

In Loving Memory....

Rich was a stalwart in the emissions inventory community. He worked tirelessly on many issues related to mobile source emissions and for advancing many aspects of inventory work.

In addition, Rich was a light in this world- to his family and to people he didn't even know. Family was the center of his life, always there with Mary to lovingly raise Ian and Jessie, who both made him so proud. To spend time with them and other family members made him happiest.

Rich was also one of the nicest people you will ever meet. He was a joy to all. Caring, insightful, funny, hardworking; the word we keep hearing when talking about Rich with friends, coworkers, and others is "kind." People loved to work with him, and his family felt his loving kindness each day.

He will be dearly missed by the emission inventory community. Rest in peace, Rich.

Rich Cook, 1960-2023 EPA Career, 1990 - 2022
