

Where science
& creativity meet

June 14, 2022

Michelle Arling
Human Research Ethics Review Officer
Office of Pesticide Programs (3106P)
1200 Pennsylvania Avenue, N.W. MC 7501M
Washington, DC 20460-0001

Dear Ms. Arling,

Over the course of 3 months, May 2020 to August 2020, we attempted to obtain information about the ethical conduct of the study (MRID 51171302) as required by 40 CFR 26.1303. The study is so old that we have been unable to collect additional information per 40 CFR 26.1303. Our attempts to contact the research lab that conducted the study for the relevant information are listed below.

May 2020 – Discussion with EPA regarding requirement to provide information about ethical conduct of the study

June 2020 – July 2020 several phone calls to were made to Cliantha Research (previously known as Hill Top Research), and voice mails were left to which we received no response

MRID 51171302

Ladics, G. (2020) BIT: Repeated Insult Patch Test. Project Number: NB/200034/1730. Unpublished study prepared by Hill Top Research, Inc. 42p. Hill Top Research, Inc. 1990. Repeated Insult Patch Test for Rohm and Haas Company, 90RC-181. (Rohm and Haas)

Please feel free to contact me for any additional information or questions.

Sincerely,

Joanne Ryder
Lead Product Stewardship Senior Regulatory Manager
