

EMISSIONS TAMPERING is illegal & pollutes our air

WHY IS TAMPERING ILLEGAL?

Emissions controls prevent respiratory disease, premature death, and environmental harm. EPA enforces these prohibitions to protect public health and the environment.

DOES THIS AFFECT YOU?

These prohibitions apply to anyone who services any emissions-related aspect of any EPA-certified vehicle, engine, or piece of equipment. These prohibitions also apply to anyone who manufactures, distributes, or installs emissions-related parts.

MAKE SURE YOU WON'T BE SUBJECT TO PENALTIES

Do not remove or alter emission controls on any EPA-certified vehicle, engine, or piece of equipment.

Emissions controls are all parts that may affect emissions, such as catalysts, filters, the electronic control unit, the fuel system, and the onboard diagnostic system.

BEFORE YOU SELL... Have proof that the parts will not increase emissions (for example, emissions test results or an Executive Order from California Air Resources Board demonstrating no illegal emissions increase for the intended use of the part).

BEFORE YOU INSTALL... Have proof that the vehicle will be returned to its original, stock configuration after installation; or have proof that the parts will not increase emissions.
