Hello, my name is

(b)(6) Privacy, (b)(7)(C) Enf. Privacy

I am interested in certification in Heating, Ventilation, Air Conditioning (HVAC) particularly, section 608 certification and R-410A certification, HVAC Tech refrigeration certification.

I would greatly appreciate you sending me books, magazine subscriptions, new publications along with any other helpful resources you may have.

You may note,

something in my personal background requires explanation. One year ago, I violated state law and as a result am spending some time in a state facility.

While inside,

I participate in an intensive therapeutic treatment program and learn to accept responsibility for my actions. I am really trying to turn my life around and have the skills necessary to keep a job and pay rent.

We don't live in an ideal world.

People of color are so often treated like second class citizens in our society. Opportunities in employment, housing, education, and politics are often limited for minorities.

→

Racism, classism and poverty all play a part in reducing people's positive expectations for the future as well as their feelings of self worth.

Excessively harsh crime policies that result in mass incarceration that stand in the way of a just and equal society, reducing the number of people entering jails and prisons.

Reforming our nations policies which have failed to achieve public safety and health while putting unprecedented numbers of people behind bars and eroding constitutional rights and challenges policies and prosecutorial misconduct and other governmental abuses of power. To educate the community about the effects of the criminal justice system on people of color.

Lastly, I don't have much family or friends and am wondering if you or someone you know would like to write letters to me while im still incarcerated (pen-pal)?

I look forward to hearing back from you real soon, thank you for the great pleasure of your time and consideration.

Sincerely,
