To whom it may concern:

(b) (6) Privacy, (b) (7)(C) Enforcement Privacy Hello Sir/Ma'am my name is
And I am currently incarcerated at
The William G. McConnell Unit in Beeville, Tx and I am writing
your office because I have a few questions about some
hazardous and unhealthy living conditions that us inmates
are currently living in that jeopardizes our lives and well-
being in this penal institution and the administration is
fully aware that these problems exist and refuse to correct them!
The two (2) issues have to do with facility plumbing,
which causes us to drink sewage drinking water and
sewage line vents which are inoperable causing us to
inhale sewage gases 24 hours a day because the vent
pipes are corroded in their entirety and not functioning,
as they should to disperse sewage gases into the air
outside of our living units. Due to the presence of raw
sewage seeping into the drinking water source inmates
are contracting bacterial infections, namely: H. pylori, an
bacteria that is acquired by drinking contaminated
water or food and can be passed person to person and
is associated with stomach cancer, ulcers, and tumors.
I am asking this office to document this complaint
and thoroughly follow-up this complaint with the
warden **(b) (6) Privacy** and ask

The Maintenance Supervisor (b) (6) Privacy plans on getting into compliance the sewage vents on all the plumbing pipes so the entire living units aren't consistently smelling like raw sewage and inmates aren't consistently inhaling methane gases which are hazardous to our health! Thanks for your time and consideration on this matter and if this is the wrong office to address, this issue with could you please provide me with the correct organization and their address to contact them.

Sincerely

(b) (6) Privacy, (b) (7)(C) Enforcement Privacy
