December 29, 2022

Mr. James Bedison
AMO Environmental Decisions
875 N. Easton Road, Suite 10
Doylestown, Pennsylvania 18902

Dear Mr. Bedison:

Thank you for discussing the new redevelopment plans for the Former Cabot Supermetals facility in Revere, Pennsylvania (Site) with EPA. Toward that end, AMO Environmental Decisions submitted an addendum to the August 2010 Revised Environmental Summary Report used in EPA's 2011 Final Decision and Response to Comments. EPA has reviewed and approves this *Human Health Risk Assessment Addendum for Former Cabot Supermetals, Revere, Pennsylvania*, dated October 2022 and prepared by Bluestone Environmental Group.

EPA's 2011 Final Decision included requirements for an environmental covenant restricting activity and use of certain portions of the Site to non-residential uses, as contamination remains in the soil above Residential Soil Risk-Based Concentrations. An Environmental Covenant was recorded on August 18, 2011. EPA has determined that the new proposed activity at the Site falls within the activity and use limitations of the current covenant, therefore a new covenant is not required.

If you have any questions concerning this matter, please contact me at Matyskiela.Linda@epa.gov.

Sincerely,

Linda A. Matyskiela
Project Manager
