

RFP for LFG Energy Project at Elkhart County Landfill, IN

As a service to our Partners and other interested parties, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **request for proposals (RFP)** from the **County of Elkhart, Indiana**. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is based on the public notice request and RFP.

The County is seeking written proposals from qualified respondents to **design, finance, build and operate a facility to recovery energy from or otherwise beneficially use LFG from the Elkhart County Landfill**. The County seeks to enter an LFG purchase agreement with the successful respondent.

The Landfill has an existing gas collection and control system, with a portion of the LFG being used to heat a county building; this direct use project will be discontinued when the new energy project begins.

- **Non-mandatory pre-proposal meeting with virtual option:** **March 30, 2023** at **1:30 pm local time**
- **Last day for questions:** **April 17, 2023** at **5:00 pm local time**
- **Proposal deadline:** **May 8, 2023** at **9:00 am local time**

Requests to participate virtually in the pre-proposal meeting, requests for the RFP documents in electronic format, and any questions about this RFP must be emailed to jbowers@elkhartcounty.com with copy to jtubicsak@elkhartcounty.com and rvliek@ingenae.com.

To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.
