

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation's water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

NEW CASTLE COUNTY

PROJECT NAME: Christina River Force Main Rehabilitation Project LOCATION: New Castle, DE INVITED WIFIA LOAN AMOUNT: \$32 million POPULATION SERVED BY PROJECT: 330,000

PROJECT DESCRIPTION:

The Christina River Force Main Rehabilitation project will construct approximately 1,500 linear feet of new force main pipe across the Christina River and connect it to the Wilmington Wastewater Treatment Plant. The purpose of the project is to rehabilitate the Christina River Force Main sanitary sewer system to prevent sewage spills and sanitary sewer overflows.

FY 2021 SELECTION ROUND

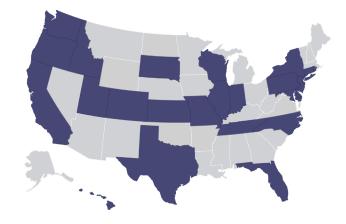

NUMBER OF PROJECTS SELECTED: 40

NUMBER OF PROJECTS WAITLISTED: 4

TOTAL LOAN AMOUNT: \$8.9 billion

TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED: \$19 billion

NUMBER OF PEOPLE WHO BENEFIT: 50 million in 24 states

The WIFIA program will provide selected entities with innovative financing tools to address pressing public health and environmental challenges in their communities. Consistent with the announced priorities, selected projects will support infrastructure improvements in historically disadvantaged communities, modernize and protect infrastructure from the impacts of extreme weather and climate change, and use new and innovative approaches to address community needs.
