

MDBP Rule Revisions Working Group Technical Support

EPA organized and provided summary background information and responded to working group requests for information. To expand on EPA's internal and contract expertise, the working group members identified subject matter experts to provide technical assistance. The following people contributed to responding to questions from working group members.

National Drinking Water Advisory Council: Microbial and Disinfection Byproducts (MDBP) Rule Revisions Working Group Technical Support: 2022 - 2023
Jimmy Chen, Ph.D. Environmental Engineer Office of Ground Water and Drinking Water U.S. Environmental Protection Agency
Zaid Chowdhury, Ph.D., P.E., BCEE Water Treatment Practice Leader Garver
Angela B. Davis, M.S. Biologist Office of Ground Water and Drinking Water U.S. Environmental Protection Agency
Delvin DeBoer, Ph.D., P.E. Senior Advanced Technical Specialist Advanced Engineering and Environmental Services, LLC
Steven J. Duranceau, Ph.D., P.E. Gerry and Ruth Hartman Professor of Environmental Engineering Director, Environmental Systems Engineering Institute Civil, Environmental and Construction Engineering Department

College of Engineering and Computer Science University of Central Florida
Andrew D. Jacque, Ph.D., P.E. Chief Scientist, Founder Water Quality Investigations
Stuart W. Krasner, M.S. Principal Environmental Specialist Metropolitan Water District of Southern California (retired)
Mark W. LeChevallier, Ph.D., P.E. Dr. Water Consulting, LLC
Nancy G. Love, Ph.D., P.E., BCEE JoAnn Silverstein Distinguished University Professor Borchardt and Glysson Collegiate Professor Department of Civil and Environmental Engineering University of Michigan
Shawn P. McElmurry, Ph.D., P.E. Professor Department of Civil and Environmental Engineering Wayne State University
Christine Owen Director of Water and Reuse Innovations Hazen and Sawyer
Kenneth Rotert, M.S. Physical Scientist Office of Ground Water and Drinking Water U.S. Environmental Protection Agency
Chad Seidel, Ph.D., P.E. President Corona Environmental Consulting, LLC
Vanessa Speight, Ph.D. Professor of Integrated Water Systems

Department of Civil and Structural Engineering University of Sheffield
Kirsten Studer, Ph.D. Physical Scientist Office of Ground Water and Drinking Water U.S. Environmental Protection Agency
R. Scott Summers, Ph.D. Professor Emeritus of Environmental Engineering Water Reuse Program Department of Civil, Environmental, and Architectural Engineering University of Colorado – Boulder
Susan Teefy, M.S. Manager of Water Quality East Bay Municipal Utility District
Richard J. Weisman, Ph.D. Environmental Protection Specialist Office of Ground Water and Drinking Water U.S. Environmental Protection Agency
