

Solid Waste Infrastructure for Recycling Grants Political Subdivisions Fact Sheet Seattle, Washington

Selected Grant Recipient

Name: City of Seattle, WA

Project Title: Establishment of a Salvaged Wood Warehouse to Support the Local Circular Wood Economy

EPA Information

Region: EPA Region 10

Grant Funding: \$4,000,000

The City of Seattle will support a local circular wood economy by developing a salvaged wood warehouse to process, store, organize, and distribute salvaged wood. The reuse of salvaged wood, recovered mainly from residential structures as they are being deconstructed rather than demolished, provides many benefits including positive impacts to waste reduction, the environment, and air quality. This project will result in 150 tons of wood processed annually.

Highlights

- Develops a warehouse to process, store, organize, and distribute salvaged wood.
- Recovers wood from deconstruction of residential structures.

SWIFR Grants for Political Subdivisions

The Save Our Seas 2.0 Act provides investments in recycling to support the implementation of the National Recycling Strategy and build a circular economy for all. This funding supports improvements to waste management systems and programs, allowing for more efficient resource use and less environmental impact from waste materials. The SWIFR grant funding can be used to establish or optimize collection and management of materials; fund infrastructure, technology, or other improvements to reduce contamination; enhance markets for recycled commodities; and increase the diversion, recycling rate, and quality of materials collected for municipal solid waste.
