[ORGANIZATION] RENEWS WITH THE U.S. EPA SMARTWAY® TRANSPORT PARTNERSHIP

[City, State] – [Organization] today announced that it has submitted and received approval for their current data submission to the SmartWay® Transport Partnership, an innovative collaboration between U.S. Environmental Protection Agency (EPA) and industry. The SmartWay Transport Partnership provides a framework to assess the environmental and energy efficiency of goods movement supply chains.

[Organization] will continue to contribute to the Partnership's savings of 336 million barrels of oil, \$44.8 billion on fuel costs and 143 million metric tons of CO₂, 2.7 million short tons of NO_x and 112,000 short tons of PM... This is the equivalent of the annual electricity use in 21 million homes. By joining SmartWay Transport Partnership, [Organization] demonstrates its strong environmental leadership and corporate responsibility.

ALL PARTNERS can get into their private Partner Portal and find

- Access to begin and re-enter your Tool when it's released annually
- User Guide, an Example Tool, your company's Registration Document (sometimes called "certificate" by other companies) and resources highlighted by Patrice
- Reports we're about to see can be saved on your computer, printed, or shared with stakeholders all the way up to the C-suite or Board of Directors
- These reports are not shared or accessible to anyone other than your designees. The only data all partners can access is the Carrier Emissions Results which shows Emissions Factors and Performance (bin) Rankings

Truck Partners

- **SmartWay Online Truck Tool: Short Form**

The Short Form version of the Online Truck Tool is for truck carriers who have a single fleet with 20 or fewer trucks that are all in the same class (e.g., 8b) and that only use diesel or gasoline fuel. You may choose to use the Online Truck Tool for All Carriers which you can access below. DO NOT complete more than one version of the Truck Tool.
