			Task Order Title: Office of Research and Development (ORD), Scientific Models, Applications, Visualization, Computational Science, and Statistical Support (SMAVCS3), AKA EPA High End Computing	
			Solicitation: unknown	
			Contract Number: HHSN316201200013W (CIO-SP3)	
			Task Order Number: EPG16H01256	
			Contracting Office: EPA	
			Awardee: General Dynamics (originally awarded to CSRA)	
			Award Date: 02/01/2016	
			I am requesting copies of the following information from the record detailed above:	
EPA-2021-001111	Dr. Dennis Paustenbach	Paustenbach and Associates	<p>â€œTask Order Solicitation documents, inc. attachments, and any I am requesting a copy of the Disclosure or Conflict of Interest Statement for each of the panel members who were part of the Peer Review of EPA Draft Risk Evaluation of Asbestos dated June 8-11, 2020. In particular, I would like to begin requesting this information for Dr. Craig Rowlands.</p> <p>In addition, I am requesting copies of the email correspondence from Dr. Craig Rowlands to the Chairman Kenneth Portier and Diana Wong, the Designated Federal Official, regarding the EPA proposed Risk Assessment for Asbestos. My request extends from the dates which the panel was notified about their participation in this activity (beginning about March 2020) until the end of the deliberations and writing of the final report which was sent to the administrator June 8 â€œ 11, 2020.</p>	11/24/2020
EPA-2021-001137	Edmund Crouch		<p>The report cited by IARC as EPA (1991c) in their monograph on Glyphosate (<a href="https://publications.iarc.fr/549">https://publications.iarc.fr/549</a>). That citation is: "EPA (1991c). Peer review on glyphosate. Document No. 008527. Washington (DC): Office of Pesticides and Toxic Substances, United States Environmental Protection Agency."</p> <p>It is not accompanied by a link, as are all the other such citations to EPA documents (the links are now out-of-date, but the materials linked to are available in the EPA archive at <a href="https://archive.epa.gov/pesticides/chemicalsearch/chemical/foia/web/html/103601.html">https://archive.epa.gov/pesticides/chemicalsearch/chemical/foia/web/html/103601.html</a>). The document I am requesting is not included in that archive page (although the other cited documents are). This is apparently a FIRST peer review of glyphosate, as opposed to the SECOND peer review, which is available (it is 103601-265 on that archive page). I cannot find the IARC-cited EPA (1991c) document anywhere on the EPA web site (or in the archive). I suspect the citation may be to a "Tox review 008527" (rather than "Document No. 008527") which would place the timing somewhere between June 03 1991 and June 26 1991 based on the material on that EPA archive page.</p>	11/25/2020

EPA-R4-2021-002499	Ms. Pamela Sass Cahaly	James Kerr and Associates LLC	<p>We are conducting an investigation of site operations and site history of the former Richmond Naval Air Station, located in Richmond (Perinne), Florida. We are conducting our research on behalf of the Corps of Engineers, Savannah District and our contractor, SERES LLC. In particular, we are focusing on the 49-acre site currently owned by Miami-Dade County and operated by the Gold Coast Railroad Museum.</p> <p>The Corps of Engineers, working through our contractor team, is compiling an overall history of the site from its development as a Navy blimp base in WWII, until the present, including record collection, title search, interviews, and other research tasks. Preliminary sampling by the State of Florida has shown some contamination in the area of Former Blimp Hangars # 1 and #2 and associated maintenance buildings. We are interested in this area, but also the site in its entirety in order to illuminate any site areas that may need additional physical investigation.</p> <p>We have already located and have in our possession a PA/SI conducted by FDEP in 2010/2011 (EPA ID No. FL6470032446). We have located a reference to a Naval Energy and Environmental Support Activity (NEESA) draft PA report which was said to focus on the nature of hazardous waste at NAS Richmond. It was noted that the finalized report was to be submitted to EPA by 21 March 1988. We have not been able to locate this PA and are hoping it may be in EPA archives. I did see that this site was listed on the Federal Register for 1988, but was no longer listed in 1989.</p>	2/8/2021

EPA-2021-002577	Mr. Thomas A Heenan		Hello I am a college student working on a research project and wanted to request the latest version of the Risk Management Plans. This database would help to provide me with the information needed to complete my research. This database contains facilities that have developed risk management plans as reported by the Environmental Protection Agency. The System for Risk Management Plans (SRMP) is a suite of electronic systems containing information relating to risk management plans submitted by facilities in accordance with the Clean Air Act, Section 112(r). Affected facilities are to develop risk management programs which will prevent and minimize consequences of accidental releases of certain hazardous chemicals that could harm public health and the environment. An up to date database with chemicals, locations, and risk management plans would provide me with the information needed to complete my research and project. My preferred format would allow me to search the database myself, but I am open to discuss other options if need be. Thank you for your assistance. Have a great day!	2/11/2021

			Hi Ms. Ellis, I wanted to clarify a few items that you brought up in your email dated October 28, 2020. As you know, there are a number of actions taking place in the Hamburg area. I have tried to breakdown the actions in more detail for you below: Price Battery Superfund Site "www.epa.gov/superfund/pricebatteryThe Price Battery Superfund Site (which includes Operable Units 1, 2, and 3) has dealt with lead deposition from the historic smelting operations. Operable Unit 3, which will address lead-contaminated sediment in Mill Creeks and Kaercher Creek, does not include Kaercher Creek Park. Kaercher Creek Park lies outside the predicted area of lead particulate deposition from the former Price Battery facility based on air modeling conducted by EPA. If you are interested in viewing any data related to Operable Unit 3, then I encourage you to submit a Freedom of Information Act Request

EPA-2021-000413	Dr. Kevin M Crofton		This request is made on behalf of myself under the Freedom of Information Act (â€œFOIAâ€) 5 U.S.C. Â§ 552.  I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. To this end, the goal of my project is to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results; and, 2) make this data publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the Administrator Wheelerâ€™s statement on 09/10/2019 to reduce animal testing by 30% in 2025.  Subsequent to my previous request (FOIA request EPA-2020-003946) for all Developmental Neurotoxicity Studies that have been submitted to the Office of Pesticide Products, I am now requesting copies of the Data Evaluation Records/Reviews for the specific studies in the attached. I have provided both an MRID number as well as a Citation Reference.	10/21/2020

EPA-2021-003704	Bryanna Patinka		Hello, I would like to request two Environmental Education proposals.  Colorado Mountain College, \$97,217, 2019. Joseph Chusid, 802 Grand Street, Glenwood Springs, Colorado 81601 Abstract: Field-based science: Colorado students investigating water quality in their community Given Lake County, Colorado's long history of mining and increasing usage of public lands by recreationalists, there is a unique opportunity to increase environmental literacy surrounding water quality and aquatic health for county residents.  Troy University, \$100,000, 2019. Brian Helms, 210K MSCX, Troy, Alabama 36082 Abstract: Deep South Student Leadership and Environmental Action Program (LEAP) This project will take place in Alabama's Black Belt region, which comprises roughly 17 underserved counties with high poverty, little economic opportunities, and high unemployment. Thus, there is a critical need for advances in education, awareness of local environmental issues, and much needed job skills among the youth in this area. Troy University's Deep South Student Leadership and Environmental Action Program (LEAP) will allow students to exercise their creativity by guiding place-based environmental problem-solving design, solution implementation, and interpretation through an informal environmental mentoring initiative. During this mentorship initiative, mentors, liaisons, and	4/13/2021

EPA-2021-002770	Shannon Rivera	My name is Shannon Noelle Rivera. I am a recent MSc graduate with the University of Winchester where I have been researching the disposal of illegal traded and confiscated live animals.	2/23/2021
		On July 13, 2018, I submitted a FOIA request for LEMIS data on nationwide live animal confiscation data from 2007-2018 and was sent very helpful data. Michael Jenkins was my contact at the USFWS Office of Law Enforcement. He sent a spreadsheet with numbers regarding live animals coming into the US, specifically: Year, Quantity, Species Code, Genus, Species, Subspecies, Specific Name, Generic Name, Country, Wildlife Desc, Disposition, IE.	
		I am now submitting a request to obtain this nationwide live animal confiscation data for the years 2000-2020. Im requesting the same data as before - as well as: 1. Disposal Method (Euthanize, Repatriate, Captivity) 2. Port of confiscation (Region, City) 3. Purpose (Personal, Scientific, Zoos, etc) 4. Reporting Officer (I do not need identifying information. The intention would be to see how often the same person reports and if there are trends in reporting style) 5. Reason for seizure (paperwork mistake, mislabelled, etc)	
		Per Disposal Method: during my last correspondence, Michael Jenkins stated, "I would have to check but I can't confirm at this time whether or not we track the disposal of animals" I did not get a response to this. I am looking for whether the live

EPA-R4-2021-002596	David A Berner	Marino Engineering Associates	Pursuant to the federal Freedom Of Information Act ("FOIA"), 5 U.S.C. 552, I am requesting all 7520 forms from Backfill Wells (injection of Coal Slurry Waste) in Kentucky for the past 25 years including the associated maps and other data submitted with the forms. This information is part of the EPA's monitoring of Underground Injection, Class V wells under the Safe Drinking Water Act. EPA's primary method for collecting summary data on state UIC and class V programs is its series of activity reporting forms known as the 7520 forms. These forms are collected twice a year from state programs and EPA-managed programs. The states are to provide the forms to their respective EPA regional offices, and the regional offices are supposed to submit the forms to EPA headquarters for review. Five forms comprise the core of the 7520 series; each form collects information on injection wells under the UIC monitoring program, reported by type of UIC well, including class V wells. Data collected should include summary information on the number of permits issued, maps of locations to be affected by underground injections with corresponding mine being injected, volumes of material injected through the well, Owning company for the mine being injected into, type of UIC (Mine Backfill), County location, Field Name, Well status, and well locations. Electronic formatted information which can be downloaded is preferred to hard copy, but should not be limited to electronic format if the data only exists in non-digital format.	2/12/2021

EPA-2021-005584	Margaret Zhang		Hi, I am a senior in undergrad, and I am researching plastic usage trends. The EPA currently has data on plastic waste generation, amount of plastic recycled, and the amount of plastic generated ( <a href="https://www.epa.gov/facts-and-figures-about-materials-waste-and-recycling/plastics-material-specific-data">https://www.epa.gov/facts-and-figures-about-materials-waste-and-recycling/plastics-material-specific-data</a> ). This data is only up to 2018, so I am wondering how I can access the updated data.  Thank you so much!  Margaret	7/20/2021

EPA-2021-004580	Ms. Grecia Orozco		EPA approved into the Massachusetts SIP a locomotive anti-idling rule back in 1972 (attached 37 Fed. Reg. 23085 (Oct. 28, 1972)). I am looking for more information, documents, correspondence, or anything from this time period that EPA used to justify this rulemaking. The attached document does not mention anti-idling specifically, so any transcripts of meetings/notice and comment periods/etc. would be helpful to see the rationale behind this rulemaking.	5/26/2021

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Please provide all documents generated from the Uniontown Industrial Excess Landfill Superfund Site concerning test results (including sampling methodologies) that revealed any presence of the radioactive element known as Technetium 99 (aka Tc-99), conducted during the years 2000 & 2001 by the IEL PRPS, the US EPA, EPA Region 5, and Ohio EPA.

The 2004 US EPA IG Report on the IEL indicated that data used to develop a chart within the IG Report had shown for Technetium 99 that there were "9 out of 9" samples.....ranging between ".....". This suggests that said supporting test results used by the EPA IG to draw this conclusion must exist on file, compiled in the IG Report.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail USEPA records pertaining to the SEMS-Archive site at 717 Norris Street (Motor Wheel Corp., SEMS-Archive Site ID No. 0502389, MID006536221), in Ypsilanti, Washtenaw County, Michigan.

EPA-2021-006292	Mr. Mikalan Conrad		Hi, I'm wondering where i can find the epa's case studies and/or research that shows the environmental impacts of un restricted Diesel engines vs engines with smog control devices. It seems to me after you account for the loss of fuel efficiency, the reduced engine life/ carbon footprint of producing replacement engines, the carbon footprint of DEF production, not to mention the plastic packaging it comes in I can't imagine that under any scenario a smog controlled engine is better for the environment. Has this research even been done? Has it been considered that the emissions from a smog controlled engine do not simply end at the tailpipe, and that these regulations are in fact worst for the environment? I Look forward to seeing the studies that support the regulations that have cost the American people millions in fines. Thanks	8/30/2021

			Thank you.	
EPA-2021-006668	Mr. Peter McGaw	Buchalter	Greetings,	9/21/2021
			I am requesting copies of comments to EPA's proposed Guidance for implementing the Supreme Court's "County of Maui" decision (Docket EPA-HQ-OW-2020-0673) that use the term "reasonable potential."	
			Background: On January 14, 2021, EPA issued a "Summary of Responses to Major Concerns and Comments ..." document (EPA-HQ-OW-2020-0673-0126) regarding its Guidance described above. On page 3 of that "Summary of Responses" document, EPA stated "Some commenters asserted that if a discharge of pollutants that travels through groundwater and reaches a water of the United States has any effect on water quality or if a discharge has a reasonable potential (RP) to cause or contribute to a violation of water quality standards, an NPDES permit should be required." I am attaching a copy of the "Summary of Responses ..." document with the relevant portion highlighted on page 3.	
			The Docket indicates 4,475 comments were received; however, the actual comments themselves were not published.	
			Again, I am only interested in comments that use the term "reasonable potential."	
			Thank you for your assistance.

EPA-R9-2021-001854	John Kemmerer	Los Angeles Department of Water and Power	This is to request any records in the Agency's possession regarding the following property:	1/6/2021
			The former Price-Pfister manufacturing site, also known as the Polgrean Property, on Humboldt Street in Los Angeles. This property is listed by the LA County Assessor's Office with an address of 3011 Humboldt Street, Los Angeles, CA 90031. Historic addresses for this property include odd numbers ranging from 2903-3013 Humboldt Street.	
			Documents requested include, but are not limited to, assessments of environmental conditions on this property. This includes data and/or reporting on the extent of soil, soil vapor, air, and groundwater contamination. It also includes any reporting on activities, such as storage/use of toxic or hazardous substances or waste, wastewater discharges, or air emissions on this property that could potentially have impacted, or is impacting, the environment. Based on documents describing investigations of a neighboring property, an investigation by or for USEPA of soil and groundwater at this property was performed in or around October 2002. Any documents related to this USEPA investigation are requested.	
			It's my understanding that any responsive documents will be emailed to me, which is my preference. Given that I'm currently telecommuting from home, please notify me if this is not the case, as I would have to make arrangements to pick up any documents mailed to my office.

			To whom it concerns,	
			This is a request under the Freedom of Information Act. Per the statute, please provide records responsive to the following portions of this request within 20 business days.	
			For the time period of January 1, 2017 to January 1, 2021 to present, please provide all communications between Profile Strategy Group, which may be used as a keyword or searched for under the email suffix of "æ@profilestrategygroup.com," and the immediate Office of the Secretary. Where possible, please provide responsive documents on a rolling basis.	
			I preemptively agree to pay fees up to \$100 for the search and production of the above-described records and ask to be notified only if the estimated fees exceed that amount. Once records are compiled, please justify each deletion separately by reference to specific exemptions of the law and release all reasonably segregable portions of otherwise-exempt material. I look forward to your response within the act's statutory time limit. Thank you for your consideration of this request.

EPA-R4-2021-004280	JAMES BOTKIN	BOTKINCHEMIE	I am requesting information on the identities (registration numbers and/or product names) and volumes of pesticides produced at EPA Establishment No. 55618-SC-1 (Santolubes Mfg, 2155 W Croft Cir, Spartanburg, SC 29302) in calendar year 2020, for example as a sanitized copy of Form 3540-16 submitted covering calendar year 2020.	5/13/2021
EPA-R3-2021-004696	Donald Burdick		I want all information regarding EPA cases 1297869, 1298294, and 1301768.  These cases regard what I believe are crimes and conspiracy to commit crimes, and have been overlooked at every level of government. They surround a \$65 million class action settlement in Delaware Superior Court Case C.A. No. S18C-06-009 which I believe is fraudulent.  My case 1298294 involves evidence of major environmental crimes for which I have sent ample evidence, including satellite imagery, photographs, my research, and a list of multiple locations that has reached as high as Mark Pollins, Director, Water Enforcement Division, and Rick Rogers, Chair, Associate Director Office of Drinking Water and Source Water Protection EPA Region 3. My last communication from Mr. Pollins, via email sent Apr 29, 2021, 3:09 PM, stating, "Don, I just want to let you know that Rick and I met this afternoon and discussed the material you sent. We are providing the information to the appropriate federal officials. Please keep us informed if possible." Mr. Pollins is the top enforcement officer within the federal government. Unless he forward it to a criminal division to investigate, there is no one above him.  I replied to both in a Sun, May 2, 9:45 AM email from dtburdick@gmail.com inquiring who he forward it to. I received no response from Mr. Pollins and a reply stating Mr. Rogers is on vacation.	6/2/2021

EPA-2021-006029 Dr. Joseph Kalmenovitz Drexel University

I request a list of individuals who were employed at the Environmental Protection Agency (EPA) in any of the years 2002, 2003, 2004, 2005, and/or 2006. It is my understanding that during 2004 the EPA converted Senior Executive Service (SES) employees into a new pay system. The old SES system had six levels (ES-1 through ES-6), whereas the new system has a single pay band (ES-0). In the old system, SES employees received locality pay on top of their base pay, whereas in the new system locality pay is no longer applied. To convert employees from the old SES system to the new one, the employee's "old" base pay plus locality pay became the new base pay. I believe the transition took place around January 2004.

8/16/2021

I would like to receive information on the conversion from the old SES system to the new one. In particular, I would like to see each employee's base pay, locality pay, total pay, level and step (if applicable) before and after the conversion took place. The following hypothetical example illustrates the type of data I request. Suppose Mr. John Doe worked at the Philadelphia office. In the old SES system, Mr. Doe was an ES-3 with \$127,500 base pay and \$142,500 total pay (locality pay included). In the new SES system, Mr. Doe is ES-0 level with \$145,076 base pay and the same total pay (since there is no locality pay post-transition). Thus, in addition to the "standard" conversion formula (which raised his base pay from \$127,500 to \$142,500), Mr. Doe received a \$2,576 pay raise, bringing his new base pay to \$145,076. Please also include the employee's full name, occupation (e.g., general attorney); position title (e.g., attorney-adviser); office/division (e.g., Enforcement Division); duty

EPA-R5-2021-005961 Mr. Casey J. Snyder Reed Smith LLP

Under the Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting (the "Request") access to certain records with the United States Environmental Protection Agency ("EPA"). Specifically, I seek certain records as follows:

8/11/2021

(i) All documentation, including communications, files, paperwork, notes, presentations, publications, existing in paper, electronic, or other format, describing, documenting, or otherwise reflecting, in whole or part, the total cost to remediate the Fox River Superfund Site and any future costs expected or estimated to be incurred, including, but not limited to, cost estimates, cost calculations, accounting documentation, budgets, and similar documents.

(ii) All documentation, including communications, files, paperwork, notes, presentations, publications, existing in paper, electronic, or other format, describing, documenting, or otherwise reflecting, in whole or part, the costs incurred to remediate the Kalamazoo River Superfund Site as of the date of this Request, and any future costs expected or estimated to be incurred, including, but not limited to, cost estimates, cost calculations, accounting documentation, budgets, and similar documents.

If EPA seeks to withhold certain documents on the basis of a FOIA exemption, we request that EPA provide information identifying the withheld documents and corresponding exemption in a privilege log.

Earthjustice

On behalf of Earthjustice, I write to request the records described below pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552 (â€œFOIAâ€). Earthjustice seeks the information requested below to educate itself, its membership and supporters, the Ohio community groups with which it works, and the general public, on the referenced documents related to Ohio's enforcement of its Safe Drinking Water Act Class II well program.

8/17/2021

Specifically, we are requesting the following records referenced in the attached document and related to the records referenced in the attached document within EPA's possession. The attached document dated October 7, 2016 from EPA to FreshWater Accountability Project at paragraph number 6 on page 3 states "Ohio DNR referred three cases covering 10 wells to the Ohio Attorney general in the past six months. EPA will continue to work with the Ohio DNR to ensure that wells in noncompliance receive timely and appropriate enforcement actions and that the State aggressively utilizes its available funds to plug orphaned wells." Related to these referenced referrals we are requesting:

1. All documents and records in the EPA's file related to the the three cases.

2. All communications, including emails, between EPA and Ohio DNR or the Ohio Attorney General's office referencing or related to the three case referrals.

3. Between the time period of October 7, 2016 to the present all documents and communications in EPA's possession related to any enforcement action taken by Ohio DNR or the Ohio Attorney General's office against any Safe Drinking Water Act Class II

EPA-2021-006534	Lisa Meoli	Floyd Snider	<p>On November 29, 1978, American Hoechst Corporation had petitioned for an exemption from the PCB manufacturing ban imposed by Section 6 (e)(3)(A) of TSCA. In 1982, American Hoechst attempted to renew its petition. They submitted documentation as part of the petition renewal process to EPA. We are in search of any documents American Hoechst would have submitted to EPA on behalf of this process in 1982. Their filing was in response to the 40 CFR Part 751[FRL 1227-7; OTS-066001] Polychlorinated Biphenyls (PCBs); Proposed Rulemaking for PCB Manufacturing Exemptions.</p> <p>The address associated with American Hoechst's submission is Route 202-206 North, Somerville, NJ 08876. It appears communication was between American Hoechst and EPA's Office of Toxic Substances in Washington, D.C.</p> <p>Thanks very much for your help. Lisa Meoli</p>	9/14/2021

EPA-2021-005365	Mr. Logan Ping	Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, et seq., I am requesting copies of public records relating to the USEPA's estimate of \$2-\$5 billion for clean-up of abandoned uranium mines.	7/8/2021
		On December 3, 2020 the Abandoned Uranium Mines Working Group, of which the USEPA is a member, released a Multiagency Strategic Plan concerning the approximately 4,225 abandoned uranium mines in the U.S. A copy of this report is attached.	
		I request copies of documents in the possession of USEPA relating to how the USEPA arrived at the clean-up estimate of \$2-\$5 billion.	
		If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.	
		If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.	
		Please contact me by email at lwp1018@gmail.com if you have any questions or need more information in order to process this

It is no wonder to as why lung cancer is so prevalent. We have to lower cancer rates, and that starts with finding out what is in our air, which the EPA isn't event forced to report. They only report small particulate matter for the bare minimum. As you can tell, these standards have been outdated and changed for personal political gain by the former POTUS. It is time we cleared the air and focused on improving the quality of life for every American that isn't elite.</p>	7/27/2021

EPA-R2-2021-002354	Mr. Patrick Shea	SUNY Albany	<p>To whom it may concern,</p> <p>I am reaching out in regards to requesting information of the locations of Superfund sites located along tributaries of the Hudson River in New York State. I am writing this request in relation to developing a GIS tool to analyze dams for potential candidacy in removal as a capstone project for my masters degree. The goal of this project is to clearly identify indications and contraindications that would allow the public to form an opinion on the long-term health of preserving a specific dam, utilizing risk factors such as proximity to sites that may further harm the greater ecosystem. Presently this tool has no intent to be formally published but, should it prove useful, I would hope to use this information to create a professional business portfolio grounded in academic research and design.</p> <p>Information that would be of most use to this project would be:</p> <ol style="list-style-type: none"> <li>1.) Location of the site, and its proximity to the tributary it is situated along.</li> <li>2.) Severity of the site, and reasons for its creation</li> <li>3.) Extant/future plans of the site in regards to its cleaning.</li> </ol> <p>It is my belief that a tool such as this would be valuable to many sects of society, notably conservationist groups, angling advocacy groups, and those involved in ecological restoration.</p>	2/1/2021

Dear FOIA Officer,

1/27/2021

Thank you for handling this FOIA request for public records pertaining to air quality in the city of Chicago. I am seeking information including but not limited to:

US EPA data on air quality in Chicago since January 1, 2020.  
US EPA air quality monitoring systems and criteria used in Chicago.

I would like these records delivered electronically in spreadsheet form, if possible, to my email listed below. This request is in the public interest and I request a fee waiver as a journalist reporting about air quality for the Medill School of Journalism at Northwestern University. If the fee waiver is denied, please contact me about the cost before completing the request. If this request presents any undue burdens, please let me know as soon as possible, as I may consider tailoring the request to expedite release of important records.

If you have any questions about this request or if I can be of assistance in any way, please do not hesitate to email me at [bennettbaker2021@u.northwestern.edu](mailto:bennettbaker2021@u.northwestern.edu).

Sincerely,  
Bennett Baker

EPA-R5-2021-001555	Jacob Bartlett		Please refer this request to Mr. Oshea Smith. This request follows up my previous request numbered USEPA FOIA Request # EPA-R5-2021-000551. That request was closed due to miscommunications about narrowing my request and was closed prior to all responsive records being produced. It requested: "For the Armco Incorporation site located at 401 Augsberger Road, Hamilton, Ohio, (OHD074705930), provide copies of any administrative consent orders, unilateral administrative orders, judicial orders, human health risk assessment reports, ecological risk assessment reports, records of decision, final remediation reports, and any documents identifying costs incurred and costs recovered by the State of Ohio and the United States of America in connection with the investigation and remediation of contamination at the site." Only the cost recovery documents were produced and so this requests seeks those additional administrative documents and reports covered by, but not produced in the original request. These records may include: any judicial or administrative orders such as Consent Orders or Decrees, Administrative Orders on Consent, Records of Decision, etc. and Site Remediation Reports such as the RI/FS, Remedial Work Plan, Construction Completion Report, Human Health Risk Assessment, and the a 5-year review report. Please let me know if you have any questions. Thanks.	12/21/2020

EPA-R2-2021-004139	Mr. Charles R Mills	Bridgewater Township	<p>Bridgewater Township, New Jersey, is seeking a copy of a Federal grant which provided funding for a series of sanitary sewer collectors in the Washington Valley section of the township. In researching our files, we found reference to "Federal grant #C340638-02 for Middlebrook Collector Sewers" but have not found a copy of the grant. This grant likely dates to the mid to late 1970's but may be the early 1980's. Some of the work on the projects was active into the early 1990's.</p> <p>We believe the grant contained a condition in the grant that Bridgewater Township maintain individual sewage grinder pumps for a period of 40 years which we are now approaching. The grant funded both gravity and pressure sewage collectors and the gravity lines were done earlier with the bulk of the grinder pumps being done between 1987 and 1993. Any other correspondence, agreements, or documentation concerning the required maintenance of the grinder pumps associated with the grant is also requested.</p>	5/5/2021

Thank you for your time.</p> <p>On August 03rd 2013, Alexis Tiara Murphy <del>â€œ</del>vanished.â€œ She was afterwards declared <del>â€œ</del>missing.â€œ According to True Crime Daily, she <del>â€œ</del>disappearedâ€œ after having posted on her Twitter account information detailing that she was on her way to Lynchburg, Virginia at around 3: 00 P.M. Alexis Tiara Murphy was 17 years old in 2013. She used to attend Nelson County High School. The Virginia State Police (VSP) and the Department of Justice (DOJ) Federal Bureau of Investigation (FBI) were very involved in the search to find Alexis Tiara Murphy in 2013. Randy Allen Taylor has been convicted for the murder and abduction of Alexis Tiara Murphy for which he is serving two life sentences. As of this writing, the body of Alexis Tiara Murphy has not been recovered. Videos posted on YouTube by True Crime Daily suggest that Randy Allen Taylor has intimate knowledge of where the body Alexis Tiara Murphy is located. He may have wanted to exchange this information for a reduced sentence of 20 years: family of Alexis Tiara Murphy and legal representatives of Nelson County, VA have declined to conclude an agreement. The search for Alexis Tiara Murphyâ€™s body seems to be ongoing. (â€¦) What I am requesting for prompt disclosure are all documents detailing (1) formal and informal ties existing between your offices, the DOJ, Nelson County (VA), and the VSP; (2) all your communications in the form of e-mails and postal correspondence pertaining to Alexis Tiara Murphy, which includes but is not limited to friends of Alexis Tiara Murphy on social networks such as Facebook and Twitter; (3) your in person interviews with family members and high school friends of Alexis Tiara Murphy; (4) your communications in the form of e-mails</p>	12/28/2020

EPA-R9-2021-003382 Mr. Logan Ping

Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, et seq., I am requesting copies of specific public records relating to the Nevada Environmental Response Trust Agreement (attached) to which the U.S. Environmental Protection Agency (USEPA) is a Beneficiary.

3/29/2021

Pursuant to Section 6.1 (Reports) of the Agreement, the Nevada Trust is required to submit quarterly reports to Trust beneficiaries (including the USEPA). These reports include (a) financial statements of the Nevada Trust at the end of such calendar quarter or period and the receipts and disbursements of the Nevada Trust for such period; and (b) a description of any action taken by the Nevada Trust in the performance of its duties which, as determined by outside counsel, accountants or other professional advisors, materially and adversely affects the Nevada Trust and of which notice has not previously been given to the Beneficiaries. I request copies of all financial statements and quarterly/annual reports provided by the Trust to the USEPA from the Trust's inception in February 2011 to the present. I believe these records are held by the USEPA Region 9 Waste Management Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

Freedom of Information Act (FOIA) Request for Records

Hello,

This is Michael A. Ayele sending this message though I now go by W. You may call me W. I am writing this letter to file a FOIA request with your offices. The basis for this request for records are (1) the audio-visual broadcasts of Brooke Baldwin covering the civil unrest in Ferguson, Missouri as a journalist representing Cable News Network (CNN);[i] (2) the audio-visual broadcasts of Brooke Baldwin covering the 2019 Ticker-Tape parade held in New York City (NYC) to honor the United States Women National Soccer Team (USWNT) for winning the World Cup in 2019 held in France as a journalist representing CNN;[ii] (3) the circumstances surrounding Brooke Baldwin departure from CNN [iii] and; (4) the soccer match dated July 02nd 2021 in which the USWNT won 4 - 0 against Mexico. [iv] Please find attached to this e-mail the content of my records request as well as information explaining my request for a fee waiver and expedited processing. Have a good day.

EPA-R5-2021-005811 Jody Kaufman Brownfield Restoration Group May I please have a copy of available public files representing Lunkenheimer / Cushman / Star-let Corp., 1519 Trenton Avenue, Cincinnati, Ohio? Note, I already have the files obtained from the OSC database (see attached list). 8/3/2021

EPA-R3-2021-004630 Alexander Mesmer Beveridge & Diamond PC Subject: City of Frederick, MD - U.S. EPA Brownfields Assessment Grant 5/28/2021

In May 2021, the U.S. Environmental Protection Agency (EPA) awarded the City of Frederick, Maryland a \$300,000.00 Brownfields Assessment Grant (Grant)

Pursuant to FOIA, I request a copy of:

- 1. All documents or communications (paper or electronic) from or submitted by the City of Frederick to EPA (both EPA headquarters and Region 3) regarding the above referenced Grant.
2. All documents or communications (paper or electronic) from or by EPA ( both EPA headquarters and Region 3) regarding the above-referenced Grant.
3. All communications between EPA and the City of Frederick relating to the above-referenced Grant.

As used above, the terms "documents or communications" includes emails, electronic submissions, datasheets or data compilations, memoranda and meeting notes related to the application for and decision on the above-referenced Grant.

For your reference, I have attached a copy of EPA's announcement awarding the Grant to the City of Frederick. I authorize costs up to \$250 associated with copy and review time to prepare the response to this request. Please let me know if you estimate the costs will exceed this amount. EPA-R9-2021-002802	Mr. Jeffrey Burgess		The Arizona Department of Environmental Quality (ADEQ) administers the Section 319 NPS pollution prevention program in Arizona with EPA funding. ADEQ dispenses the money in the form of their Water Quality Improvement Grants (WQIG). After searching the Internet for ADEQ reports, I was able to compile a list of the WQIG grants ADEQ dispensed from state fiscal year FY2000 to FY2013 ( see attached file). I subsequently submitted a state public records request to ADEQ asking for the annual lists of WQIG grants approved from state fiscal year FY2014 through the most recent year. ADEQ responded that they didn't have any lists of the approved grants for those years, but they invited me to go down to their public records room and they would collect all of the grant records from that time frame for me to personally review. I did that, but I have no way of knowing if I was provided with all of the WQIG grants for that time period. So, please provide me with a list of all of the Arizona WQIG grants issued from state fiscal year FY2014 till now using EPA funding.	2/25/2021

EPA-R4-2021-004162	Mr. Bela Varga	National Park Service	Hello,  During a recent Site Inspection on Cumberland Island, the consultant (BBJ Group) requested a FOIA (Tracking # EPA-R4-2021-000895) for any USEPA Region 4 documents that could be pertaining to USEPA activity on Cumberland Island in the area known locally as the Beach Field Disposal area. There was illegal dumping activities reported in the area, and according to PA/SI it was reported that there was supposedly some USEPA activity on the island when illegal dumping activities were first identified in the 1970s.  Attached is a list of documents that were shown to be located in the offsite Federal Records Center (FRC) that were unavailable for access due to COVID-19. There may also be some other documents other than those listed in the attachment, but those were the preliminary documents identified before the FOIA was withdrawn due to FRCs being indefinitely closed. In order to formally close out the investigation in the Beach Field area, NPS will need to review of any relevant documents in the FRC.	5/6/2021

EPA-2021-004582	Eric C Montague	Utah State University	I am a PhD student at Utah State University. My dissertation is on Operation Falcon, a covert USFWS sting operation 1981 - 1984. The sting dealt with innumerable violations of CITES and the Lacey Act.  I am requesting any information that you have on Operation Falcon.  Additionally, during the execution of the Operation, Section 9 (g) of the Endangered Species Act that previously prohibited sting operations was changed to allow them sometime before June 1984 but after 1981. What information do you have on the decision process to change this? In falconer lore, it was changed solely to accommodate Operation Falcon. I am trying to determine the truth of that statement.  I recognize this is a broad request. I am happy to pay the money to get anything you have on Operation Falcon, even if it exceeds \$5,000. So much material has been destroyed by falconers and any source items and evidence that I can find will be greatly appreciated.	5/26/2021

EPA-2021-002478	Michael Moheban	Dear EPA:	2/5/2021
		This is a request under the Freedom of Information Act.	
		I request that a copy of the following documents or documents containing the following information be provided to me: Any and all documents regarding Quinolinium, 1-ethyl-2-[3-(1-ethyl-4(1H)-quinolinylidene)-1-propen-1-yl]-, iodide (1:1), also referred to as Dicyanin A (CAS-No: 20591-23-5).	
		Additionally I request any and all documents related to Dicyanin A (CAS-No: 20591-23-5) toxicology and its listing as a Toxic substance and its inclusion as ACTIVE on the Toxic Substances Control Act Chemical Substance Inventory, as well as any and all information regarding its classification as toxic.	
		In order to help to determine my status to assess fees, you should know that I am an individual seeking information for personal use and not for a commercial use.	
		I am willing to pay fees for this request up to a maximum of \$50. If you estimate that the fees will exceed this limit, please inform me first.	
		Thank you for your consideration of this request.	
		Sincerely,

EPA-2021-002658 Ms. Tara Adams Academic Analytics

Dear FOIA Officer:

2/17/2021

This is a request under the Freedom of Information Act. Hello, I am writing to initiate a FOIA request for a file (spreadsheet if possible) that contains grants awarded during FY2020 with the following fields.

Requested Fields: Name of the Principal Investigator, Federal Award ID, Title, Funding Amount, Obligation Date, and the Start and End Dates for FY-2020 grants. For your reference, the same request was made and completed last year for FY2019 grants and was assigned EPA-HQ-2020-002308.

These fields are all available at [usaspending.gov](https://usaspending.gov) except for the Principal Investigators name which is the primary reason for this request.

Thank you for your consideration of this request.  
Sincerely,  
Tara Adams

			<p>"Targeted Airshed Grant â€" \$56,306,000 has been provided for Targeted Airshed Grants. These grants shall be distributed on a competitive basis to nonattainment areas that EPA determines are ranked as the top five most polluted areas relative to annual ozone or particulate matter 2.5 standards as well as the top five areas based on the 24-hour particulate matter 2.5 standard where the de-sign values exceed the 35 mg/m3 standard. To determine these areas, the Agency shall use the most recent design values calculated from validated air quality data. The Committee notes that these funds are available for emission reduction activities deemed necessary for compliance with national ambient air quality standards and included in a State Implementation Plan submitted to EPA. Not later than the end of fiscal year 2020, EPA should provide a report to the Committee that includes a table showing how fiscal year 2018 and 2019 funds were allocated. EPA-R5-2021-005386	Mr. Kristopher Orton	Wood	I am on a contract for the Illinois EPA and I am inquiring to determine what potential USEPA files may exist for the Jennison Wright facility ILD006282479 located in Granite City, IL. I performed a query for "Jennison" using the foiaonline website and identified that previous queries that had been executed which included several files existed. Two of the queries included files (Jennison-Wright Index (1) and 05-150249) are index files for the property in question. Documents are presented on the indexes (Doc ID 150249, 141081, etc.) and i have downloaded the files but the index lists don't look comprehensive. I am requesting a comprehensive list showing all USEPA RCRA, SUPERFUND, CERCLA, Hazardous Waste Manifests, RCRA logs, etc. that may exist so i may determine if any additional files are required for my records review.	7/9/2021

I would like to please request documents on file from EPA and the subject site in response to the 1992 EPA RCRA Hazardous Waste Consent Agreement with General Wood Preserving (now named Carolina Pole). A copy of the EPA Consent Agreement is attached. The North Carolina Department of Environmental Quality, Hazardous Waste Section has the Consent Agreement on file, but does not have any of the documents in response to this Consent Agreement and needs these documents to ensure historic compliance with the 40 CFR 265 Subpart W requirements. Of specific interest are documents/correspondence about the adequacy (in inadequacy) of the upgrade to the site's drip pad system to comply with the 40 CFR 265 Subpart W requirements by May 6, 1995. Also any documents that show compliance (or non-compliance) with the 1992 Consent Agreement:</p> <p>In the 1992 Consent Agreement, the following were specifically required:</p> <p>Page 11, #7 notes that the escrow account would not be terminable until completion of all necessary work to have the drip pad system which puts the facility in compliance with Subpart W.</p> <p>Page 12, #9 states: "By no later than May 6, 1995, Respondent shall have at the facility a drip pad system, installed and operational, which meets or exceeds Subpart W standards, and from that date shall engage in no activity at the facility that is not in full compliance with Subpart W standards."</p>	4/27/2021

I am interested in learning more about the contamination at the E.I. DuPont DeNemours Experimental Station in Wilmington, Delaware (EPA ID: DED003930807; <https://www.epa.gov/hwcorrectiveaction/hazardous-waste-cleanup-dupont-experimental-station-wilmington-de>).

Specifically, I would like to know the following:

1. When did the contamination with vinyl chloride and trichloroethylene (TCE) occur?
2. Did the contamination affect the drinking water of individuals in Wilmington, DE (which is derived from the Brandywine Creek)?
3. How many people were affected and for how long?

Additional records on the actual contamination (how it was detected, extent of contamination, involvement of Brandywine Creek, population affected, any evidence of migration of contamination and/or vapor intrusion) would be appreciated. Happy to discuss (585.764.3390 or by email). Thank you again.

EPA-R2-2021-005178	Patricia Borns	Virgin Islands Source	<p>In May EPA Region 2 issued a 60-day shutdown order to Limetree Bay refinery on St. Croix. The order included a requirement for an independent audit of the refinery to determine what is needed for operations to resume safely. The result according to one of our sources is two audits that were reportedly submitted to EPA Region 2 on Friday. I am a reporter for Virgin Islands Source and am requesting the audits in order to report to Virgin Islanders what it will take for the refinery to re-open. This is especially important because this transparency was lacking when the plant started up last February after almost 10 years in mothballs. Under the Trump EPA, the exceptions granted the refinery allowed a hasty restart without appropriate modernization. The resulting toxic flares and oil sprays affecting dozens of downwind neighborhoods caused an EPA-ordered shutdown after less than four months of operation. Our story based on the audit, which is on deadline today, will help Virgin Islanders hold the refinery and government accountable for a safer restart.</p>	6/29/2021

		United States Environmental Protection Agency,	
		This request is made on behalf of myself under the Freedom of Information Act (‘‘FOIA’’) 5 U.S.C. Â§ 552.	
		I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research developmental neurotoxicity research for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the previous Administrator Andrew Wheeler’s statement on 09/10/2019 to reduce animal testing by 30% in 2025.

		Pursuant to The Freedom of Information Act, 5 U.S.C. Sect. 553, I am writing to request all documents that contain information about the number of pesticides submitted to the Office of Pesticide Programs for registration for the years 2013-2020 that used the published alternative testing framework for classification of eye irritation potential originally released by EPA in 2013 and updated on 3/2/2015 under the title ‘‘Use of an Alternative Testing Framework for Classification of Eye Irritation Potential of EPA Pesticide Products’’ Please provide this information to me on a yearly basis, for the years 2013, 2014, 2015, 2016, 2017, 2018, 2019, and 2020. In addition, please provide the names and/or CAS numbers of the new active ingredients and pesticide formulations registered using the above mentioned alternative testing framework for classification of eye irritation potential. This request expands on a fully granted FOIA request EPA-2020-006266 that only covered anti-microbial pesticides and the years 2013-2019. This new request expands this ask to all pesticides and adds the year 2020. As the FOIA requires, please release all reasonably segregable nonexempt portions of documents. This request does not encompass any information that may be entitled to confidential treatment, or that otherwise may be exempt from disclosure under FOIA. In order to help to determine my status to assess fees, you should know that I am affiliated with an educational scientific institution, and this request is made for a scholarly or scientific purpose and not for a commercial use.

EPA-2021-003012	Mr. Tony Briscoe	ProPublica	<p>A copy of any list or spreadsheet detailing all public water systems that have received a state- or federal-issued variance or exemption under the Safe Drinking Water Act since Jan. 1, 2010. A log of these records should be retained in the federal Safe Drinking Water Information System (SWDIS). I am seeking the names of the public water system that have been granted a variance or exemption, the date of the issuance and, if available, what the waiver pertains to (i.e. MCL for radium or monitoring for arsenic). I am not seeking any of the forms with detailed information of the variances or exemptions, only a list or spreadsheet of the aforementioned information.</p> <p>NOTE: I submitted a similar request filed on Feb. 1, 2021. That request was seeking SDWA waivers in Region 5. I was told by a FOIA liaison that Region 5 didn't have these records, and that they were maintained by EPA headquarters, specifically the Office of Ground Water and Drinking Water. I was told that it would be easier to remove the portion of the request solely seeking this information to Region 5 states, so I am seeking this information nationwide. From my understanding, states submit this information to the U.S. EPA quarterly and it is added to an easily accessible database (see attached word document and find I request that documents be provided to me that contain descriptions of the methodology and data used to calculate the economic costs of the Navigable Waters Rule for businesses using hydraulic fracturing to extract shale oil and tight oil.</p>	3/8/2021

			I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research developmental neurotoxicity research for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the previous Administrator Andrew Wheelerâ€™s statement on 09/10/2019 to reduce animal testing by 30% in 2025. For the chemicals listed in the attached please search you records for any available DNT and a DER for these studies. Please note that I do not require printed versions of any of this information. An electronic file is acceptable and preferred.

EPA-R4-2021-003718	Bryanna Patinka		<p>I would like to request an Environmental Education proposal.</p> <p>Troy University, \$100,000, 2019.  Brian Helms, 210K MSCX, Troy, Alabama 36082  Abstract: Deep South Student Leadership and Environmental Action Program (LEAP) This project will take place in Alabama's Black Belt region, which comprises roughly 17 underserved counties with high poverty, little economic opportunities, and high unemployment. Thus, there is a critical need for advances in education, awareness of local environmental issues, and much needed job skills among the youth in this area. Troy University's Deep South Student Leadership and Environmental Action Program (LEAP) will allow students to exercise their creativity by guiding place-based environmental problem-solving design, solution implementation, and interpretation through an informal environmental mentoring initiative. During this mentorship initiative, mentors, liaisons, and 18 11th-12th grade Fellows will identify local, manageable environmental issues and associated means to address them (i.e., a "solution"). The project Fellows will in turn lead and inspire other students and community members at their respective schools by implementing their own environmental projects. The projects implemented by the Fellows will directly reach an additional of 3,000 high school students and community members.</p> <p><a href="https://www.epa.gov/education/environmental-education-grant-descriptions">https://www.epa.gov/education/environmental-education-grant-descriptions</a></p>	4/14/2021

This is Morteza S. Majd, I am currently working with DoD Climate Action Team to address EO 14008 and climate related concerns. Our team needs to have access to HTRW data base. These type of data are needed in DoD climate data analysis toolkit in order to assess vulnerabilities of our structures/infrastructures to climate change under different climate modeling scenarios. Your support on this really appreciated, and please let me know if more information needed.

Thank you,

Sincerely,  
Morteza Shakeri Majd, Ph.D.

EPA-2021-003917 Mr. Samuel Dillon

Dear FOIA Officer,  
Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, et seq., I write to request the disclosure of public documents within the control of your agency. I request access to and copies of all documents in EPA possession (correspondence, memoranda, summary reports, phone records, notes, or other documents) relating to any EPA investigations, inquiries or field interviews, or to EPA enforcement actions, concerning the use by beekeepers of sodium cyanide on their honeybee colonies.

4/23/2021

The search period is September 1, 2004 to the date of search conducted.

Background: An EPA investigation into beekeeper use of cyanide followed a September 2004 incident in North Dakota in which several barrels of sodium cyanide fell off of a beekeeper's truck. The EPA's regional offices participated in that investigation which lasted at least through July 2005. EPA may have conducted additional inquiries, investigations or enforcement actions relating to beekeeper use of cyanide in the years since.

This request includes but is not limited to communications about beekeeper use of cyanide  
â€¢ between and among EPA officials;  
â€¢ between EPA officials and state-level agencies or state-level officials with jurisdiction over beekeepers, pesticides, illegal use of cyanide and related matters;  
â€¢ between EPA and individual beekeepers, and

EPA-R5-2021-005499 Ms. Ashley Anderson Hawkins Parnell & Young LLP

Please produce any and all information concerning any environmental issues including but not limited to asbestos and any associated minerals and/or abatement in relation to the following: FOLKERTSMA REFUSE, GRAND RAPIDS, MI (1426 PANNELL ROAD NORTHWEST, GRAND RAPIDS, MI 49504).

EPA-2021-002666	Miss Georgia Anderson	Novos	Hi there, I'm looking for data on the number of illegal dumping incidents on federal land in each American state from January 1st 2020 until December 31st 2020 (if you could extend this out from January 1st 2016 to December 31st 2020, that would be greatly appreciated but I understand if you are under tight time constraints). It's very important that I get a break-down of each of the 52 states and not the total number of illegal dumpings for the nation as a whole. If possible, it would be great to get a) the number of illegal dumping incidents on federal land per state b) the number of fines issued for illegal dumping on federal land and the amount (\$) those fines totalled for each state c) the severity (types and amount of material disposed of) of illegal dumping incidents on federal land broken down by state and d) a breakdown of the locations where these illegal dumping incidents on federal land occurred for each state - for example, in a national park. It might help to know that I am interested in finding out the states with the highest and lowest rates of illegal dumpings. You might not have access to the information to answer point (c) and that is okay. I'm specifically interested in point (a) and (b). Your time is greatly appreciated and if you need any clarification, please don't hesitate to email or call.	2/18/2021

To Whom It May Concern:

5/28/2021

I am looking for information regarding, specific air permits, inspection reports, violation notices, annual emissions reports, asbestos information, leaking underground storage tanks, site remediation program enrollment, compliance reports, ground-water information, sampling results, complaints, and incident notices for any current or historical facility at the following address:

720 S Edgewood Ave,  
Urbana, OH 43078

I believe this property has been assigned the Champaign County Parcel Number: K48-25-11-01-33-020-01. Additionally, the aforementioned property appears to be currently occupied by Shaffer Manufacturing Corp. and has been historically occupied by Chi-Vit Corporation/CV Material Ltd, a manufacturer of porcelain enamel coatings. The property is also in the vicinity of the Urbana Contaminated Aquifer (EPA Registry Id: 110031457572). If it is possible to locate and provide any information for the aforementioned property and the Urbana Contaminated Aquifer, I would appreciate it.

Thank you for your time.

EPA-R3-2021-003301	Matt Kidd		<p>I request all emails and other available information involved with the Smith Mtn Lake Airport expansion involving the DEQ. Over the summer, the County approved a 50% expansion of the airport to include the building of 5 new buildings on Lot A. Lot A is a lot where all property owners have deeded rights to tie down an airplane and the county approved the owner of airport to place commercial buildings there. Many issues arose during construction and DEQ was requested to come out due to pollution and contaminates flowing into Smith Mtn Lake. The DEQ informed numerous citizens that they would be onsite Nov. 20th alongside Bedford County. Nobody from the DEQ showed up and we were later told that Covid prevented Christopher Webster from being able to come out. We were then told someone from DEQ would be visiting the site, but to date over 4 months later nobody has showed up and the County informed us the construction site is larger than 1 acre requiring a DEQ permit. DEQ and Bedford County have authorized construction to continue for over 4 months continuing to cause environmental issues and hazards to our properties and waterways. We are seeking information on why DEQ tells us they are coming out, but never do and also how can DEQ not step in when it has been acknowledged that the construction site's size requires a DEQ permit, yet they are not stopping any construction for 4 straight months.</p> <p>FOIA requests have been submitted and followed up on by the County and we would like the same from the DEQ. Please contact me directly with any questions you might have. Thank you very much for your assistance with this important matter.</p>	3/23/2021

Dear Coordinator:

2/16/2021

Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting information or records of any accusations, or complaints alleging sexual assault or harassment, toxic work environment, discrimination, or workplace bullying made involving former EPA Administrators Edward Scott Pruitt or Andrew R Wheeler before, during, or after their tenures. If such records exist I am also requesting information or records of any investigations related to the aforementioned.

I am acting as a member of the news media, therefore any fees for searching for, reviewing, or copying the records should be waived, please notify me before processing if any fees are incurred.

If you deny all or any part of this request, please cite each specific exemption you think justifies your refusal to release the information and notify me of appeal procedures available under the law.

If you have any questions about handling this request, you may telephone me at (469) 639-8479.

Sincerely,  
Ian Stephens

			I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research in the area of developmental neurotoxicity for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and, 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the Administrator Wheelerâ€™s statement on 09/10/2019 to reduce animal testing by 30% in 2025.

Arcimoto Inc is a manufacturer of three-wheeled electric vehicles located at 2034 W 2nd Ave Eugene OR 97402. They have been manufacturing vehicles since 2007, with operations at the foregoing address since 2017. And yet no entry appears in the EPA facilities database/map for this company and factory.

12/9/2020

1) Please provide any facility inspection report for this company at this location, or explanation as to why there is none.

Arcimoto claims in its filings to the US Securities Exchange Commission that "Arcimoto successfully completed SAE J2982 Range and MPGe testing, and EPA issued a 2019 Model Year Certificate of Conformity for demonstrated compliance as a fully zero emissions, battery-only 3-wheeled electric highway motorcycle." In spite of this claim, no such Certificate appears in the EPA's DIS database, nor is there any other entry for Arcimoto there.

2) Please provide a copy of any Certificate of Conformity issued to Arcimoto for any model/year, or please indicate that no Certificate was ever issued to Arcimoto for any vehicle.

3) Please provide, if any, any documents related to any enforcement action or other violation, penalty, warning, etc. issued by the EPA to Arcimoto, Inc.

Thank you for your attention to this matter. Please provide documents electronically, in MS Word or PDF.

EPA-2021-003388	Mr. Logan Ping	Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, et seq., I am requesting copies of specific public records relating to the Multistate Environmental Response Trust Agreement (attached) to which the U.S. Environmental Protection Agency (USEPA) is a Beneficiary.	3/29/2021	
		Pursuant to Section 6.1 (Reports) of the Agreement, the Multistate Trust is required to submit quarterly reports to Trust beneficiaries (including the USEPA). These reports include (a) financial statements of the Multistate Trust at the end of such calendar quarter or period and the receipts and disbursements of the Multistate Trust for such period; and (b) a description of any action taken by the Multistate Trust in the performance of its duties which, as determined by outside counsel, accountants or other professional advisors, materially and adversely affects the Multistate Trust and of which notice has not previously been given to the Beneficiaries. I request copies of all financial statements and quarterly/annual reports provided by the Trust to the USEPA from the Trust's inception in February 2011 to the present.		
		If there are any fees for searching or copying these records, please inform me if the cost will exceed \$100. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

EPA-2021-002700	Dr. Eric A Whitsel	University of North Carolina at Chapel Hill, Department of Epidemiology, Gillings School of Global Public Health, Department of Medicine, School of Medicine	Dear FOIAonline, ***** I have exhausted my team's repeated attempts to obtain the data described below. The Commerce Department's National Technical Information Service previously distributed it. NTIS orders were placed @ orders@ntis.gov, calling 1-800-553-6847, or calling (703) 605-6000. However, NTIS closed its sales office in October 2016. And since then, the NTIS Office of Program Management has been unable to meet our request. ***** National Radon Database (NRDB), in ASCII format, including the National Residential Radon Survey and EPA/State Residential Radon Survey, All Six (6) volumes, 1986-1992, PB93-502565INC ***** These specific data are quite critical to our ongoing environmental epidemiologic research. So thank you for kindly helping process our request. If you have any questions about it, I'd be happy to address them. ***** Sincerely, ***** Eric A. As explained in the attached letter, we represent the Northern Arapaho Tribe and Eastern Shoshone Tribes (the "Tribes"), two federally-recognized Indian Tribes whose joint home is the Wind River Reservation in Wyoming. The Tribes also jointly own the oil reserves beneath the Wind River Reservation, and have leased some of these oil fields to Merit Energy. These include the Circle Ridge Field, Steamboat Butte, and Maverick Springs/Chatterton Battery.

3/3/2021

Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, the Tribes are requesting that the EPA promptly provide copies of all records (as defined by 5 U.S.C. Â§ 552(f)(2)) that are responsive to the following requests: (1) Copies of any underground injection control permits that have been issued by EPA to Merit Energy relating to the Wind River Reservation; and (2) Copies of any other permits issued by EPA to Merit Energy relating to the Wind River Reservation, with the exception of surface discharge permits numbered WY-0000922, WY-0000949, WY-0000779, and WY-0033740. We respectfully ask that you prioritize the first request, and that responsive documents be produced on a rolling basis.

Dear EPA FOIA officer:

4/21/2021

This is a request under the Freedom of Information Act.

I request that a copy of documents containing the following information be provided to me:

-Inspection reports from the Walter/ERP/Bluestone coke facility in Birmingham, Alabama, from January 1, 2010 to the day on which this request is processed.

-Inspection reports from the ABC coke facility in Tarrant, Alabama, from January 1, 2010 to the day on which this request is processed.

-Inspection reports from the Southland Tube in Birmingham, Alabama, from January 1, 2010 to the day on which this request is processed.

-All correspondence between EPA employees and the Jefferson County Department of Health regarding coke oven inspections since the beginning of 2010.

-All correspondence between EPA employees and the Jefferson County Department of Health regarding Southland/Nucor inspections since the beginning of 2010.

I am willing to pay fees for this request up to a maximum of \$100. If you estimate that the fees will exceed this limit, please inform me first.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the activities of the government's effort to control air pollution and is not primarily in my commercial interest.

Thank you for your consideration of this request.

EPA-R4-2021-004534	Mr. Jason Hughes Arcadis U.S., Inc.	Request all EPA Files for Hazard Ranking System scoring of the Hercules, Hattiesburg, MS site completed for years 1993 through 1995. This FOIA request includes all correspondence, scoring calculations, and the mechanisms used for the Hazard Ranking System which is the principal mechanism that the EPA uses to place sites on the National Priorities List (NPL). It is a numerically based scoring system that uses information from initial, limited investigations - the preliminary assessment (PA), the site inspection (SI), and the expanded site inspection (ESI) if necessary - to assess the relative potential of sites to pose a threat to human health or the environment.	5/24/2021

EPA-2021-000695	Dawn Quaker	New Edge Media LLC, New City LLC, AUKERA Ventures LLC, The Harlem Roundtables, Arts Cross Borders, and H&A, with the last 3 companies listed not yet formed for reasons related to abuse and finances	In March of 2019, something was said to be added to the public water system that is known to have forced a physiological change. It is said to be an organic substance. I drink water and did then and/or used it to make coffee and cook food on the stove. I was told that a man named Jon du Hoffmann and a woman named Jennifer Lutz were two of the people responsible for this, and the event has been referred to me by people abusing me as "the water" and I am told it is related to the alumni of Columbia University's School of General Studies, my alma mater, and unfortunately, the ongoing abuse of me. I need to find out what this substance is as I was abused in person regarding it at a library, the Chatham Square Public Library, and while I was not harmed a person tutoring someone was speaking with them and water came up in a conversation between them they said they could not speak about it around me, and when I was inpatient at New York Presbyterian Hospital in White Plains, NY, one of the nutritionists there that was leading a group mentioned something re. copper and so, I am curious if this was related to something being added to our water in March of 2019, but also said to be misleading. While the mention of copper may not have had anything to do with the water, it was something said in a manner that assumed information regarding metals and certain elements were common knowledge, however, I have been abused the past 3 years in a very upsetting manner where people have been said to admit that they wanted me to become paranoid and I assume even if not pathologically, that they would want me to appear as if I were a paranoid schizophrenic or had psychosis for reasons unrelated to trauma caused by their	11/2/2020

EPA-R8-2021-004085	Justin Nobel	Freelance Science Journalist	I write on science & environment for US magazines and investigative news sites and am writing a book for Simon & Schuster on NORM/TENORM in the oil industry. As part of my research and reporting I recently attended a webinar series hosted by HEI Energy entitled, "Energy Production and Human Health: Surveying Current Knowledge about Exposures from Unconventional Oil and Natural Gas Development (UOGD)". As part of this webinar Cindy Beeler "Oil & Gas Air Technical Advisor at the United States Environmental Protection Agency, Region 8" gave a presentation and in her presentation Ms. Beeler discussed complaint reports that EPA has received regarding air emissions from unconventional oil and gas development. Ms. Beeler's comments made it known that EPA has indeed received numerous complaints regarding air emissions from unconventional oil and gas development, including wellhead emissions from unconventional wells, and also emissions from compressor stations, natural gas processing plants, and other natural gas and Natural Gas Liquid (NGL) pipeline infrastructure. Ms. Beeler's comments implied that these complaints were filed to EPA by residents and community members living near these facilities. As my book discusses various pollutive emissions from unconventional oil & gas development, which began in earnest in the US around 2005, these complaints are of great value to my reporting, and the public, who will be the direct beneficiaries and readers of my reporting. Thus, I am requesting:  1. Please provide ALL of the air emission complaints EPA has	5/3/2021

EPA-2021-001503	Dr. Adrienne Stolfi	Wright State University	<p>In March 2019 I submitted a FOIA (EPA-HQ-2019-004104) requesting Eramet Marietta (Marietta, Ohio, facility ID 8130711) Mn (poll ID 7439965) emissions data for 2008-2013 for use in my doctoral dissertation. I used AERMOD to model air Mn exposure for a cohort of children aged 7-9 years enrolled from 2008-2013 who had soil and house dust Mn, blood, hair, and toenail Mn, and neurological outcomes measured. We modeled annual air Mn for each child for the year of enrollment. We would now like to use AERMOD to model lifetime exposure for those children (including in utero), which will require Eramet emissions data for the years 1998-2007, and 2014-2019 (or as recent as possible). The children are now 14-21 years old and are still being followed for neurological outcomes. We would like to request, if possible, the emissions data for these additional 16 years. Dear FOIA Officer:  
Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting records related to the Environmental Protection Agency's deletion and proposed deletion of sites from the Superfund National Priorities List. I am requesting all correspondence related to site deletion between any EPA personnel"whether at Headquarters, a regional office, or any other office"and any External Party including Emails, letters, memos, directives. For the purposes of this request, "External Party"includes any person or entity who is not a part of a federal executive agency. This request includes correspondence where an External Party is the sender or appears anywhere among the recipients, including as a "cc" or "bcc" recipient. I am requesting correspondence between Jan. 1, 2017 until the date when the records are produced. Since some of the documents listed above may be more readily available than others, please provide the documents that are available as soon as possible without waiting to provide access to all the documents. Please provide the records in electronic format. I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages.

I ask that you waive any and all applicable fees associated with this request. Release of this information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If you deny this request

Ann Brown

Center for Biological Diversity

As background, in 2016, the U.S. Environmental Protection Agency ("EPA"), U.S. Fish and Wildlife Service ("FWS"), and National Marine Fisheries Service ("NMFS") stated in a court document that the agencies were "exploring the feasibility of a comprehensive pesticide ESA [Endangered Species Act] consultation workplan addressing the registration and registration review of pesticide ingredients under FIFRA [Federal Insecticide, Fungicide, and Rodenticide Act]." See Stipulated Settlement and Order at 5 in *Ctr. for Biological Diversity v. U.S. Dep't of the Interior, et al*, Case No. 3:15-cv-658-JCS, ECF No. 74 (N.D. Cal. Feb. 19, 2016).

5/25/2021

Attachment A (Stipulated Settlement and Order).

Specifically, the Center requests the most recent Endangered Species Act ("ESA") consultation workplan addressing the registration and registration review of pesticide ingredients under the Federal Insecticide, Fungicide, and Rodenticide Act ("FIFRA").

EPA-R2-2021-000032 Mr. Christopher Geslin McGivney Kluger Clark & Intoccia, P.C. We request any/all EPA documents as they relate to asbestos-containing products and equipment at the Keuffel & Esser/Taconic Plant superfund site in Millerton, NY. Also include any documents that reference hazardous environmental complaints, inspection reports, citations, cleanup projects, abatement notifications, and products lists in EPA reports for the above-referenced site. 10/2/2020

If your office denies document requests in part, please specify the exemptions claimed for each page or passage. For documents withheld in their entirety, please state, in addition, the date of and number of pages in each document. Please advise of any destruction of records and include the date of and authority for such destruction.

I understand that photocopying charges may be associated with this request and ask that you notify me of the amount required to cover the charges prior to making any such copies.

In your response(s) to these requests, please reference JAMES SILVERNAIL for our internal record keeping.

If you have any questions with regard to this request, please do not hesitate to contact me via telephone at (315) 473-9648. If I am unavailable, please speak to my paralegal Lynnette Lavender.

Thank You,  
Christopher Geslin

EPA-2021-006435	Sabrina Jay	<p>Seresto Collars : (2) how many cases of heart problems have you received to date. I have a boxer that was just diagnosed with AV heart block and needs a pacemaker. I put this collar on him at the beginning of July. On Saturday, 8/28, I gave him a bath and left the collar on while bathing. Monday evening, he dropped 4 times. Immediately took the collar off and took him to a local ER clinic. The following morning, I drove him to MU Small Animal ER in Columbia MO. We have done other diagnostic testing to rule out the AV block being secondary to something else. Tuesday 8/31 he had 2 episodes (1 am &amp; 1 pm); Wednesday 9/1 he had 4 AM (2 were slight) &amp; 1 PM; Yesterday, Thursday 9/2 he had NONE and so far today, he has had none. The collars were purchased directly from my regular DVM's online ordering. SECOND ISSUE with a different dog : My older boxer ended up with a head tilt 3-4 days AFTER putting this collar on her. Again, I immediately took the collar off of her. I am now really suspicious of the Seresto collar causing the issues. NOTE - I previously emailed EPA and was told to request information online. Please send ALL reported side effects that have been reported but especially any related to the heart and liver. I understand there is contact information that can not be included in the report. Please rush the report. I need to see if there has been heart issues reported. If you have any questions, please feel free to call anytime. Email report is fine. Thanks</p>	9/7/2021

EPA-R1-2021-002707	Miss Colleen A Adams	Hygenix Inc	Re: 1297-1299 West Broad Street (Formerly Ross & Roberts) located in Stratford, CT	2/19/2021
			To whom it may concern,	
			Hygenix, Inc is conducting an environmental search of the above-mentioned property in Stratford, CT. Through our research, Hygenix found that this property was considered the National Priorities List (NPL) and it didn't qualify based upon existing information. The Connecticut Department of Energy & Environmental Protection (CT DEEP) indicated that there was a preliminary investigation or remediation report conducted by the EPA. Is it possible to receive a copy of this report and any others that may be on file?	
			Thank you for your time and assistance on this matter.	
			Sincerely, Colleen A Adams HYGENIX, Inc. 49 Woodside Street Stamford, CT 06902 (203) 324-2222

EPA-R6-2021-000012	peter johnson		The request is for maps showing the historical location and boundaries for this landfill whether they show actual location, property boundaries or other site related maps for the Cabot city landfill located North and West of the City of Cabot, in Arkansas. The name of the landfill site maybe named Cabot City landfill or City of Cabot landfill or another variation of that name or by another name which was situated near the city of Cabot identified by the following information. The site was accessed by Willie Ray road, which runs parallel to Highway 167, north of the city of Cabot a(zip code 72023). This site operated in this area from an unknown time until approximately 1980. The maps DO need to show changes to the boundary lines from its inception. To expedite, the following number may or may not prove helpful in finding these maps. The possible number the EPA assigned to this site is PERHAPS: ARD983269275 (providing this landfill location is located by relation to the information provided). 			<p>I'm a Postdoc at the Environmental Defense Fund working on our PermianMAP project (<a href="http://www.permianmap.org">www.permianmap.org</a>). I became aware from a recent press release (<a href="https://www.env.nm.gov/wp-content/uploads/2020/12/2020-12-21-Flyovers-reveal-high-leak-rates-in-Permian.pdf">https://www.env.nm.gov/wp-content/uploads/2020/12/2020-12-21-Flyovers-reveal-high-leak-rates-in-Permian.pdf</a>) and conversations with the New Mexico Environment dept that NMED/EPA conducted helicopter OGI surveys with using a similar protocol as the ones we have published on our public data platform.</p> <p>As part of our data analytics on PermianMAP, I'm working on a scientific publication to a peer-reviewed journal about our OGI flaring dataset to assess various metrics related to flare performance in the Permian (temporal trends, site infrastructure type: wellpad vs. G&amp;P, connections to land ownership, state/county etc.). I would like to include this dataset of NM flyovers in this publication as it would roughly double the number of flares observed; however to interpret these metrics I also need information on the prevalence of normally operating or inactive flares, not just those with malfunctions. Presently, only the malfunctioning flares and leaking tanks (355) are given in the data available on the NMED's public GIS page, while the presser mentions 1400 Permian flares were surveyed. For clarity, I'm interested in obtaining the complete dataset of OGI observations including the sites without malfunctions.</p> <p>Happy to also hop on a call to talk more details if needed.</p>

EPA-R6-2021-001097	Ms. Ann Vail (Shaneyfelt)	Louisiana Clean Fuels	I am interested in how the EPA monitors methane emissions in Louisiana. Specifically at sites of interest such as landfills, dairies and waste water treatment plants. The state DEQ does not monitor the methane releases from any of these sites. What I am hoping to learn is: Is there room to improve? What is being done to monitor GHG emissions from these sources in Louisiana and in other states. Do other states monitor these emissions and what has been their findings? I'm pursuing funding to install air quality / methane monitors around out state and would like to know what I'm starting with. I am a member of Governor John Bell Edward's Climate Task Force in one of the specialized committees and our group could benefit from this information. Any data I collect will be shared with my state DEQ Air Quality Division. I run a US Department of Energy designated Clean Cities coalition. The data will be used to help me to determine how I should proceed with a methane to renewable natural gas program statewide (waste to fuel) and to understand how big (or small) the problem of methane emissions are from these sites.	11/24/2020

EPA-R6-2021-000976	Ms. Melody Cornelius	Green Environmental Management Inc	Based on RCRA NonGen/NLR data, Pride Cleaners (Facility ID 110005115268, located at 10309 S Padre Island Dr, Corpus Christi, TX) was registered as a RCRA-LQG from 1989 to 2001. No compliance records were found online on any of the EPA search engines. No information is available from my state agency (TCEQ) either, except a 1989-2001 Notice of Registration which indicates the site was a CESQG. I have reason to doubt that this facility ever actually existed or operated as a dry cleaning plant and may have never been opened or was only a dry clean drop station. I am requesting any compliance information you may have which predates the 5-year period of record already posted online, or any records at all which verify that the facility existed and generated wastes. We are deciding whether to conduct a subsurface investigation and would prefer to have more information before making such an investment. Thank you.	11/18/2020

To Whom It May Concern:

5/26/2021

Pursuant to the Freedom of Information Act, I hereby request the following records:

Any and all written or electronic communications, including email attachments, sent or received by Gina McCarthy that include one or more of the following key words or phrases: "316(b)" and/or "Meramec". This request seeks records produced between January 1, 2013 and January 21, 2017.

I am a reporter for The Nation and other outlets.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

EPA-2021-005908 Ms. Nancy Huddy SciReg, Inc.

This request does not encompass any information that may be entitled to confidential treatment, or that otherwise may be exempt from disclosure under FOIA. EPA-2021-005587	Dr. Kevin M Crofton	This request is made on behalf of myself under the Freedom of Information Act (â€œFOIAâ€) 5 U.S.C. Â§ 552.	7/20/2021	
		I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research developmental neurotoxicity research for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the previous Administrator Andrew Wheelerâ€™s statement on 09/10/2019 to reduce animal testing by 30% in 2025.		
EPA-2021-003072	Mrs. Jennifer Fulford	This request is a reiteration of previous requests (FOIA request EPA-2020-003946) for Data Evaluation Records/Reviews (DERs) for some developmental neurotoxicity studies. EPA-2021-000411	Ms. Gelena Tarnapolsky	Advanced Biocide Technologies LLC	Advanced Biocide Technologies (ABT) is greatly concerned that a former contractor, Ms. Jacqueline Kemper, is and has used the ABT EPA Registration Number 91399-2 [Biotab7] to sell/distribute similar products without consent. ABT is initiating legal action against Ms. Kemper for serious claims including fraud. Upon accessing the CDX portal account for ABT, I noticed under the Package Status section, that packages were submitted in 2019. ABT has no records of such submissions. Furthermore, I have been unable to view the packages since Ms. Kemper, who had originally registered the CDX account for ABT, retained the ABT account passwords when she was terminated. ABT requests the following: (1) digital and hard copies of any and all documents submitted to, or sent from EPA, from initiation to present for the ABT CDX Account; (2) Any CDX account established or accessed by Ms. Kemper or others that references ABT EPA Registration Number 91399-2; (3) Change any passwords created by anyone other than myself for the ABT CDX account; (4) Remove Ms. Kemper's name and contact information from any documentation of ABT or the Biotab7 product; (5) Provide digital and hard copy documentation of all access history for Ms. Kemper to the ABT CDX account and any accounts referencing ABT EPA Registration Number 91399-2.	10/21/2020

OI-DE-2017-CAC-0028,  OI-DE-2019-ADM-0016,  OI-DE-2018-ADM-0063,  OI-DE-2017-ADM-0138,  OI-NE-2019-ADM-0025,  OI-NE-2014-ADM-0108,  OI-NE-2017-ADM-0136,  OI-NE-2018-ADM-0098,  OI-NE-2017-ADM-0135,  OI-NE-2013-ADM-0113,  OI-NE-2014-ADM-0094,	9/20/2021
EPA-2021-004437	Denise Paul	Beveridge & Diamond	Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552, as amended, and the FOIA regulations promulgated by the U.S. Environmental Protection Agency in 40 C.F.R. Part 2, we hereby request all non-confidential information in EPA's Office Of Pesticide Programs Registration Division's registration jacket for EPA Registration Number 92413-13.	5/19/2021
EPA-2021-001847	Phillip McGee		Pursuant to the Freedom of Information Act (FOIA), I hereby request ALL studies related to global warming, climate change, carbon capture, carbon sequestration, renewable energy, alternative energy sources, energy efficiency, et al. that have been submitted to the EPA under the Trump Administration from 20 January 2016 to the present date.  Climate change presents an existential crisis for the human race. The United States of America has already begun feeling the impacts of climate change with a record number of hurricanes last season, wildfires in the American west, record heat, and droughts. The cities of New York and Chicago experienced tornadoes inside city limits in 2020. In spite of these facts, the Trump Administration is moving to seclude and hide studies and information related to climate change.  The nature of this request is to publish the studies for public consumption so that the United States may create a worthwhile and critically essential response to climate change that is worthy of the title, "good enough for government work".  Given the immense public interest of this request, I hereby request fees be waived for this FOIA request. We cannot allow climate deniers to have exclusive control over the scientific excellence this nation promulgates. As the Trump Administration moves forward with its "garbage science" standard and given the current state of the climate emergency here on US soils and seas, I am requesting an expedited processing of this request.
