REASON FOR writing is: I've had racial issues here at this unit and prison by officers. Also by violating my Safe Prison and human Rights. PRA and Constitutional Right's by placing my life in unliving and dangerous situations like-when I filed a (Life in Danger) also known as bID. They place me back in population and used retaliation tactic's by threatening me to not enter the eating area! I filed step 1 grievance and step 2. But the response was so unlawful that I feared to continue in motion. due to Correctional officers high level of friendship with the obudsman or grievance officer.

How do I resolve this situation without being killed by a Correctional officer by standing my constitutional grounds.
