

DRAFT – FEBRUARY 2023

Indoor airPLUS Certification Protocol

for Homes and Apartments

Effective: <DATE TBD>

Last Revised: February 2023

Indoor airPLUS certified homes and apartments must be certified through an EPA-recognized Home Certification Organization (HCO) in accordance with the Indoor airPLUS program requirements identified below. Refer to the Implementation Timeline within the National Program Requirements to determine the Version and, if applicable, the Revision that is required to be used for each home or apartment.

[Indoor airPLUS Certified](#)

- Indoor airPLUS National Program Requirements
- Indoor airPLUS Certification Specifications: Verification Requirements for Homes and Apartments

[Indoor airPLUS Gold](#)

- Indoor airPLUS National Program Requirements
- Indoor airPLUS Gold Specifications: Verification Requirements for Homes and Apartments
- [ENERGY STAR Certification \(Single-Family New Homes or Multifamily New Construction\)](#)

Indoor airPLUS Program Policy Record

EPA periodically updates the program requirements in response to partner questions and standard revisions. These updates are contained in the [Indoor airPLUS Program Policy Record](#). Any change or clarification published by EPA can be applied immediately.

Indoor airPLUS Quality Assurance Checklists

The following documents provide guidance for an HCO's quality assurance personnel during quality assurance file review and field evaluation.

[Indoor airPLUS Certified](#)

- Indoor airPLUS Certified Quality Assurance Checklist

[Indoor airPLUS Gold](#)

- Indoor airPLUS Gold Quality Assurance Checklist

Application for Recognition as a Home Certification Organization (HCO)

- Application for EPA Recognition as a Home Certification Organization, included in the Indoor airPLUS Certification System for Homes and Apartments.
