CONSENT AGREEMENT

PRELIMINARY STATEMENT

1. This Consent Agreement is entered into by the Director of the Enforcement and Compliance Assurance Division, U.S. Environmental Protection Agency, Region 3 (“Complainant”), Maryland Manor MHC, LLC and Horizon Land Management, LLC (“Respondents”) (collectively the “Parties”), pursuant to Section 309(g) of the Clean Water Act (“CWA”), 33 U.S.C. § 1319(g), and the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation, Termination or Suspension of Permits (“Consolidated Rules of Practice”), 40 C.F.R. Part 22. The CWA authorizes the Administrator of the U.S. Environmental Protection Agency to assess penalties and undertake other actions required by this Consent Agreement. The Administrator has delegated this authority to the Regional Administrator who, in turn, has delegated the authority to enter into agreements concerning administrative penalties to the Complainant. This Consent Agreement and the attached Final Order (hereinafter jointly referred to as the “Consent Agreement and Final Order”) resolve Complainant’s civil penalty claims against Respondents under the CWA (or the “Act”) for the violations alleged herein.

2. In accordance with 40 C.F.R. §§ 22.13(b) and 22.18(b)(2) and (3) of the Consolidated Rules of Practice, Complainant hereby simultaneously commences and resolves this administrative proceeding.

JURISDICTION

3. The U.S. Environmental Protection Agency (“EPA”) has jurisdiction over the above-

14. Section 301(a) of the Act, 33 U.S.C. § 1311(a), prohibits the discharge of any pollutant

In the Matter of: Maryland Manor MHC, LLC

EPA Docket No. CWA-03-2024-0012

(other than dredged or fill material) from a point source into waters of the United States except in compliance with a permit issued pursuant to the National Pollutant Discharge Elimination System (“NPDES”) program under Section 402 of the Act, 33 U.S.C. § 1342.

15. “Discharge of a pollutant” means “[a]ny addition of any ‘pollutant’ or combination of pollutants to ‘waters of the United States’ from any ‘point source.’” 40 C.F.R. § 122.2.
16. Section 402(a) of the Act, 33 U.S.C. § 1342(a), provides that the Administrator of EPA may issue permits under the NPDES program for the discharge of pollutants from point sources to waters of the United States, to ensure compliance with the requirements of the CWA. The discharges are subject to specific terms and conditions, as prescribed in the permit. See also 33 U.S.C. § 1311.
17. Pursuant to Section 402(b) of the Act, 33 U.S.C. § 1342(b), EPA authorized MDE to administer the NPDES program in the State of Maryland beginning in September 1974.
18. Pursuant to Section 402(i) of the CWA, 33 U.S.C. § 1342(i), EPA retains its authority to take enforcement action within Maryland for NPDES permit violations.
19. Maryland Manor MHC, LLC (“Maryland Manor”) was formed on February 18, 2016 with the address c/o Horizon Land Co., LLC, 2138 Espey Court, Suite 1, Crofton, Maryland 21114.
20. Maryland Manor is a Maryland limited liability company. Its Sole Member is Horizon MH Communities Fund I, LP, and its General Partner is Horizon MH Fund I GP, LLC.
21. Maryland Manor acquired the Maryland Manor Mobile Estates, LLC manufactured home community, located at 4642 Sands Road, Harwood, Anne Arundel County, MD 20776, on March 22, 2016.
22. Horizon Land Management, LLC (“Horizon”) is a Maryland limited liability company.
23. Horizon is a property management company that serves as Maryland Manor’s managing agent for the manufactured home community. Horizon reviews, evaluates, negotiates and executes on Maryland Manor’s behalf all service contracts, including the service contract with a third party to operate and manage the Wastewater Treatment Plant (“WWTP”) for the manufactured home community.
24. The WWTP was operated by a contract wastewater treatment operator, Water Services, Inc. until July 15, 2019. Then, effective July 16, 2019, the contract operator for the WWTP changed to Professional Startup & Operational Services, Inc. (“Prostart”) until Horizon terminated the contract on March 31, 2020 as a result of performance concerns. Horizon hired Singh Operational Services, Inc. (“SOS”) to operate the WWTP

on April 1, 2020 and SOS continues to be the contract operator of the WWTP.

25. Section 502(5) of the Act, 33 U.S.C. §1362, provides: “The term ‘person’ means an individual, corporation, partnership, association, State, municipality, commission, or political subdivision of a State or any interstate body.”
26. Maryland Manor and Horizon are Limited Liability Companies in the State of Maryland and each is therefore a “person” within the meaning of Section 502(5) of the Act, 33 U.S.C. § 1362(5).
27. Pursuant to the authority of the Act, the NPDES program approval, and Title 9 of the Environment Article, Annotated Code of Maryland, the MDE issued Maryland National Pollutant Discharge Elimination System Permit No. MD0024333 (“2014 Permit”) to the prior owner of the manufactured home community, Maryland Manor Mobile Estates, LLC effective March 1, 2014 for the WWTP at the Maryland Manor manufactured home community. On March 22, 2016, the permit was transferred to Maryland Manor. The 2014 Permit expired on February 28, 2019, and was administratively extended. On September 28, 2021, MDE issued NPDES Permit No. MD0024333 to Maryland Manor with an effective date of December 1, 2021 (“2021 Permit”).
28. The 2014 Permit and 2021 Permit (referred to, collectively, as “the Permits”) authorize the terms for the discharge of wastewater from the WWTP in accordance with the provisions of the Permits. The Permits require a permittee to comply with all conditions in the Permits. Horizon is not and has never been a permittee under the Permits.
29. The WWTP is a package style sewage treatment plant with activated sludge and extended aeration. Wastewater is routed to the WWTP through an influent pump station and flows to an aeration tank after being screened, and then flows into the transfer port located inside the clarifier. The flow settles in the clarifier, and the solids which settle to the bottom are pumped back to the aeration tank. The clear water overflows through the weir into the UV system that provides the disinfection process. After the UV process, the water flows to the effluent chamber where it is aerated before being discharged through the outfall pipe to the Patuxent River. Sludge is returned back to the aeration tank, or wasted to a sludge holding tank, and then hauled off-site. The on-site filtration system is bypassed and is not used in the current treatment process. A decommissioned chlorine contact tank was on-site but it was bypassed since chlorine is no longer used in the treatment process.
30. The Permits have authorized the WWTP to discharge wastewater from its operations through Outfall 001 to the Patuxent River, a “navigable water” as that term is defined in Section 502(7) of the Act, 33 U.S.C. § 1362(7), which qualifies as waters of the United States.

In the Matter of: Maryland Manor MHC, LLC

EPA Docket No. CWA-03-2024-0012

31. The Patuxent River is protected for water contact and recreation, and non-tidal warm water aquatic life. It is also a part of the Chesapeake Bay Watershed.
32. MDE inspected the WWTP on March 22, 2016, and January 16, 2020.
33. On July 1, 2020, EPA sent an Information Request pursuant to CWA Section 308 to Horizon regarding Maryland Manor MHC, LLC manufactured home community, and received a response from Maryland Manor on August 31, 2020.
34. On October 29, 2021, EPA sent a Second Information Request pursuant to CWA Section 308 to Respondents. On January 3, 2022, Respondents sent a response to the Second Information Request.
35. Based on observations made by MDE during its March 22, 2016 and January 16, 2020 inspections, and the responses Respondents submitted to EPA's two Information Requests, EPA has identified the following violations of the Permits and Section 301 of the Clean Water Act.

**Count I
Effluent Exceedances**

36. The information and allegations in the preceding paragraphs of this Consent Agreement are incorporated herein by reference.
37. The Permits set effluent limits for discharges from Outfall 001 for: five-day biochemical oxygen demand ("BOD₅"), Total Suspended Solids ("TSS"), Ammonia, Phosphorus, Nitrogen, *E. Coli*, Total Residual Chlorine, pH, and Dissolved Oxygen in Part II.A. The Permits were issued in conformance with the Chesapeake Bay Total Maximum Daily Load for Nitrogen, Phosphorus and Sediment established on December 29, 2010.
38. From August 2019 through September 2023, the WWTP recorded thirty-three (33) effluent exceedances for BOD, pH, TSS, *E. coli* and DO as follows:

Table 1: Effluent Exceedances

39. Based on the above assertions and allegations, EPA concludes that from at least August 1, 2019 to September 30, 2023 Respondents failed to comply with the Permits, issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342, and Section 301 of the CWA, 33 U.S.C. § 1311, by discharging multiple parameters in excess of effluent limitations in the Permits as set forth in Table 1 (Effluent Exceedances).
40. In failing to comply with the effluent limitations contained in the Permits, Respondents violated Section 301 of the CWA, 33 U.S.C. § 1311, and are subject to the assessment of penalties under Section 309(g) of the CWA, 33 U.S.C. § 1319(g).

Count 2
Insufficient or Missing Flow Reporting

41. The information and allegations in the preceding paragraphs of this Consent Agreement are incorporated herein by reference.

42. **Total Cumulative Flow Reporting:** Part II.C of the Permits state that “[t]he permittee shall report the total cumulative flow for each calendar year for the above referenced facility. The total cumulative flow should be reported in million gallons for the entire calendar year to the nearest ten thousand gallons. The annual total cumulative flow determination shall be provided to [MDE] by January 28 of the following year . . .”.
43. Respondents did not submit an annual total cumulative flow report for 2019, 2020, or 2021 by January 28 of the respective following years. On March 13, 2023, Maryland Manor provided the total cumulative flow for 2020, 2021 and 2022.
44. Based on the above assertions and allegations, EPA concludes that Respondents failed to comply with the Permits, issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342, and Section 301 of the CWA, 33 U.S.C. § 1311, by failing to timely submit annual total cumulative flow reports for 2019, 2020, and 2021.
45. By failing to comply with the terms of the Permits, Respondents have violated Section 301 of the CWA, 33 U.S.C. § 1311, and are subject to the assessment of penalties under Section 309(g) of the CWA, 33 U.S.C. § 1319(g).

Count 3

Non-Operational and Malfunctioning Equipment and Infrastructure

46. The information and allegations in the preceding paragraphs of this Consent Agreement are incorporated herein by reference.
47. General conditions of the Permits require the WWTP to “be operated efficiently to minimize upsets and discharges of excessive pollutants.” Permit Part III.B.3(a).
48. During its March 22, 2016 Inspection, MDE observed that the sand filters were in a state of disrepair and were being bypassed. Bar screens and tertiary filters were also bypassed. Similarly, on January 16, 2020, MDE observed that the sand filters were not in service.
49. Maryland Manor reported that sand filters and tertiary filters are not in use, but the bar screen was fixed and upgraded in July 2020.
50. The Prostart operator reported a blower malfunction in October 2019. The blower malfunction was fixed shortly after it occurred, on or about October 4, 2019. In response to EPA’s July 2020 Information Request, Maryland Manor added that the blower malfunction caused the clarifier air lift to stop returning settled solids to aeration.

51. During MDE's January 16, 2020 inspection, the MDE inspector observed that, "the wooden steps to access the composite sampler are broken and rotted. The composite sampler was not accessible to review the setup configuration." On March 13, 2023, Maryland Manor stated that it purchased a new composite sampler and installed it in April 2022, and that they were working on replacing the steps to access the sampler.
52. In its January 16, 2020 Inspection, MDE observed scum and sludge materials floating on the chlorination tank and discoloration of water.
53. In its March 22, 2016 Inspection, MDE observed that there were high solids levels in the clarifier. The WWTP was unable to meet the solids wasting demand due to a volume limitation at the approved discharge site, and at the time, the WWTP could not pump and haul the waste. In addition, influent hydraulic loading was uncontrolled.
54. In December 2019, the contract operator Prostart reported that the WWTP was unable to waste solids from the system because it had not established a Sewage Sludge Utilization permit. This permit was not finalized until late January 2020.
55. Maryland Manor installed a new sludge holding tank in April 2020, increasing capacity to 10,000 gallons to improve wasting capabilities. Additionally, hauling frequency was increased to allow the system to handle the sludge generation of the process adequately.
56. To manage buildup coming from the pump station and clogs, Maryland Manor installed a larger influent screener box in April 2020.
57. The WWTP still has outstanding repairs and upgrades to make to the WWTP to fix non-operational or malfunctioning equipment and infrastructure which are being addressed pursuant to the Administrative Order on Consent between Respondents and EPA, Docket No. CWA-03-2024-0008DN.
58. Based on the above assertions and allegations, EPA concludes that Respondents failed to comply with the Permits, issued pursuant to Section 402 of the CWA, 33 U.S.C. § 1342, and Section 301 of the CWA, 33 U.S.C. § 1311, by failing to operate the WWTP efficiently to minimize upsets and discharges of excessive pollutants by fixing non-operational or malfunctioning equipment and infrastructure from at least March 22, 2016 to present.
59. By failing to comply with the terms of the Permits, Respondents have violated Section 301 of the CWA, 33 U.S.C. § 1311, and are subject to the assessment of penalties under Section 309(g) of the CWA, 33 U.S.C. § 1319(g).

below. Accordingly, Respondents' failure to make timely payment of the penalty as specified herein shall result in the assessment of late payment charges including interest, penalties and/or administrative costs of handling delinquent debts.

65. Payment of the civil penalty is due and payable immediately upon the effective date of this Consent Agreement and Final Order. Receipt by Respondents or Respondents' legal counsel of such copy of the fully executed Consent Agreement and Final Order, with a date stamp indicating the date on which the Consent Agreement and Final Order was filed with the Regional Hearing Clerk, shall constitute receipt of written initial notice that a debt is owed as of the effective date of this Consent Agreement and Final Order by Respondents in accordance with 40 C.F.R. § 13.9(a).

68. LATE PAYMENT PENALTY: A late payment penalty of six percent per year will be assessed monthly on any portion of the civil penalty that remains delinquent more than ninety (90) calendar days. 40 C.F.R. § 13.11(c). Should assessment of the penalty charge on the debt be required, it shall accrue from the first day payment is delinquent. 31 C.F.R. § 901.9(d).
69. Respondents agree not to deduct for federal tax purposes the civil penalty assessed in this Consent Agreement and Final Order.
70. **The Parties consent to service of the Final Order by e-mail at the following valid email addresses: reinfeld.aviva@epa.gov (for Complainant), and dodabashian@horizonlandco.com and tysonr@BSK.com (for Respondents).**
71. Pursuant to 26 U.S.C. § 6050X and 26 C.F.R. § 1.6050X-1, EPA is required to send to the Internal Revenue Service ("IRS") annually, a completed IRS Form 1098-F ("Fines, Penalties, and Other Amounts") with respect to any court order or settlement

agreement (including administrative settlements), that require a payor to pay an aggregate amount that EPA reasonably believes will be equal to, or in excess of, \$50,000 for the payor's violation of any law or the investigation or inquiry into the payor's potential violation of any law, including amounts paid for "restitution or remediation of property" or to come "into compliance with a law." EPA is further required to furnish a written statement, which provides the same information provided to the IRS, to each payor (i.e., a copy of IRS Form 1098-F). Failure to comply with providing IRS Form W-9 or Tax Identification Number ("TIN"), as described below, may subject Respondent to a penalty, per 26 U.S.C. § 6723, 26 U.S.C. § 6724(d)(3), and 26 C.F.R. § 301.6723-1. In order to provide EPA with sufficient information to enable it to fulfill these obligations, EPA herein requires, and Respondent herein agrees, that:

- a. Respondent shall complete an IRS Form W-9 ("Request for Taxpayer Identification Number and Certification"), which is available at <https://www.irs.gov/pub/irs-pdf/fw9.pdf>;

Complainant, the Director of the Enforcement Compliance and Assurance Division, U.S. Environmental Protection Agency, Region 3, and Respondents, Maryland Manor MHC, LLC and Horizon Land Management, LLC, have executed a document entitled "Consent Agreement," which I hereby ratify as a Consent Agreement in accordance with the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation/Termination or Suspension of Permits ("Consolidated Rules of Practice"), 40 C.F.R.
