Dear Mr. Marion Johnson,

Nichino America Inc., the sole registrant of the proprietary insecticide, pyrifluquinazon, submits herein an application for extension of exclusive use data protection as provided under FIFRA Section 3(c)(1)(F)(ii). Nichino is offering 25 minor use crops candidates for consideration of an additional three years for data protection for pyrifluquinazon.

To qualify for consideration under FIFRA Section 3(c)(1)(F)(ii) for an extension of the exclusive use period, the minor uses must be registered within the first seven years from the start of the exclusive use period and meet one of the four criteria listed in FIFRA Section 3(c)(1)(F)(ii). Pyrifluquinazon Technical (EPA Reg. No. 71711-38) and Pyrifluquinazon Insecticide (EPA Reg. No. 71711-37) were first registered on January 03, 2013. All minor crops contained within the petition were added to the pyrifluquinazon labels within the first seven years of registration.

Evidence that pyrifluquinazon meets one or more of the four criteria outlined in FIFRA Section 3(c)(1)(F)(ii) are contained within the petition.
