

**2022-2023 Diesel Emissions Reduction Act (DERA) National Grants Priority Area List**

In order to receive points Criterion 3.A in Section V of the 2022-2023 DERA National Grants Notice of Funding Opportunity (NOFO), vehicles or equipment proposed for funding must be operated in one of the priority areas listed below. These areas were identified as priority locations for the DERA program because they are designated, as of the release date of this NOFO, as Nonattainment Areas or Maintenance Areas for the following National Ambient Air Quality Standards. Data is sourced from EPA's Green Book of Nonattainment Areas for Criteria (<https://www.epa.gov/green-book>).

- a) PM 2.5 1997 Standard (Annual: 15  $\mu\text{g}/\text{m}^3$ , 24-hour: 65  $\mu\text{g}/\text{m}^3$ )
- b) PM 2.5 2006 Standard (Annual: 15  $\mu\text{g}/\text{m}^3$ , 24-hour: 35  $\mu\text{g}/\text{m}^3$ )
- c) PM 2.5 2012 Standard (Annual: 12  $\mu\text{g}/\text{m}^3$ , 24-hour: 35  $\mu\text{g}/\text{m}^3$ )
- d) Ozone ( $\text{O}_3$ ) 2008 Standard (8-hour: 0.075ppm)
- e) Ozone ( $\text{O}_3$ ) 2015 Standard (8-hour: 0.070ppm)

In order to receive points Criterion 3.B in Section V of the 2022-2023 DERA National Grants Notice of Funding Opportunity (NOFO), vehicles or equipment proposed for funding must be operated in one of the priority areas listed below. These areas were identified as priority locations for the DERA program because they contain at least one census tract where the modeled ambient diesel PM concentration from the 2019 Air Toxics Screening Assessment (<https://www.epa.gov/AirToxScreen>) is above the 80<sup>th</sup> percentile (0.38  $\mu\text{g}/\text{m}^3$ ) for census tracts nationwide. The 80<sup>th</sup> percentile is a programmatic cutoff designed to help us evaluate those areas that are most likely to have higher concentrations of diesel PM in the year of analysis (i.e., the year for which modeled diesel PM data are available); this level was not chosen based on risk or other health-based criteria or thresholds. Air Toxics Screening Assessment is a screening tool and there are limitations and uncertainties associated with it; see: <https://www.epa.gov/AirToxScreen/airtoxscreen-limitations>.

State	County	1997 PM 2.5	2006 PM 2.5	2012 PM 2.5	2008 8-Hour Ozone	2015 8-Hour Ozone	2019 Air Toxics Screening Assessment
