The PAR report is designed to provide accomplishment statistics. Filtering options allow users to obtain specific accomplishments for user selected year(s) and location(s).

To produce a report:

- Select from column 1:**
 - Select one or more accomplishment types. The report can be further refined by selecting grant type(s). The selected accomplishment type determines which grant types are available. For example, select 'Assessments Completed' and the grant types include assessments, TBAs and State and Tribals. Select 'Cleanups Completed' and additional grant types are available (cleanups and RLFs).
 - OR
 - Select an alternative grant type (not typical accomplishments). Job Training will display grant information on the number of trainees obtaining employment and their average hourly pay. Area Wide Planning will display information on associated properties and funding expended.
 - OR
 - Enter a Cooperative Agreement number to view accomplishments on a single grant.
- Select from column 2 (optional):**
 - Select accomplishment year(s). Defaults to current fiscal year.
- Select from column 3 (optional):**
 - Select a region and/or state. Counties or Congressional Districts are available in the 'Advanced Selections' drop-down. The selected region and/or state will determine what Counties or Congressional Districts are available in the filter drop-down.
- Select from column 4 (optional):**
 - Make any additional selections as needed. Defaults to final data and all funding types (Regular, BIL and ARRA). Help popups describe the contents and parameters of each group.
- Click the 'Run Report' button and the report displays information in tabs.** The first tab is a report summary and each additional tab contains details by Accomplishment type.

3. The PAR report is broken into four (4) sections: **Select Accomplishment and CA Type, Select Year(s) the Accomplishment is Counted, Select Location, and Additional Selections.** PAR will default to all Accomplishment Types, all Cooperative Agreement (CA) Types, the Current Fiscal Year, all Regions, all Brownfields Funding Type, and all Justice40 properties.

NOTE: Selecting 'ALL' options in all 3 columns will result in a high volume of database retrieval and a slower response time.

4. To search specific Accomplishment and CA Type, select one or more accomplishment type(s).

- Assessments Completed
- Cleanups Completed
- Dollars Leveraged
- Jobs Leveraged
- Acres and Properties Ready for Anticipated Use (RAU)
