

## NW Natural 2024 RFP Seeking RNG Resources

As a service to our Partners and other stakeholders, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **request for proposals (RFP)** from **Northwest Natural Gas Company (NW Natural)**. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is based on the RFP.

NW Natural, headquartered in Portland, Oregon, serves residential, commercial and industrial customers in the Pacific Northwest. Oregon Senate Bill 98 enables gas utilities to acquire renewable natural gas (RNG) or hydrogen for delivery to their customers. NW Natural is **seeking pipeline-quality RNG resources and/or the associated environmental attributes** from a variety of feedstocks and sources around the country, including green hydrogen and synthetic methane.

NW Natural is soliciting proposals from qualified firms to **sell RNG from existing or future projects**. Delivery of the resource to NW Natural must commence no later than December 31, 2026.

The **deadline for questions** is **April 12, 2024**, and **proposals are due** by **May 10, 2024**. Questions and submissions must be sent to [renewables@nwnatural.com](mailto:renewables@nwnatural.com).

Please refer to the RFP on NW Natural's website at <https://www.nwnatural.com/about-us/environment/renewable-natural-gas> for complete information.
