## FY24 Summary of the Brownfield Multipurpose, Assessment, and Cleanup (MAC) Grant Guidelines Changes (as of 9/12/23)

EPA prepared this Summary of Changes document to assist prospective applicants with preparing Brownfields Multipurpose, Assessment, and Cleanup Grant applications. **Please review the FY24 Application Guidelines** (also referred to as Request for Application (RFA) or the solicitation) **when preparing your application**. If the information in the Summary of Changes differs from information in the statute, regulation, or the Guidelines, then the statute, regulation, or the Guidelines will take precedence.

If you are interested in **applying for more than one grant type in FY24**, review the [FY24 Eligibility Chart for Multiple Applications](#) to determine which other grants are available to you.

**If you currently have an EPA Brownfields Grant** and are interested in applying for an FY24 grant, review the [FY24 Eligibility Chart for Existing Grant Recipients](#) to determine which other grants are available to you.

A solicitation for new Revolving Loan Fund Grants will not be issued in FY24. EPA expects to solicit requests from existing, high-performing RLF Grant recipients for supplemental funding through a Federal Register notice in early 2024.

# Applicant Eligibility

Describe how you are an eligible entity (complete list in Section III.A.)

- For entities that are cities, counties, Tribes, or states, affirm that the organization is eligible for funding.
- For entities other than cities, counties, Tribes, or states, attach documentation of your eligibility (e.g., resolutions, statutes, etc.).
-  ○ For Intertribal consortia, attach documentation that meets the requirements in 40 CFR 35.504(a) and (c). All members of the Intertribal consortium must authorize submission of an application.
- For nonprofit organizations and qualified community development entities, attach documentation certifying the organization's status.
- Indicate if your organization is exempt from Federal taxation under section 501(c)(4) of the Internal Revenue Code.
  - If yes, indicate if your organization lobbies the Federal government.
  - If yes, but your organization does not lobby the Federal government, attach a legal opinion that states that the organization does not engage in lobbying activities.

# Community Involvement

- Applicants must identify how you will “inform and involve the community and other stakeholders.”
- Tie this to your response to Narrative/Ranking criterion 2.b. Community Engagement.
- Community involvement efforts can be implemented using existing meetings.
- If you are applying for **Assessment Grant** and **Cleanup Grant** funding, the Assessment Community Involvement threshold criterion can be satisfied by using the Cleanup Grant Community Notification process.

# Target Area

- Identify one target area.
- Target area may include a number of neighboring towns, a district, a shared planning area, or a census tract.

# Affirmation of Site Ownership

- Affirm that you own a site in the target area that meets the definition of a brownfield.

You are not required to address this site if selected for funding.

# Use of Grant Funds

Indicate on which page of the application information can be found on your plan to:

- Conduct assessment activities.
- Conduct remediation activities.
- Develop an overall plan for revitalization of the target area **that includes a feasible reuse strategy for at least one priority site**, or...

State if an overall plan for revitalization of the target area (and the plan includes a feasible reuse strategy for at least one priority site) already exists.

**Information that is referenced can  
be in the written narrative or the  
budget table.**

# Expenditure of Existing Grant Funds

- Current EPA Multipurpose Grant recipients and Assessment Grant recipients must draw down, and disburse, at least 70.00% of each Multipurpose and Assessment cooperative agreement by **October 1, 2023**, before applying for funding.
- Attach a copy of a financial record displaying the amount of funds drawn down (e.g., a report from the Automated Standard Application for Payments (ASAP) or general ledger entries).
- Otherwise: Affirm you do not have an active EPA Brownfields Multipurpose or Assessment Grant.

# Contractors and Named Subrecipients

- **Contractors.**

Applicants, other than state applicants, that have procured a contractor(s) where the amount of the contract will be more than the micro-purchase threshold in [2 CFR § 200.320\(a\)\(1\)](#) (\$10,000 for most applicants) must demonstrate how the contractor (including consultants) was selected in compliance with **the fair and open competition requirements** in 2 CFR Part 200 and 2 CFR Part 1500.

States: Consistent with 2 CFR § 200.317, follow the same competitive policies and procedures used for procurements from non-Federal funds.

- **EPA will not accept sole source justifications** for procurement contracts for services such as environmental consulting, engineering, and remediation that are available in the commercial marketplace.
- Firms or individual consultants that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals **must be excluded** from competing for such procurements as provided in [2 CFR § 200.319\(b\)](#). EPA interprets this regulation to preclude applicants from directly receiving **any assistance** from prospective contractors in developing RFPs if the prospective contractor will be allowed to compete for the work covered by the RFP.
- Consistent with 2 CFR § 200.320(b)(2)(iii), for contracts over \$250,000, **price must be an evaluation factor** in the review of proposals or quotes.

EPA provides guidance on complying with the competition requirements in the [Best Practice Guide for Procuring Services, Supplies, and Equipment Under EPA Assistance Agreements](#) and the [Brownfields Grants: Guidance on Competitively Procuring a Contractor](#).

# Contractors and Named Subrecipients

- **Contractors cont'd:**

Applicants must disclose whether they have already selected a contractor that will be compensated with EPA funds made available under the grant.

- Disclose whether you have already selected a contractor that will be compensated with EPA funds made available under this RFA.
- If a contractor(s) has been selected prior to submitting the application to EPA, describe/include:
  - the procurement procedures that were followed to hire the contractor(s), including **where and when** the Request for Proposals (RFP)/Request for Qualifications (RFQ) was posted;
  - the length of time the RFP/RFQ was advertised;
  - the number of firms solicited and the number of offers received and considered; and
  - the name(s) of the firm(s) the applicant entered into contract with.
- Provide a copy of (or link to) the solicitation documents and the signed executed contract.
- Alternatively, state 'n/a' or 'not applicable' if a contractor has not been procured.

**Failure to provide the requested information will result in the rejection of the application/award.**

States/territories respond  
'n/a' or 'not applicable'

See Section D. of the [FAQs](#)

# Contractors and Named Subrecipients

- **Named Subrecipients.**

All applicants, including states, that name a specific subrecipient in this application must demonstrate that the subrecipient is eligible for a subaward in compliance with [Appendix A of EPA's Subaward Policy for EPA Assistance Agreement Recipients](#). This policy provides, among other things, that transactions between recipients and for-profit firms and individual consultants are procurement contracts rather than subawards when the transaction involves the acquisition of services from the firm or individual.

Describe how the named subrecipient is eligible for a subaward (e.g., is a nonprofit organization or unit of government). Alternatively, state 'n/a' or 'not applicable' if a subrecipient is not named.

Refer to [EPA's Contracts and Subawards Solicitation Clause](#) for additional guidance.
