

Climate Pollution Reduction Grants Program

EPA is providing \$5 billion in grants to states, local governments, Tribes and territories to develop and implement plans for reducing greenhouse gas (GHG) emissions and other harmful air pollution.

Reducing GHG emissions is a critical step to fighting climate change which causes:

GHG emissions are the **primary contributor** to climate change.

Transportation **28%**

Electric Power **25%**

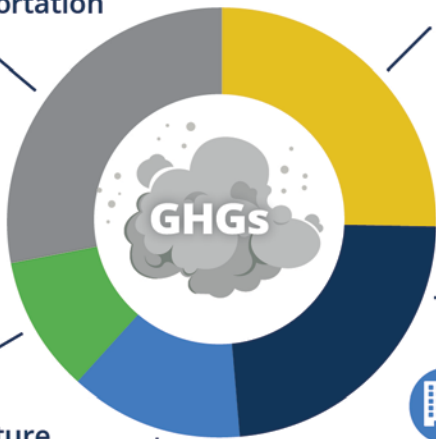

Agriculture **10%**

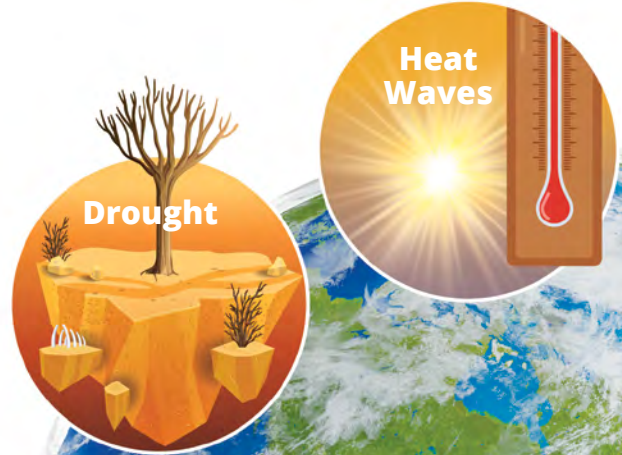

Industry **23%**

Residential and Commercial **13%**

Percentages may not add up to 100% due to independent rounding.

PROGRAM BENEFITS

Spurs economic growth and creates jobs by growing or supporting new industries

Reduces energy demand and bills, especially for low-income and disadvantaged communities

Improves public health by reducing air pollution
