

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation's water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

## CITY OF OREGON CITY

---

**PROJECT NAME:** Water Rehabilitation, Resiliency and Improvement Projects

**LOCATION:** Oregon City, OR

**INVITED WIFIA LOAN AMOUNT:** \$12 million

**POPULATION SERVED BY PROJECT:** 34,000

### PROJECT DESCRIPTION:

The Water Rehabilitation, Resiliency, and Improvement projects will protect the water system against cyber attacks, repair and replace aging and undersized pipes and mains, and provide reliable service. The purpose of these projects is to improve the water system resiliency by replacing aging water pipes, providing a seismically sound new reservoir, protecting the system from cyberattacks, and increasing storage and transmission capabilities to meet its growing demands.

## FY 2021 SELECTION ROUND

---

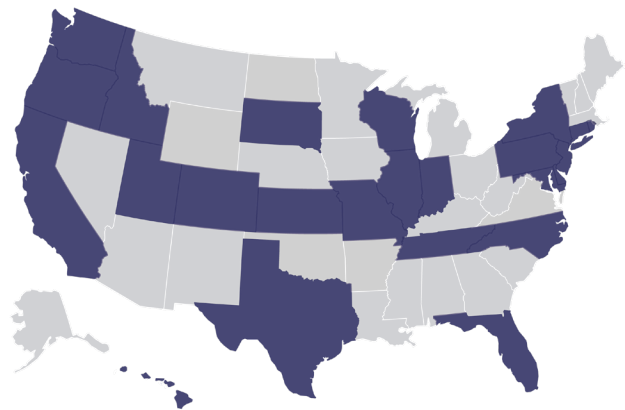

**NUMBER OF PROJECTS SELECTED:** 40

**NUMBER OF PROJECTS WAITLISTED:** 4

**TOTAL LOAN AMOUNT:** \$8.9 billion

**TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED:** \$19 billion

**NUMBER OF PEOPLE WHO BENEFIT:**  
50 million in 24 states

The WIFIA program will provide selected entities with innovative financing tools to address pressing public health and environmental challenges in their communities. Consistent with the announced priorities, selected projects will support infrastructure improvements in historically disadvantaged communities, modernize and protect infrastructure from the impacts of extreme weather and climate change, and use new and innovative approaches to address community needs.
