

RFP for LFG Energy Project at Kersey Valley Landfill, NC

As a service to our Partners and other interested parties, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **request for proposals (RFP)** from the **City of High Point, North Carolina**. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is based on the RFP.

The City is requesting proposals from qualified developers for a **landfill gas (LFG) energy project at the Kersey Valley Landfill, located at 3940 Kivett Drive, Jamestown, NC 27282**. The City will consider proposals that outline technically and financially feasible beneficial uses of the LFG including production of renewable natural gas, direct use by industrial users or other suitable technologies.

- **Non-mandatory pre-proposal meeting / site visit: July 12, 2023 at 10:00 am local time**
- **Last day for questions: July 18, 2023 at 3:00 pm local time**
- **Proposal deadline: August 3, 2023 at 2:00 pm local time**

Please refer to the RFP for additional details about the Kersey Valley Landfill and the scope of services.

The **RFP is available** on the City's website at <https://www.highpointnc.gov/bids.aspx?bidID=706>. **Questions about this RFP** must be emailed to candy.harmon@highpointnc.gov.

To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.
