

## Draft U.S. GHG Inventory For Public Review/Comment

As a service to our Partners and other interested parties, the U.S. EPA Landfill Methane Outreach Program (LMOP) is sharing information about **EPA's Inventory of U.S. Greenhouse Gas Emissions and Sinks (Inventory)**, an annual report that tracks U.S. greenhouse gas emissions and sinks by source category and economic sector, going back to 1990. The **municipal solid waste landfill sector** is one of the covered sources and **methane** is one of the gases included in the report.

Per a recent announcement in the Federal Register [[FRL-9448-02-OAR](#)], the **draft 1990-2021 Inventory is available for review and public comment**. Information about the Inventory and draft report files are available at [epa.gov/ghgemissions/inventory-us-greenhouse-gas-emissions-and-sinks](https://epa.gov/ghgemissions/inventory-us-greenhouse-gas-emissions-and-sinks).

To **ensure your comments are considered for the final version of this Inventory** (to be released in April 2023), they must be submitted by **March 17, 2023**. Comments can be submitted electronically at [regulations.gov/commenton/EPA-HQ-OAR-2023-0001-0001](https://www.regulations.gov/commenton/EPA-HQ-OAR-2023-0001-0001) or by email to [GHGInventory@epa.gov](mailto:GHGInventory@epa.gov). More information about submitting comments is available online at [epa.gov/ghgemissions/how-submit-comment-draft-us-greenhouse-gas-inventory-report-1990-2021](https://epa.gov/ghgemissions/how-submit-comment-draft-us-greenhouse-gas-inventory-report-1990-2021). Comments received after the deadline are still welcome and will be considered for the next edition of the Inventory.

*To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.*
