History : I sent an email 5/4/15 about brown water issues with the city. There is bacteria, high iron & high chlorine in the water. I have been using bottled water for 5 months, but still have to shower & wash clothes in brown water. I have contacted DEP, Governor, mayor, city employees, etc. to fix the issues which has not been done. I am disabled & brown water issues are causing more health issues which I was hospitalized for 6/22-26/15. Please help me get clean water. It affects 17 townhouse owners too not just me.

Describe the acts of discrimination providing the name(s) where possible of the individuals who discriminated (use space on page 3 if necessary): People with immune system disabilities are much more vulnerable to injuries from airborne toxins than others who have normal health. There are no provisions in place to protect me and others with immune systems disabilities from airborne toxins known to cause cancer, that come from an "asphalt plant" located in our neighborhood.

Additional space for answers: There are no public entities that claim they can help disabled persons like me, who have unique vulnerabilities and are severely sensitive to airborne toxins. My spine is now disintegrating and my bone graft material in my dental work has failed to heal. My esophagus is burned out and I've been placed into formal pain management for the rest of my life. Six neighbors have died from cancer with no investigations, while our local government fails to protect us. I believe our local government is putting the rights of a private business to make profits, ahead of the health and safety of the public.
