I have had chronic flooding by rental OFC and pipes leaking

Sometimes several times a day in utility closet, black mold/mildew

in utility closet seeped into hall closet causing floors to buckle. I'm

the house - now floors are uneven / ungrable to walk properly in

the house. There are air quality fair circulation in the house, fumes

from cars, odors from other apts, chronic moisture issues mushrooms

are growing in the bathroom ceiling was told remediate it, just later

the holes in ceiling, the vents are turning black top/bottom you can't

clean them at all, not sure what I'm breathing here, something

is growing on the window sill in living room - chronic cigarette smoke

comes thru front door/vents and in windows (you can't open them

because of this), they light so many cigarettes in the hall until

the fire alarm goes off a fog in the hall. They throw lit ones on

the rubber on the steps, I'm afraid of being in a fire

because of others that don't live in the bldg - you can't

adjust the heat properly either too hot or too cold, it could be too

outside & freezing in here like a meat freezer, almost out of good

quality / blows warm/cold air at the same time, heat can be on

most of the day but still freezing cold in bedroom at night, you

have to turn up to 80-85 to try to get warm, when you try to

turn it down some it's gets hotter, excessive heat in the

utility closet even with the door open some, it makes a

lot of noises (clicking) very scary sounds like its gonna blow

up any minute, fumes are in there also. There are foundation

issues, there is out side dirt under the floors inside my apt?

Jim concerned with the weight of FC on my ceiling, they

Swamp up & down, stamp, slam doors all day & night 1-2 AM

JUN - 2015

It shakes the whole apt. They talk so hard up there they don't realize they belong  
not very considerate of me underneath them. I tried to get an  
examiner to come out to see this, had called the fire dept also.  
I am worried about the ceiling collapsing on me. Chronic fecal urine  
from kids (mice in station) they get on the bed, couch, table  
all on counter (sink, go in to the gas stove (had cleaned it before), correct  
with people visiting like housing inspectors etc. I have been so frustrated  
living here, you don't music shake the bldg, kids/adults running/jumping  
all day & night, screaming/hollering, arguing/fighting in the bldg (they don't live  
here (come to do laundry) falling load, kids kicking doors w/ no care of the  
bldg this 24/7 some days. This is not a safe/clean environment at  
all. This is a health hazard. you have dogs barking all day long let them  
use the bathroom in front of my window where the dirt is at, when it  
rains it comes into the house they were told by court/housing inspectors  
to install water barrier on the outside/inside of my apt, they blatantly  
refused to the inspector put some cheap plastic/wood than the inside  
near base board like that will stop water/rodents/bugs in the house, some of  
it is coming a loose - there is so many bugs from A to Z huge spiders some in the  
kitchen area, they come up thru bathtub/sink in bathroom, huge cockroaches,  
water bugs, little tiny ones some red/white, roaches, moquitos, big wasps  
& you had termites in window sill, they sent me the bill for the treatment  
like it's my fault, when they send exterminators here they don't spray or  
really do anything to stop the source of the issues. I'm sorry I could  
they tell me what to do. I have bought almost everything I could  
not afford to try to stop them myself. I've found 'DOST' here by myself,  
they are still here now great big ones sometimes they are too big to  
fit glue traps - it's so hard to keep my place clean & safe for  
others until these issues stop. Can't sleep/hard to breathe chest  
hurts, I've been so stressed out here, had a nervous break down I can't  
take any more this is too much for any 1 person to take on NO  
one should this way "In human" you would not live this way. The  
apt. is nice but they won't fix it right because it's me. I'm sorry  
for that spirit every one has seen the conditions it's all  
in writing at court, head for the city forward, legal council  
for the elderly, Tenant Advocate/Judicial Tenant Resource Center  
510 YTHSTUN, etc of Insp. Council, etc's for help. I was all  
3 cases against them, file lawsuit with them also. It still  
has not made them stop. They come in my apt don't speak  
very disrespectfully (some, discuss all my personal business  
to my one who I listen been to id things that  
hurt to sit places to move.)
