National origin, Race/color, Religion
Other: Poor/ economically challenged

Are you now or have ever been an active duty service member?

No

When did this happen?

7/4/2023

Personal description

On July 4th 2023, at or around 3pm there was a rain storm, the city of Hartford has a flood prevention system to prevent flooding through the city. They refuse to operate this system in the predominantly black residents area. Flooding out these homes with rain water and raw sewage. I use to work for the city of Hartford and was in charge of flood control. Ive went to the areas and took pictures and video in control areas. This is happening to devalue these homes and receive federal money to fund other projects under the Biden administration build back America climate change initiatives. This is a violation under the 1964 civil rights act title VI and EJ for ALL act. I have video, pictures and documents under the freedom of information to prove this is a deliberate act.
