Radon is a naturally occurring radioactive gas that can enter homes from the ground and build up to dangerous levels. The U.S. Environmental Protection Agency (EPA) has several publications – including guides for consumers, home buyers and sellers – to help people better understand radon and its health risks.

Scan the QR Codes below to access the publications, or scan the code to the right to explore EPA’s radon website.

**A Citizen’s Guide to Radon: The Guide to Protecting Yourself and Your Family from Radon**

This guidance offers strategies for testing your home for radon, discussions of what steps to take after you have tested, discussions of the risk of radon and radon myths.

**Home Buyer’s and Seller’s Guide to Radon**

This booklet is intended for anyone who is buying or selling a home, real estate and relocation professionals, home inspectors and others.

**State and Tribal Indoor Radon Grants (SIRG)**

This factsheet provides information to ensure that all eligible parties, including tribes, have the information they need to apply for SIRG funding.

**Consumer’s Guide to Radon Reduction: How to Fix Your Home**

This guidance is designed for people who have tested their home and confirmed that they have elevated radon levels — 4 picocuries per liter (pCi/L) or higher. Know what to look for when selecting a qualified contractor to reduce the radon levels in your home, determine an appropriate radon reduction method and maintain your radon reduction system.
