<sup>1</sup> The purpose of the table is to provide a list of the combustion control devices that have been manufacturer-tested and for which the test results have been submitted to EPA for review. Inclusion on this list is for informational purposes only. EPA does not endorse any of these manufacturers or their products.

<sup>2</sup> "Yes" means that the manufacturer has demonstrated that the specific model of control device listed achieves the combustion control device performance requirements in 40 CFR Part 60, subparts OOOO, OOOOa, OOOOb and OOOOc, and 40 Part 63, subparts HH and HHH through performance testing conducted as specified in these subparts. An owner or operator who uses a device listed above as "YES" is exempt from conducting initial performance tests under 40 CFR §60.5413(a)(7), §60.5413a(a)(7), §63.772(e), §63.1282(a), §60.5413b(a) and/or §60.5413c(d) and from submitting initial test results under §60.5413(e)(6), §60.5413a(e)(6), §63.775(d)(1)(ii), §63.1285(d)(1)(ii), §60.5413b(e)(6) and/or §60.5413c(e)(6) as applicable. Owner or operators may still be subject to periodic testing. "Yes" does not constitute an endorsement by EPA. Operation of such a device does not relieve the owner or operator of an affected facility from other compliance obligations under the rule.

<sup>3</sup> This column provides the minimum inlet flow rate determined by the manufacturer for the specified model, as required under §60.5412b(a)(1)(vii), and/or §60.5412c(a)(1)(vii) as applicable.

<sup>4</sup>This column provides the maximum inlet flow rate determined by the manufacturer for the specified model, as required under §60.5413(d)(11)(ii), §60.5413a(d)(11)(ii), §63.772(h)(7)(ii), §63.1282(g)(7)(ii), §60.5412b(a)(1)(vi), and/or §60.5412c(a)(1)(vi) as applicable.

<sup>5</sup> "Transferred to" means that EPA has received information from the manufacturers that the rights to manufacture the unit have been transferred to a different manufacturer and that the new manufacturer will make no changes to the unit. Inclusion of this note is for informational purposes only. If you have questions about the current manufacturer of a particular product or the date of transfer, please reach out to the manufacturers.
