Subject: Clean Water Act Section 404c Recommended Determination - Pebble Project

Chuchuna Minerals Company (CMC) thanks you for your letter of December 2, 2022 and your invitation for consultation. Please be advised CMC has no plans to discharge any dredged or fill materials into the North Fork Kaktuli River, South Fork Kaktuli River or Upper Talarik Creek and therefore has no need for consultation. We do appreciate being informed about the subject action, as you go through the various steps, and hope you will continue to share information. Thank you for the opportunity to comment on this very important matter.

Ventura Samaniego, President  
Chuchuna Minerals Company
