MATERIALS TRANSFER AGREEMENT		
Provider: U.S. Environmental Protection Agency (EPA) Office of Research and Development (ORD) Center for Computational Toxicology and Exposure (CCTE) Recipient:		
The Trustees, or		
The North Carolina Human Health Exposure Analysis Resource Core, based at RTI International, with a collaborating laboratory at the University of North Carolina -Chapel Hill.		
1a. Provider agrees to transfer to Recipient's Investigator named below the following Research Material:		
Chemicals and Materials A list identifying selected chemicals from the ToxCast chemical library to be tested by		
the North Carolina Human Health Exposure Analysis Resource Core.		
A copy of the current ToxCast chemical library, or subset, consisting of chemical samples prepared as solution in dimethyl sulfoxide at a concentration of 20 millimolar. Additional chemicals may be provided in the future concurrent with expansion of the ToxCast chemical library. Samples of nanomaterials and characterization data on said materials.		
Data and Summary Information In vitro assay data derived from the ToxCast Program. This data is derived from chemicals analyzed using a variety of high throughput assay techniques. Below this is referred to as the "ToxCast Data". In vivo whole animal toxicology data summary data derived from the EPA Toxicology Reference Database (ToxRefDB). Below this is referred to as the "ToxRefDB Data". Summary descriptions of the individual data sets. Individual subsets of this data will be delivered to after they have been prepared for use at EPA and cleared for release to

4. This Research Material will be used by Recipient's investigator solely in connection with the following research project ("Research Project") described with specificity as follows:

The Entact Project. The recipient's investigator will conduct high resolution Liquid Chromatography-Mass Spectrometry (LC-MS) and Gas Chromatography-Mass Spectrometry (GC-MS) to build a mass spectral library. Data will be provided after analysis to EPA.

- 5. Recipients may publish or otherwise publicly disclose the results of the Research Project, In all oral presentations or written publications concerning the Research Project, Recipients will acknowledge Provider's contribution of this Research Material unless requested otherwise.
- 6. This Research Material represents a significant investment on the part of Provider and is considered proprietary to Provider. Recipient's investigator therefore agrees to retain control over this Research Material and further agrees not to transfer the Research Material to other people not under his/her direct supervision without advance written approval of Provider. Provider reserves the right to distribute the Research Material to others and to use it for its own purposes. When the Research Project is completed, the Research Material will be returned to the Provider or disposed, if directed by Provider.
