EPA Headquarters in Washington DC.

# 70

00:05:56,639 --> 00:06:01,919 I'll be giving today's presentation on the Brownfields and Land Revitalization Program,

# 71

00:06:01,919 --> 00:06:05,440 which is one of the Justice40 pilot program.

# 72

00:06:05,440 --> 00:06:08,240

Next slide, please.

00:06:08,720 --> 00:06:12,308 So just to give you an overview of what I'll be sharing with you today,

#### 74

00:06:12,332 --> 00:06:18,880 we'll talk about the definition of a brownfield and the purpose of EPA's program.

### 75

00:06:18,880 --> 00:06:23,360 I'll give you a bit of historical context about the program,

# 76

00:06:23,360 --> 00:06:29,120 and then we'll move in to talk about more detail for the brownfield grant opportunities

# 77

00:06:29,120 --> 00:06:30,449 that are available.

# 78

00:06:30,473 --> 00:06:35,434 I'll go over the types of grants, eligibility information, the timeline

00:06:35,458 --> 00:06:40,720 that we typically have for those grant competitions and a couple success stories.

### 80

00:06:40,720 --> 00:06:46,828 We'll, also talk about technical assistance that is available to all brownfield stakeholders,

# 81

00:06:46,852 --> 00:06:51,120 so more specifically, we'll get into details about our technical assistance

82 00:06:51,120 --> 00:06:53,440 to brownfield community providers.

# 83 00:06:53,440 --> 00:06:57,919 We'll talk a little bit about the American Rescue Plan funding

# 84

00:06:57,919 --> 00:07:00,757 and how it relates to our TAB providers. 00:07:00,781 --> 00:07:07,840 I'll also talk about our targeted brownfield assessments and land revitalization.

#### 86

00:07:07,840 --> 00:07:15,199 I'll also go over the program's approach to meeting Justice40 goals and program benefits.

# 87

00:07:15,199 --> 00:07:19,448 And at that point, we'll have some time for Q&A about this presentation

#### 88

00:07:19,472 --> 00:07:21,806 and the program overall.

# 89

00:07:21,830 --> 00:07:27,599 So throughout the presentation please feel free to type your questions in the Q&A pod.

# 90

00:07:27,599 --> 00:07:30,648 We do have some staff that will be responding to your questions 00:07:30,672 --> 00:07:33,520 as you ask them during the presentation.

92

00:07:33,520 --> 00:07:38,560 And during the Q&A portion, I'll answer some questions live,

# 93

00:07:38,560 --> 00:07:43,520 if those are more-- some of them are more broadly applicable to the entire audience.

# 94

00:07:43,520 --> 00:07:48,879 And after the Q&A, we'd like to solicit some feedback from you all.

# 95

00:07:48,879 --> 00:07:53,944 So we have some questions to help focus a discussion around Justice40 goals,

# 96

00:07:53,968 --> 00:08:01,078 so we're particularly looking for ways to increase access to EPA's brownfields resources 00:08:01,102 --> 00:08:03,923 and maximize benefits in disadvantaged communities.

#### 98

00:08:03,947 --> 00:08:09,908 So our focused discussion will hopefully hear from you all on your feedback on that

# 99

00:08:09,932 --> 00:08:15,553 and then I'll also give a brief update on some other stakeholder engagement opportunities

#### 100

00:08:15,577 --> 00:08:18,560 that will be coming up.

# 101

00:08:18,560 --> 00:08:20,639 All right, next slide, please.

# 102

00:08:20,639 --> 00:08:26,479 So first, I want to go over the legal definition of a brownfield site,

103 00:08:26,479 --> 00:08:30,319 and that is a property, the expansion, redevelopment,

104 00:08:30,319 --> 00:08:33,527 or reuse of which may be complicated by the presence

105 00:08:33,551 --> 00:08:37,007 or potential presence of a hazardous substance pollutant,

106 00:08:37,031 --> 00:08:44,240 or contaminant and that is in CERCLA,101(39) or Superfund law.

107 00:08:44,240 --> 00:08:47,040 Next slide, please.

108 00:08:48,480 --> 00:08:52,707 So a lot of communities have difficulties in addressing

00:08:52,731 --> 00:08:54,880

109

and redeveloping brownfield sites,

110

00:08:54,880 --> 00:09:00,880 so when the levels of environmental contamination on a property are uncertain

# 111

00:09:00,880 --> 00:09:04,485 that property often sits vacant or under utilized

#### 112

00:09:04,509 --> 00:09:09,120 which contributes to disinvestment and blight in an area,

# 113

00:09:09,120 --> 00:09:13,588 so the presence of brownfield properties really puts a strain on the local economy,

#### 114

00:09:13,612 --> 00:09:19,519 the environment, and it can impact residents social well-being. 00:09:19,839 --> 00:09:22,640

Next slide, please.

116 00:09:22,959 --> 00:09:28,720 So the EPA's Brownfields and Revitalization program provides grants

# 117

00:09:28,720 --> 00:09:33,532 and technical assistance to help promote planning, assessment, cleanup

#### 118

00:09:33,556 --> 00:09:38,720 and reuse of brownfield sites as well as environmental job training for residents

#### 119

00:09:38,720 --> 00:09:42,959 that are impacted by brownfield sites in their communities.

# 120

00:09:42,959 --> 00:09:47,647 The program also provides liability protections to help encourage acquisition 00:09:47,671 --> 00:09:50,880 and investment in the reuse of brownfields,

122

00:09:50,880 --> 00:09:56,000 and also establishes and enhances state and tribal response programs.

123 00:09:56,000 --> 00:10:02,828 So these program resources provide assistance in assessing sites

124 00:10:02,952 --> 00:10:05,812 and cleaning up sites and that helps reduce risk,

125 00:10:05,836 --> 00:10:09,200 and uncertainty in reusing brownfield sites.

# 126

00:10:09,200 --> 00:10:14,168 So the EPA's upfront investments really enable communities to take the first steps

00:10:14,192 --> 00:10:17,519 towards brownfields cleanup and revitalization,

128 00:10:17,519 --> 00:10:20,256 and EPA is providing startup funding,

129 00:10:20,280 --> 00:10:25,802 and technical assistance to state, local, tribal and non-governmental champions

130 00:10:25,826 --> 00:10:30,000 and stakeholders to help address brownfields.

131 00:10:30,000 --> 00:10:33,320 Next slide.

132 00:10:33,920 --> 00:10:38,000 So next, just a little bit of historical context.

133

00:10:38,000 --> 00:10:43,440 So the brownfields program and EJ movement, really evolved over a similar timeline,

134 00:10:43,440 --> 00:10:46,880 helping to fuel one another and build strong communities.

13500:10:46,880 --> 00:10:53,528So in the 1990s concerns were growing about being able to reuse contaminated properties

136 00:10:53,552 --> 00:10:55,460 that were not Superfund sites.

13700:10:55,484 --> 00:11:01,095So the Brownfields and Land Revitalizationprogram was born out of the Superfund program

138 00:11:01,119 --> 00:11:09,159 in the sense that CERCLA or Superfund laws strict liability scheme made people afraid 00:11:09,259 --> 00:11:14,880 to invest in these lesser contaminated properties that were not Superfund sites.

140 00:11:14,880 --> 00:11:20,588 So the US conference of mayors in the early 90s advocated for financial support

141 00:11:20,612 --> 00:11:25,200 and liability protection for these lesser contaminated sites

142 00:11:25,200 --> 00:11:27,556 that are often found in downtown areas,

143 00:11:27,580 --> 00:11:33,519 and leaders in environmental justice were really at the table from the beginning of the program

#### 144

00:11:33,519 --> 00:11:38,880 sharing their concerns and helping to advise EPA on how to build a brownfields program.

00:11:38,880 --> 00:11:44,959 So in 1995 in particular, EPA and NEJAC held public hearings for EJ advocates

#### 146

00:11:44,959 --> 00:11:49,680 and residents to discuss their needs related to brownfield's funding,

#### 147

00:11:49,680 --> 00:11:54,440 and EJ has remained a core consideration of the Brownfields and Land Revitalization program

148 00:11:54,464 --> 00:11:58,560 throughout its evolution over the years.

149 00:11:58,800 --> 00:12:01,360 Next slide.

# 150

00:12:02,560 --> 00:12:09,600 So next, I'll talk a bit more in detail about each of these competitive brownfield grant types. 00:12:09,600 --> 00:12:15,760 So this fall we have coming up our Fiscal Year 22 competition,

152 00:12:15,760 --> 00:12:20,095 so our assessment cleanup and Revolving Loan Fund solicitation

153 00:12:20,119 --> 00:12:24,480 is expected to be available this month or next month.

154 00:12:24,480 --> 00:12:28,240 Our assessment and cleanup grants are offered annually

15500:12:28,240 --> 00:12:32,868and typically the Revolving Loan Fund grantsand multi-purpose grants alternate years.

156 00:12:32,892 --> 00:12:36,399 So this year we're competing the Revolving Loan Fund grants

00:12:36,399 --> 00:12:43,279 and it's expected that multi-purpose grants will be available in fall 2022.

#### 158

00:12:43,279 --> 00:12:47,920 And also we have brownfields job training grants that are offered annually

#### 159

00:12:47,920 --> 00:12:53,040 that solicitation is available right now, and is closing on October 5th.

16000:12:53,040 --> 00:12:58,160So in the coming slides, I'll talk a bitmore about each of these grant types.

161 00:12:58,160 --> 00:13:00,560 Next slide, thank you.

# 162

00:13:00,560 --> 00:13:06,399 So with an assessment grant there are a variety of eligible activities

00:13:06,399 --> 00:13:12,000 and some of these include an inventory to compile a list of brownfield sites,

#### 164

00:13:12,000 --> 00:13:19,040 characterizing sites to identify past uses, the assessment of brownfield sites

#### 165

00:13:19,040 --> 00:13:23,920 whether that's through phase 1 or phase 2 environmental site assessment.

#### 166

00:13:23,920 --> 00:13:30,079 Community involvement to help engage local stakeholders and site assessment decisions,

#### 167

00:13:30,079 --> 00:13:34,880 and also planning for site cleanup and redevelopment to identify opportunities

#### 168

00:13:34,880 --> 00:13:42,720 for redeveloping the site and help develop those site cleanup plans based on the reuse.

00:13:43,360 --> 00:13:45,519 Next slide, thanks.

170

00:13:45,519 --> 00:13:49,068 So a little bit more about the different types of assessment grants,

171

00:13:49,192 --> 00:13:51,500 because we do have a couple different types.

172 00:13:51,600 --> 00:13:55,931 So the community-wide assessment grants are for communities

173 00:13:55,955 --> 00:14:00,298 that don't have one specific site, maybe they're planning to serve a neighborhood

174 00:14:00,322 --> 00:14:02,399 or a particular area.

00:14:02,399 --> 00:14:06,639 And they're planning to use those grant funds on more than one brownfield site,

#### 176

00:14:06,639 --> 00:14:08,842 so that's the community-wide assessment grant

# 177

00:14:08,866 --> 00:14:13,600 and the funding for that is available up to 500,000 dollars.

# 178 00:14:13,600 --> 00:14:16,321

We also offer site-specific assessment grants

# 179

00:14:16,345 --> 00:14:21,600 for communities that are really focused on one particular site,

# 180 00:14:21,600 --> 00:14:26,160 and that funding is available for up to 350,000 dollars,

00:14:26,160 --> 00:14:32,020 and last we also are offering this year a community-wide assessment grant for states and tribes.

#### 182

00:14:32,044 --> 00:14:35,760 So this is only available to state agencies

#### 183

00:14:35,760 --> 00:14:40,880 and Indian tribes and these Alaska organizations here.

#### 184

00:14:40,880 --> 00:14:46,410 So in this competition, the applicant must plan to use these grant funds

185
00:14:46,434 --> 00:14:52,800
to assess at least 10 brownfield sites in
disadvantaged communities in its jurisdiction.

186 00:14:52,800 --> 00:14:58,800 And that funding will be available up to 200 or up to 2 million dollars, sorry.

187

00:14:58,800 --> 00:15:00,452 And I'll cover-- oh sorry.

188

00:15:00,476 --> 00:15:04,367 I did want to just mention we also have multi-purpose grants

189

00:15:04,391 --> 00:15:05,810 that do include funding for site assessment

190

00:15:05,834 --> 00:15:10,160 and I'll cover that more in detail on an upcoming slide.

191 00:15:10,160 --> 00:15:13,920 So first, next slide, thank you.

192 00:15:13,920 --> 00:15:16,720 I'll talk a little bit more about our cleanup grants.

#### 193

00:15:16,720 --> 00:15:22,560 So these grants provide funding for cleanup activities at one or more brownfield sites.

#### 194

00:15:22,560 --> 00:15:28,240 And at the time of application, the entity must own the site,

#### 195

00:15:28,240 --> 00:15:32,800 and these applications also require a 20% cost share,

#### 196

00:15:32,800 --> 00:15:36,480 and that cost share requirement is part of our statute.

#### 197

00:15:36,480 --> 00:15:43,279 The cost share may be in the form of contribution of money, labor, material, or services,

# 198 00:15:43,279 --> 00:15:47,920

and must be used for eligible and allowable costs under the grant.

199 00:15:47,920 --> 00:15:51,524 And communities can apply for a hardship waiver,

200 00:15:51,648 --> 00:15:53,810 which is granted on a case-by-case basis,

201 00:15:53,834 --> 00:16:01,120 and those cleanup grants are for funding up to 500,000 dollars.

202 00:16:01,360 --> 00:16:03,759 Next slide.

203 00:16:04,079 --> 00:16:10,247 So Brownfields Revolving Loan Fund grants provide capitalization funding

204 00:16:10,271 --> 00:16:12,819 to entities who make loans or sub grants

205 00:16:12,843 --> 00:16:16,720 to conduct cleanup activities at brownfield sites.

# 206

00:16:16,720 --> 00:16:21,147 So eligible entities can apply either individually or as a coalition,

# 207

00:16:21,171 --> 00:16:26,128 and our RLF grants also require a 20% cost share

# 208

00:16:26,152 --> 00:16:29,737 similarly to how I just explained for cleanup grants.

# 209

00:16:29,761 --> 00:16:35,480 Another thing to note is there is a non-competitive round of supplemental RLF funding,

210

00:16:35,504 --> 00:16:40,097 and that is for high performing grant recipients, and that occurs annually

211

00:16:40,121 --> 00:16:47,759 and funding for the Revolving Loan Fund grants is available up to one million dollars.

212 00:16:47,759 --> 00:16:51,000 Next slide.

#### 213

00:16:51,360 --> 00:16:55,428 All right and just a little bit more about the multi-purpose grants that I mentioned.

# 214

00:16:55,452 --> 00:17:00,107 So these grants exist to provide funding for a range of planning assessment

# 215

00:17:00,131 --> 00:17:03,680 and clean up activities within a target area,

216

00:17:03,680 --> 00:17:09,999 so with these grants, grantees must produce at least one phase II assessment,

217 00:17:10,023 --> 00:17:16,319 and one site cleanup and an overall plan for revitalization in the target area.

218 00:17:16,319 --> 00:17:22,823 These grants also require a cost share and funding is available for up to 800,000 dollars.

219 00:17:22,847 --> 00:17:26,050 And as I mentioned, multi-purpose grants are expected

220 00:17:26,074 --> 00:17:32,528 to be available next year since they are offered by annually.

00:17:32,552 --> 00:17:34,240

Next slide.

222

221

00:17:34,240 --> 00:17:38,160 All right and last but not least our Brownfields Job Training grants

223 00:17:38,184 --> 00:17:41,457 provide funding to recruit, train and place unemployed

224 00:17:41,481 --> 00:17:43,905 and underemployed residents of communities

225 00:17:43,929 --> 00:17:47,048 who are impacted by brownfield sites and other wastes.

226 00:17:47,072 --> 00:17:53,227 So these training programs provide graduates an opportunity to seek

227

00:17:53,251 --> 00:17:58,400 and obtain environmental jobs that contractors might otherwise fill

00:17:58,400 --> 00:18:01,486 with workers from outside of the impacted community,

#### 229

00:18:01,510 --> 00:18:08,160 and these grants are available for up to \$200,000 of funding.

230 00:18:09,520 --> 00:18:11,760 Next slide, thanks.

#### 231

00:18:11,760 --> 00:18:14,720 So I won't read through this entire list here,

#### 232

00:18:14,720 --> 00:18:19,440 but eligible entities for brownfield grants generally include governmental

#### 233

00:18:19,440 --> 00:18:25,997 and quasi-governmental entities, non-profits and limited liability corporations

00:18:26,021 --> 00:18:29,840 that have 501(c)(3) status and tried.

#### 235

00:18:29,840 --> 00:18:34,480 So this list here is always listed in our grant guidelines

#### 236

00:18:34,480 --> 00:18:40,080 and additional information is also available in the specific guideline FAQs

## 237

00:18:40,080 --> 00:18:45,120 that are released whenever we have guidelines come out on our website.

#### 238

00:18:45,120 --> 00:18:47,679 Next slide.

#### 239

00:18:48,799 --> 00:18:56,000 So this graphic up here provides a general timeline for EPA's brownfield grant competitions.

00:18:56,000 --> 00:18:59,919 And I have some more specific details on those timelines below.

#### 241

00:18:59,919 --> 00:19:04,275 So for our Fiscal Year 22, ARC or Assessment Revolving Loan Fund

#### 242

00:19:04,299 --> 00:19:08,080 and Cleanup grant competition, we're expecting that solicitation

243 00:19:08,080 --> 00:19:10,508 to come out this month or next month,

#### 244

00:19:10,532 --> 00:19:15,547 after the solicitation comes out or the guidelines, we use the term solicitation

#### 245

00:19:15,571 --> 00:19:18,000

and

guidelines interchangeably.

00:19:18,000 --> 00:19:24,208 But we'll have at least 60 days before the deadline is due for those applications

#### 247

00:19:24,232 --> 00:19:30,539 to be submitted, in roughly April to May that's when we expect solicitation

248

00:19:30,563 --> 00:19:32,880 selections to be announced.

249 00:19:32,880 --> 00:19:35,831 And in June through

September of next year

250 00:19:35,855 --> 00:19:39,986 that's when selected applicants will finalize their work plans

#### 251

00:19:40,010 --> 00:19:43,760 and work with regional program project officers

00:19:43,760 --> 00:19:47,168 to get some of that grant paperwork finalized,

#### 253

00:19:47,192 --> 00:19:50,400 and by September and October of next year

#### 254

00:19:50,400 --> 00:19:55,120 that's when these grants will be awarded and funds will become available.

255 00:19:55,120 --> 00:19:59,760 So the Fiscal Year 22 Job Training grants also are on a similar timeline,

# 256 00:19:59,760 --> 00:20:05,319 but a little bit ahead, so that solicitation as I mentioned is open right now

257 00:20:05,343 --> 00:20:08,080 that deadline is October 5th,

00:20:08,080 --> 00:20:13,039 and we expect selections to be announced in February of 2022,

#### 259

00:20:13,039 --> 00:20:16,640 July through August will be the time frame for working on those work plans,

#### 260

00:20:16,640 --> 00:20:23,520 and finalizing paperwork and then funds should be available in August and September.

261 00:20:24,559 --> 00:20:26,960 Next slide.

262 00:20:26,960 --> 00:20:31,440 So I have a couple of example success stories of communities

#### 263

00:20:31,440 --> 00:20:35,280 that have benefited from EPA brownfield funding.

00:20:35,280 --> 00:20:39,120 So in this story here, we have the city of Richmond

#### 265

00:20:39,120 --> 00:20:42,400 that has partnered with Richmond Community Foundation

#### 266

00:20:42,400 --> 00:20:45,867 and they were able to combine EPA brownfields funding

## 267 00:20:45,891 --> 00:20:51,972 with their own social impact bond program to help them purchase, rehabilitate

# 268 00:20:51,996 --> 00:20:55,987 and sell affordable housing that is energy efficient.

# 269 00:20:56,011 --> 00:21:00,480 And they've focused on selling those homes to first-time home buyers,

00:21:00,480 --> 00:21:05,120 particularly to help support wealth building in communities of color,

#### 271

00:21:05,120 --> 00:21:09,520 and this program has had a lot of great success over these past few years.

#### 272

00:21:09,520 --> 00:21:14,080 We have a case study that was recently published on the success story

#### 273

00:21:14,080 --> 00:21:19,440 if you're interested in learning more, I wanted to ask if I'd be able to drop that in the chat

#### 274

00:21:19,440 --> 00:21:26,428 if folks do want to see more information about that particular program,

#### 275

00:21:26,452 --> 00:21:28,641

I'll share that with my colleagues,

00:21:28,665 --> 00:21:33,039 and they can send that to you if anybody wants to read more.

#### 277

00:21:33,039 --> 00:21:35,600 Next slide.

#### 278

00:21:38,080 --> 00:21:43,520 So another success story we have is Zender, Inc. in Alaska,

#### 279

00:21:43,520 --> 00:21:47,168 so Zender, Inc, program provides training for underserved tribal

280 00:21:47,192 --> 00:21:50,799 and isolated rural populations in Alaska,

# 281 00:21:50,799 --> 00:21:57,520 and they have been able to train and place over 115 job training program participants.

00:21:57,520 --> 00:22:02,880 They have a 95% job placement rate and an average wage of over 18 dollars per hour

#### 283

00:22:02,880 --> 00:22:06,480 for graduates of their program.

284

00:22:08,559 --> 00:22:11,120 Next slide.

285

00:22:11,679 --> 00:22:13,933 So moving on from brownfield grants,

286

00:22:13,957 --> 00:22:18,885 I'd like to talk a little bit more about brownfield's technical assistance.

#### 287

00:22:18,909 --> 00:22:23,268 So EPA offers free technical assistance and training to communities

00:22:23,292 --> 00:22:26,103 and stakeholders on brownfield issues,

#### 289

00:22:26,127 --> 00:22:30,720 so in particular, our technical assistance to brownfield communities

#### 290

00:22:30,720 --> 00:22:34,948 or TAB providers help communities to navigate the assessment cleanup

291 00:22:34,972 --> 00:22:37,679 and redevelopment process.

292 00:22:37,679 --> 00:22:41,027 So some of the things that they can offer assistance with

#### 293

00:22:41,051 --> 00:22:48,454 include grant applications, performing site inventories, reviewing historical information

00:22:48,478 --> 00:22:52,799 about sites, the design of the investigation, sampling

#### 295

00:22:52,799 --> 00:22:59,039 and field analysis and cleanup and redevelopment planning as well.

296

00:23:00,320 --> 00:23:01,280 Thank you.

#### 297

00:23:01,280 --> 00:23:06,388 So this assistance is free to community stakeholders

#### 298

00:23:06,412 --> 00:23:10,107 to help them address brownfield sites and increase their understanding

#### 299

00:23:10,131 --> 00:23:12,317 and involvement in site cleanup 00:23:12,341 --> 00:23:16,587 and reuse and you do not have to be a brownfield grant recipient

301 00:23:16,611 --> 00:23:20,400 to request technical assistance from these providers.

302 00:23:20,400 --> 00:23:24,713 So information that you see here on this table on the left, all of this is available

303 00:23:24,737 --> 00:23:28,960 on our website, on our technical assistance page,

304 00:23:28,960 --> 00:23:33,440 so the TAB providers that I was just talking about are geographically based,

305 00:23:33,440 --> 00:23:36,947 so if you want to reach out to one of them, you should contact the TAB provider

00:23:36,971 --> 00:23:38,299 for your EPA region.

#### 307

00:23:38,799 --> 00:23:43,760 And we also have some specific technical assistance providers

308 00:23:43,760 --> 00:23:46,640 for focus areas on equitable development,

309 00:23:46,640 --> 00:23:50,010 so Groundwork USA provides nationwide resources

310 00:23:50,034 --> 00:23:54,156 and technical assistance to support equitable development

#### 311

00:23:54,180 --> 00:23:58,220 and environmental justice in communities that have brownfields,

00:23:58,320 --> 00:24:04,480 and we also have a TA provider focused on brownfields redevelopment training and education.

#### 313

00:24:04,480 --> 00:24:10,240 So that's the Hazardous Materials Training and Research Institute or HMTRI,

#### 314

00:24:10,240 --> 00:24:13,948 and they provide nationwide resources and training for current

31500:24:13,972 --> 00:24:18,840and prospective job training grantees.

316 00:24:19,279 --> 00:24:21,840 Next slide.

# 317 00:24:21,919 --> 00:24:26,221 So earlier this year, the American Rescue Plan was passed

00:24:26,245 --> 00:24:30,480 and the Brownfields and Land Revitalization program

319 00:24:30,480 --> 00:24:34,212 was able to receive 5 million dollars in ARP funding.

320 00:24:34,236 --> 00:24:40,668 The program has put this money towards our TAB providers that serve EPA's 10 regions

#### 321

00:24:40,692 --> 00:24:45,872 with the goal that these funds will help facilitate the removal of barriers

## 322

00:24:45,896 --> 00:24:50,727 to brownfields reuse and help spur redevelopment and sustainability

#### 323

00:24:50,751 --> 00:24:55,840 and stimulate economic activity in overburdened communities.

00:24:55,840 --> 00:25:00,281 So normally EPA funds are TAB providers year to year, but this funding ensures

#### 325

00:25:00,305 --> 00:25:07,520 that TAB providers have access to the resources they need to continue supporting communities.

#### 326

00:25:09,039 --> 00:25:11,600 Next slide.

#### 327

00:25:13,279 --> 00:25:18,428 So for communities that need assistance in assessing a brownfield site

#### 328

00:25:18,452 --> 00:25:21,679 we also offer targeted brownfields assessments,

#### 329

00:25:21,679 --> 00:25:26,847 so TBAs or Targeted Brownfields Assessments are conducted by an EPA contractor

00:25:26,871 --> 00:25:30,640 on behalf of public entities and nonprofits

#### 331

00:25:30,640 --> 00:25:38,159 and communities that are selected for TBAs are chosen locally on a rolling basis

#### 332

00:25:38,159 --> 00:25:43,039 and those services are usually for an average of about 100,000 dollars

# 333 00:25:43,039 --> 00:25:45,912 and those services can include site assessments,

33400:25:45,936 --> 00:25:50,320cleanup options and cost estimates,and community outreach.

## 335 00:25:50,320 --> 00:25:55,027 So EPA's TBA assistance is available through two sources,

00:25:55,051 --> 00:26:00,559 both directly from EPA through EPA's Regional Brownfield Offices

#### 337

00:26:00,559 --> 00:26:08,000 and from state and tribal voluntary response program offices that receive funding from EPA.

#### 338

00:26:08,000 --> 00:26:11,483 So if you're interested in finding out more about targeted brownfield assessments,

#### 339

00:26:11,507 --> 00:26:13,345 you can click on that link on the slide

340 00:26:13,369 --> 00:26:16,480 and that will give you more information about how you can reach out

341 00:26:16,480 --> 00:26:22,240 to your regional offices for more information.

#### 342

00:26:23,039 --> 00:26:25,840 Okay, next slide.

#### 343

00:26:26,400 --> 00:26:34,159 So EPA's Land Revitalization program offers tools, guides, trainings and best practices

#### 344

00:26:34,159 --> 00:26:38,559 to help communities sustainably reuse their brownfield sites.

#### 345

00:26:38,559 --> 00:26:41,621 There are many resources available on EPA's website,

346 00:26:41,645 --> 00:26:47,600 so the link on this slide takes you to EPA's Land and Revitalization toolkit

#### 347

00:26:47,600 --> 00:26:52,647 and that toolkit is organized into different stages of the redevelopment process

#### 348

00:26:52,671 --> 00:26:59,679 to help stakeholders find what resources we have in particular for site reuse,

#### 349

00:26:59,679 --> 00:27:06,640 pre-development, development and managing and operations of the site.

#### 350

00:27:06,640 --> 00:27:11,108 The program also conducts land revitalization technical assistance projects

#### 351

00:27:11,132 --> 00:27:16,880 to help communities move past barriers to site reuse.

352 00:27:17,360 --> 00:27:20,360 Next, slide.

#### 353

00:27:20,480 --> 00:27:26,210

So I'll talk a little bit more about the Brownfields

and Land Revitalization programs approach

354

00:27:26,234 --> 00:27:28,720

for meeting the Justice40 initiative.

#### 355

00:27:28,720 --> 00:27:33,520 So the program has looked back at our most recent grant competitions

#### 356

00:27:33,520 --> 00:27:40,480 from Fiscal Year 21 to identify applicants that are serving disadvantaged communities

#### 357

00:27:40,480 --> 00:27:44,159 that were selected to receive brownfields grants

#### 358

00:27:44,159 --> 00:27:47,388 and part of that analysis included projecting the benefits

359 00:27:47,412 --> 00:27:52,320 that we expect to accrue as a result of those grant dollars.

#### 360

00:27:52,320 --> 00:27:58,080 The program has also made changes to the Fiscal Year 22 Brownfields Assessment

#### 361

00:27:58,080 --> 00:28:03,679 Revolving Loan Fund and Cleanup grant guidelines that are coming out this or next month,

#### 362

00:28:03,679 --> 00:28:07,039 and those changes were to reflect Justice40 goals

#### 363

00:28:07,039 --> 00:28:09,879 and help improve our process for tracking benefits

#### 364

00:28:09,903 --> 00:28:12,880 in disadvantaged

communities in the future.

#### 365

00:28:12,880 --> 00:28:16,228

So we're asking applicants now to make sure they provide addresses

366 00:28:16,252 --> 00:28:18,837 if they have site-specific work

367 00:28:18,861 --> 00:28:23,440 and also provide census tract numbers if it's applicable

## 368

00:28:23,440 --> 00:28:29,120 for a target area that is a particular neighborhood or area that's smaller than

369 00:28:29,120 --> 00:28:33,360 the overall town or city or county.

370 00:28:33,440 --> 00:28:37,088 And of course part of our approach is to engage with stakeholders,

371 00:28:37,112 --> 00:28:41,840 we're hoping to get feedback from you all on this call in just a bit,

372

00:28:41,840 --> 00:28:45,840 so we do have some additional opportunities for stakeholders to engage

#### 373

00:28:45,840 --> 00:28:51,520 with the program in the future and I'll talk a bit more about those opportunities,

374

00:28:51,520 --> 00:28:54,880 once we've had our discussion.

375 00:28:55,840 --> 00:28:59,039 And next slide, thanks.

376 00:28:59,039 --> 00:29:01,491 So after, we're going to have some Q&A first,

37700:29:01,515 --> 00:29:05,912but after our Q&A, we'd like to hear fromyou all about the prevalence of brownfields

00:29:05,936 --> 00:29:09,567 in your communities and if you're aware of EPA brownfield resources

#### 379

00:29:09,591 --> 00:29:14,399 to help with site assessment, cleanup, reuse and job training,

#### 380

00:29:14,399 --> 00:29:18,880 we'd like to have a conversation about the benefits of the program.

#### 381

00:29:18,880 --> 00:29:21,887 So the program does ask grant recipients to report

#### 382

00:29:22,011 --> 00:29:26,011 on the number of sites that are assessed, cleaned up

## 383

00:29:26,035 --> 00:29:31,600 and a number of job training program participants who are trained in place,

#### 384

00:29:31,600 --> 00:29:36,159 but we want to hear from you all too if you experience additional benefits beyond

#### 385

00:29:36,159 --> 00:29:41,679 site assessment, cleanup and job trainees that benefit from our funding.

#### 386

00:29:41,679 --> 00:29:45,840 So we're looking for feedback that will help inform our program

#### 387

00:29:45,840 --> 00:29:50,640 how to maximize these benefits in disadvantaged communities.

#### 388

00:29:51,200 --> 00:29:53,120 Next slide.

389 00:29:53,120 --> 00:30:00,000 All right, so I'll invite you to submit questions in the Q&A pod if you haven't already

#### 390

00:30:00,000 --> 00:30:03,360 about this presentation and what I've talked about so far.

#### 391

00:30:03,360 --> 00:30:08,868 My colleagues have been answering some questions I think during the presentation.

#### 392

00:30:08,892 --> 00:30:16,799 If we have any that are applicable to the whole group, I can respond to those here,

#### 393

00:30:16,799 --> 00:30:18,980 And I'll-- oh sorry go ahead.

394
00:30:19,004 --> 00:30:23,467
Victoria Robinson: I was gonna say thank you
Elyse, as we start getting a couple questions,

#### 395

00:30:23,491 --> 00:30:30,371 I just wanted to let folks know that the links that are not where the URL

396

00:30:30,495 --> 00:30:32,452 is not evident in the slides.

397

00:30:32,476 --> 00:30:36,887 We will make sure that they are included in the copy of the slide deck

398 00:30:37,011 --> 00:30:38,333 that we will make available.

39900:30:38,357 --> 00:30:43,028So we will actually put the-- spell outthe URLs so that you can find those things,

00:30:43,052 --> 00:30:45,743 much easier when you guys see the slide deck.

400

401 00:30:45,767 --> 00:30:50,720 And I think some of those are also being put into the Q&A pod as well,

00:30:50,720 --> 00:30:52,764 and we'll go from there.

#### 403

00:30:52,788 --> 00:30:58,000 So I was going to ask Patricia, I know you're typing an answer,

#### 404

00:30:58,000 --> 00:31:02,640 did you want me to go ahead and read the question from-- the first question

405 00:31:02,640 --> 00:31:05,840 or you want to go ahead and read that question?

## 406

00:31:08,240 --> 00:31:11,600 Patricia Overmeyer: Go ahead and read the question, please.

# 407 00:31:11,600 --> 00:31:12,847 Victoria Robinson: Okay I'll go ahead and read it.

00:31:12,871 --> 00:31:22,201 Elyse, we have a question that was asked by Karen Sprayberry,

#### 409

00:31:22,225 --> 00:31:30,159 will applicants get additional points toward their RFP if they are in an EJ community?

#### 410

00:31:30,480 --> 00:31:33,440 Elyse Sutkus: Okay great, thanks for your question.

#### 411

00:31:33,440 --> 00:31:40,399 So we evaluate our applications based on their responses to the criteria

### 412

00:31:40,399 --> 00:31:48,399 that are in our guidelines and we do try to highlight sensitive populations in those guidelines.

#### 413

00:31:48,399 --> 00:31:53,612 So strong applications will describe the EJ issues that are faced by the community,

414

00:31:53,636 --> 00:31:56,054 they propose to serve.

#### 415

00:31:56,078 --> 00:32:02,099 So our upcoming grant guidelines, they'll be evaluated on the extent to which grantees

#### 416

00:32:02,123 --> 00:32:07,158 can demonstrate that their project will address threats to sensitive populations,

#### 417

00:32:07,182 --> 00:32:12,168 including their health or welfare if there are any greater than normal incidence

## 418

00:32:12,192 --> 00:32:15,279 of diseases or adverse health conditions,

419 00:32:15,279 --> 00:32:19,039 and any disproportionately impacted populations.

#### 420

00:32:19,039 --> 00:32:27,559 So we don't award automatic points or anything for communities in that are identified as EJ,

#### 421

00:32:27,583 --> 00:32:33,344 but we ask our grantees or applicants to explain their situation

#### 422

00:32:33,368 --> 00:32:40,840 and respond to our criteria and those that articulate those clear problems

#### 423

00:32:40,840 --> 00:32:45,043 will score more favorably.

424 00:32:45,067 --> 00:32:48,000 Victoria Robinson: Thank you very much, Elyse.

#### 425

00:32:48,024 --> 00:32:50,493

The next question

from Maureen Goulet,

00:32:50,517 --> 00:32:54,886 are the same organizations such as states, nonprofits, etc.,

#### 427

00:32:54,910 --> 00:33:02,640 eligible to apply for the training funds?

#### 428

00:33:02,640 --> 00:33:05,747 Elyse Sutkus: I'm not entirely clear on which training--

429 00:33:05,771 --> 00:33:10,311 oh, do you mean for the brownfield job training grant?

430 00:33:10,335 --> 00:33:17,940 So as I mentioned those-- the list of the full eligible entities is in the solicitation

#### 431

00:33:17,964 --> 00:33:24,919 and I believe that those entities are the same.

00:33:25,840 --> 00:33:31,440 I think that we also-- I might have to get back to you on that one,

## 433

00:33:31,440 --> 00:33:35,268 but it's my understanding that the eligible entities that I mentioned are available

### 434

00:33:35,292 --> 00:33:41,279 for the job training grants and there might be another category as well.

#### 435

00:33:41,279 --> 00:33:44,823 Patricia Overmeyer: Yes-- this is Patricia.

#### 436

00:33:44,847 --> 00:33:49,207 Generally, they're the same entities but there are additional criteria

#### 437

00:33:49,231 --> 00:33:53,600 on that basically to apply for a job training grant.

00:33:53,600 --> 00:33:57,539 You also have to have a job training program

## 439

00:33:57,563 --> 00:34:02,261 that basically our grant is to add to your curriculum.

# 440

00:34:02,285 --> 00:34:06,923 So basically you use a brownfields job training grant

#### 441

00:34:06,947 --> 00:34:13,918 to add environmental job training brownfield, job training,

# 442

00:34:13,918 --> 00:34:16,968 curriculum, training classes to your curriculum.

# 443 00:34:16,992 --> 00:34:23,119 So you generally will have to have or

be putting together a job training program

444

448

00:34:23,119 --> 00:34:30,159 to score sufficiently to get a Brownfield Job Training grant.

445 00:34:30,800 --> 00:34:32,879 Victoria Robinson: Thank you, Patricia.

446 00:34:32,879 --> 00:34:35,387 Next question from Maritza Alvarez.

447 00:34:35,411 --> 00:34:41,679 Are brownfields restricted to land or can they also include bodies of waters

00:34:41,679 --> 00:34:45,768 such as urban rivers that run through heavily industrialized communities

449 00:34:45,792 --> 00:34:50,560 with runoff impacting BIPOC communities?

00:34:51,280 --> 00:34:53,132 Elyse Sutkus: Thanks for the question.

#### 451

00:34:53,156 --> 00:34:58,067 So our grants are specifically for brownfield properties or sites

452

00:34:58,091 --> 00:35:01,280 that need assessment and cleanup.

453

00:35:01,280 --> 00:35:06,640 I know we have had situations where if there is a river

#### 454

00:35:06,640 --> 00:35:12,335 that runs through a brownfield property and the community is interested in daylighting

## 455

00:35:12,359 --> 00:35:17,417 that river or stream, there can be, additional investigation into that.

00:35:17,441 --> 00:35:23,384 But the funding really does center around brownfield properties

## 457

00:35:23,408 --> 00:35:27,839 that are land not bodies of water.

458

00:35:29,359 --> 00:35:30,880

Victoria Robinson: Thank you.

459

00:35:30,880 --> 00:35:32,622

Next questions.

460

00:35:32,646 --> 00:35:40,880 From-- is our tribal funds just for the federally recognized tribes?

# 461

00:35:42,640 --> 00:35:48,320 Elyse Sutkus: It looks like my colleague is typing a response to that question. 00:35:49,040 --> 00:35:50,320

Victoria Robinson: Okay.

463 00:35:50,320 --> 00:35:52,560 Thank you.

464 00:35:52,560 --> 00:35:53,571 Next question.

465 00:35:53,595 --> 00:35:56,215 Does EPA measure the life cycle cost

466 00:35:56,239 --> 00:36:01,958 with EJ considerations of where the cleaned up waste ends up cradle to grave,

467

00:36:01,982 --> 00:36:06,741 should we measure the impacts to ensure the waste removed from a contaminated site

468 00:36:06,765 --> 00:36:10,319 isn't taken to a TSDF/approved facility

00:36:10,343 --> 00:36:13,133 that may impact a disenfranchised community,

470 00:36:13,157 --> 00:36:17,440 are there resources that can help?

00:36:18,480 --> 00:36:20,611 Patricia Overmeyer: This is Patricia.

472

471

00:36:20,635 --> 00:36:22,339 Our program does not measure this.

473

00:36:22,363 --> 00:36:27,268 The brownfields program does not measure the life cycle cost of waste

474 00:36:27,292 --> 00:36:32,560 that's removed from brownfields even if our funding is used to remove it, 00:36:32,560 --> 00:36:39,853 however, someone in the Resource Conservation and Recovery Act Office

476 00:36:39,877 --> 00:36:43,058 at EPA may have more information,

477 00:36:43,082 --> 00:36:49,359 but this is beyond our area of expertise.

478 00:36:50,000 --> 00:36:52,000 Victoria Robinson: All right, thank you.

479 00:36:52,000 --> 00:36:54,960 Next question from Amelina.

480

00:36:54,960 --> 00:37:00,401 What tools and specific criteria are you using to identify disadvantaged communities?

481

00:37:00,425 --> 00:37:04,587

how close to a brownfield site does a disadvantaged community need to be,

482 00:37:04,611 --> 00:37:09,839 in order for the site to be covered by Justice40.

483

00:37:10,480 --> 00:37:13,646 Elyse Sutkus: 1'm not sure.

484

00:37:13,670 --> 00:37:17,120 Oh Patricia, did you want to respond to that?

485

00:37:17,220 --> 00:37:18,858 Patricia Overmeyer: I'll try, I'll give it a try.

486

00:37:18,882 --> 00:37:24,249 So the question is nothing-- basically how close to the community

487

00:37:24,373 --> 00:37:28,712

or basically when you apply for a ground field-- a brownfields grant,

# 488 00:37:28,736 --> 00:37:35,828 you can either apply for community-wide assessment grant, a site-specific assessment grant

#### 489

00:37:35,852 --> 00:37:39,760 and then for cleanup grants you apply for sites specific.

#### 490

00:37:39,760 --> 00:37:43,712 So generally, we don't have any criteria with regard

## 491

00:37:43,736 --> 00:37:49,990 to how close the brownfield site has to be to any particular population,

# 492

00:37:50,014 --> 00:37:56,241 but we do expect our applicants to provide information about the community 00:37:56,265 --> 00:38:04,568 that's going to usurp the benefits of either assessing or cleaning up that property.

#### 494

00:38:04,592 --> 00:38:08,720 So we don't put a distance on it if it's right next door,

495 00:38:08,720 --> 00:38:12,308 if it's, what we-it's a couple blocks or a mile away,

#### 496

00:38:12,332 --> 00:38:18,879 but we do want the applicant to explain to us that during the-- if the site is assessed

#### 497

00:38:18,903 --> 00:38:20,963 and or cleaned up with our funds,

## 498

00:38:20,987 --> 00:38:26,055 we want to know who's going to benefit from that cleanup or that assessment

00:38:26,079 --> 00:38:35,488 and we do expect an award a greater point for those applicants

#### 500

00:38:35,512 --> 00:38:42,720 that can show that disadvantaged or economically challenged,

# 501

00:38:42,720 --> 00:38:46,668 communities are in fact the beneficiaries of the brownfields grant

502 00:38:46,692 --> 00:38:51,520 and the project that's going to be funded.

503 00:38:51,680 --> 00:38:52,100 Victoria Robinson: Thank you.

504 00:38:52,124 --> 00:38:54,846 We're going to do the next three questions,

00:38:54,870 --> 00:38:57,920 and then-- that does not mean necessary that the fourth

#### 506

00:38:57,920 --> 00:38:59,678 or future questions are not going to be answered,

## 507

00:38:59,702 --> 00:39:04,800 we're going to move on to these engagement questions in just a moment,

508 00:39:04,800 --> 00:39:07,599 we'll answer the next three.

509 00:39:07,599 --> 00:39:09,200 Maureen Goulet.

# 510 00:39:09,200 --> 00:39:11,680

I'm hoping I'm

pronouncing that correctly.

511

00:39:11,680 --> 00:39:18,255 Says that you mentioned that ARP is looking to remove barriers to brownfields reeves,

512 00:39:18,279 --> 00:39:21,200 can you elaborate?

513 00:39:21,200 --> 00:39:23,228 Elyse Sutkus: I can start out answering that,

#### 514

00:39:23,252 --> 00:39:29,897 so as I mentioned the program has put the ARP funding towards our technical assistance

# 515

00:39:29,921 --> 00:39:32,000 to brownfields providers.

# 516

00:39:32,000 --> 00:39:35,108 And those providers are free and available for any communities

517 00:39:35,132 --> 00:39:38,951 that have brownfields so there is the goal

518

00:39:38,975 --> 00:39:44,445 that these providers are there to help any disadvantaged communities

#### 519

00:39:44,469 --> 00:39:48,674 that have challenges with brownfields, it's free and available for them

# 520

00:39:48,698 --> 00:39:52,079 to reach out to these providers for assistance

# 521

00:39:52,079 --> 00:39:56,880 with understanding the process or understanding the application process,

# 522

00:39:56,880 --> 00:40:01,599 or other resources that might be available for them.

523 00:40:01,599 --> 00:40:08,000 So the goal is that this funding is there to help anyone, not just successful

524 00:40:08,000 --> 00:40:11,839 applicants for our grant.

525 00:40:12,640 --> 00:40:14,319 Victoria Robinson: Thank you, Elyse.

526 00:40:14,319 --> 00:40:19,426 Next question from David Brewster.

527 00:40:19,450 --> 00:40:26,960 Is EPA tracking House Resolution 4427 entitled Brownfields Redevelopment Tax

528 00:40:26,960 --> 00:40:30,319 Incentive Reauthorization Act of 2021?

## 529

00:40:30,319 --> 00:40:35,654 While it's not a direct funding source from EPA, it is an incentive program for private cleanup

00:40:35,678 --> 00:40:37,819 and development of brownfields.

#### 531

00:40:37,843 --> 00:40:44,560 If EPA is tracking this bill, is there any information or update that you can provide?

532 00:40:44,560 --> 00:40:47,647 Patricia Overmeyer: This is Patricia.

#### 533

00:40:47,671 --> 00:40:54,720 We are tracking it somewhat, I don't think the bill has a lot of co-sponsors yet,

# 534

00:40:54,720 --> 00:40:58,560 but for those of you who aren't familiar with the bill,

# 535

00:40:58,560 --> 00:41:04,711 several years ago, there was a federal brownfields tax incentive 00:41:04,735 --> 00:41:07,911

that was in place that was basically

537 00:41:07,935 --> 00:41:13,148 a form of accelerated depreciation for those companies,

538 00:41:13,172 --> 00:41:16,000 who were cleaning up brownfields

#### 539

00:41:16,000 --> 00:41:23,707 that basically rather than depreciate the cost of a cleanup over the life cycle of the equipment

540

00:41:23,731 --> 00:41:30,106 and the cleanup, the tax incentive allowed all those costs

# 541 00:41:30,130 --> 00:41:36,527 to be used as a accelerated--

as depreciation in the year

542

00:41:36,551 --> 00:41:39,736

that the cleanup was conducted.

543 00:41:39,760 --> 00:41:44,440 The the tax credit-- tax incentive I should say,

544

00:41:44,464 --> 00:41:50,483 The tax incentive sunset I think somewhere around 2011 or 2012,

545 00:41:50,607 --> 00:41:54,400 it has not come back yet.

546 00:41:54,400 --> 00:41:58,828 It usually it used to be part of the what they used to call the extenders package,

547 00:41:58,852 --> 00:42:06,249 which was a grouping of tax incentives that are passed every couple of years

548 00:42:06,273 --> 00:42:08,194 by congress as a package.

549 00:42:08,517 --> 00:42:11,090 It got taken out of that package,

550 00:42:11,114 --> 00:42:18,214 and since it's had some struggles with getting enough sponsors in congress.

# 551 00:42:18,238 --> 00:42:23,981 So right now, I think there is a limited try,

552 00:42:24,005 --> 00:42:30,800 or a limited push within the house to put this back in place,

553 00:42:30,800 --> 00:42:36,400 but as of yet, I don't think it has enough sponsors to really get back into

554 00:42:36,400 --> 00:42:39,568 that extenders package or to make it to the-- through the committee

555 00:42:39,592 --> 00:42:43,218 and to the floor on its own.

556 00:42:43,242 --> 00:42:45,520 Victoria Robinson: Thank you, Patricia.

557 00:42:45,520 --> 00:42:48,741 Question from Jacques Werle.

558 00:42:48,765 --> 00:42:55,920 How do you first identify or designate a brownfield site?

559 00:42:56,839 --> 00:43:01,528 Elyse Sutkus: So a brownfield site is really a property

560 00:43:01,552 --> 00:43:05,376 that is contaminated or potentially is contaminated.

00:43:05,400 --> 00:43:10,240 So it could be a site that is just suspected of contamination.

## 562

00:43:10,240 --> 00:43:15,359 And, these sites can include some something like a closed dry cleaner

## 563

00:43:15,359 --> 00:43:20,160 or auto body shop, abandoned gas stations, etc.

564 00:43:20,160 --> 00:43:22,828 So I'm not sure.

# 565

00:43:22,852 --> 00:43:27,111 Patricia if you want to talk a little bit more about all appropriate inquiries at any point,

# 566

00:43:27,135 --> 00:43:33,200 but part of our program is providing funding for communities to assess these sites

00:43:33,200 --> 00:43:36,400 that are suspected of contamination.

### 568

00:43:36,400 --> 00:43:41,839 And that's the main purpose of our assessment grant.

569 00:43:43,839 --> 00:43:45,988 Patricia Overmeyer: Yeah, this is Patricia.

## 570

00:43:46,012 --> 00:43:50,444 Basically, any real property can really be a brownfield site.

# 571

00:43:50,468 --> 00:43:54,828 There are some-- there are some sites that we consider not brownfields,

# 572

00:43:54,852 --> 00:44:00,455 but basically if a property looks bad or it seems like either it's contaminated

00:44:00,479 --> 00:44:04,557 or it's perceived to be contaminated, that site could be a brownfield site

#### 574

00:44:04,581 --> 00:44:09,520 we do exclude very limited numbers of sites from brownfield sites,

## 575

00:44:09,520 --> 00:44:13,847 and we exclude them basically just because they're not-- they don't qualify for our funding.

# 576 00:44:13,871 --> 00:44:17,287 And there's sites that are excluded what we exclude from the definition

577 00:44:17,311 --> 00:44:20,687 of brownfield, it's basically any site that's a Superfund site

# 578 00:44:20,711 --> 00:44:23,359 that basically gets on the national priorities list

00:44:23,359 --> 00:44:28,784 because that funding needs to come from the polluters and or from the Superfund.

#### 580

00:44:28,808 --> 00:44:30,969 And we also exclude federal facilities,

# 581

00:44:30,993 --> 00:44:35,280 because federal facilities are owned by the federal government,

#### 582

00:44:35,280 --> 00:44:40,366 some branch of the military or DOE or some other part of the federal government,

# 583

00:44:40,390 --> 00:44:43,325 and so those entities are responsible for the cleanup,

# 584 00:44:43,349 --> 00:44:47,328 so we don't include them in brownfields,

the definition of brownfield site

## 585

00:44:47,352 --> 00:44:52,480 and we don't provide funding for them and then there are other certain sites--

## 586

00:44:52,480 --> 00:44:55,768 some sites under the Resource Conservation and Recovery Act.

# 587

00:44:55,792 --> 00:45:04,188 And a couple of a very minor number of sites in the underground storage bank program

## 588

00:45:04,212 --> 00:45:08,400 if they're already-- if underground storage tank sites are leaking on the restoration states

### 589

00:45:08,400 --> 00:45:14,668 are being funded with the less trust fund then we don't include them.

590 00:45:15,680 --> 00:45:19,348 Congress made the definition of a brownfield site very broad

591 00:45:19,372 --> 00:45:24,879 so that communities could make use of our funds could apply for

# 592

00:45:24,903 --> 00:45:31,119 and make use of our funds, so we're very careful about not restricting sites from the definition

#### 593

00:45:31,119 --> 00:45:38,160 as long as they don't fall within those very few excluded categories.

## 594

00:45:38,560 --> 00:45:41,148 Victoria Robinson: Thank you very much Patricia and this question

# 595

00:45:41,172 --> 00:45:44,079 here I'm going to direct to Matthew and Charles

596

00:45:44,079 --> 00:45:49,676 and while we're answering that question then we'll be moving to the next set of questions

597 00:45:49,700 --> 00:45:55,128 and we'll give instructions on how we're handling that session of that conversation--

598 00:45:55,152 --> 00:45:59,511 So Matthew and Charles, the question is from Melinda Bouquet.

599 00:45:59,535 --> 00:46:08,240 Are their criteria to define disadvantage, i.e below median income or other such criteria?

00:46:08,960 --> 00:46:11,348 Matthew Tejada: Yeah, so there's a little bit of language

601

600

00:46:11,372 --> 00:46:15,252 and I haven't read it in a couple months, it's sitting on my shelf right over there.

00:46:15,276 --> 00:46:21,119 There's a little bit of language though in the actual Executive Order 14008

# 603

00:46:21,119 --> 00:46:28,738 on what disadvantaged means but the big piece of that

## 604

00:46:28,762 --> 00:46:33,599 is that CEQ, the Council on Environmental Quality at the White House,

# 605

00:46:33,599 --> 00:46:39,200 as well as the Office of Management Budget which is another part of the White House,

## 606

00:46:39,200 --> 00:46:46,108 they are in charge of producing a tool, a new tool, a climate and environmental justice

## 607

00:46:46,132 --> 00:46:50,640 and a climate and economic justice screening tool-- excuse me

00:46:50,640 --> 00:46:57,440 and that tool-- I guess its primary purpose, maybe its sole purpose

## 609

00:46:57,440 --> 00:47:02,400 is to delineate what is a disadvantaged community.

# 610

00:47:02,400 --> 00:47:06,208 So that is being worked on at a very high level over at the White House

## 611

00:47:06,232 --> 00:47:12,720 and we, like a lot of folks in the public, are very curious

612 00:47:12,720 --> 00:47:16,730 to see what that tool contains once it is released to the public,

613 00:47:16,754 --> 00:47:23,200 it has not been released yet, we have not reviewed a version of it or anything,

614

00:47:23,200 --> 00:47:26,800 so we are curious about that.

615

00:47:26,800 --> 00:47:32,474 I think it will contain, it will likely contain a lot of different information,

### 616

00:47:32,498 --> 00:47:36,960 obviously climate and economics are in its title,

#### 617

00:47:36,960 --> 00:47:43,920 I would imagine it would also contain demographic information, income information,

# 618

00:47:43,920 --> 00:47:49,598 maybe some other environmental or health or housing data sets, we'll see,

# 619

00:47:49,622 --> 00:47:52,720 that's all being handled

over the White House

## 620

00:47:52,720 --> 00:47:57,828 and that will determine for the long-term implementation of Justice40

## 621

00:47:57,852 --> 00:48:05,559 exactly which communities across the United States are designated as disadvantaged.

# 622

00:48:06,319 --> 00:48:08,108 Victoria Robinson: Thank you very much, Matt.

#### 623

00:48:08,132 --> 00:48:10,988 As we move to the next section of the call,

624 00:48:11,012 --> 00:48:16,000 it's the listening session and dialogue which will be--

625 00:48:16,000 --> 00:48:20,975 have several questions that the brownfields program would like to get feedback on from you.

## 626

00:48:20,999 --> 00:48:26,160 To participate, so we're asking you to provide any comments or questions in the Q&A pod,

## 627

00:48:26,160 --> 00:48:30,079 please go ahead and put those in there like some of you've already been doing.

## 628

00:48:30,079 --> 00:48:35,119 When prompted, we're going to ask you right now go ahead and raise your hand

#### 629

00:48:36,319 --> 00:48:38,927 to indicate that you would like to ask a question.

#### 630

00:48:38,951 --> 00:48:42,564 If you're using a phone, press \*9 to raise your hand

#### 631

00:48:42,588 --> 00:48:46,053

and then when we will see that when it's your turn to ask a question

632 00:48:46,077 --> 00:48:49,037 we'll call you out and give you the last call out the last three digits

# 633

00:48:49,061 --> 00:48:52,348 of your phone number and ask you to unmute your line at that time.

#### 634

00:48:52,372 --> 00:48:55,528 And once again, please limit your questions or comments to one minute

## 635

00:48:55,552 --> 00:48:58,327 to allow as many people to ask questions as possible.

# 636

00:48:58,351 --> 00:49:03,408 So I'm going to turn it now back to Elyse for her to start with her questions 00:49:03,432 --> 00:49:07,280

that she would like to get feedback on.

638

00:49:07,760 --> 00:49:09,440

Elyse Sutkus: Thank you, Victoria.

639

00:49:09,440 --> 00:49:14,188 So on this first slide we just have more of a couple icebreaker questions.

## 640

00:49:14,212 --> 00:49:19,017 So we're just looking to hear from any of you about a response to these.

## 641

00:49:19,041 --> 00:49:21,448 Do you have brownfield sites in your community?

### 642

00:49:21,472 --> 00:49:27,705 And are you aware of resources, in particular EPA resources for brownfields assessment,

### 643

00:49:27,729 --> 00:49:31,839

cleanup, reuse, job training and technical assistance?

644 00:49:31,839 --> 00:49:39,400 So please, as Victoria said feel free to respond in the chat or raise your hand.

#### 645

00:49:44,960 --> 00:49:49,440 Victoria Robinson: All right, we're gonna have Michelle Jackson.

#### 646

00:49:49,440 --> 00:49:53,040 You can go ahead and unmute your line.

## 647

00:49:53,040 --> 00:49:58,528 Michelle Jackson: Yes, I'm aware of funding for brownfield cleanup

#### 648

00:49:58,552 --> 00:50:04,079 but it seems like it only goes to the bigger corporations.

649 00:50:04,079 --> 00:50:12,400 So I don't know of any small ones, I live in the city of Detroit, I live on the east side of Detroit.

650 00:50:12,400 --> 00:50:20,028 I do know FIAT did the expansion, they received some funding for brownfield

## 651

00:50:20,052 --> 00:50:24,756 and also a new project that's very big over here

#### 652

00:50:24,780 --> 00:50:30,609 where they just recently tore down the old Cadillac plant

## 653

00:50:30,633 --> 00:50:33,146 that was by the city airport.

#### 654

00:50:33,170 --> 00:50:41,148 So money is out there but I don't see any-- I don't see any remnants in the smaller community

#### 655

00:50:41,172 --> 00:50:43,475

that's touching the

smaller communities,

656

00:50:43,499 --> 00:50:49,599 it's basically going to the

bigger corporations, I'll say.

657 00:50:52,800 --> 00:50:53,368 Thank you.

## 658 00:50:53,392 --> 00:50:57,520 Victoria Robinson: Thank you very much. Elyse Sutkus: Thank you, Michelle.

## 659

00:51:00,079 --> 00:51:05,960 Victoria Robinson: Anybody else have a question or comment they want to add to that?

## 660

00:51:11,440 --> 00:51:15,200 Okay, somebody asked if we could show the speakers instead of the slide.

#### 661

00:51:16,880 --> 00:51:23,680

That's going to be a little bit more difficult to be able to do both.

662 00:51:23,680 --> 00:51:28,268 We would lose the questions for the time being.

## 663

00:51:28,292 --> 00:51:32,319 So I'll leave it up to Elyse how she want to move forward on that.

### 664

00:51:32,319 --> 00:51:37,160 Elyse Sutkus: Can you still see those speakers on the side?

#### 665

00:51:37,520 --> 00:51:40,249 Matthew Tejada: You should be able to change your view where you get

## 666

00:51:40,273 --> 00:51:47,754 not little tiny speaker squares but actual bigger boxes next to the slide, 00:51:47,778 --> 00:51:50,200

but yeah we--

668 00:51:50,480 --> 00:51:54,968 We're trying as best we can to get folks the visuals that people want

#### 669

00:51:54,992 --> 00:52:01,336 but we're not experts and this is not a platform designed specifically for this purpose,

#### 670

00:52:01,360 --> 00:52:04,680 so we'll do the best we can.

671

00:52:04,800 --> 00:52:07,359 Victoria Robinson: Thank you, Matt.

672 00:52:08,880 --> 00:52:11,348 Any other have any questions?

673 00:52:11,372 --> 00:52:14,887 Elyse Sutkus: There aren't any but any other attendees that want to comment on this,

00:52:14,911 --> 00:52:18,532 we can move on to the next couple questions.

#### 675

00:52:18,556 --> 00:52:21,280 Victoria Robinson: Okay we'll do that now.

## 676

00:52:21,920 --> 00:52:25,928 All right so this gets to a bit more of the heart

677 00:52:25,952 --> 00:52:29,599 of what we're trying to get feedback on from you all.

# 678 00:52:29,599 --> 00:52:34,241 So we'd like to ask what barriers or challenges do you see for disadvantaged communities

### 679

00:52:34,265 --> 00:52:37,119 in accessing brownfield resources?

# 00:52:37,119 --> 00:52:42,800 And are there any strategies that you'd recommend to help EPA raise awareness

#### 681

00:52:42,800 --> 00:52:49,599 and increase access to these resources, in particular in disadvantaged communities?

### 682

00:52:56,240 --> 00:52:58,829 Victoria Robinson: If you want to go ahead and answer that live, go ahead.

## 683

00:52:58,853 --> 00:53:06,720 Okay Maureen I will go ahead and Maureen Goulet-- you can go ahead unmute your line.

#### 684

00:53:10,079 --> 00:53:14,440 Are you able to unmute your line, Maureen?

#### 685

00:53:14,720 --> 00:53:18,800 Maureen Goulet: Hi, this is kind of in the same vein of the response in the previous question

#### 680

00:53:18,800 --> 00:53:24,712 and that the-- I think a lot of the folks who are working locally in municipalities

#### 687

00:53:24,736 --> 00:53:30,000 and communities are focused on economic redevelopment

#### 688

00:53:30,000 --> 00:53:35,148 and not necessarily on the community aspect of it

689 00:53:35,172 --> 00:53:37,920 although that's an important part of it.

690 00:53:37,920 --> 00:53:40,960 I just think that there's always a priority on

## 691

00:53:40,960 --> 00:53:46,640 redeveloping properties that are now going to be on the tax roll.

00:53:53,680 --> 00:53:58,880 Victoria Robinson: Thank you. Elyse Sutkus: Thank you, Maureen.

#### 693

00:53:58,880 --> 00:54:02,528 Victoria Robinson: Now Vanessa Gordon has written a comment that

#### 694

00:54:02,552 --> 00:54:07,839 challenges and barriers include access to technology, language factors

695 00:54:07,839 --> 00:54:11,839 support from decision makers.

696 00:54:14,960 --> 00:54:22,319 And she also adds use public libraries as a means to communicate.

## 697

00:54:22,319 --> 00:54:27,920 I believe that's probably in response to the digital divide concerns.

00:54:34,160 --> 00:54:39,839 Anybody else have any questions or comments to these two questions?

699 00:54:44,079 --> 00:54:46,799 Susan Alsner.

700 00:54:46,799 --> 00:54:51,480 You can go ahead and unmute your line.

701

00:54:52,240 --> 00:54:55,617 Susan Alsner: Yeah I would like to make the suggestion that additional training

#### 702

00:54:55,641 --> 00:55:00,447 that could be offered would be capacity building for engaging with the digital tool building

703 00:55:00,471 --> 00:55:03,200 that's happening as part of Justice40.

704 00:55:03,200 --> 00:55:08,559 Community voices are really needed there but the conversations are often very technical

705 00:55:08,559 --> 00:55:12,727 and it makes it hard for people to figure out where to plug in,

## 706

00:55:12,751 --> 00:55:19,319 so open trainings for that would be incredibly valuable, thank you.

#### 707

00:55:20,079 --> 00:55:22,559 Elyse Sutkus: Thank you, Susan.

708

00:55:22,559 --> 00:55:23,581

Matthew Tejada: Thanks, Susan.

709 00:55:23,605 --> 00:55:29,760 Yeah I think across the board with Justice40, one of the things everyone has identified is

710 00:55:29,760 --> 00:55:34,799 there's a huge need for capacity building not just for communities

711

00:55:34,799 --> 00:55:40,000 but for community partners especially at the local level

#### 712

00:55:40,000 --> 00:55:46,799 whether that be cities or municipalities or academic institutions, even just local schools

## 713

00:55:46,799 --> 00:55:50,240 there's a huge need for capacity building.

#### 714

00:55:50,240 --> 00:55:53,546 So we're hopeful like I know a lot of folks are hopeful

#### 715

00:55:53,570 --> 00:56:01,040 that in the upcoming budget decisions that are being cooked away up on the hill right now

716 00:56:01,040 --> 00:56:06,828 that there will be resources for a completely different reality

717 00:56:06,852 --> 00:56:12,079 in terms of capacity building for communities and their local partners.

## 718

00:56:12,079 --> 00:56:17,119 In the meantime and acknowledging things like

## 719

00:56:17,119 --> 00:56:22,569 communities don't have the resources to apply for grants which Melinda put in the chat

## 720

00:56:22,593 --> 00:56:26,805 or the question box or the persistence of a digital divide

## 721

00:56:26,829 --> 00:56:30,799 and needing to get out to places like public libraries. 00:56:30,799 --> 00:56:38,079

These are great reminders suggestions

723 00:56:38,079 --> 00:56:43,760 even as we wait for hopefully new resources to come from the hill,

#### 724

00:56:43,760 --> 00:56:46,548 these sorts of meetings and other things that we are trying to get out there

#### 725

00:56:46,572 --> 00:56:50,908 as quickly as we can are our attempts to try to bridge some of those

#### 726

00:56:50,932 --> 00:56:56,400 or at least recognize and lift up these needs more broadly,

## 727

00:56:56,400 --> 00:57:00,028 not just for the brownfields chop but for everyone at EPA 00:57:00,052 --> 00:57:04,928 whether they're involved in Justice40 or not and I really thank the brownfields program

729 00:57:04,952 --> 00:57:09,668 for being one of the first ones to kind of charge into this space with us

730 00:57:09,692 --> 00:57:13,920 and have these-- exactly the sort of open conversation

731 00:57:13,920 --> 00:57:17,119 and to hear back from you all.

732 00:57:17,760 --> 00:57:22,160 Patricia Overmeyer: Well, this is Patricia.

733 00:57:22,160 --> 00:57:26,000 I'm sorry I didn't realize I wasn't-didn't have my camera on.

734 00:57:26,024 --> 00:57:30,880 So yes there are several questions about-- several comments in the--

735 00:57:30,880 --> 00:57:35,359 that people have made about communities not having the capacity

#### 736

00:57:35,359 --> 00:57:39,830 or not having availability of resources,

## 737

00:57:39,854 --> 00:57:44,960 please know that every community, every non-profit, all of you

## 738

00:57:44,960 --> 00:57:49,248 can take advantage of our technical assistance to brownfields providers.

#### 739

00:57:49,272 --> 00:57:54,043 We have several providers, we put the link to our website

740 00:57:54,067 --> 00:58:01,516 where you can get information on who is the provider in your region and your neighborhood

#### 741

00:58:01,540 --> 00:58:08,028 but all of these technical assistance providers are paid for by EPA but available to you.

#### 742

00:58:08,052 --> 00:58:11,988 So if you have questions about how you can apply for a brownfields grant,

#### 743

00:58:12,012 --> 00:58:14,488 if you need assistance applying for a brownfields grant,

#### 744

00:58:14,512 --> 00:58:17,928 if you have questions about brownfields in your community

#### 745

00:58:17,952 --> 00:58:22,720 whether the site is a brownfield, how to do an assessment, how to read an assessment 00:58:22,720 --> 00:58:26,288 that was done by somebody else, these providers are available to you.

74700:58:26,312 --> 00:58:31,569You can call them up and ask them these questions and you can get free technical assistance

748 00:58:31,593 --> 00:58:32,546 from our providers.

#### 749

00:58:32,570 --> 00:58:37,190 I really encourage people to make the best of these resources as they're available to you

#### 750

00:58:37,214 --> 00:58:40,640 and if you go to their websites, you'll also see that they have--

## 751

00:58:40,640 --> 00:58:45,904 they generally have lots of workshops and webinars available to help you get started 00:58:45,928 --> 00:58:51,240 and thinking through your brownfield challenges in your communities.

753 00:58:52,079 --> 00:58:54,079 Victoria Robinson: Thank you, Patricia.

#### 754

00:58:54,079 --> 00:58:59,599 We do have a question, I think it might be directed more toward Matthew again.

#### 755

00:58:59,599 --> 00:59:04,647 If Justice40 is not clearly defined, can other community issues

## 756

00:59:04,671 --> 00:59:10,640 such as violence, crime and access to services like child care be included as factors

## 757

00:59:10,640 --> 00:59:13,040 for sensitive populations?

#### 758

00:59:13,040 --> 00:59:15,920

Matthew Tejada: That's a great question.

#### 759

00:59:16,640 --> 00:59:21,236 To just remind one of the things-- I think so, I think those are great things

#### 760

00:59:21,260 --> 00:59:25,402 and when we start talking about the realities faced by communities

## 761

00:59:25,426 --> 00:59:29,727 with EJ concerns at EPA and looking at things like cumulative impacts,

## 762

00:59:29,751 --> 00:59:32,993 those are definitely some of the things that we talk about

#### 763

00:59:33,017 --> 00:59:37,520 and that we want to insert in the conversation to really fully appreciate

764 00:59:37,520 --> 00:59:42,172 what the most overburdened and vulnerable communities deal with in their reality.

765 00:59:42,196 --> 00:59:45,355 But it began to repeat one thing that I said earlier--

#### 766

00:59:45,379 --> 00:59:50,319 we're not the ones going to make the decision on what actually goes into the tool

#### 767

00:59:50,319 --> 00:59:55,920 that defines which communities are or are not disadvantaged.

#### 768

00:59:55,920 --> 01:00:02,880 And just from experience though, having run EJSCREEN for a very long time at EPA,

769 01:00:04,480 --> 01:00:06,079 one of the biggest--

770

01:00:06,079 --> 01:00:09,188

one of the biggest things when you're looking at things

771 01:00:09,212 --> 01:00:14,960 like violence or crime or child care services

772

01:00:14,960 --> 01:00:17,200 one of the biggest hurdles we have is

773 01:00:17,200 --> 01:00:23,280 "Okay, where's the data and how

granular, how fine is that data"

774 01:00:23,280 --> 01:00:26,781 because for EJ we need it to be right down at the community level,

775 01:00:26,805 --> 01:00:29,448 it can't be like "Well, there's 20 of these in a county"

776 01:00:29,472 --> 01:00:34,640 that doesn't help us, we need actual neighborhood scale data

777 01:00:34,640 --> 01:00:37,486 but we need it to be available for the entire United States

## 778

01:00:37,510 --> 01:00:43,200 and that's one of the things that a lot of the data sets that we look at in EJSCREEN

#### 779

01:00:43,200 --> 01:00:48,192 it's really tough because we might have a data set that looks really good until you get out

## 780

01:00:48,216 --> 01:00:52,559 into a rural population or until you look at Alaska,

## 781

01:00:52,559 --> 01:00:54,963 and then the data just starts to disappear on you

782

01:00:54,987 --> 01:00:59,520 and there's an inherent inequity in using data

#### 783

01:00:59,520 --> 01:01:04,107 that works really well for some communities but not very well for other communities

## 784

01:01:04,131 --> 01:01:09,067 especially if we're looking at using that data for something like the allocation of resources.

#### 785

01:01:09,091 --> 01:01:12,474 We need data that's going to be fair

## 786

01:01:12,498 --> 01:01:16,559 that's going to be equitable by the nature of the data

## 787

01:01:16,559 --> 01:01:19,119 and sometimes things that folks think

#### 788

01:01:19,119 --> 01:01:22,347

we should obviously have access to at the federal government,

789 01:01:22,371 --> 01:01:25,827 we actually don't, they might not exist in those ways

790 01:01:25,851 --> 01:01:31,948 but again, for the purposes of the Justice40 definition

791 01:01:31,972 --> 01:01:37,347 of disadvantaged community, those decisions are going to be made over

792 01:01:37,371 --> 01:01:40,480 at the White House, not at EPA.

793 01:01:40,480 --> 01:01:44,917 Patricia Overmeyer: Yeah, this is Patricia I would also add to remember that Justice40

794 01:01:44,941 --> 01:01:48,887 isn't an EPA program and so to answer that question,

795

01:01:48,911 --> 01:01:55,698 there are other-- Department of Justice, the Department of Education, Health and Human Services

796

01:01:55,722 --> 01:01:59,588 and Housing and Urban Development,

797

01:01:59,612 --> 01:02:02,667 all of these agencies and departments, Department of Transportation

798

01:02:02,691 --> 01:02:05,812 are all part of Justice40 and their grant programs

799

01:02:05,836 --> 01:02:08,720 might cover some of the items that were mentioned

800

01:02:08,720 --> 01:02:11,667

such as violence and child care and housing

801

01:02:11,691 --> 01:02:18,468 may be included in Justice40 under other departments and agency programs

## 802

01:02:18,492 --> 01:02:24,799 just maybe not be specifically touched by EPA grants.

803 01:02:24,799 --> 01:02:28,588 Matthew Tejada: And I'm not sure Victoria, Megan Smith

#### 804

01:02:28,612 --> 01:02:33,744 is putting a lot of information in about a Justice40 open source data and tech community.

805 01:02:33,768 --> 01:02:39,175 Can everyone see that? Can everyone see everyone else's questions or can just us see it?

806

01:02:39,199 --> 01:02:42,720 Victoria Robinson: I just made it answered live so she didn't see it

#### 807

01:02:42,720 --> 01:02:46,127 because I was gonna bring it up and then I could read it,

808 01:02:46,151 --> 01:02:50,118 but yes I've now made it live so people can see Megan's suggestions

#### 809

01:02:50,142 --> 01:02:55,680 about the data--open data and tech community collaborative that's going on for Justice40.

## 810

01:02:55,680 --> 01:02:58,960 Matthew Tejada: Thanks for that Megan, that's really great.

## 811

01:02:58,960 --> 01:03:00,537 Victoria Robinson: All right, wonderful.

#### 812

01:03:00,561 --> 01:03:04,448 There was a question that the person said I would be curious

#### 813

01:03:04,472 --> 01:03:08,673 as to what the EPA is currently doing in terms of raising awareness

814 01:03:08,697 --> 01:03:12,160 and increasing access to these grants and assistance.

#### 815

01:03:12,160 --> 01:03:16,710 Even thinking of the context of this call, I don't believe that the registration said

#### 816

01:03:16,734 --> 01:03:18,281 that would be focused on brownfields,

## 817

01:03:18,305 --> 01:03:22,480 so how are we making sure the right people are engaged? 01:03:25,404 --> 01:03:27,404 Elyse Sutkus: I think I can answer that. Matthew Tejada: There you go.

## 819

01:03:30,079 --> 01:03:32,528 Elyse Sutkus: So I did want to mention and I'll mention later on too

820 01:03:32,552 --> 01:03:35,907 we do have a brownfields listserv that folks can sign up for

## 821

01:03:35,931 --> 01:03:42,108 to get updates on our program, our grant announcements, webinars, resources

#### 822

01:03:42,132 --> 01:03:43,760

that are available.

## 823

01:03:43,760 --> 01:03:48,480 EPA's regional brownfield offices also conduct outreach 01:03:48,480 --> 01:03:53,520 for the states, tribes and territories that are covered by their regions,

825 01:03:53,520 --> 01:03:57,119 so that outreach is going on as well.

#### 826

01:03:57,119 --> 01:04:03,359 Now let me just drop the link for our--I'm not sure the best way to share this.

#### 827

01:04:03,359 --> 01:04:07,680 I don't know if I can type answers in the Q&A but somebody else can share

## 828

01:04:07,680 --> 01:04:09,359 that in the group.

829

01:04:09,359 --> 01:04:11,028 Victoria Robinson: Yeah.

830

01:04:11,052 --> 01:04:14,568

Charles Lee: Can I also say that

I think this is a great question

#### 831

01:04:14,592 --> 01:04:20,848 and at least us to think more of long-term and more coordinated

## 832

01:04:20,872 --> 01:04:23,839 in terms of doing this kind of outreach.

#### 833

01:04:23,839 --> 01:04:29,680 These sessions are just the first of sessions presenting

#### 834

01:04:29,680 --> 01:04:34,130 information and beginning to engage around a particular program,

## 835

01:04:34,154 --> 01:04:37,200 but each of the programs are going to continue to do

836 01:04:37,200 --> 01:04:43,039 their own outreach and engagement as Elyse has suggested or indicated

837

01:04:43,039 --> 01:04:46,559 in terms of the brownfield program.

#### 838

01:04:47,680 --> 01:04:50,240 Victoria Robinson: Thank you, Charles.

#### 839

01:04:50,240 --> 01:04:54,628 Elyse Sutkus: And I also did want to mention too that our office does coordinate with OEJ

840

01:04:54,652 --> 01:04:58,240 so when things like grant guidelines are posted,

#### 841

01:04:58,240 --> 01:05:05,520 those go out on the EJ listserv as well to help folks be aware.

```
842
01:05:06,079 --> 01:05:08,181
Victoria Robinson: Thank you, Elyse.
```

01:05:08,205 --> 01:05:11,128 Bruce Mendelson, you've got your hand raised,

844 01:05:11,152 --> 01:05:14,880 if you can go ahead and unmute your line.

845 01:05:15,839 --> 01:05:17,817 Bruce Mendelson: Hi there, thank you.

846

01:05:17,841 --> 01:05:23,488 I agree with the strategy for-- this is to the question of raising awareness.

847

01:05:23,512 --> 01:05:27,548 So a colleague mentioned engaging your local libraries,

## 848

01:05:27,572 --> 01:05:33,868 yes and engage organizations and leaders in the targeted communities 01:05:33,892 --> 01:05:36,339 with materials relevant to them.

85001:05:36,363 --> 01:05:42,207So one of the things that we're doing to engage and recruit potential participants

## 851

01:05:42,231 --> 01:05:46,348 in our environmental workforce development and job training grant

#### 852

01:05:46,372 --> 01:05:49,920 is translating flyers into multiple languages,

#### 853

01:05:49,920 --> 01:05:54,720 Spanish, Portuguese, Mandarin, Vietnamese, etc.

## 854

01:05:54,720 --> 01:06:00,880 and engaging the leaders in those communities as credible sources. 01:06:00,880 --> 01:06:02,539

Thank you.

856 01:06:02,563 --> 01:06:04,563 Victoria Robinson: Thank you, Bruce. Elyse Sutkus: Thank you, Bruce.

## 857

01:06:09,119 --> 01:06:15,599 Victoria Robinson: Okay, Megan is going to-- has her hand up

#### 858

01:06:16,960 --> 01:06:17,979 Go ahead, Megan.

#### 859

01:06:18,003 --> 01:06:21,627 Megan: My colleagues, it's great to be with everybody, thank you for this information.

#### 860

01:06:21,651 --> 01:06:24,960 I just wanted a little bit more so people are aware--

#### 861

01:06:24,960 --> 01:06:27,680

one of the big challenges we have in our society

862 01:06:27,704 --> 01:06:30,720 is we get in silos and a lot of the tech data colleagues

863 01:06:30,720 --> 01:06:36,240 are in a separate silo from

amazing long-standing EJ leaders.

864

01:06:36,240 --> 01:06:39,728 Some EJ leaders are data scientists, some are community activists,

## 865

01:06:39,752 --> 01:06:42,000 some are scientists, so many different things.

866 01:06:42,000 --> 01:06:45,928 What we're trying to do with the open source group that OMB is hosting 01:06:45,952 --> 01:06:50,148 in the US Digital Service-- we did not create this group-- I'm from Region 7

868 01:06:50,172 --> 01:06:54,720 but they opened it up, it's trying to make sure the tech native folks that are in there

869 01:06:54,720 --> 01:06:57,370 are hearing from more EJ leaders and teammates

870 01:06:57,394 --> 01:07:00,563 and it's much more of a cross-functional group.

871 01:07:00,587 --> 01:07:04,848 And so the workshop on Monday, September 20th of which

872

01:07:04,872 --> 01:07:06,000 I think there's three posts here--

01:07:06,000 --> 01:07:08,965 if you make them live people can see all the links and emails.

874

01:07:08,989 --> 01:07:12,488 Shelby Switzer at OMB, somebody you can email if you need it.

87501:07:12,512 --> 01:07:17,280People are hoping to connectus better and begin that teamwork

876 01:07:17,280 --> 01:07:21,487 because we have the internet now and so we want to use the internet

01:07:21,511 --> 01:07:25,458 to be much more accelerated on our cross-functional teamwork

# 878

877

01:07:25,482 --> 01:07:28,573 so we can move faster for a lot less money.

01:07:28,597 --> 01:07:34,656 I'm using all the tools of the universe together with the help of the government colleagues.

#### 880

01:07:34,680 --> 01:07:35,920 Thanks. [NOTIFICATION SOUND]

881

01:07:36,319 --> 01:07:38,960

Victoria Robinson: Thank you, Megan.

882

01:07:39,200 --> 01:07:42,079

We have another person who wrote that

# 883

01:07:42,079 --> 01:07:46,559 considering non-federally recognized indigenous communities do not qualify

# 884

01:07:46,559 --> 01:07:51,665 for brownfields funding, would they be able to be recognized as disadvantaged communities 01:07:51,689 --> 01:07:55,680 when they cannot have access to local traditional sites for ceremony

886 01:07:55,680 --> 01:07:59,119 due to water contamination?

887

01:08:00,640 --> 01:08:05,835 Matthew Tejada: Wow, can you let me-- I was listening to that, oh there it is.

#### 888

01:08:05,859 --> 01:08:10,319 Let me read it real quick to make sure I understand the point.

# 889

01:08:10,319 --> 01:08:14,319 Indigenous communities do not qualify brownfields funding--

# 890

01:08:14,319 --> 01:08:18,719 would they be able to be recognized as this and they could not-- 01:08:18,719 --> 01:08:22,805 Well, I believe and correct me Elyse and Patricia if I'm wrong,

892

893

01:08:22,829 --> 01:08:27,469 even though if it's a non-federally recognized indigenous community

01:08:27,493 --> 01:08:31,938 but if the community has established a community based organization

894

01:08:31,962 --> 01:08:36,799 like a 501 (c)(3) nonprofit then they would still-- Patricia's nodding,

895

01:08:36,799 --> 01:08:43,279 you would still be able to apply for brownfields program funding

### 896

01:08:43,279 --> 01:08:47,443 and regardless of whether or not you are federally recognized or not

01:08:47,467 --> 01:08:54,479 that's not going to be like a binary choice, I believe, for Justice40 overall,

# 898

01:08:54,479 --> 01:08:57,186 Justice40 is going to look at a lot of different things.

# 899

01:08:57,210 --> 01:09:01,230 And to the earlier question that an anonymous attendee

900 01:09:01,254 --> 01:09:04,479 but if you look in the answers that we have posted,

901 01:09:04,479 --> 01:09:07,431 the anonymous entered the question at 3 o'clock,

902 01:09:07,455 --> 01:09:10,908 if you scroll to 3 o'clock in the list of questions,

01:09:10,932 --> 01:09:14,287 one of our colleagues in OEJ, Rebecca Huff,

# 904

01:09:14,311 --> 01:09:20,090 she sent me the citation in the executive order for some of the language

# 905

01:09:20,114 --> 01:09:23,976 about what should be considered for disadvantaged

# 906

01:09:24,000 --> 01:09:28,207 while we wait for this tool to come out, so I've included that as well.

907 01:09:28,231 --> 01:09:36,000 Those are some of the things that are under consideration for disadvantaged.

# 908 01:09:37,679 --> 01:09:40,000 Victoria Robinson: Thank you, Matt.

### [CLEARING THROAT]

## 909

01:09:41,198 --> 01:09:44,138 Next question, since I don't see any hands raised.

# 910

01:09:44,162 --> 01:09:47,147 And hey folks on the phone remember you can press \*9

# 911

01:09:47,171 --> 01:09:50,080 if you want to ask a question.

#### 912

01:09:50,080 --> 01:09:54,167 Maureen Goulet asks, are any chance there could be funds available to gather

913 01:09:54,191 --> 01:09:56,910 that local level data?

914 01:09:59,120 --> 01:10:02,649 Matthew Tejada: I mean there are different funds that are out there,

01:10:02,673 --> 01:10:09,280 we are still in the process of scoring for our environmental justice grants

# 916

01:10:09,280 --> 01:10:11,128 that we competed earlier this year.

917

01:10:11,152 --> 01:10:13,040

Those would be--

# 918

01:10:13,040 --> 01:10:17,968 those are fairly general in terms of supporting communities to do things

# 919

01:10:17,992 --> 01:10:22,640 like monitoring and sampling and organizing and education,

# 920

01:10:22,640 --> 01:10:26,144 so those aren't open now but we're hopeful again

01:10:26,168 --> 01:10:30,518 that we're going to get a lot more funding and potentially have those open

## 922

01:10:30,542 --> 01:10:36,960 just as on a rolling basis not to have to compete them at a set time every year.

# 923

01:10:38,239 --> 01:10:43,040 Elyse or Patricia, are there other means of support

924 01:10:43,040 --> 01:10:48,960 through the brownfields program to do things like community monitoring or sampling?

925 01:10:54,159 --> 01:10:56,067 Patricia Overmeyer: Well, the EPA brownfields program--

# 926 01:10:56,091 --> 01:11:04,000 we do have a targeted assessment program, a brownfields targeted assessment program

01:11:04,000 --> 01:11:10,747 where each of our 10 regional offices do have funds

# 928

01:11:10,771 --> 01:11:15,094 where they can go out and do assessments for communities

# 929

01:11:15,118 --> 01:11:17,968 who don't have the capacity to do it for themselves

## 930

01:11:17,992 --> 01:11:22,888 and some of those funding sometimes can also be used a little bit of planning

931 01:11:22,912 --> 01:11:25,008 around an assessment.

932 01:11:25,032 --> 01:11:30,908 But so as far as the sampling or the assessment of brownfields in a community

01:11:30,932 --> 01:11:35,600 for a community doesn't have a capacity they could request assistance

## 934

01:11:35,624 --> 01:11:42,080 through our regional offices and we can use our targeted brownfields assessment program

# 935

01:11:42,080 --> 01:11:46,719 to address those concerns in their communities

## 936

01:11:46,719 --> 01:11:50,800 and also just general information

937

01:11:50,800 --> 01:11:57,440 about health impacts and or the benefits of sampling could be

938

01:11:57,440 --> 01:12:02,880 through our-- you can get additional information through our targeted--

939

01:12:02,880 --> 01:12:07,840 our tab program --targeted--I can't think of the name

940

01:12:09,440 --> 01:12:11,408 technical assistance to brownfields program--

941

01:12:11,432 --> 01:12:14,948 I'm sorry about, that our technical assistance brownfields program

942

01:12:14,972 --> 01:12:18,239 can help you with answer a lot of those questions.

943

01:12:18,239 --> 01:12:21,279 Now that being said, our technical assistance for the brownfields program

944 01:12:21,303 --> 01:12:29,600 they cannot go out and do sampling or generally collect data for us

945 01:12:29,600 --> 01:12:37,840 but they can at least help communities collect their own data

946 01:12:38,159 --> 01:12:42,880 and characterize their sites and their communities.

01:12:43,840 --> 01:12:45,600 Victoria Robinson: Thank you, Patricia.

948 01:12:46,719 --> 01:12:49,708 So Bruce followed up his comment earlier,

949

947

01:12:49,732 --> 01:12:55,061 he wanted to add that to address your question about strategies for awareness building,

950 01:12:55,085 --> 01:12:59,168 he says "Yes, please engage organizations and leaders in the targeted communities

## 951

01:12:59,192 --> 01:13:07,280 with materials relevant to them such as flyers translated into Spanish, Portuguese, Mandarin, etc.

# 952

01:13:08,080 --> 01:13:09,199 All right so--

# 953

01:13:09,199 --> 01:13:10,711 Matthew Tejada: And on this one, Victoria

# 954

01:13:10,735 --> 01:13:14,248 so we have somebody who is asking to be put in touch

# 955

01:13:14,272 --> 01:13:19,546 with Region 7 EJ Coordinator and I guess they have not made the connection

## 956

01:13:19,570 --> 01:13:27,520

but if you would email me directly Tejada.matthew@epa.gov

957

01:13:27,520 --> 01:13:29,248

I'll make sure you get put in touch.

958

01:13:29,272 --> 01:13:33,520 So it's just my name, you should see my name right here

# 959

01:13:33,520 --> 01:13:39,400 and just do lastname.firstname@epa.gov.

960

01:13:40,239 --> 01:13:42,159

Victoria Robinson: Thank you, Matt.

961

01:13:42,159 --> 01:13:45,199 Elyse we wanna move on to the next set of questions,

962 01:13:45,199 --> 01:13:48,400 Elyse Sutkus: Yes and this is our last set of questions here.

01:13:48,400 --> 01:13:50,400

Victoria Robinson: Thank you.

964

01:13:50,400 --> 01:13:51,440

All right go ahead.

965

01:13:51,440 --> 01:13:53,040

Elyse Sutkus: All right.

# 966

01:13:53,040 --> 01:13:58,550 So obviously I've been talking about how the program empowers states communities

# 967

01:13:58,574 --> 01:14:01,679 and stakeholders to work together to prevent

# 968 01:14:01,679 --> 01:14:05,600 assess clean up and

sustainably reuse brownfields.

01:14:05,600 --> 01:14:09,600 I talked a little bit earlier about how the direct benefit of brownfields grants

970 01:14:09,600 --> 01:14:15,920 include assessing sites, cleaning up sites training job,

971 01:14:15,920 --> 01:14:21,280 trainees in the job training program and placing those graduates.

#### 972

01:14:21,280 --> 01:14:27,348 And revitalizing and reusing sites also creates additional benefits throughout the community,

# 973

01:14:27,372 --> 01:14:31,268 so we'd like to hear from you all about what some of those benefits are

# 974

01:14:31,292 --> 01:14:34,560 that you see and experience in your community

01:14:34,560 --> 01:14:40,400 from the assessment cleanup and reuse of brownfields or from job training programs?

#### 976

01:14:40,400 --> 01:14:44,068 And what are some ways that the program can help maximize

977

01:14:44,092 --> 01:14:48,800 those benefits in disadvantaged communities?

978 01:14:53,679 --> 01:14:55,947 Victoria Robinson: Anybody have any questions?

979 01:14:55,971 --> 01:14:59,280 Feel free to raise your hand.

980

01:15:09,440 --> 01:15:12,560 Elyse or Patricia while we're waiting for somebody to raise their hand or ask 01:15:12,560 --> 01:15:15,268 pose a question, is there anything you want to add to that

982 01:15:15,292 --> 01:15:22,320 about how you see those answers helping you to better move that

983 01:15:22,320 --> 01:15:27,199 along the Justice40 thing along for brownfields?

984 01:15:33,679 --> 01:15:36,679 Elyse Sutkus: Let me see.

985 01:15:42,560 --> 01:15:51,539 Patricia Overmeyer: I think that Justice40 is helping us to use the federal family

986 01:15:51,563 --> 01:15:57,484 and our internal resources to make us all more aware of the communities 01:15:57,508 --> 01:16:03,108 that we can serve and also helping us to share our results about

988

01:16:03,132 --> 01:16:09,845 how do we best collectively work together to identify the communities

989 01:16:09,869 --> 01:16:14,650 and identify the benefits that could be going to these communities

990 01:16:14,674 --> 01:16:17,600 such as the conversation that we're having today.

991 01:16:17,600 --> 01:16:22,640 We'll have additional conversations but I think looking toward

# 992

01:16:22,640 --> 01:16:24,400 sharing information across the federal

01:16:24,400 --> 01:16:29,980 government about the different communities and stakeholders

#### 994

01:16:30,004 --> 01:16:34,880 that we all serve, how we get to them, how we can share information and data

995 01:16:34,880 --> 01:16:42,320 and just the ability to reach out and do more and more communication

#### 996

01:16:42,320 --> 01:16:44,939 particularly now in a time when we're on the pandemic.

# 997

01:16:44,963 --> 01:16:50,147 The brownfields program we're often out at lots of workshops and in the communities

### 998

01:16:50,171 --> 01:16:55,928 and lots of conferences that where we can talk to and engage with people

01:16:55,952 --> 01:16:58,787 who are not getting all those opportunities right now.

#### 1000

01:16:58,811 --> 01:17:04,605 So I think the more that we can work with each other, share our resources

1001 01:17:04,629 --> 01:17:07,710 and share our ability to talk with people--

#### 1002

1003

01:17:07,734 --> 01:17:10,988 I think Justice40 is going to give us more and more opportunities

01:17:11,012 --> 01:17:14,586 to understand our audiences, understand our stakeholders

# 1004

01:17:14,610 --> 01:17:17,905 and give us more

opportunities to engage.

01:17:17,929 --> 01:17:23,760 So I think that's one of the major benefits of the program might be.

1006 01:17:24,480 --> 01:17:27,280 Victoria Robinson: Thank you, Patricia.

1007 01:17:28,880 --> 01:17:34,080 We're not seeing any questions or hands raised at this moment.

1008 01:17:34,080 --> 01:17:40,239 Did you want to move on to the next slide?

1009 01:17:41,199 --> 01:17:47,088 Elyse Sutkus: Sure, yeah and if anybody thinks of something please feel free to raise your hand

# 1010

01:17:47,112 --> 01:17:48,960

before we wrap up here

01:17:48,960 --> 01:17:56,239 but yeah, I can talk about our other future engagement opportunities on the next slide.

#### 1012

01:17:56,800 --> 01:18:01,948 So I just want to mention registration and other details for these events

1013 01:18:01,972 --> 01:18:06,428 and other important updates are sent out on our brownfield listserv,

#### 1014

01:18:06,452 --> 01:18:09,774 so I definitely encourage you to visit our website and sign up

# 1015

01:18:09,798 --> 01:18:15,679 if you're interested in staying up to date on the EPA's brownfield program

# 1016

01:18:15,679 --> 01:18:19,920 and I'll make sure that that link is available when these slides go out.

01:18:19,944 --> 01:18:22,960 Victoria I can coordinate with you.

#### 1018

01:18:22,960 --> 01:18:30,348 Yeah, just in terms of upcoming opportunities after our Assessment, Revolving Loan Fund

1019

01:18:30,372 --> 01:18:32,880

and Cleanup grant guidelines are released,

#### 1020

01:18:32,880 --> 01:18:38,880 about one or two weeks later, we'll have an outreach webinar to walk through those guidelines.

# 1021

01:18:38,880 --> 01:18:43,077 We also have our TAB providers offering different workshops

# 1022

01:18:43,101 --> 01:18:45,920 and roundtable discussions this fall.

1023 01:18:45,920 --> 01:18:50,708 So one thing I did want to note, we have Kansas State University or KSU,

1024 01:18:50,732 --> 01:18:55,360 our TAB provider is having an EJ webinar series.

# 1025

01:18:55,360 --> 01:18:59,848 So that series will help assist communities in understanding more about EJ

# 1026

01:18:59,872 --> 01:19:02,719 and how it may be impacting their community

# 1027

01:19:02,719 --> 01:19:04,989 and there's three sessions that they have scheduled there

# 1028

01:19:05,013 --> 01:19:08,400 and we'll be advertising that via our listserv.

01:19:08,400 --> 01:19:11,408 We also have the National Brownfield Training Conference coming up

1030

01:19:11,432 --> 01:19:17,360 in Oklahoma city, Oklahoma in person, that's December 8th through 11th.

1031 01:19:17,360 --> 01:19:25,280 And the day before the conference begins, we have the EJ Caucus also in Oklahoma city,

#### 1032

01:19:25,280 --> 01:19:33,679 and EJ stakeholders will have an opportunity to engage there and discuss issues and challenges

#### 1033

01:19:33,679 --> 01:19:36,560 and resources for brownfields to be used.

# 1034

01:19:36,560 --> 01:19:41,360 And also the ASTSWMO Mid-Year Meetings are coming up in October this year.

01:19:41,360 --> 01:19:44,921 So please if you want to stay up to date about these and other events,

1036 01:19:44,945 --> 01:19:49,960 definitely sign up for our brownfields listserv.

1037 01:19:50,880 --> 01:19:51,811 Victoria Robinson: Thank you very much.

01:19:51,835 --> 01:19:53,679 Elyse Sutkus: And I think that's it, thank you.

1039 01:19:53,679 --> 01:19:56,480 Victoria Robinson: Thank you, all right.

1040 01:19:57,520 --> 01:20:00,147

All right, you want

to go ahead with this--

1041

01:20:00,171 --> 01:20:05,199 Matthew you want me to go ahead and read these points of contact?

1042

01:20:05,199 --> 01:20:06,688 Matthew Tejada: You can do it.

1043 01:20:06,712 --> 01:20:07,600 Victoria Robinson: All right cool.

1044 01:20:07,600 --> 01:20:10,768 Office of Environmental Justice here at EPA, we've got several people

1045 01:20:10,792 --> 01:20:15,760 who are actively engaged in supporting the Justice40 effort here at the agency.

1046 01:20:15,760 --> 01:20:19,605 As obvious Matthew Tejada, who's the Director of the office,

1047 01:20:19,629 --> 01:20:24,719 he's also the Senior Staff Representative on the White House Interagency Council

1048 01:20:24,719 --> 01:20:29,920 and he's one of our main points of contact for Justice40.

## 1049

01:20:29,920 --> 01:20:32,548 Charles Lee and myself, we're the leads for Stakeholder Engagement

# 1050

01:20:32,572 --> 01:20:34,529 and you can see our emails as well.

# 1051

01:20:34,553 --> 01:20:42,239 Nicolette Fertakis, she is the lead for Justice40 overall in our office

# 1052

01:20:42,239 --> 01:20:44,880 and Patrick Beckley also is the--

1053 01:20:44,880 --> 01:20:53,280 supports Nicolette in that effort for Justice40 and the Interagency Council.

1054 01:20:53,280 --> 01:20:57,555 And then again, these slides will be provided to everybody in the next couple of days

1055

01:20:57,579 --> 01:20:59,628 and will be posted to our website

1056 01:20:59,652 --> 01:21:02,748

and I'll send-- to everybody that's provided an email address,

1057 01:21:02,772 --> 01:21:10,320 you'll get an email from me indicating that these things are now posted on the website.

1058 01:21:10,320 --> 01:21:13,679 We do want to mention there's some upcoming engagement opportunities

1059 01:21:13,679 --> 01:21:17,448 in addition to what Elyse pointed out over the next few months

1060 01:21:17,472 --> 01:21:20,800 for engagement around brownfields.

01:21:20,800 --> 01:21:25,432 We do have other engagement opportunities that relate to environmental justice.

# 1062

1061

01:21:25,456 --> 01:21:31,520 The first one is--starts tomorrow, there is as part of our

1063 01:21:31,520 --> 01:21:34,732 environmental justice webinar series for tribes and indigenous peoples,

#### 1064

01:21:34,756 --> 01:21:40,047 there is a session on traditional knowledge, federal agencies considerations

1065 01:21:40,071 --> 01:21:44,320 and it's a webinar on how some federal agencies are considering traditional knowledge

#### 1066

01:21:44,320 --> 01:21:49,520 and implementation of their missions and there's the link on this slide as well.

# 1067

01:21:49,520 --> 01:21:55,440 In addition, on October 20th we will hold our open discussion with the public

#### 1068

01:21:55,440 --> 01:22:01,095 about using EJSCREEN as an opportunity to learn about EJSCREEN

### 1069

01:22:01,119 --> 01:22:04,329 as well as to get any questions answered you have about how to use it

# 1070

01:22:04,353 --> 01:22:11,199 and how to better use it and enhance your use in the work that you're doing. 01:22:11,199 --> 01:22:20,320 We also-- our office in Region 4 has been doing a series of EJ workshops

1072 01:22:20,320 --> 01:22:26,320 growing grassroots and building capacity for environmental justice work,

1073 01:22:26,320 --> 01:22:29,748 these are on September 23rd.

1074 01:22:29,772 --> 01:22:35,942 The fourth session out of five is focusing on building capacity for individuals

# 1075

01:22:35,966 --> 01:22:40,800 and organizations working in underserved and disadvantaged communities.

1076 01:22:40,800 --> 01:22:45,067 This session is specifically about accessing funding for communities

01:22:45,091 --> 01:22:49,374 and offer practical tips on successful grant writing and information

1078 01:22:49,398 --> 01:22:51,753 about accessing community-based funding.

1079 01:22:51,777 --> 01:22:55,645 You can learn about the series at our website-- again, the link is provided

1080

01:22:55,669 --> 01:22:59,148 and I see that somebody would like the links put into the chat.

# 1081

01:22:59,172 --> 01:23:06,067 These links will be in the document, the slide document that gets posted in a couple days

# 1082

01:23:06,091 --> 01:23:10,159 but we'll see about trying to get it into the chat as well.

01:23:10,159 --> 01:23:12,719 Last upcoming engagement opportunity,

#### 1084

01:23:12,719 --> 01:23:16,270 Fiscal 22-- there's the Brownfields Job Training Grants,

1085 01:23:16,294 --> 01:23:19,410 and this is a reminder that those applications are due October 5th

1086 01:23:19,434 --> 01:23:22,400 Elyse has already given a lot of information on that.

1087 01:23:24,719 --> 01:23:29,108 And David Brewster is asking whether the EJSCREEN session for October 20th

# 1088

01:23:29,132 --> 01:23:32,800 is it for the current EJSCREEN or the updated version.

01:23:32,800 --> 01:23:35,600 Matthew can you answer that question?

#### 1090

01:23:35,600 --> 01:23:41,440 Matthew Tejada: It will be for whatever version is out there for folks to use when we do it.

1091 01:23:41,840 --> 01:23:44,320 Victoria Robinson: Thank you, thank you, Matt.

1092 01:23:44,320 --> 01:23:47,808 Matthew Tejada: We're working on a lot of different updates

1093 01:23:47,832 --> 01:23:52,588 and there's obviously a lot of things happening in the whole tool screening space.

### 1094

01:23:52,612 --> 01:23:55,267 I just got an update yesterday from the state of Colorado--

01:23:55,291 --> 01:23:57,306 I don't know if they published it or what

#### 1096

01:23:57,330 --> 01:24:01,360 but they're getting ready to launch a state-based one which is awesome.

1097 01:24:01,360 --> 01:24:06,560 So that's part of our commitment just to make sure we're out there as often as possible

#### 1098

01:24:06,560 --> 01:24:12,560 providing information and opportunities for folks to engage with us and offer feedback.

## 1099

01:24:12,560 --> 01:24:17,268 I don't think by that time we'll have an update out for EJSCREEN,

# 1100

01:24:17,292 --> 01:24:21,040 so it should be the one that's out there right now today.

01:24:21,040 --> 01:24:28,080 But if somehow we managed to sneak an update out, then it'll be on that version.

1102 01:24:28,320 --> 01:24:29,783 Victoria Robinson: All right, thank you, Matt.

1103 01:24:29,807 --> 01:24:32,159 You want to go ahead and--

### 1104

01:24:32,159 --> 01:24:38,668 you want to provide information on the sites for more information about Justice40

# 1105

01:24:38,692 --> 01:24:40,480 for those who would like some.

## 1106

01:24:40,480 --> 01:24:43,768 Matthew Tejada: Sure, yeah and just so folks are aware,

1107 01:24:43,792 --> 01:24:50,790 we have a couple of URLs up here, I know it's not always the easiest to look at a slide like this

1108 01:24:50,814 --> 01:24:52,933 and type in a URL but here they are,

1109 01:24:52,957 --> 01:24:56,880 or you should be able to Google these things fairly easily.

1110 01:24:56,880 --> 01:24:59,120 So the interim implementation guidance

1111 01:24:59,120 --> 01:25:03,199 for Justice40 that's the overall document that is directing

1112
01:25:03,199 --> 01:25:08,639
everything we're doing today on Justice40
including what we're actually doing right now,

1113 01:25:08,639 --> 01:25:11,440 that is on a White House site.

01:25:11,440 --> 01:25:16,800 And then we have also put up for ease of locating them

## 1115

01:25:16,800 --> 01:25:21,120 the recommendations from the White House Environmental Justice Advisory Council,

# 1116

01:25:21,120 --> 01:25:25,707 the WHEJAC, they have already put out recommendations for Justice40,

#### 1117

01:25:25,731 --> 01:25:28,868 so those are on an EPA website.

# 1118

01:25:28,892 --> 01:25:33,440 So those are the addresses for those or again,

### 1119

01:25:33,440 --> 01:25:36,608 you could fairly simply Google either of those two things that are underlined

01:25:36,632 --> 01:25:42,560 in some combination and you should be able to go right to either of those resources.

## 1121

01:25:42,560 --> 01:25:44,400 Victoria Robinson: All right, thank you, Matthew.

# 1122

01:25:44,400 --> 01:25:47,668 And then go out I'll let you go ahead and give the closing remarks.

1123 01:25:47,692 --> 01:25:51,567 Matthew Tejada: Sure, yeah so our next community engagement call

1124 01:25:51,591 --> 01:25:53,505 is going to be September 28th.

1125 01:25:53,529 --> 01:25:57,994 I don't know that we have as somebody said earlier,

01:25:58,018 --> 01:26:03,055 getting out there information that today we were going to focus on brownfields.

#### 1127

01:26:03,079 --> 01:26:07,188 I'm not sure if we know exactly which one we're going to focus on the September 28th

# 1128

01:26:07,212 --> 01:26:11,212 or what the content is going to be, as soon as we square that away though

1129 01:26:11,236 --> 01:26:14,880 we try to put that out either through our listserv

1130 01:26:14,880 --> 01:26:17,806 and there are instructions on the very bottom here

113101:26:17,830 --> 01:26:23,840about how to sign up for theenvironmental justice listserv at EPA,

01:26:23,840 --> 01:26:26,048 or not the very bottom, in the middle-- I'm sorry

# 1133

01:26:26,072 --> 01:26:31,520 and then also we have our Twitter handle specific to the EJ program at EPA,

# 1134

01:26:31,520 --> 01:26:37,280 it's @EPAEnvJustice, so whenever we have more information

## 1135

01:26:37,280 --> 01:26:43,920 about when these will occur or what topics we will potentially be covering in these

1136 01:26:43,920 --> 01:26:48,941 community engagement calls, we'll try to put that out for folks as early as we can.

1137 01:26:48,965 --> 01:26:52,729 Sometimes it's just a matter of not getting squared away soon enough

# 1138

01:26:52,753 --> 01:26:59,280 but we're working as hard as we can to get that stuff planned ahead of time

## 1139

01:26:59,280 --> 01:27:03,108 and I apologize that I was not able to be on for the first half hour

# 1140

01:27:03,132 --> 01:27:07,840 I managed to double book myself for this meeting today.

# 1141

01:27:07,840 --> 01:27:10,880 So I think the update was already offered,

## 1142

01:27:10,880 --> 01:27:14,548 but we are coming into the home stretch

#### 1143

01:27:14,572 --> 01:27:18,798

on the agency's next EPA multi-year strategic plan,

#### 1144

01:27:18,822 --> 01:27:25,440 so that is the document that really directs what we do at EPA for the next several years.

#### 1145

01:27:25,440 --> 01:27:29,587 And for the first time ever, a central goal of that strategic plan

#### 1146

01:27:29,611 --> 01:27:36,568 will be environmental justice and civil rights, and the draft of that will be coming out

## 1147

01:27:36,592 --> 01:27:40,159 likely in October, early October hopefully

## 1148

01:27:40,159 --> 01:27:45,600 for about a six week engagement period with the public and feedback,

1149 01:27:45,600 --> 01:27:49,968 so we will likely be using this call, at least probably one or two of them

115001:27:49,992 --> 01:27:54,880in October, early November tokind of go through what we have

# 1151

01:27:54,880 --> 01:28:01,280 in that draft strategic plan and start that feedback process with members of the public.

### 1152

01:28:01,280 --> 01:28:04,880 So please look out for that and again as soon as we get those things framed up

# 1153

01:28:04,880 --> 01:28:08,707 and for sure, we will put that information out for folks

# 1154

01:28:08,731 --> 01:28:12,828 so you know what to expect and which meetings you want to attend or not attend 01:28:12,852 --> 01:28:16,639 based upon your interest or if you want to share any of that

1156 01:28:16,639 --> 01:28:20,719 with other community colleagues or other stakeholders

1157 01:28:20,719 --> 01:28:22,808 to make sure that there's awareness.

1158 01:28:22,832 --> 01:28:26,828 We we do everything we can to try to put out tons of information

115901:28:26,852 --> 01:28:31,208but we love it when our fellow travelersand community folks and other partners

# 1160

01:28:31,232 --> 01:28:36,159 help us broadcast the information that folks and communities need

01:28:36,159 --> 01:28:39,813 to try to make sure that they are in the flow of what is going on

#### 1162

01:28:39,837 --> 01:28:46,320 and have a chance to engage and lift up their own voices for us to hear.

1163

01:28:47,360 --> 01:28:49,280

And I think that's all we have for today.

#### 1164

01:28:49,280 --> 01:28:51,688 Then Victoria, are we ending a little early?

# 1165

01:28:51,712 --> 01:28:56,465 Victoria Robinson: I think so, I do not see any other questions or comments,

# 1166

01:28:56,489 --> 01:29:00,960 no raised hands however we do have a question.

1167

01:29:00,960 --> 01:29:06,000 Did you give a ballpark time frame for the new EJSCREEN?

1168 01:29:06,000 --> 01:29:08,880 Matthew Tejada: No, we don't, we really don't know yet.

1169 01:29:09,679 --> 01:29:12,087 We have some things that we've been cooking on

1170 01:29:12,111 --> 01:29:16,560 and they're coming up to being ready to go,

1171 01:29:16,560 --> 01:29:18,668 we don't know exactly when those are going to come out.

1172

01:29:18,692 --> 01:29:23,520 We're also thinking ahead for some updates over the winter,

01:29:23,520 --> 01:29:29,228 so we're working hard on those and as soon as we have them completely nailed down

#### 1174

01:29:29,252 --> 01:29:32,719 and have everyone comfortable with them, we'll be pushing them out

# 1175

01:29:32,719 --> 01:29:39,246 but it always takes a little longer than I hope and that I anticipate.

1176 01:29:39,270 --> 01:29:45,328 We've managed to get the timing down to shorter than it was 6, 7 years ago

# 1177 01:29:45,352 --> 01:29:51,199 for doing an update but we're not quite yet buttoned away completely yet.

# 1178 01:29:51,199 --> 01:29:53,440 Victoria Robinson: Matt, real quick question.

01:29:53,440 --> 01:29:56,232 Are we talking about the new EJSCREEN--

### 1180

01:29:56,256 --> 01:30:03,199 is it a combination of new data and or a new interface or changes to the interface?

1181 01:30:03,199 --> 01:30:07,920 We've been working on both and I don't think the new interface

1182 01:30:07,920 --> 01:30:10,728 will be ready in the next couple of months,

1183
01:30:10,752 --> 01:30:17,040
I think we're probably going to look at early 2022 for that, calendar year 2022,

# 1184

01:30:17,920 --> 01:30:24,548 but we've-- I mean, we're working on a lot of stuff which is awesome

01:30:24,572 --> 01:30:29,920 because this is the first time, the last six months are the first time that we've had

## 1186

01:30:29,920 --> 01:30:34,000 basically any resources to actually build some of the stuff in EJSCREEN

# 1187

01:30:34,000 --> 01:30:37,225 that people have been asking us for since it was first launched

1188 01:30:37,249 --> 01:30:42,560 and we have done-- we have built EJSCREEN and maintained EJSCREEN

1189
01:30:42,560 --> 01:30:50,159
on the stringiest of shoe strings
in federal government perspective.

1190 01:30:50,159 --> 01:30:53,408 So we finally with this administration have some resources

01:30:53,432 --> 01:30:58,080 and also just have the support to really do to EJSCREEN the things

## 1192

01:30:58,080 --> 01:30:59,928 that people have asked us for.

# 1193

01:30:59,952 --> 01:31:04,239 So we're working on a number of those things and trust me,

1194 01:31:04,239 --> 01:31:08,808 we are just as if not more excited than anybody on planet earth to get newer

1195 01:31:08,832 --> 01:31:12,988 and better versions of EJSCREEN out there, so we're working away on them

# 1196 01:31:13,012 --> 01:31:17,328 and as soon as we can, we're going to pop out any of the new stuff

01:31:17,352 --> 01:31:21,760 whether it's new data or new layers or a new interface,

# 1198

01:31:21,760 --> 01:31:23,788 we have some mock-ups of the new interface already

# 1199

01:31:23,812 --> 01:31:27,048 and I think they answer-- if we can actually make them work,

1200

01:31:27,072 --> 01:31:30,347 I think they answer a lot of the things people have been asking us

1201 01:31:30,371 --> 01:31:36,239 for a long time and will make EJSCREEN much more-- much simpler,

1202 01:31:36,239 --> 01:31:41,280 much more kind of user friendly and easy to use for novice users,

## 1203

01:31:41,280 --> 01:31:42,880

so we're excited to get them out there.

## 1204

01:31:42,880 --> 01:31:53,199 So again-- but any information on that, if you join that EPA EJ list, that middle email over there,

## 1205

01:31:53,199 --> 01:31:57,848 anytime we do anything on EJSCREEN we will send something out by that listserv

#### 1206

01:31:57,872 --> 01:32:02,000 and also on our twitter account to make sure folks know.

1207 01:32:02,719 --> 01:32:04,880 Victoria Robinson: Thank you very much, Matt.

1208 01:32:04,880 --> 01:32:09,548 And not seeing any other questions I guess it's it will be time for the end of our call.

01:32:09,572 --> 01:32:12,168 We do have another caller as we said on September 28th,

## 1210

01:32:12,192 --> 01:32:14,773 the same time at 2 PM Eastern.

# 1211

01:32:14,797 --> 01:32:19,586 We'll be sending out announcements via Twitter and our listserv

# 1212 01:32:19,610 --> 01:32:24,448 within the next week or maybe by the end of this week

# 1213 01:32:24,472 --> 01:32:28,076 with that information, what includes the registration and information

# 1214 01:32:28,100 --> 01:32:29,285 about what the subject matter is.

01:32:29,309 --> 01:32:33,208 And thank you for that suggestion and reminder for us to make sure

#### 1216

01:32:33,232 --> 01:32:37,199 we include the topic in those announcements, thank you.

# 1217

01:32:37,199 --> 01:32:40,913 Matthew Tejada: One more question came in, I'm not sure if it was a region or a state

## 1218

01:32:40,937 --> 01:32:49,267 but if folks out there are using EJSCREEN, there is no reason to wait to use EJSCREEN

#### 1219

01:32:49,291 --> 01:32:57,807 to train on EJSCREEN, to figure out how to use it in very firm program policy ways,

#### 1220

01:32:57,831 --> 01:33:02,560 it's not like EJSCREEN is going to come out as this completely different thing,

01:33:02,560 --> 01:33:06,168 it'll be evolutions on what we have now,

# 1222

01:33:06,192 --> 01:33:09,600 so don't wait for new things to come out,

# 1223

01:33:09,600 --> 01:33:14,367 get people using it, get people trained on it, start wrapping your arms around it

#### 1224

01:33:14,391 --> 01:33:19,953 it'll only make it that much easier when newer versions come out to assimilate that

1225 01:33:19,977 --> 01:33:24,560 into how and to folks understanding and use.

1226 01:33:26,880 --> 01:33:28,968 Okay and now I think we're done, Victoria.

01:33:28,992 --> 01:33:30,456 Victoria Robinson: Yes I think we're done.

#### 1228

01:33:30,480 --> 01:33:30,960 Matthew Tejada: Okay, thank you everybody.

1229

01:33:30,960 --> 01:33:32,960 Victoria Robinson: Forward to seeing everybody seeing folks

1230

01:33:32,960 --> 01:33:36,028 in the next week, in two weeks from today.

1231

01:33:36,052 --> 01:33:36,476 Thank you.

1232

01:33:36,500 --> 01:33:40,535 Matthew Tejada: Thank you Sean, thank you, Nestor for interpreting again today,

1233 01:33:40,559 --> 01:33:42,560 we appreciate y'all.

1234

01:33:42,560 --> 01:33:43,987 Victoria Robinson: Indeed, thank you.

1235

01:33:44,011 --> 01:33:45,167 Matthew Tejada: All right, thanks everyone.

1236

01:33:45,191 --> 01:33:50,195 Hey great job Elyse and Patricia that was great.

1237

01:33:50,219 --> 01:33:51,440

Patricia Overmeyer: Thank you.

1238

01:33:51,440 --> 01:33:53,520

Elyse Sutkus: Thanks everyone.

1239

01:33:53,520 --> 01:33:56,679

Thank you.
