

Large Municipal Waste Combustors Virtual Public Hearing: Frequently Asked Questions

How can I register to speak at the hearing?

You can register for the hearing by visiting EPA's website on the proposed Large Municipal Waste Combustors rulemaking: <https://www.epa.gov/stationary-sources-air-pollution/large-municipal-waste-combustors-lmwc-new-source-performance>

I don't want to speak at the hearing, but I'd like to watch it. Do I need to register?

EPA will livestream the hearing each day via YouTube. We will post a link to the livestream before the start of the hearing each day on our website.

Can I give my speaking time to someone else? Only registered speakers will be called to provide testimony. If you are not able to speak, please email registration so that we can remove your name and give others an opportunity to speak. If time allows during the hearing, we will register additional speakers. Registration email: LMWC-Public-Hearing@rti.org

What platform will EPA use to conduct the hearing on February 7, 2024?

EPA will conduct the hearing remotely using the Zoom video conferencing service. Registrants will receive a Zoom link prior to the hearing.

I haven't used Zoom before. How do I testify during the hearing?

If you plan to testify using your computer or smart phone, you can download the Zoom software by going to the [Zoom download page](#), or the Apple or Android app store (for smartphones). Note that if you are participating in the hearing by video, your computer must have operating camera, microphone, and audio functions.

If you do not have access to a computer with operating camera, microphone, and audio functions, you testify by phone by dialing the Zoom-generated phone numbers you received in your registration confirmation.

Will the hearing be transcribed? Will the transcripts be available to the public?

The hearing will be transcribed by a court transcribing service, which may record the hearing to assist in preparing the transcript. EPA will post the transcripts to the rulemaking docket when they are complete.

Docket ID No: EPA-HQ-OAR-2017-0183

How can I comment on the proposal?

There are two ways to comment on EPA's proposed rule:

1. Comment at the public hearing: You must register to provide testimony.
2. Comment in writing: Comments must be received to the regulatory docket on or before March 25, 2024.

When does the comment period end?

The comment period for this proposal ends on March 25, 2024.
