I am currently an inmate at the Cadi
Correctional Center housed in the Segregation unit the staff here at this jail
have literally had me locked up against my will for the entire time i have
been incarcerated which is not the initial reason for me contacting this department
its the fact that they have had me locked up all to keep me from receiving
adequate medical attention and inflict the most cruel and unusual forms of
punishments that could possibly be administered to a human being i have done
every thing in my power to reach a better understanding and be allowed
to be treated equal as my inmate peers but i am only receiving false
promises and threats of violence of bodily harm i have been beaten ALOT
f times my dietary requests are being denied and my medical needs have
reached far beyond obvious but are still being openly ignored the environment
is unsanitary and inhumane so many reasons from covid infections to just regula
tuff infections for the deputies to help us maintain a stable and safe living
condition but they are willfully denying our and most importantly My rights i
m not even able to see my family because i am looking and doing so bad
dont get legal correspondants the way i should and my mail is very
imited i have no way to contact the courts the way i should because we are
lways locked down we no longer receive our free calls that we are supposed
due to the pandemic and the ARP process is not legitimate at all i have
ntacted the IA dept. and nothing has change i would like to state that i
ally understand that incarceration should not be easy or looked at as a
ome away from home but i can assure you with further investigation you
ll will see that the way i am and have been being treated is 100% wrong
am the victim of a full blown Civil Conspiracy and i need help My 1st,
6th, 8th, 10th and 14th Constitutional Amendment rights are literally ~~into~~
entionally being violated assistance with these matters would mean the
rid to me right now please and May God Bless. Signed
