F. Newell

When I was 13 or 14 1980 or 1982 I got a workers permit to work after school for a Government program called I worked 2 hours after school cleaning up them in the summer. I worked 6 hours a day. In one summer that I worked 80 or 81 some company came in to remove the Asbestos from the ceiling and we were allowed to walk thru the halls and rooms they were working in, getting very dusty white on skin. We were not provided with any safe knowledge or safety equipment to keep us from coming in contact or breathing this harmful Asbestos. I'm now (b) (6) - Privacy and no one will tell me in prison what's wrong with me. I believe this Asbestos has effected me very bad. (b) (6) - Privacy I believe from this. I do not smoke. Who will help me with this issue or case. Everything is easy to verify.

I worked for Graham Middle School, on Pine st Graham N.C. 27253. The Alamance County School systems central office can supply all information. I need your help in this I see this on TV to contact a Attorney but I should not need one if yall will help me.

sincerely Submitted
