Re: Request for Natural Gas STAR Program Implementation Plans				
Dear Chief FOIA Officer:				
I am a reporter for The Center for Investigative Reporting ("CIR"), the oldest non-profit investigative newsroom in the country. Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, I request the following records:				
Natural Gas STAR Program implementation plans submitted by any current and former program partners to the Environmental Protection Agency from January 1, 2010 through to September 30, 2021. Respondent records should include implementation plans from all segments of the oil and natural gas industry, including but not be limited to Production Segment, Transmission Segment, Distribution Segment, and Gathering and Processing Segment.				
The Natural Gas STAR Program Partnership Agreement between the EPA and oil and natural gas program participants states that program partners agree to "only share non-Confidential Business Information" and that information submitted is "subject to the Freedom of Information Act."				
Find attached copies of the Natural Gas STAR Program Partnership Agreement and copies of the current example implementation plans for the oil and natural gas industry segments downloaded from the Natural Gas STAR program webpage on September 27, 2021. Additionally, find attached a copy of this request in letter format.				
If possible, I would prefer that these records be provided in a machine-readable format such as a CSV or Excel file, and transferred electronically. As a reporter for CIR, I am a news media requester for the purpose of fees. Because this request is being made for a journalistic purpose, I further ask that you waive any fees for provision of the records. Additionally, please notify me of costs before taking any billable steps.				
If you deny this request in whole or in part, I request that you respond with the statutory exemption underlying the denial and the reasoning therein. If an asserted exemption applies to only a portion of a record, please delete or redact the portion to which the exemption applies.				
If you have any questions about my request, please do not hesitate to e-mail me or call me. The Center for Investigative Reporting's legal counsel is also copied on this letter. We look forward to a response as quickly as possible under the provisions of the Freedom of Information Act (FOIA).				
Sincerely,				
Mohamed Al Elew malelew@revealnews.org (b) (6)

2022-OCSP-00066	Smith, Steve	-	<p>Over the course of the last 20 years or so, lead has been removed from electronic components and assemblies. This has resulted in a considerable loss-of-life and other environmental impact; the University of Stuttgart did an overall environmental impact assessment of tin/lead and various commonly used lead-free replacements, evaluating multiple factors on a cradle-to-grave basis. Tin/lead was far and away the best for the environment.</p> <p>Lead-free tin solders and platings have caused the sudden unintended acceleration incidents that occurred in many popular makes of cars (e.g., runaway Toyotas) ***and killed many people***; these have been well-publicized . There are other verified instances where the lead-free material has resulted in widespread electronic failures ranging from heart pacemakers to runaway nuclear reactors to satellite failures to missile systems and other Defense electronics.</p> <p>Where is the Environmental Impact Report (EIR) or Environmental Impact Assessment) that was supposed to be done before removing lead from electronics, and producing only Lead-Free electronics? Absent such an EIR or EIA, further loss-of-life may continue, and our National security may be placed at further risk b y the degraded reliability of its materials containing electronics.</p> <p>That is the purpose of my FOIA request.</p>	10/04/2021

Terris, Pravlik & Millian,  
LLP

This letter requests documents pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. §§ 552, et seq.

10/05/2021

If EPA takes the position that records exist responsive to this FOIA request, but that those records (or portions of those records) are exempt from disclosure, please identify the records that are being withheld and state the basis for the denial for each record being withheld. In addition, please provide the non-exempt portions of the records as required by 5 U.S.C. § 552(a)(5).

We request complete copies of the following documents:

(1) ~~All~~ documents that relate to the classification of the food processing residual known as Hatgro as solid waste or as subject to an exemption under the Resource Conservation and Recovery Act (RCRA). Hatgro has been registered by Clemens Food Group as a fertilizer with the Pennsylvania Department of Agriculture as HATGRO 2.6-0.41-0 (#006FYH). The Agricultural Utilization Information Sheet for Hatgro is attached for your reference. Hatgro may also be associated with Hatfield Quality Meats, a subsidiary of Clemens Food Group, or Material Matters, Inc., a regulatory contractor involved with Hatgro. This request includes, but is not limited to:

(a) ~~Any~~ determinations about Hatgro's status as an exempt co-product;

(b) ~~Any~~ determinations about Hatgro's status as a product subject to a beneficial use exemption;

(c) ~~Any~~ requests for EPA to evaluate Hatgro's status as a solid waste under RCRA;

(d) ~~Any~~ internal communications within EPA about the matters set forth in items 1a-1c.

(2) ~~All~~ communication between EPA and any member or agent of Clemens Food Group, its subsidiary Hatfield Quality Meats, or Material Matters, Inc. about Hatgro.

(3) ~~All~~ communications between EPA and any state agency about Hatgro.

(4) ~~All~~ documents and communications related to public concern or complaint about Hatgro.

(5) ~~All~~ documents related to EPA's consideration or evaluation of the environmental and health impacts of Hatgro.

We request that the agency provide us with responsive documents on a rolling basis when such documents are identified by the agency as opposed to waiting until all responsive documents have been identified.

Thank you in advance for your assistance in this matter. Please do not hesitate to contact me with any questions or concerns.

2022-R04-00096 Hargett, David

Pursuant to the Freedom of Information Act, I hereby request the following records:

Full written comment from the Ponca Tribe of Indians of Oklahoma, received by the EPA on September 19, 2020 in response to tribal consultation and engagement related to the State of Oklahoma's request to implement regulatory programs in certain areas of Indian Country in Accordance with Section 10211(a) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005: (SAFETEA).

The Ponca's written comment, which the EPA received on September 19, 2020, is referenced in the following EPA document:

"Summary Report of Tribal Consultation and Engagement Related to the State of Oklahoma's Request to Implement Regulatory Programs in Certain Areas of Indian Country in Accordance with Section 10211(a) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act of 2005: A Legacy for Users (SAFETEA)  
September 29, 2020

Prepared by:

Region 6 Office of Communities, Tribes, and Environmental Assessment  
Region 6 Office of Regional Counsel  
Office of International and Tribal Affairs  
Office of General Counsel"

The above EPA document states:

"EPA received additional written comments from the following tribes:

...

- Ponca Tribe of Indians of Oklahoma, September 19, 2020"

Given how narrowly this request is crafted I hope it is something you can provide by Nov. 5. If you have any questions about this request, please contact me immediately, as I am more than willing to discuss perhaps revising the request to make it easier and faster for you to respond to it. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request.

Thank you in advance for your assistance. I look forward to receiving your response to this request within 20 business days, as the statute requires. I do realize that responding to requests like this requires staff time and I appreciate you taking this time to address my request.

Sincerely,

Phil McKenna

2022-R05-00142	McHarry, Hugh	-	All communication between EPA Region V and John Gehrke and/or the Farm Services Agency of Illinois regarding the Mahomet Aquifer and impacts by Fanter Farms hog farm located in Mason County, Illinois. Mr. Gehrke purportedly requested a review by EPA Region V of the hog site as part of the FSA's environmental assessment prior to financing construction. Mahomet Aquifer is a sole source aquifer. There should be email/letter correspondence from the FSA to Region V asking for the review and a letter/email/report from Region V to FSA giving EPA's recommendations to protect the Mahomet. The FSA purportedly contacted EPA Region V at or around August 12, 2021 and the response from EPA would be between August and October 2021. We need this information in order the local community to provide public comment on the FSA EA/FONSI. Time is limited due to 30 day appeal deadline. We ask for expedited processing due to time constraints and a fee waiver due to this information is directly related to the public notice and comment period of proposed federal funding in an area with threatened species, sole source aquifer, and community of 50 people that were completely ignored in the EJ assessment.	10/07/2021

2022-OCSP-00187	Delgado-Garced, Gladys	-	<p>There was a label for a pesticide presented in a negligence trial that was not under the PPLS page, subsection detailed history. The registration number is 84526-1. The label presented was for October 24th 2012; however, the only labels within the detail history that were observable for 2012 were in the months of September(18th) and December(6th). My question pertains to if there were any labels submitted between those dates that are not listed in the detail history. Moreover, I would kindly ask if the label that was submitted in December would supersede the one that was submitted for October 24th. The one submitted for the trial, under changes, it lists a brand name change to "HaloSpray" from the previous name "Sanosil S010", yet for the December label, the subject name was still "Sanosil S010". There is no change until or mention of "HaloSpray" until May 15th 2018. My question then becomes, would that mean that the label presented in court is legitimate? Thank you for your time.</p>	10/12/2021

2022-NFO-00238	Feitelberg, Mary	-	<p>The Region 1 Environmental Protection Agency's listing for the Brayton Point Commerce Center (EPA Registry ID 110070389203) is obsolete by SIX YEARS — since long before these flagrant felons took possession of the site in January 2018. Depite being heavily subsidized by federal taxpayers' dollars to "remediate" the site's pre-existing contaminants, which include massive quantities of airborne and waterborne PCBs PLUS record hexavalent Chromium levels (as reported by 2009, per the 2011 Sierra Club report titled "The EPA's Blind Spot", which entry for Brayton Point had required an entire FOIA-request-and-complaint campaign), both of the last two sets of owners AND their respective sets of hired goons have been allowed to flout state and federal environmental laws nonstop — and with utter impunity. ... In each case, the parties had immediately proceded to trespass at will on the Commonwealth of Massachusetts' taxpayer-built, taxpayer-owned and taxpayer-funded RIVERSIDE Quay and Bulkhead, which deeded, registered Commonwealth capital asset Governor Baker's egregiously-corrupt Secretary of the Executive Office of Energy and Environmental Affairs has finally admitted (via official letter) still belongs to our state. ... The Region 1 EPA hasn't even bothered to relabel the property's name. To elude sanction, the Region 1 EPA has also listed the waterway as "Narragansett Bay," despite knowing full well that NOAA's Office of the Coast Survey, the US Geological Survey's Office of Coastal Zone Management, and the Geolgraphical Information System all list Narragansett Bay — not to mention this site's more proximal waterway, which is Rhode Island's Mount Hope Bay, which, again, doesn't even begin until over a mile south of the mouth of OUR waterway, which happens to be the federally-registered "Wild and Scenic Taunton River." While the crooks may have tampered at the eleventh hour with Congress's geographical designation for the Wild and Scenic Rivers Registry at the Department of the Interior, they weren't able to make the bona-fide authorities on this river's navigational coordinates revise their records. ... Is it really any surprise that with the Region 1 EPA "protecting" our citizens' health and safety, there has been NO NPDES, CERCLA or other activity on record since prior to our last two Governors' consecutive sales of this facility to out-of-state corporations? Nor has any attention whatsoever been paid to any report on the recent years' various pollution incidents. A few weeks ago, someone at the Coast Guard — which vessels literally never ply our waters — claimed that a five-day oil spill the size of a football field had amounted to "less than ten gallons." The local corruption had gotten so horrific and shameful that my hometown's beloved and longtime fire chief killed himself in his garage on January 3rd, 2018 — despairing over the new honors, and disgraced by adverse media reports on the Department's long string of laggard responses to reports of fumes, smoke and fires — the latest of which had been allowed to grow into a three-alarm fire. ... Everyone in Bristol County, Massachusetts knows "Something is wrong there," and Rhode Islanders in their own Bristol County are fast catching on. Yet nothing changes; in fact, things are forever going from bad to worse. Though this CDC/ELT facility abuts the Commonwealth of Massachusetts' 12.5 landed acres and their eponymous unit, the Quay's horizontal top (of topsoil, metal, and wooden infrastructure) but also the 740-foot-by-50-foot metal Bulkhead, thus forming a collective unit). ... The EPA is required to honor our federal transparency laws. It is inexcusable that the Region 1 EPA in Boston has remained a party to this horrendous poisoning scheme, helping to conceal malfeasance involving record levels of Hexavalent Chromium in our groundwater and the mass-importing of literally hundreds of thousands of TONS of other states' (and nations') Superfund scrap-metal dregs — via FOC Panamax freig</p>	10/12/2021

2022-R05-00203	Billups, Warren	-	I am looking for records, reports, and studies related to the termination/decommissioning of the Interfor Beaver Sawmill, located at 200673 HWY 101, BEAVER, WA 98305. I believe the applicable EPA Registry ID is 110015433725, the NPDES permit # was WAR003084, the WA-FSIS # is 67848365. I am trying to get all of the records useful for determining the environmental conditions of the soil and groundwater after the sawmill shut down (production ceased approx. July 2014). According to the Washington DOE, I have received all of the documents they have on file. The most recent documentation that they gave to me is dated 4/29/2015 regarding the final inspection for the NPDES permit. I have a copy of a letter from the EPA that has the DOE cc'd (attached to this request) that is dated 10/31/2016. This letter mentions a preliminary assessment conducted by Ecology & Environment, Inc. (and possibly Whitman Environmental Services) which I did not receive in my public records request with the DOE.	10/12/2021

2022-OMS-00334	Pegg, Jocelyn	Berkowitz Cook Gondring Driskell & Drobeck LLC	Our office represents (b) (6) in a modification matter in the State of Kansas, and her ex-husband, (b) (6), is an employee of the EPA. I am writing to request documentation reflecting any life insurance policies your employee (b) (6) has on his life, including the beneficiary designations and the face amounts of the policies and any loan balances. Additionally, we would like to verify that (b) (6) is current on his premiums. Finally, we would like to inquire as to whether there has been a change in the beneficiary, or if any of (b) (6) premiums were not paid on time.  I have attached the settlement agreement regarding (b) (6) life insurance, which states in part that (b) (6) is entitled to verify (b) (6) compliance with the life insurance provision once per calendar year (see pages 43-47 of the agreement as paginated, page 60 of the overall judgment as registered in KS) (b) (6) wishes to verify same, and has not yet done so in the past calendar year. I have also enclosed a signed and notarized authorization from (b) (6) authorizing the EPA to release the requested information to our office.	10/18/2021

My supervisor, and the president of my company, formerly worked on a contract between EPA Cincinnati and ERCO (Energy Resources Company, Inc., 185 Alewife Brook Parkway, Cambridge, MA), the latter for which he used to work. This contract was regarding the development of fluidized bed pyrolysis, and he recalls that the work was performed from 1974 to 1978. We would like to obtain all documentation available in relation to this contract (for which we do not have a contract number available), including any reports provided to the EPA. We would also like to obtain any photographs or drawings that were submitted in conjunction with those reports.

(It should be noted that ERCO worked on several contracts with the EPA, but we specifically want documentation related to contracts regarding fluidized bed pyrolysis or pyrolysis.)

[New materials submitted by requester on 10/21/2021 with the following statement: I believe I may have identified a potential contract number 68-03-0240 and wish to find all documents, reports, photos, and drawings associated with the contract, as well as any other documentation related to contracts between ERCO (Energy Resources Company, Inc., 185 Alewife Brook Parkway, Cambridge, MA) and EPA Cincinnati for pyrolysis and fluidized bed pyrolysis between 1974 and 1978. Attached is a conference proceeding with the contract number mentioned for reference.]

On behalf of Orange County Coastkeeper ("Coastkeeper") and pursuant to the Freedom of Information Act, 5 U.S.C. § 552 et seq., I request access the United States Environmental Protection Agency ("EPA") records received, kept, and/or maintained by the EPA, or in constructive possession of the EPA relating to the following companies and properties:

- ? Amplify Energy Company ("Amplify");

Public Employees for  
Environmental  
Responsibility

10/25/2021

Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility ("PEER") requests certain information from the Environmental Protection Agency ("EPA") as referenced in the agency's webpage Per- and Polyfluoroalkyl Substances ("PFAS") in Pesticide Packaging, at <https://www.epa.gov/pesticides/pfas-packaging>, (hereinafter, "EPA's webpage"). Specifically, we make these five separate requests: ☐

1. ~~Since~~ Since September 1, 2020, all documents, records, emails, texts, instant messages, electronic chats, memos, notes, and letters regarding the extent and significance of the PFAS contamination from fluorinated high-density polyethylene (HDPE) containers used for the insecticide Anvil 10+10 or for any other pesticide product of any kind or type. ☐

2. ~~Since~~ Since September 1, 2020, all documents, records, emails, texts, instant messages, electronic chats, memos, notes, and letters regarding the statement on EPA's webpage regarding Anvil 10 x10 that "the affected pesticide manufacturer has voluntarily stopped shipment of any products in fluorinated HDPE containers." ☐

3. ~~Since~~ Since September 1, 2020, all documents, records, emails, texts, instant messages, electronic chats, memos, notes, and letters regarding the statement on EPA's webpage that "the Agency continues to investigate and assess potential impacts on health or the environment" of PFAS contamination from fluorinated HDPE containers. ☐

4. ~~The~~ The press release linked on EPA's webpage, "EPA Releases Testing Data Showing PFAS Contamination from Fluorinated Containers," at <https://www.epa.gov/newsreleases/epa-releases-testing-data-showing-pfas-contamination-fluorinated-containers>, states (in pertinent part): On Jan. 13, 2021, to minimize risks to human health and the environment, EPA asked states with existing stock of the mosquito product distributed in fluorinated HDPE containers to discontinue use and hold that inventory until its final disposition is determined. Provide all reports, documents, records, emails, texts, instant messages, electronic chats, memos, notes, and letters containing information indicate how any states responded to EPA's request in that statement, since January 13, 2021. ☐

5. ~~EPA's~~ EPA's webpage states in "PFAS in Pesticides Questions, " Question 1 (in pertinent part): ...Under FIFRA Section 6(a)(2), pesticide registrants should report to EPA additional factual information on unreasonable adverse effects, including metabolites, degradates, and impurities (such as PFAS). Provide all reports, documents, records, emails, texts, instant messages, electronic chats, memos, notes, and letters containing information on such adverse effects from PFAS contamination found in any type of pesticide, since September 1, 2020. ☐

This request includes all final documents that have ever been within the agency's custody or control, whether they exist in agency "working," investigative, retired, electronic mail, or other files currently or at any other time. All electronic records should be delivered in their original file format with metadata and any attachments included. Physical records should be scanned or otherwise converted into electronic format. ☐

For electronic records, please provide all records in their native file formats (i.e. not converted to PDF) with all metadata included, and for records such as emails which have files embedded or attached, please provide all attachments in their native formats. For instant messages, plain text is acceptable consistent with guidance issued by the National Archives and Records Administration. ☐

For any documents or portions of documents that you block release due to specific exemption(s) from the requirements of the Freedom of Information Act, please provide an index itemizing and describing the documents or portions of documents withheld. The index should, pursuant to the holding of Vaughn v. Rosen (484 F.2d 820 [D.C. Cir. 1973] cert. denied, 415 U.S. 977 [1974]), provide a detailed j

2022-OLEM-00571	Ranjit, Udi	Columbia University	Our group of Columbia University graduate students are doing an academic project to better understanding some of the barriers faced by smaller communities/municipal governments in accessing federal funding/grants. In our research we were able to locate and identify numerous data sources on successful federal funding applications throughout all federal grant programs. We were however unable to locate any data sets that contained information on federal grant applications that were denied and the reasons for their denial. We would like to request data on federal grant application denials and the reason for the denials, for the Building Resilient Infrastructure and Communities (BRIC) and the Brownfields Program.	10/26/2021

2022-R03-00554	Wu, Tiger	-	A report was made to the EPA around the first week of Aug. 2021 about a lead paint violation for the first-floor apartment of 103 Valley Rd. Charlottesville, VA 22903. The time period of this violation was June 2018 to May 2019. That unit was managed by an institution called Jefferson Commons, who later claimed that the unit had already been extensively remodeled and modernized before June 2018, and that they cooperated with the EPA to fix this violation after I had alerted them about it. However, they have yet to provide documentation proving that the unit had been cleared of lead paint and inspected before rental. I am requesting information about the result of this incident report, how it was handled, and whether the unit had a risk of lead exposure in June 2018	10/26/2021

2022-R07-00534	Miller, Robin	American Geosciences	<p>All RCRA Subtitle C and D related records (including PRP, SEMS-Archive, CORRACTS, RCRA generator status (LQG, SQG, etc), NPL, Delisted NPL, etc. for the following address:  2700 North Broadway Street  Red Oak IA 51566  Known RCRA identification numbers associated with this address:  IAD980632509 and IAD041107871  Known occupant names (current and former): American Hydraulics, Douglas &amp; Lomason Company, Romech dba Automotive Seating of America, MI Development Inc. Magna International.  The main reason for my request is to obtain the following specific information:  This address was identified on environmental databases that indicated that the facility has/is a RCRA generator (and possibly storage also) that took their waste to the Red Oak Landfill which ended up being a CERCLA site (closed status). I am hoping to find the following out from these records:  1) I would like to see the types of wastes that this facility contributed to the Red Oak Landfill (they were listed as a PRP for the Red Oak Landfill's CERCLA listing).  2) It appears that the facility address itself was also identified on CERCLA listings.  Was the additional CERCLA listing for this address related to disposing at Red Oak Landfill or was the site itself at 2700 North Broadway also considered for CERCLA consideration?  3) Was there ever any type of investigation performed at the 2700 North Broadway site?  4) It appears that the facility was listed as a storage unit by the current occupant, American Hydraulics, and prior owners as described above. I am hoping to find out if this was done in error or if the facility at 2700 is a storage facility.  5) I would like to specifically see the RCRA hazardous biennial report from 2009, but am requesting all years if possible.</p>	10/26/2021

2022-R08-00618	Ross, Linda	Utah Division of Drinking Water	<p>The Utah Division of Drinking Water is looking for all of our Primacy delegations, as well as any updates, so that we have them for our records. I am a relatively new records officer for the Division of Drinking Water, and have found a few records of primacy delegations, but have had trouble finding all of them, and would like to have all of these records updated and in one place, so we have a history of our primacy determinations. Our initial primacy enforcement determination was granted in 1980. I would like to have a copy of this determination. "In 1980, the EPA Administrator determined, in accordance with 40 C.F.R. § 142.11, that the Utah public drinking water program met the federal requirements for Primacy. See 45 Fed. Reg. 6647 (January 29, 1980). In accordance with 40 C.F.R. § 142.17, the EPA Administrator has reviewed, and continues to review annually, the Utah public drinking water program to evaluate its continuing compliance with the requirements set forth in 40 C.F.R. Part 142." I have searched your website for 40 C.F. R. Part 142, and have not been able to find it. Any determinations after that regarding each rule that Utah obtained primacy in enforcing would also be helpful to have. Please let me know if there is any other information that you need.</p>	10/28/2021

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

Any files, records, or copies of files or records between March 11, 2021, and October 29, 2021, that may include minutes and/or summaries of meetings, which Environmental Protection Agency Administrator Michael Regan had with senior employees from companies like Arkema, Chemours Company, Corteva, Daikin, DuPont (or DowDuPont), Solvay, 3M, or Wolverine World Wide on Per- and Polyfluoroalkyl Substances or PFAS and the development of a strategy to deal with contamination. These meetings may have been in-person or virtual via meeting software.

Also, any files, records, or copies of files or records between March 11, 2021, and October 29, 2021 that may include the minutes and/or summaries of meetings Environmental Protection Agency Administrator Michael Regan had with representatives of business associations or trade or commerce groups, such as the American Chemistry Council, the North Carolina Manufacturers Association, United States Chamber of Commerce, and the Wisconsin Manufacturers and Commerce.

If any Environmental Protection Agency officials met with senior employees of the aforementioned companies or representatives of any of the aforementioned business groups on EPA Administrator Michael Regan's behalf, please include those records as well.

Given the high amount of public interest, I ask that any and all fees be waived. In the event that there are fees, I would be grateful if you would inform me of any and all charges in advance of fulfilling my request.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Kevin Gosztola

Freedom of Information Act Request

Dear Regional Freedom of Information Officer:

This is a request for information under the Freedom of Information Act, 5 U.S.C. § 552.

I am writing on behalf the Sierra Club to request certain applicability determinations (or comfort letters) relating to pyrolysis/combustion units issued by EPA or otherwise in its possession (e.g., issued by a state but copied to EPA). Additionally, the Sierra Club is requesting a copy of any correspondence—between March 1, 2013, (i.e., the date EPA changed email services from Lotus Notes to Outlook) and the date of this request—with non-EPA parties (including state/local/tribal agencies and private entities/personnel) concerning the applicability of Clean Air Act section 129 to proposed or existing gasification units.

The Sierra Club requests that any fees associated with this request be waived because disclosure of the requested records “is in the public interest because it is likely to contribute significantly to public understanding of the operations and activities of the Government and is not primarily in the commercial interest of the requester.” 5 U.S.C. 552(a)(4)(A)(iii); see also 40 C.F.R. § 2.107(1)(l). The information requested is in the public interest because it will allow the public to gain a better understanding of EPA’s potential future regulation addressing pyrolysis and gasification units under Clean Air Act section 129. See 86 Fed. Reg. 50296 (Sept. 8, 2021).

The Sierra Club is the oldest, largest, and most influential grassroots environmental organization in the United States. The organization advocates for various environmental causes such as clean energy, water resources, air and land quality, and environmental justice. See [www.sierraclub.org](http://www.sierraclub.org). The Sierra Club is a national network of environmental groups that fight for various environmental causes and has volunteers, advocates, and grassroots activists with decades of experience in enforcement and implementation of the Clean Air Act. The Sierra Club provides informational materials to member organizations through email, Facebook, their website, and regularly scheduled meetings. The Sierra Club also collaborates with other partner organizations, non-profits, and campaigns throughout the country on environmental issues to build a diverse and inclusive movement that represents today’s American public. Disclosure of the materials will aid the Sierra Club, its member groups, and its partner organizations to better understand EPA rulemakings and advocate for stronger environmental regulation. The information may also help educate communities, including environmental justice communities, of the location of pyrolysis/combustion units, which may have a direct impact on their health and environment.

The disclosure is not in the commercial interest of the Sierra Club. The Sierra Club is a national environmental nonprofit organization and does not charge for the services that it offers to the public. Its operational costs are funded through donations and grants and all community members are able to receive assistance, advice, and information at no charge. If necessary, I am willing to pay up to a maximum of \$25.00 in fees for this request. If the fee amount will exceed this maximum, please reach out to me before proceeding further.

Thank you very much for your consideration of this request. I have included my contact information in the process of submitting this request; please feel free

2022-R09-00720	Vitale, Theresa	Cotchett, Pitre & McCarthy LLP	<p>This is a request under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and is submitted on behalf of Cotchett, Pitre &amp; McCarthy LLP ("CPM") to the U.S. Environmental Protection Agency ("EPA"). 2022-AO-00798	Rosenberg, Colette	-	To Whom It May Concern:  Pursuant to the Freedom of Information Act, I hereby request the following records:  A full calendar, schedule and briefing book for Administrator Michael Stanley Regan. Please search your records from June 1, 2021 to the current date.  I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications with non-governmental interested parties.  The request concerns the operations or activities of the government. The topic of the request concerns the activities of the government, including creating policy and passing regulations that impact the health and safety of the public. The requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations.  Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of an EPA official during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process.  Disclosure of requested information will likely result in public understanding. The information will help the public better understand the EPA as it develops new environmental rules and regulations. Documented is seeking this information because it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire this type of information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented's work reaches a broad audience by being featured in television, radio, print and online news articles and interviews, including Bloomberg, the Guardian, the Huffington Post among others.  Documented plans to compile the information from this request into a distinct, original work that will be released to the public through the manner described above. Moreover, Documented has the expertise and experience to disseminate the information received and ensure that disclosure of records will contribute to public understanding of operations at EPA.  Disclosure of requested information will contribute significantly to public understanding. Information contained in material disclosed as a result of this request will contribute significantly to public understanding. Disclosure of information requested will provide new information to the public regarding agency operations during a time when a new administration has set ambitious climate goals and policy. This request is being sent during a time when there is immense urgency to address climate change and therefore, it is important that the public have a clear understanding of the EPA's activities and operations.  As public momentum around addressing the climate crisis continues to grow, it is critical that the public have access to information that will allow them to better understand the main government agency tasked with setting environmental regulatory policy. Greater transparency around who EPA	11/04/2021

2022-NFO-00778	Dukovic, Alma	-	<p>I'm trying to track down the Presidential permit for Line 5 (an oil pipeline constructed in 1953 by Lakehead). While the 1953 record is available, Lakehead would have had to request another one in 1991 with the change in ownership of the company ("Lakehead" to "Lakehead Pipe Line Partners," or "Lakehead Pipe Line Company, Limited Partnership"). This Presidential permit would have been requested by the company for border crossings. The application for Line 6B was submitted on October 23, 1991 and signed on December 12th, 1991 (this may provide a more specific time frame, if the company submitted both applications around the same time). The Line 6B permit was handled by this Department of State's Economic Affairs division. I have already submitted a FOIA request to the Department of State and will probably send another to the Department of Transportation; I've decided to send one to the EPA as well, seeing as the matter concerns environmental protection, and it may be possible the EPA holds these records.</p>	11/04/2021

2022-R06-00840	Rogers, Madison	-	RE: FOIA Request about Muscogee Nation meat processing and wastewater treatment facility located in Okmulgee County, Oklahoma	11/08/2021
----------------	-----------------	---	---	------------

Dear Sir or Madam:

Pursuant to U.S.C § 552(a), we request the following records:

1. Concerning an email exchange dated August 27, 2021, from Maria Martinez [Martinez.Maria@epa.gov] to Gerardo Acosta [Acosta.Gerardo@epa.gov], Ms. Martinez refers to the "meeting notes that Gerardo supplied." We request a copy of those notes that "should answer the questions."
2. In that same email stream, EPA NEPA attorney Tina Alvarado was asked direct questions concerning the MCN meat processing plant and the lack of NEPA documentation. We request any emails from Tina Alvarado [Alvarado.Tina@epa.gov] in response to matters pertaining to the MCN meat processing plant.
3. All permits issued to the Muscogee Nation for, including but not limited to, construction and operation of a meat processing plant and/or a wastewater treatment facility in Okmulgee County, Oklahoma located in Section 2-15N-12E.
4. All records related to permit inquiries, discussions, applications, and issued permits by and to, including but not limited to, the Muscogee Nation, the Looped Square Meat Company, and the Muscogee Nation Natural Resources Department from January 2020 to present.

Please note that we are able and willing to pay for all costs related to these requests. Please contact the undersigned at 281-796-6935 if you have any questions or concerns.

Sincerely,  
Madison G. Rogers

To Whom It May Concern: ☐

Pursuant to the Freedom of Information Act, I hereby request the following records: ☐

A full calendar, schedule and briefing book for Joseph Goffman, Principal Deputy Assistant Administrator of EPA's Office of Air and Radiation. ☐

A full calendar, schedule and briefing book for Chief of Staff Dan Utech. ☐

A full calendar, schedule and briefing book for Deputy Administrator Janet McCabe. ☐

A full calendar, schedule and briefing book for Elizabeth Shaw, Deputy Assistant Administrator of EPA's Office of Air and Radiation. ☐

A full calendar, schedule and briefing book for Tomás Elias Carbonell, Deputy Assistant Administrator for Stationary Sources of EPA's Office of Air and Radiation. ☐

Please search your records from August 24, 2021 to the current date. ☐

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications with non-governmental interested parties. ☐

The request concerns the operations or activities of the government. The topic of the request concerns the activities of the government, including creating policy and passing regulations that impact the health and safety of the public. The requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations. ☐

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of EPA officials during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process. ☐

Disclosure of requested information will likely result in public understanding. The information will help the public better understand the EPA as it develops new environmental rules and regulations. Documented is seeking this information because it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire this type of information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented's work reaches a broad audience by being featured in television, radio, print and online news articles and interviews, including Bloomberg, the Guardian, the Huffington Post among others. ☐

Re: Freedom of Information Act Request

Dear Sirs or Madams:

This is a request under the Freedom of Information Act, 5 U.S.C. § 552. The time frame for the request is from November 18, 2011 to the present.

We respectfully request that the U.S. Environmental Protection Agency ("EPA") provide electronic copies of the following documents as promptly as possible:

1. All documents evidencing communications between the EPA and the California Air Resources Board ("CARB") regarding CARB's issuance of a letter dated June 10, 2020 (Reference No. ADORS-20-015) ("First Letter") to EZ Lynk SEZC ("EZ Lynk") and CARB's subsequent withdrawal and rescission of the First Letter via letter dated August 24, 2021 (Reference No. ADORS-21-005) ("Second Letter"). Such documents should include, without limitation:

- a. All documents evidencing the time, date, manner of each communication;
- b. All documents evidencing the participants (and their affiliations) in each such communication; and
- c. All documents evidencing the substance of each such communication.

2. All documents evidencing internal EPA communications, and communications between EPA and any other federal government agency or department, regarding CARB's issuance of the First Letter and its subsequent withdrawal and rescission of the First Letter via the Second Letter. Such documents should include, without limitation:

- a. All documents evidencing the time, date, manner of each communication;
- b. All documents evidencing the participants (and their affiliations) in each such communication; and
- c. All documents evidencing the substance of each such communication.

3. All documents evidencing communications between the EPA and CARB regarding any determination by CARB that vehicle tools (including scan tools capable of delivering see attached

2022-R05-01054	Cmar, Thomas	AltmanNewman Co., LPA	<p>On behalf of Marilyn Wall and Donna Ballinger and pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, our firm requests records regarding Perkins Coie's request to the Environmental Protection Agency's ("EPA") Region 5 to remove the Ohio Air Nuisance Rule ("ANR") from the Ohio Clean Air Act State Implementation Plan ("SIP") and meetings between Perkins Coie and EPA regarding the same. Our firm recently obtained two letters sent by LeAnn M. Johnson Koch to EPA Region 5 regarding her firm's request to remove the ANR from Ohio's SIP. The June 11, 2019 letter is attached to this request as Attachment A and the October 18, 2019 letter is attached as Attachment B.</p> <p>This FOIA request covers records from May 1, 2019 through the date of the search and specifically seeks the following records:</p> <ol style="list-style-type: none"> <li>1. <u>A</u> records of notes taken during meetings and phone calls between Perkins Coie and EPA Region 5 regarding the request for removal of the ANR, including during the October 1, 2019 meeting referenced in Attachment B;</li> <li>2. <u>A</u> records of communications between EPA, Perkins Coie, and/or other parties (including but not limited to persons or entities represented by Perkins Coie on the ANR removal request, other industry parties, or staff from the Ohio Environmental Protection Agency) regarding the request to remove the ANR and the letters attached hereto; and</li> <li>3. <u>A</u> records of internal EPA communications regarding the request to remove the ANR and the letters attached hereto.</li> </ol> <p>In performing a search for records responsive to this request, we request that searches be conducted at a minimum of records from the following custodians: Cathy Stepp, Pamela Blakely, John Mooney, Leverett Nelson, Cheryl Newton, Curt Thiede, and any other EPA Region 5 staff who participated in meetings or communications with Perkins Coie or any other parties concerning the ANR removal request.</p> <p>The term "records" should be construed in the broadest possible interpretation of the term, including, but not limited to draft documents, meeting minutes, email communications (both internal and external communications), letters, faxes, photos, memos, and contracts, as well as any information recorded in an electronic format such as data files, emails, or digital photos.</p> <p>I request that the copies be sent electronically to tcmr@environlaw.com and jnewman@environlaw.com. If some records become available sooner than others, please deliver them on a rolling basis as they become ready rather than waiting for all records to become available. If you believe any of the above requests are ambiguous, overly broad, or insufficiently specific for you to identify the records requested, please promptly email me at the same email or call me at 513-721-2180 ext. 103 so we can attempt to resolve any issues.</p> <p>If any records are withheld or redacted, please make clear the explanation, including the legal authority that is being asserted for each. In particular, if any records are claimed to be withheld or redacted pursuant to an exemption listed in FOIA, please identify the specific exemption being used. Also, please provide those portions of records with information requested that are not specifically exempted from disclosure. If you expect a significant delay in fulfilling this request, please contact me with information about when I might expect copies of the requested records.</p>	11/19/2021

2022-OCSP-01163	Wheeler, John	-	<p>We are requesting all of the information that was submitted in Part II "Section B. Technical Contact Information" of every Form U that was submitted for the USEPA's TSCA 2020 Chemical Data Reporting Rule ("CDR Rule"). In other words, from every Form U that was submitted in connection with the 2020 TSCA Chemical Data Reporting Rule, please supply us with all of the information that was entered in Part II "Section B. Technical Contact Information". This information is preferably supplied to us in Excel format. We are not requesting any other information from the submitted Forms U, nor are we requesting any Confidential Business Information. This information was previously approved by EPA for FOIA release, and was supplied to us for the 2012 CDR via FOIA Tracking Number EPA-HQ-2013-010253. Also, this same information was supplied to us for the 2016 CDR via FOIA Tracking Number EPA-HQ-2017-009811. Therefore, there should be no problem in providing us with the same info for the 2020 CDR which is now being requested. This information should be easily retrievable from EPA's TSCA Form U submissions database. If there is any question as to the information that we are requesting, please do not hesitate to contact us. Thank you.</p>	11/29/2021
2022-OLEM-01164	Wheeler, John	-	<p>This is a Freedom of Information Act (FOIA) request for certain information that was submitted as part of the Biennial RCRA Survey ("BRS") that was due to be submitted to the USEPA by March 1, 2020. Here is what I found out about it:</p> <p>In June 2021, the Environmental Protection Agency (EPA) conducted unannounced sampling at seven stormwater outfalls to Nahant Bay, including from Stacey Brook, Floating Bridge Pond, Sluice Pond, Flax Pond, Strawberry Brook, and the Saugus River. The agency found elevated levels of ammonia, chlorine, and bacteria in the majority of the samples, as well as the presence of personal and household products.</p> <p>Because of the sampling results and the frequent closure of King's Beach last summer, the EPA sent a letter to the Lynn Water &amp; Sewer Commission (LWSC) dated Sep. 27 with additional requirements regarding illicit discharges to the beach.</p> <p>This information is important to the public as Lynn residents need to know about EPA findings.</p> <p>Thank you!</p>	11/30/2021

Dear FOIA Officer,

We are trying to make sense of the ongoing situation with regards to the status of site contamination oversight at the previous Wheeling Pittsburgh Steel facility at 1001 Main Street, Martins Ferry, OH (now owned by 4K Industrial LLC). The site had other names like RG Steel and Severstal Wheeling. (See the permit number provided by Ohio EPA below.)

The Ohio EPA stated on 11/17/21: "Here is what I was able to find out from our Division of Environmental Response and Revitalization (DERR). There is not a referral record for this site. They refer sites if action is needed from USEPA and in this case USEPA was already the lead for corrective action at the former RG Steel. Ohio EPA was handling closure activity but that was assumed into the federal corrective action. As an official record, RCRAinfo indicates the Lead Agency for the site is USEPA."

Here is what we received from Jessica Langdon (cc'ed on this email) with Ohio EPA on 10/25/21: "With regards to the former Wheeling Pittsburgh Steel – Martins Ferry Facility, OHD010448231, Ohio EPA is aware of former groundwater monitoring wells that were put in place as part of Ohio EPA enforcement activities related to RCRA Closure. In May of 2020, Ohio EPA referred this facility to USEPA's Federal RCRA program who is pursuing RCRA Corrective Action enforcement as it relates to conditions at the former Wheeling Pittsburgh Steel – Martins Ferry Facility. All files that Ohio EPA DERR has related to this site can be acquired through reviewing Ohio EPA's online Edocs system as well as through a FOIA request."

Please provide a copy of the May 2020 referral document of the site to US EPA.

Also, please provide copies of water monitoring results documents of the site. We are aware that Wheeling Pitt Steel put in some water monitoring wells. 4K Industrial also put in monitoring wells. Please provide all monitoring results the agencies have on file.

The most recent document on edocs was from 2018. Where are the documents between the second half of 2018 and current day?

What triggered the referral in May 2020? Please provide all documents from the USEPA regarding this referral.

What is the current status of the Ohio EPA's referral to U.S. EPA's RCRA enforcement program? Please provide all correspondence and documents.

Can EPA tell us how to follow the RCRA enforcement proceedings? Is there a Docket Number within EPA's Administrative Enforcement system or within a federal court system? This link appears to be the place the public can follow the enforcement action, however it has not been updated: CIMC RCRA Profile Page | 4K INDUSTRIAL PARK LLC in MARTINS FERRY OH | US EPA

In our research, we've also found that there was an Environmental Covenant of the site, and it is noted that the administrative record of this property, including the amended Closure Plan, is maintained by the Ohio EPA Southeast District office. Here is a copy of the Covenant. Please provide a copy of the amended Closure Plan the USEPA has on file.

Thank you very much. Please email or contact me at 419-450-7042 for additional information or clarification.

Sincerely,  
Lea (Leatra) Harper  
Managing Director

Dear FOIA Officer:

Pursuant to the Freedom of Information Act, I'm requesting records regarding the FOIAOnline Program. For reference in searching for responsive documents, the FOIAOnline Program is managed by the Office of Enterprise Information Programs, an office within the Environmental Protection Agency.

I request copies of the following documents:

1. Any software development road maps or other documents, databases, or reports that the FOIAOnline team creates, manages, or receives that are used to keep track of feature development, bug fixes, and other software updates to the FOIAOnline project, including estimates of completion, prioritization, and other attributes that are logged to track the ongoing development and maintenance of FOIAOnline.

If this information is stored in multiple formats (such as an annual summary as well as an actively maintained database), you may provide only the version that is most comprehensive and omit any documents or databases that include duplicative information. I'm happy to discuss the scope of my request to reduce the burden of it on agency resources.

2. Any "show cause" or "cure" notices that have been sent to contractors on the project.

Regarding any withholdings or redactions you might consider under FOIA Exemption 4, please keep in mind that the identities of the contractors for FOIAOnline are already publicly available: on EPA's website, for example (<https://www.epa.gov/sites/default/files/2014-03/documents/foia-online.pdf>), as well as on USASpending.gov ([https://www.usaspending.gov/keyword\\_search/FOIAOnline](https://www.usaspending.gov/keyword_search/FOIAOnline)). Furthermore, in 2019, Chief Judge Howell held in *Center for Investigative Reporting v. U.S. Customs & Border Protection* that the foreseeable harm standard, which Congress added to the statute in 2016, puts the burden on agencies to explain how records withheld under Exemption 4 would cause "genuine harm to economic or business interests." It would be ironic indeed if information about the system for delivering public records was arbitrarily withheld from the public.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

As a freelance journalist, I expect to be placed in your news media category. As evidence of my publication record, here are links to a few of my stories:

<https://www.nationalgeographic.com/animals/2018/11/zoos-protect-animals-fire-disaster/>

<https://news.nationalgeographic.com/2018/02/wildlife-watch-sea-cucumbers-illegal-wildlife-trade-coral-reefs/>

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, et seq., I request copies of financial statements and other documents in the possession of USEPA concerning how USEPA has used/dispersed funds from the 2010 Tronox Environmental Settlement Agreement and the 2014 Tronox Bankruptcy Settlement (collectively, the "Settlements") at the following sites:

- Ship Rock Mill, New Mexico
- Dubach, Louisiana

Documents of interest include financial statements and quarterly/annual reports discussing the receipt and disbursement of funds from the Settlements and e-mail, correspondence, and reports concerning the use of Settlement funds at the sites. Please note I am only interested in material relating to financial matters and am not interested in material related to site remediation.

For additional information on the sites please see the 2010 Notice of Lodging of Proposed Consent Decree and Environmental Settlement Agreement from the U.S. Bankruptcy Court, Southern District of New York.

Per my investigation of the settlement documents, funds were distributed to USEPA Headquarters Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$200. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Please contact me by email at (b) (6) if you have any questions or need more information in order to process this request.

Thank you very much for your help in this matter.

2022-NFO-01284	Vasquez, Bianney	-	1. The reason for my request is because I'm a contractor looking to expand my business and was looking to make a new building within the city limits of Chicago, IL. I want to make sure the new building I'm making is adaptable to the climate in the region. I want to ensure that I'll be able to implement smart growth strategies that could help my building adapt to the surrounding climate and coordinate with an infrastructure decision. I'm looking for the records of the last 10 years of National Climate Assessments of the state of Illinois but particularly the surrounding of the city of Chicago.	12/02/2021

2022-R09-01330	Gosztola, Kevin	-	<p>To Whom It May Concern:</p> <p>Pursuant to the Freedom of Information Act, I hereby request the following—</p> <p>Any completed or official assessments, findings, investigations, reports, or studies involving the United States Navy's Joint Base Pearl Harbor-Hickam and contamination of the Red Hill well in Oahu as well as threats of pollution to the Halawa Shaft. Such assessments, findings, investigation, or studies may have been completed between the time period of January 1, 2011, and November 1, 2021, and involve petroleum or fuel leaks.</p> <p>The Hawaii Department of Health has cited Joint Base Pearl Harbor-Hickam for violations related to operation and maintenance of the facility multiple times. Upon information and belief, the Environmental Protection Agency may have examined the Health Department's allegations and claims, including Notices of Violation and Order, or NOVOs, involving the Red Hill Fuel Storage Facility (RHBFSF).</p> <p>On December 5, 2021, CNN reported, "Records show a history of fuel leaks plaguing Joint Base Pearl Harbor-Hickam in the past decade, with the most recent leak occurring 11 days before the Navy announced it had discovered contamination in the Red Hill well on Oahu." (The media organization was referring to a leak in late November when they mentioned the "most recent leak.")</p> <p>"The deputy commander of the U.S. Pacific Fleet. Rear Adm. Blake Converse, confirmed a petroleum leak is the cause of the latest breach," according to the CNN report.</p> <p>In October 2021, the Hawaii Department of Health released a copy of a NOVO from the Solid and Hazardous Waste Branch. It listed violations that stemmed from failures and mismanagement at the underground storage tank system located at Red Hill/Pearl Harbor-Hickam on Oahu. This is also referred to as the fuel storage facility.</p> <p>The Hawaii Department of Health previously responded to fuel contamination in January 2014. According to CNN, "During the refueling of a tank, the Navy identified an estimated fuel release of up to 27,000 gallons of JP-8 jet fuel."</p> <p>"U.S. Navy subsequently drained the tank and collected samples from existing monitoring wells. Results taken in and around Tank 5 indicated increases of hydrocarbons in soil vapor and groundwater," the Hawaii Health Department stated.</p> <p>As a professional reporter, I assert that I should be designated as a media requester for the purpose of assessing fees.</p> <p>Given the amount of public interest from news media including ABC News, the Associated Press, CBS News, CNN, Honolulu Civil Beat, Honolulu Star-Advertiser, Stars and Stripes, etc, I additionally ask that any and all fees be waived. In the event that there are fees, I would be grateful if you would inform me of any and all charges in advance of fulfilling my request. I would prefer the request be filled electronically and by email attachment if available.</p> <p>Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as required by the statute.</p> <p>Sincerely,</p> <p>Records including memos, emails, letters, plans, etc. concerning the sunseting of the FOIAonline system in September 2022, and planned replacement of this FOIA tracking and administration capability in the EPA FOIA Office. I believe relevant records are located in the Office of the EPA Chief Information Officer (or equivalent), and in the EPA FOIA Office. I agree to limit this request to records between January 2020 and the present.</p>	12/06/2021

2022-NFO-01309	Newport, Kaitlyn	American University	I request any data and information in regards to the nation's electricity usage during the national shutdown due to the novel coronavirus. I would like statistics regarding the increase or decrease in electricity usage beginning on March 11, 2020, after the World Health Organization (WHO) declared the COVID-19 virus a pandemic, until the date the information is collected and distributed to me. This FOIA is being requested on December 5, 2021. Any information regarding an impact or change in the nation's electricity usage in the time prior to March 11, 2020, and the time after March 11, 2020, would be appreciated.	12/06/2021
2022-NFO-01310	Manley, Elaina	None	I was looking for information regarding General Electric experimenting with countertop and wall material during the mid-1980s resulting. General Electric offered free home renovations to test new construction materials. These renovations occurred just north of the capital region of New York state. The materials used for this were intended to be conductive material and exciting new technology. It appears that this project was abandoned shortly after. There were sites in Sacandaga as well. I am looking to discover if there was an event that took place resulting in autoimmune conditions existing at a higher rate in this area. For community safety, I am looking to rule this out so that medical providers can move past this speculation. It possibly results in decreased patient care due to a belief in some kind of environmental event. This information is intended to put minds at ease and prevent continuing hysteria.	12/06/2021

2022-R10-01423	Carlson, Benjamin	Stratum Group	I am requesting records associated with the Nooksack Market Center site located at 5047 Mt Baker Hwy in Deming, Washington (98244). The site is listed as an "INDIAN LUST" site, indicating that a leaking underground storage tank was identified on the site. (Alt Facility ID 4110001). The site may also be known as Bosman Fuel and/or Deming Self-Serve. The property is located on land owned by the Nooksack indian tribe and is therefore managed by the EPA, not the WA Department of Ecology. I would like to review copies of documents associated with the discovery, investigation, and cleanup of the petroleum release that reportedly occurred on the site between September 8, 1992 and June 26, 2001. Note that the release may have occurred prior to this 1992 date but this is the date that appears in the "INDIAN LUST" database for when the release was confirmed. Documents of interest may include reports documenting tank removal or soil and/or groundwater sampling, regulatory closure documents, or other documents associated with environmental contamination related to this former gas station property.	12/13/2021

2022-OCSPP-01432	Samsel, Anthony	Samsel Environmental and Public Health Services	This is a request for additional documents for the continuation of project that previously received many Monsanto documents for evaluating safety of the herbicide glyphosate. It is now felt that Monsanto may have intentionally defrauded the EPA on the safety of glyphosate and its bioaccumulation. Monsanto claimed that glyphosate only affected plant enzymes and did not bioaccumulate. However, I have found through laboratory analysis and experimentation that these claims by Monsanto-BAYER may not be true and that in fact glyphosate may actually accumulate in humans and disrupt many human enzymes. Thus this request for additional documents which was made to Janet Bressant by email on December 10, 2021.	12/14/2021

2022-R06-01462	Coody, Dalton	freelance journalist	I would like copies of all EPA inspections done on the Mountainburg Truck Stop at 901 Hwy 282, Mountainburg, AR 72946. The request is in regards to new owners wishing to open the fuel pumps back up after being out of service for 8-10 years. I was told by the new owners that a inspection was done 2 years ago, but I'm unable to find them, and citizens that are on well water are concerned that after years or degradation that the current tanks may not be safe enough for fuel storage, as there was a leak detected 15+ years ago and some of the citizens had fuel that was found to have leaked into their aquifers. Thank you for your cooperation, and support.	12/15/2021
2022-R09-01471	Yezerski, Donald	WSP	To Whom It May Concern,  WSP respectfully requests copies of all information, correspondence, and documents submitted to the Environmental Protection Agency by any company or entity with either an active or inactive Geologic Sequestration Data Tool account within Region 9. 2022-NFO-01460	Gardner, Sarah	Langan Engineering	Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the following property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.  The Subject Property is located at 2400 West St. Joseph Street in Lansing, Michigan. The subject property is identified as Ingham County tax parcels 33-21-01-18-479-005, 33-21-01-18-479-004, and 33-21-01-18-479-002. Thank you in advance for your cooperation.	12/15/2021

Pursuant to the Freedom of Information Act, I hereby request the following records:

A full calendar, schedule and briefing book for Administrator Michael Stanley Regan. Please search your records from November 5, 2021 to the current date.

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications with non-governmental interested parties.

The request concerns the operations or activities of the government. The topic of the request concerns the activities of the government, including creating policy and passing regulations that impact the health and safety of the public. The requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations.

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of an EPA official during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process.

Disclosure of requested information will likely result in public understanding. The information will help the public better understand the EPA as it develops new environmental rules and regulations. Documented is seeking this information because it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire this type of information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented's work reaches a broad audience by being featured in television, radio, print and online news articles and interviews, including Bloomberg, the Guardian, the Huffington Post among others.

Documented plans to compile the information from this request into a distinct, original work that will be released to the public through the manner described above. Moreover, Documented has the expertise and experience to disseminate the information received and ensure that disclosure of records will contribute to public understanding of operations at EPA.

Disclosure of requested information will contribute significantly to public understanding. Information contained in material disclosed as a result of this request will contribute significantly to public understanding. Disclosure of information requested will provide new information to the public regarding agency operations during a time when a new administration has set ambitious climate goals and policy. This request is being sent during a time when there is immense urgency to address climate change and therefore, it is important that the public have a clear understanding of the EPA's activities and operations.

As public momentum around addressing the climate crisis continues to grow, it is critical that the public have access to information that will allow them to better understand the main government agency tasked with setting environmental regulatory policy. Greater transparency around who The US Coast Guard National Response Center maintains information on Purple K fire extinguishing powder and other dry chemical fire extinguishing powders that have been released and reported to the NRC. The NRC has advised that when they receive this information they send it to the EPA who makes a report and a decision.

Records requested: I request all EPA reports for all incidents reported through the NRC for chemical release incidents involving the release of Purple K fire extinguishing dry chemical powder (also known as Potassium Bicarbonate) and other dry chemical fire extinguishing powders

I herein request publicly available data evaluation records (DERs) for the data submitted to support the registration of the product Oxalic Acid Dihydrate, EPA Registration No. 91266-1. In particular, please provide the DERs for efficacy data and any studies conducted on honeybees. Thank you.

I wish to validate the claim by the Louisville Naval Museum that the EPA and/or the NJDEP have conducted said investigations and provided such permission. The permission and investigations may have taken place between the period of November 2019 to current day December 2021.</p> <p>The USS Ling was completly flooded prior to March of 2021. I joined the work on as site as a volunteer in March 2021, and at that point in the time the boat has been almost entirely drained of the floodwater. A significant quantity of contaminated water had been pumped out of the vessel and into the Hackensack river per the Louisville Naval Museum's own public admissions prior to March 2021. The estimated quantity of water that was pumped out is 200,000 gallons per video and photographic evidence of the boat in a flooded state that was taken in December 2020 to January 2021.</p>	12/16/2021

In the past, TRG has worked with federal agencies to assist in the review of files referenced in FOIA requests. We request that you make these materials available for our review in a research room at your site and per your agency's current COVID-19 protocols. This approach allows TRG researchers to identify a limited number of responsive documents to be copied, thereby reducing the amount of time required by agency officials to review and process documents for release and avoiding a time consuming item by item examination of the requested files by EPA Region II. 12/20/2021

To the Open Records Officer:

Pursuant to the federal Freedom of Information Act, I write on behalf of the Society of Professional Journalists to request a copy of the following public records from the Department of Health and Human Services:

All policies, rules, handbooks, rules, briefing statements, written guidance or other directives (collectively, "agency materials") related to the agency's employees communicating with the news media

The requested agency materials include, without limitation, any agency document that gives directions or rules on:

employee responses to media inquiries including requests for interviews or information;

employees speaking or corresponding with the media;

employees giving statements, commenting, or releasing facts to the media

However, we are not asking for emails or other correspondence that occur at the time a journalist requests contact with employees.

We request a waiver of all fees for this. Disclosure of the requested information to us is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in our commercial interest. SPJ plans to issue a report on the policies of a range of agencies.

If any of the documents requested exist in electronic format, I request they be provided in electronic form.

If this records request is denied, in whole or in part, please provide me with the section of the Act on which the denial or redaction is based. In cases where a portion of the document(s) is exempt, please redact that portion and release the remainder.

I look forward to your response no later than three working days from today. Please do not hesitate to contact me if you need clarification or can suggest an easier way for me to get the information I am requesting. Thank you for your assistance.

Sincerely,

Lynn Walsh (b) (6) (b) (6)

Pursuant of the federal Freedom of Information Act, Weaver Consultants Group, LLC is requesting any documents that you may have on file concerning hazardous materials and/or spills; environmental permits; and any other environmental conditions, inspections, releases, or violations for the agricultural property located along Sunset Drive in Monee, IL with a Property Pin of 21-14-20-100-024-0000.	12/22/2021
2022-NFO-01572	Bernstein, E.	-	There are a number of published books on human reproductive toxicology and developmental toxicology. Does EPA publish such information with specific effects on human brain and cognitive development? Not all above mentioned books either concentrate on that particular effect or include it at all. To give you an idea of what type of information I am looking for, one such book is Reproductive and Developmental Toxicology edited by Ramesh Gupta but the book goes quite a bit off the topic I am interested in which is why I am asking your agency, however it does cover the range of influences I am seeking. A pdf is attached for comparison.	12/22/2021

2022-R09-01582	Karim, Audra	-	<p>I would like to request an exemption due to unemployed at the moment. I would like this information to be mailed to my physical address location or via email: (b) (6)</p> <p>In late April/early May, my building had contractors removing paint from the exterior of my building by way of electric sanding. The paint landed in my apartment unit, all over my personal property and I was near the location in which sanding was taking place at the time. This lead dust is still present in my unit as of December 22, 2021 and I have put in a complaint several months ago and would like to get any information I am able to get, including the findings, fines, etc. from my initial complaint. The contractors were not EPA certified according to the representative I spoke to at the time, my windows were not covered during the time the sanding took place, and I was not notified beforehand of the work. This work was done on the exterior of my building and I believe others in my building and anyone who may have around the building may have been affected from this lead dust. The building is located at: 510 S. Spring Street, Los Angeles, CA. 90013. The name of the building is: The Lofts at the Security Building. In addition to the lead dust, I was informed by an agency AQMD, that if the widows had putty on them, there may also be an asbestos issue. This concerns me, as my health and the health of others could be at stake.</p>	12/22/2021

2022-R09-01603	Bender, Gary	Bender Environmental Consulting, Inc.	<p>We have already discussed this records request with Ms. Simona Platukyte at the LUST program (Region 9). In addition, Ms. Mimi Newton, the LUST Program Attorney has already reviewed the documents that they plan to release to my firm. Please route the request through these two individuals.</p> <p>The following is a summary of the information I am looking for as part of my assessment on three facilities on the San Carlos Apache Reservation on behalf of the Bureau of Indian Affairs (BIA). Two of the facilities had USTs.</p> <p>The two facilities are the Forestry Facility (formerly known as Natural Resources) at the San Carlos Airport, San Carlos, Arizona, and the Point of Pines camp, Graham County, Arizona. Both of these facilities were formerly BIA, but have been transferred to the Tribal authorities. I think I have sufficient information on the USTs at the Point of Pines, so my focus is on the Natural Resources/San Carlos Airport facility:</p> <p>Forestry Facility/Natural Resources Facility</p> <p>There were two USTs associated with this facility, one was removed/closed in approximately February 1999. The other one (10K) was closed in place "properly", according to the letter from the EPA. Both of these tanks are at what is called the "Tire Shop" just to the northeast of the Natural Resources building.</p> <p>According to the EPA database, there are three USTs under facility No. SANC006 (a 5K gas, a 12K gas, and a 10K gas UST). There are also two additional USTs at the airport, both 6K gas USTs, under facility SANC017. All five of these tanks are listed as closed. I wonder if the two tanks under facility SANC017 are duplicates of two of the tanks under SANC006? Or are there actually five former USTs at the San Carlos Airport?? I have no closure reports for any of these tanks except the 12K tank, no maps showing locations or the map provided is not usable, and an EPA closure letter dated April 6, 1990. It references closure reports dated March 18, 1999.</p> <p>The closure of the 12K tank was discussed in a report by AES dated April 1999, along with the closure of the two USTs at the Point of Pines facility. The map in the AES report is not tied to anything at the airport that is recognizable, and it is unclear where this tank was located.</p> <p>None of these tanks at the San Carlos Airport have associated LUSTs on the USEPA LUST database. However, I need to establish where all these tanks were (were there actually five, or just three?), and I would really like to see the consultant's closure reports and sample data.</p>	12/23/2021

2022-OGC-01657	Wang, Shunhe	-	<p>I am a law student at Yale Law School working on a research paper on the deliberative process privilege ("DPP") under the supervision of Professor Nicholas Parrillo. I am submitting this request under the Freedom of Information Act, 5 U.S.C. § 552 et seq ("FOIA") for records that will inform the public about federal agencies' use of the DPP in response to FOIA requests.</p> <p>I intend to use the responsive records in a paper that will be the first to compare the content of documents withheld under the DPP with agencies' rationales for withholding them. The mechanism making this research possible is the sunset provision on the DPP passed in the FOIA Improvement Act of 2016, 5 U.S.C. § 552(b)(5), which prohibits use of the DPP to shield documents from FOIA requests if they were created 25 years or more before the date on which the records were requested. All the records requested below were the subject of litigation occurring before October 31, 1996, and so were certainly created 25 years or more ago.</p> <p>Documents Requested:</p> <p>Please provide me within 20 business days, via email to the email address listed below, copies of the following records:</p> <p>1. <u>All</u> documents withheld under the DPP by the EPA, and all documents in which it explains its rationales for withholding under the DPP (e.g., the original FOIA request and response, the briefs in the case), in response to all FOIA requests at issue in the following cases:</p> <p>a. <u>U.S.</u> v. Allsteel, Inc., No. 87 C 4638, 1988 WL 139361 (N.D. Ill. Dec. 21, 1988).</p> <p>b. <u>M</u>ontrose Chemical Corp. of California v. Train, 491 F.2d 63 (D.C. 2022-OCSP-01679	Jenkins, Peter	Public Employees for Environmental Responsibility	<p>Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility ("PEER") requests certain information from the Environmental Protection Agency ("EPA"). Specifically, we request:</p> <p>Since January 1, 2012, all documents and communications that responded to any requirement by the Office of Pesticide Programs for any pesticide registrant to submit product performance data, on a case-by-case basis, for any pesticide product registered or proposed for registration, under 40 CFR sec. 158.400(e)(1).</p> <p><del>E</del>clude from this request information provided in response to PEER's related request filed on Dec. 30, 2021, with tracking number EPA-2022-001678, which separately seeks all such data that EPA received in response to the July 22, 2013, letter from Steven Bradbury, Director, Office of Pesticide Programs, to the "Registrants of Nitroguanidine Neonicotinoid Products," with the subject line "Registered Products Containing Imidacloprid, Dinotefuran, Clothianidin or Thiamethoxam" (the "2013 Bradbury letter", available at this link <a href="http://www.centerforfoodsafety.org/files/epa-7-22-13-registrant-letter_87086.pdf">http://www.centerforfoodsafety.org/files/epa-7-22-13-registrant-letter_87086.pdf</a>).</p> <p><del>A</del>lso exclude from this request any data produced for any cases, per 40 CFR sec. 158.400(e)(1), in which a "pesticide product bears a claim to control pest microorganisms that pose a threat to human health and whose presence cannot readily be observed by the user including, but not limited to, microorganisms infectious to man in any area of the inanimate environment, or a claim to control vertebrates (such as rodents, birds, bats, canids, and skunks) that may directly or indirectly transmit diseases to humans".</p> <p>Note: 40 CFR sec. 158.400(e)(1), provides (the data in the last sentence is the subject of this request): The Agency has waived the requirement to submit product performance data unless the pesticide product bears a claim to control pest microorganisms that pose a threat to human health and whose presence cannot readily be observed by the user including, but not limited to, microorganisms infectious to man in any area of the inanimate environment, or a claim to control vertebrates (such as rodents, birds, bats, canids, and skunks) that may directly or indirectly transmit diseases to humans. However each registrant must ensure through testing that his product is efficacious when used in accordance with label directions and commonly accepted pest control practices. The Agency reserves the right to require, on a case-by-case basis, submission of product performance data for any pesticide product registered or proposed for registration.</p> <p>This request includes all final documents that have ever been within the agency's custody or control, whether they exist in agency "working," investigative, retired, electronic mail, or other files currently or at any other time. All electronic records should be delivered in their original file format with metadata and any attachments included. Physical records should be scanned or otherwise converted into electronic format.</p> <p>For electronic records, please provide all records in their native file formats (i.e. not converted to PDF) with all metadata included, and for records such as emails which have files embedded or attached, please provide all attachments in their native formats. For instant messages, plain text is acceptable consistent with guidance issued by the National Archives and Records Administration.</p> <p>For any documents or portions of documents that you block release due to specific exemption(s) from the requirements of the Freedom of Information Act, please provide an index itemizing and describing the documents or portions of documents withheld. The index should, pursuant to the holding of Vaughn v. Rosen (484 F.2d 820 [D.C. 2022-R03-01683	Petroni, Michael	Hancock Estabrook LLP	<p>I am looking for any documentation that EPA and EPA Region 3 might have regarding correspondence between EPA Region 3 and Cooper Industries of Syracuse NY, also known as Crouse-Hinds Company, and now Eaton (collectively CCH) in the matter of the Butler Tunnel Site in Luzerne County Pennsylvania. In 1994 Gary Morton of EPA Region 3 contacted CCH regarding one of CCH's waste removal contractors, Northeast Oil Services Co. who may have deposited waste at the Butler Tunnel Site. Region 3 requested records of products containing polychlorinated biphenyl at Crouse Hinds of Syracuse and conducted an interview with former employee, Raymond Black. We are seeking any documentation of this interview, and any records headquarters or Region 3 might have in regard to Northeast Oil Services Co. and the Butler Mine Tunnel Site as well as any correspondence or shared documents with CCH in the matter. 2022-R05-01676	Wahl, Jessica	Environment Georgia	<p>Hello,</p> <p>I hope this finds you well. I would like information pertaining to the company Brightmark's (also known as RES Polyflow in Indiana) plastics-to-fuel plant located at 3240 W 800 S, ASHLEY, IN 46705.</p> <p>A news article (<a href="https://www.13wmaz.com/article/news/local/ceo-of-new-macon-recycling-company-brightmark-says-plant-will-have-minimal-emissions-2/93-13236708-2dba-4b99-a56a-45ae7d60a505">https://www.13wmaz.com/article/news/local/ceo-of-new-macon-recycling-company-brightmark-says-plant-will-have-minimal-emissions-2/93-13236708-2dba-4b99-a56a-45ae7d60a505</a>) reported that the company violated EPA wastewater regulations in 2021. Any information and documents you could share about this would be much appreciated.</p> <p>Also, I would like to request a copy of any permits issued to the facility (I believe it was permitted as a municipal waste combustor) that fall under the EPA's purview. I would also like records of the plant's air and water emissions, from its construction/beginning of operation until the present.</p> <p>I am not sure whether the plant first began operating in 2020 or 2019, but I believe it was in 2020.</p> <p>Thank you very much for your assistance. If you require any additional information to complete this request, or if I should direct my questions to another office, please let me know.</p> <p>Many thanks, Jessica</p>	12/30/2021

2022-OAR-01741	Gagner, William	Thomson Reuters Court Express	<p>Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and the implementing regulations of the United States Environmental Protection Agency ("EPA"), I request the following:</p> <ol style="list-style-type: none"> <li>1. A copy of the scores assigned by the United States Department of Energy on all petitions for an extension of the Small Refinery Exemption from 2015 to the present day. I understand that the requested records may contain Confidential Business Information ("CBI") information. We are not seeking CBI material or the identity of the small refineries. We seek only the final scores (i.e. a 0%, 50%, or 100% recommendation) the Department of Energy ("DOE") provided. If you contend that the requested records cannot be disclosed, please provide the basis for such a claim as soon as possible.</li> <li>2. Communication between the EPA and the DOE regarding the concept of compliance cost and/or Renewable Information Number ("RIN") pass-through. We seek communications related to EPA's current proposed Notice of Opportunity To Comment on Proposed Denial of Petitions for Small Refinery Exemptions, Docket ID No. EPA-HQ-OAR-2021-0566. Additionally, we seek communications From January 1, 2015 to the present on this issue, including communications between John Powell at the Department of Energy and the EPA.</li> <li>3. Communication between the Office of Air and Radiation and Paul Argyropoulos or Jim Massey from May 2018 to present regarding the Renewable Fuel Standard.</li> </ol> <p>Please note that this request is time critical, and therefore I request that EPA respond as promptly as possible within the time limits set out in the FOIA. I confirm in advance my willingness to pay for all reasonable costs associated with this request. However, should these costs exceed \$3,000, I ask that you contact me prior to proceeding.</p>	01/04/2022

2022-R05-01764	Berler, Daniel	EBI Consulting, Inc.	<p>While conducting research on the extent of Broadway Street (also referred to as Avenue) Corridor Groundwater Contamination (U.S. EPA ID No. INN000510915) relative to project sites in the city of Anderson where dewatering may be needed and permission requested, I encountered and reviewed a February 29, 2016 letter report/ Expanded Site Inspection Report dated February 27, 2016 addressed to and authored by Ms. Nuria Muniz and Mr. Mark Jaworski (IDEM Senior Environmental Manager, Site Investigation Program, Federal Programs Section), respectively. Two Report figures (Figures 2 and 4) that may be quite helpful with my understanding of where Broadway Street Corridor Groundwater Contamination has been sampled and detected were excluded as being "confidential."</p> <p>I am requesting Figures 2 and 4 from the referenced Report for review as a part of my research in order better assess potential impacts of dewatering operations at locations in the city of Anderson, Indiana.</p>	01/05/2022

Currently this Report (<a href="https://www.epa.gov/superfund/superfund-data-and-reports">https://www.epa.gov/superfund/superfund-data-and-reports</a> - latest available Date 12/30/21, Document ID 401064, that file is also attached to this request) contains the following fields: Region, Site Name, EPA ID, NPL Status, Non NPL Status, Party Name, PRP Address, PRP City, PRP State, PRP Zip, Activity Date Type, Actual Complete Date, Action Type Seq, Action Abbrev. Since this file only contains the Potential Responsible Party Address details (columns G-I), and in some cases the PRP may be off-site and/or an unrelated party to the actual Site Address where the potential contamination may exist and/or has migrated to, I am interested in obtaining this same report with the additional Site Address details (the specific physical location of the site where the suspected/confirmed contamination is likely present). Can I please request the Noticed Parties at Sites in SEMS (FOIA 11) Report to include all currently available column/field details plus the additional Physical Site Address, Site City, Site State, Site Zip fields for all records in Excel format? Please let me know if you should need any other information from me. Also, if you could please let me know in advance any associated fees that may apply to fulfill this request. Thank you in advance for your time and assistance today!</p> <p>Sincerely, Jennifer Horan jhoran@erisinfo.com (b) (6)</p>	01/06/2022

2022-OMS-01873	Sherman, Shannon	-	<p>I work as a Scientific Review Officer for GDIT. The professional name I use at GDIT is Shannon Williamson (maiden name). In order to facilitate the scientific peer review process for the EPA, I was required to undergo a background check. After answering the questions for the background check electronically (approximately April, 2021), I was contacted by an investigator that was assigned to my case asking for a Zoom interview to further discuss one of my answers regarding an employment termination within the last 7 years. I participated in 2 Zoom meetings with the investigator to discuss this matter. I am submitting this FOIA request to learn the outcome of the investigation.</p> <p>I am requesting any and all documents related to my background investigation from the date of the first Zoom meeting I participated in with the investigator (approximately July/August timeframe, but could have been earlier) through the final decision made by the EPA regarding my clearance to work or not work on EPA-related projects. Please let me know if you need me to clarify anything related to this request.</p> <p>Sincerely,</p> <p>Shannon Sherman, PhD.</p>	01/11/2022

2022-OGC-01871	Schillaci, Thomas	-	<p>Regarding Unpaid FTCA Claims resulting from the Gold King Mine Spill of August 5, 2015:</p> <p>** I understand that if a claimant is also involved in litigation against EPA, the FTCA claim may be null and void. Still, I believe there are 77 unpaid claims still outstanding.</p> <p>I am requesting access to the file containing who filed claims for lost revenue when the Animas and San Juan Rivers river was closed in August of 2015, and the amounts they claimed through the Federal Tort Claims Act? I recognize that names of businesses and individuals may be redacted, however, the city/town in which they operate, as well as the industry they are involved in, along with the dollar amount of the claims they are seeking should all be visible to me.</p> <p>August 2015, then Administrator McCarthy told business owners to file claim forms for lost business revenue, pointing them to a form associated with the Federal Tort Claims Act.</p> <p>January 2017, Obama Administrations EPA attorneys interpreted the FTCA to mean they were responders, acting in a discretionary role, and therefore were not allowed to pay the claims. (To be clear, if a private sector firm caused that mine release in the same way the EPA caused that mine release, those claims would have to be paid.)</p> <p>August 2017, Administrator Pruitt sends a letter to claimants, explaining that he would like these claims to be reviewed. To my knowledge, claims remain unpaid, as of January of 2022.</p> <p>At this time, I am only seeking access to the list of unpaid claims, and the amounts still outstanding.</p>	01/11/2022

2022-OCSP-01881	Horan, Jennifer	ERIS	<p>Good Morning!</p> <p>I would like to request the most comprehensive nationwide version of the Polychlorinated Biphenyls (PCB) Transformer Registration Database (to include current and historical sites, as far as PCB transformer registrations date back) for all ten EPA Regions in Excel format. My review of a prior submitted/released FOIA - Request Number EPA-HQ-2016-000844 - the excel file released for this FOIA request would be the ideal format for this request. Review of that 2016 Released Excel file revealed the following fields were included for the 3643 records at that time: RECORD ID, DOCUMENT NUMBER, COMPANY, STREET, CITY, STATE, ZIP, CONT_NAME, CONT_PHONE, ASSIGNED TRANS LOCATION ID, TRANSFORMER BOX NUMBER, SITE, TRANS_STR, TRANS_CITY, TRANS_STATE, COMPLETE_TRANS_ZIP, TRANS_ZIP_FIRST_5, NO_TRANSFORMERS, WT_LB, WT_KG, FLAMMABLE, NAME_OFF, TITLE_OFF, DATE_SIGNED, REGION. Can I please request the same format and same fields for the PCB Transformer Registration Database to include current and historical sites/records for all EPA Regions? If you could please let me know in advance if the associated fees will exceed \$25.00, as well as let me know the years/time span of registered sites that will be publicly available for this request. Thank you very much for your time and assistance!</p> <p>Have a great day!</p> <p>Jennifer Horan</p>	01/12/2022
2022-NFO-01878	Feick, Amelia	Roux Associates	<p>We are conducting a Phase I Environmental Site Assessment at a property in the City of Los Angeles. We are interested in obtaining documents related to the following addresses: 6503, 6505, 6509 South Broadway, Los Angeles, CA 90003 and 300 West 65th, Los Angeles, CA 90003. For the purpose of this request, environmental records would include underground storage tanks, aboveground storage tanks, "tiered" and/or other environmental permits, enforcement orders, and reports and correspondence related to previous site investigations/assessments, subsurface sampling, monitoring, cleanup/remediation, removal actions, closures, or any records related to conditions in air, soil, surface water, groundwater, or other environmental media.</p>	01/12/2022
2022-R05-01899	Lee, Gretel	Flaherty & Hood, P.A.	<p>02/17/2022 Clarification from Requester</p> <p>* In response to your question, we are specifically looking for any peer reviewed studies evaluating nitrate toxicity on aquatic life (conducted by EPA, funded by EPA or in EPA's possession) after 2010. We are aware that Region 5 conducted the attached study in November of 2010 (EPA 905-R-10-002). It is our understanding, that EPA Region 5 or perhaps another region may have conducted or have possession of additional studies since November 2010 that evaluate the effect of nitrate toxicity on aquatic life.</p> <p>* The genesis of this request is the Minnesota Pollution Control Agency's (MPCA) pending rulemaking effort to develop nitrate water quality standards for the purposes of protecting aquatic life. MPCA initiated this effort in 2010 and put it on hold pending the conclusion of "additional studies from EPA Region 5" (or other Region) evaluating the nitrate toxicity on aquatic life. It is our understanding that the "additional studies" have been completed by EPA Region 5 (or other Region).</p>	01/12/2022

The area is nationally recognized for its important breeding and feeding areas as well as home for many endangered or threatened species. Furthermore, it is known to host uniquely productive marine ecosystems that attract marine broad biota from zooplankton to krill, fish, marine mammals, and other aquatic and semi-aquatic species. In addition to biological sensitivity, the steep cliffs, rugged terrain, and portions of inaccessibility render bait delivery, mitigation, and minimizing bait drift particularly complex. <input type="checkbox"/></p> <p>In an effort to understand the risks of the product selected for the Farallon Islands Project, the factual basis for the EPA's decision to proceed with registration of rodenticide products for this purpose, and to ensure our ability to assess mitigation and monitoring measures currently in development, we respectfully request the following documents: <input type="checkbox"/></p> <p>From January 1, 2007, to the date of processing this request, all records that discuss or describe vertebrate control products proposed and/or approved for use on islands for conservation purposes, including but not limited to Brodifacoum, Diphacinone, Strychnine, and Zinc Phosphide; <input type="checkbox"/></p> <p>From January 1, 2007, to the date of processing this request, all internal records received or generated by EPA staff member(s) that discuss or describe Brodifacoum-25D Conservation, Brodifacoum-25W Conservation, and/ or any other vertebrate control product created or obtained in connection with the South Farallon Islands Invasive House Mouse Eradication Project including but not limited to all unpublished reports referenced therein; <input type="checkbox"/></p> <p>From January 1, 2007, to the date of processing this request, all internal records received or generated by EPA staff member(s), official(s), partners, or consultant(s) and/or scientists outside the EPA that discuss or describe the use of rodenticide products at the Farallon Islands including but not limited to the following concerns: <input type="checkbox"/></p> <p>Wind speed <input type="checkbox"/></p> <p>Weather conditions <input type="checkbox"/></p> <p>Amount, duration, and/or method of bait distribution <input type="checkbox"/></p> <p>Amount, duration, method, and/or location of bait storage <input type="checkbox"/></p> <p>Impacts on non-target species <input type="checkbox"/></p> <p>Impacts on human health <input type="checkbox"/></p> <p>Use within caves, tidal areas, bays, and/or other water bodies <input type="checkbox"/></p> <p>From May 1, 2007, to the date of processing this request, all email and text message communications including complete email chains, email attachments, calendar invitations, and all electronic files hyperlinked within such correspondence, between or among EPA staff member(s), official(s), partners, or consultant(s) and any FWS official(s), including but not limited to Gerry McChesney, and/or any director, employee, officer, volunteer, and/or representative of the following organizations that relate, reflect, or refer to any and all of the subjects of concern listed above: <input type="checkbox"/></p>	01/18/2022

To Whom It May Concern: ☐

Pursuant to the Freedom of Information Act, I hereby request the following records: ☐

A full calendar, schedule and briefing book for Joseph Goffman, Principal Deputy Assistant Administrator of EPA's Office of Air and Radiation. ☐

A full calendar, schedule and briefing book for Chief of Staff Dan Utech. ☐

A full calendar, schedule and briefing book for Deputy Administrator Janet McCabe. ☐

A full calendar, schedule and briefing book for Elizabeth Shaw, Deputy Assistant Administrator of EPA's Office of Air and Radiation. ☐

A full calendar, schedule and briefing book for Tomás Elias Carbonell, Deputy Assistant Administrator for Stationary Sources of EPA's Office of Air and Radiation. ☐

A full calendar, schedule and briefing book for Administrator Michael Stanley Regan. ☐

Please search your records from December 17th to the current date. ☐

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications with non-governmental interested parties. ☐

The request concerns the operations or activities of the government. The topic of the request concerns the activities of the government, including creating policy and passing regulations that impact the health and safety of the public. The requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations. ☐

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of EPA officials during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process. ☐

Disclosure of requested information will likely result in public understanding. The information will help the public better understand the EPA as it develops new environmental rules and regulations. Documented is seeking this information because it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire this type of information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented's work reaches a broad audience by being featured in television, radio, print and online news articles and interviews, including Bloomberg, the Guardian, the Huffington Post among others. ☐

2022-R09-02036	Donaldson, Uriah	-	I am requesting digital copies of all (1) Consent Agreement and Final Orders (CAFOs), (2) Expedited Settlement Agreements (ESA), and (3) Expedited Penalty Action and Consent Agreements from EPA Region 9 which cite any/all of the following regulations: (1) Clean Air Act Section 112(r), (2) EPCRA Section 304-312, (1) CERCLA Section 103.  The scope of this request includes all of the above mentioned documents for inspection years: 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021.  The reasons for this request are as follows: (1) The above mentioned dockets are not available on the EPA Administrative Enforcement Dockets database ( <a href="https://yosemite.epa.gov/oa/rhc/epaadmin.nsf">https://yosemite.epa.gov/oa/rhc/epaadmin.nsf</a> ). All other EPA regions have made dockets available for these inspection years, but records from the abovementioned years are practically non-existent for Region 9. (2) EPA Region 9 uploaded over 600 dockets from the years 2007-2013. When making an inquiry to the email address "R9HearingClerk@epa.gov", the responder did not answer the question as to why Region 9 stopped uploading dockets when all other regions have continued, but rather said; "In general, Federal documents are available via the Freedom of Information Act (FOIA), including administrative enforcement documents. If there are specific administrative enforcement actions in which you are interested in obtaining documents, the best course of action would be to submit a FOIA request. Included below is the address of the U.S. EPA web site that contains a full description of the FOIA process and provides for the submission of FOIA requests. Thank you. <a href="https://www.epa.gov/foia/foia-request-process">https://www.epa.gov/foia/foia-request-process</a> ." 3) The information in this request is to be used as part of a White Paper studying the EPA's historical enforcement at ammonia refrigeration facilities around the country that will be presented at the Refrigerating Engineers and Technicians Association (RETA) and the International Institute of Ammonia Refrigeration (IIR) national conferences in order to better educate the ammonia refrigeration industry of its liability of non-compliance.  NOTE: Regarding Factor 5, the commercial interest is limited. I am a recurring volunteer conference speaker at the request of the abovenamed organizations. The goal of this research project (which has been discussed with staff at the IIR) is to educate our industry.	01/21/2022

Should you have any questions please feel free to contact me to discuss this further.</p> <p>A few months ago, a colleague assembled a bibliography of documents available online in EPA's Harbor Island East Waterway OU portal. I just tried to download three of these documents, and they seem to have disappeared from the portal, along with a number of other documents.</p> <p>The three documents of interest to me right now are: (1) 11/01/2010 Final East Waterway Operable Unit SRI/FS Data Report: Subsurface Sediment Sampling for Chemical Analyses. (1879 pp, 169.42 MB) (Windward Environmental, LLC); (2) 09/01/2010 Data Report: Final Surface Sediment Sampling for Chemical Analyses and Toxicity Testing for the Supplemental Remedial Investigation/Feasibility Study of the East Waterway Operable Unit. (2307 pp, 205.88 MB) (Windward Environmental, LLC) ; and (3) 12/01/2009 Final Initial Source Evaluation and Data Gaps Memorandum for the East Waterway SRI/FS. (891 pp, 31.21 MB) (Windward Environmental, LLC and Anchor QEA, LLC).</p> <p>Can you help me find copies of these? 2022-OMS-02176	Nayar, Neel	Solon High school	<p>Dear FOIA Officer,</p> <p>My name is Neel Nayar and I am a student at Solon High School. I am working on a school project related to government IT contracting and since this is a FOIA request, I thought it would be easiest to just request records related to your FOIA Office's IT contract information!</p> <p>I've reviewed your FOIA page, your annual report and the Chief FOIA Officer Report on the DOJ OIP website and additional information on FOIA.gov. At this point, I just need a few records to round out my research and finish my project this semester.</p> <p>Therefore, I would like to request the following records:</p> <ol style="list-style-type: none"> <li>1. <del>Our</del> agency's previous (FY21) and current (FY22) contract for you FOIA case processing software with cost information included. I'm interested in what your agency expends on this line of business and am analyzing it vs. other agencies to get a sense of what the federal government expends on FOIA software solutions.</li> <li>2. <del>Any</del> additional contracts and costs directly related to FOIA processing (for example, Adobe, Video/Audio redaction software, contract support). I understand that costs can more than just your FOIA case processing software and want to paint a complete picture with my research.</li> <li>3. <del>Our</del> agency's Annual Budget for your FOIA team- looking for a total cost of operation. I have the FTE's and costs from your annual report; however, I'm looking for the actual budget item to add to the analysis.</li> <li>4. <del>Training</del> materials on FOIA case processing. This could be PowerPoints, Handbooks, Job Aides, Videos, Guidebooks, etc. I'm interested in comparing how agencies train their FOIA Officers to work with FOIA software.</li> </ol> <p>Fee Waiver Requested: In accordance with Sack v. DOD, as a student using the requested records in furtherance of my course of study, I qualify for a full fee waiver and request that you waive all fees related to this request. I will also be happy to share my report with you when I'm finished if you think it would be helpful.</p> <p>I'm looking forward to working with you so please provide rolling releases as the records become available and contact me with any questions.</p> <p>Thank you,</p>	01/27/2022

2022-R04-02225	Berner, David	Marino Engineering Associates	<p>This is a re-submittal of a previous request which was put on hold for the Pandemic...</p> <p>Pursuant to the federal Freedom Of Information Act ("FOIA"), 5 U.S.C. 552, I am requesting all 7520 forms from Backfill Wells (injection of Coal Slurry Waste) in Kentucky for the past 25 years including the associated maps and other data submitted with the forms. This information is part of the EPA's monitoring of Underground Injection, Class V wells under the Safe Drinking Water Act. EPA's primary method for collecting summary data on state UIC and class V programs is its series of activity reporting forms known as the 7520 forms. These forms are collected twice a year from state programs and EPA-managed programs. The states are to provide the forms to their respective EPA regional offices, and the regional offices are supposed to submit the forms to EPA headquarters for review. Five forms comprise the core of the 7520 series; each form collects information on injection wells under the UIC monitoring program, reported by type of UIC well, including class V wells. Data collected should include summary information on the number of permits issued, maps of locations to be affected by underground injections with corresponding mine being injected, volumes of material injected through the well, Owning company for the mine being injected into, type of UIC (Mine Backfill), County location, Field Name, Well status, and well locations. Electronic formatted information which can be downloaded is preferred to hard copy, but should not be limited to electronic format if the data only exists in non-digital format. To date I have received the electronically available documents from September 2020 and prior. I am specifically looking for access or electronic scans of the physical copies not available currently via electronic means.</p>	01/31/2022

2022-R06-02282	Vidaurre, Aimee	Norton Rose Fulbright	<p>We write to make a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq concerning the Stop Sale, Use, or Removal Order (SSURO or "the Order") issued by the U.S. Environmental Protection Agency, Region 6, (EPA or "the Agency") to Verataur, LLC. ("Verataur") concerning BioErase Antimicrobial Surface Wipes ("the Product") attached.</p> <p>We represent H-E-B LP ("HEB") in connection with this request. Through prior discussions with the EPA, HEB was informed it should remove the Product from its shelves. HEB promptly complied with the EPA's request, removed the product from its shelves and ceased any advertising or distribution of the Product. However, HEB is presently involved in a dispute against Maverick International ("Maverick") who alleges HEB is contractually obligated to purchase approximately five million additional units of the Bioerase Product that is subject to the SSURO Order. HEB denies the claim. HEB first became aware of the Verataur SSURO order in January 2022.</p> <p>Pursuant to this FOIA request, H-E-B asks that your office please provide a copy of the file related to the Verataur SSURO and related administrative proceedings. H-E-B also asks that your office please provide a copy of documents reflecting any effort to register the Product as a pesticide with the EPA.</p> <p>Additionally, we understand the Order required Verataur to "immediately cease the sale, use or removal of the Product, under its ownership, control or custody, wherever such products are located" and would appreciate if you can confirm our reading of that order to mean that Maverick cannot sell Bioerase units to any purchaser nor can any past purchaser sell or distribute Bioerase. We appreciate your guidance on the legality of efforts of Maverick – as an alleged sub-distributor of Verataur - to enforce an alleged contract to purchase Bioerase units.</p> <p>We appreciate your help and guidance on this matter. Please let us know if there are any costs associated with this request and we will promptly remit payment.</p>	02/02/2022

EPA-2022-002373	Nayar, Neel	Solon High school	<p>Dear FOIA Officer,</p> <p>My name is Neel Nayar and I am a student at Solon High School. I am working on a school project related to government IT contracting and since this is a FOIA request, I thought it would be easiest to just request records related to your FOIA Office's IT contract information!</p> <p>I've reviewed your FOIA page, your annual report and the Chief FOIA Officer Report on the DOJ OIP website and additional information on FOIA.gov. At this point, I just need a few records to round out my research and finish my project this semester.</p> <p>Therefore, I would like to request the following records:</p> <ol style="list-style-type: none"> <li>1. <input checked="" type="checkbox"/> Our agency's previous (FY21) and current (FY22) contract for you FOIA case processing software with cost information included. I'm interested in what your agency expends on this line of business and am analyzing it vs. other agencies to get a sense of what the federal government expends on FOIA software solutions.</li> <li>2. <input checked="" type="checkbox"/> Any additional contracts and costs directly related to FOIA processing (for example, Adobe, Video/Audio redaction software, contract support). I understand that costs can more than just your FOIA case processing software and want to paint a complete picture with my research.</li> <li>3. <input checked="" type="checkbox"/> Our agency's Annual Budget for your FOIA team- looking for a total cost of operation. I have the FTE's and costs from your annual report; however, I'm looking for the actual budget item to add to the analysis.</li> <li>4. <input checked="" type="checkbox"/> Training materials on FOIA case processing. This could be PowerPoints, Handbooks, Job Aides, Videos, Guidebooks, etc. I'm interested in comparing how agencies train their FOIA Officers to work with FOIA software.</li> </ol> <p>Fee Waiver Requested: In accordance with Sack v. DOD, as a student using the requested records in furtherance of my course of study, I qualify for a full fee waiver and request that you waive all fees related to this request. I will also be happy to share my report with you when I'm finished if you think it would be helpful.</p> <p>I'm looking forward to working with you so please provide rolling releases as the records become available and contact me with any questions.</p> <p>Thank you,</p>	02/07/2022

Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, The New York Times ("The Times") seeks access to and copies of the following records from the Environmental Protection Agency ("EPA"):

•Any and all correspondence between Thomas Maslany, who at the time was air director for EPA Region 3, and Dale Farley, who at the time was director of West Virginia's Air Pollution Control Commission, sent or received between Jan. 1 and July 31, 1989.

Fee Waiver Request: A waiver of search and review fees is appropriate here because disclosure of the requested information is in the public interest and because the request is not primarily in The Times's commercial interest. See 5 U.S.C. § 552(a)(4)(A)(iii); 40 C.F.R. § 2.107(1).

The disclosure of information is in the public interest because it is likely to contribute significantly to the public's understanding of the operations or activities of the government. In addition, EPA regulations presume that The Times, as a representative of the news media, has the expertise, ability, and intention to effectively convey the information at issue to the public.

Additionally, the disclosure is not primarily in The Times's commercial interest. The Times has--both historically and here--more than demonstrated its commitment to serving the public by shedding light on the operations and activities of the government through detailed, fair and expert reporting.

Request for Explanation of Withholdings and Redactions: If this request is denied in whole or in part, please provide a reasonable description of any withheld materials and a justification for all such withholdings that includes reference to the specific FOIA exemptions authorizing withholding and specific reasons why such exemptions apply. 40 C.F.R. § 2.104(i). An agency shall withhold information only if "the agency reasonably foresees that disclosure would harm an interest protected by an exemption" or "disclosure is prohibited by law." 5 U.S.C. § 552(a)(8)(A)(i). We therefore request that if the DOI determines that an exemption applies, it provides specific reasons why disclosure would harm any interest protected by such exemption.

An agency shall also "consider whether partial disclosure of information is possible whenever the agency determines that a full disclosure of a requested record is not possible" and "take reasonable steps necessary to segregate and release nonexempt information." Id. § 552(a)(8)(A)(ii). We therefore request that the EPA release all segregable portions of otherwise exempt material.

\*\*\*

Pursuant to the applicable FOIA provision and departmental regulations, we expect a response regarding this request within the ten (10) working-day time limit set by law. 5 U.S.C. § 552(a)(6)(E)(ii)(I).

Thank you for your prompt attention to this request. If you have any questions or concerns about what we are seeking, please do not hesitate to contact me at christopher.flavelle@nytimes.com or (b) (6)

Sincerely,  
Christopher Flavelle

I am seeking information on the following property:  
Fillmore and Cascade PCE Plume  
Taylor and Tejon  
Colorado Springs, CO 80907  
Site ID: 0801801  
EPA ID: CON000801801  
I know it was delisted from the SEMS list. I was wondering if there are any investigation-related documents associated with this Site.  
  
Thank you!

2022-R04-02486	DeStefano, Gabrielle	-	<p>Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, Government Accountability Project (GAP) requests any and all records, including drafts and electronic records as defined by the FOIA. This request covers the period from May 2010 to present. Specific records requested include the following:</p> <p>1. Records regarding the approval process for disposal of oil and dispersant laden waste following the 2010 BP-Deepwater Horizon oil spill (DHOS). 2. Any and all documentation authored or maintained by the US Environmental Protection Agency (EPA), the US Coast Guard (USCG) and/or other relevant federal or state environmental agency and/or other state agency related to disposal of oil waste during the DHOS cleanup, including any efforts related to the cleanup taking place since official cleanup operations concluded in April of 2014. Specifically, we request records pertaining to the nine landfills in the four states listed below in section 10, in which waste from the Deepwater Horizon (DWH) oil spill cleanup was disposed.</p> <p>Specific documents include, but are not limited to, the following: a. Official and unofficial e-mail correspondence between the EPA, BP and any federal, state, or private agency including but not limited to the Center for Toxicology and Environmental Health (CTEH) involved in the testing and disposal of DWH waste in municipal landfills across the Gulf Coast. b. Official and unofficial communication between the EPA, BP and any federal, state, or private agency including but not limited to CTEH involved in the testing and disposal of DWH waste in municipal landfills across the Gulf Coast including, but not limited to, memoranda, referral documents, notes, determinations or recommendation documents. 3. All contracts, memoranda of understanding and/or any written agreements between the federal government (including, but not limited to the EPA, DHS, USCG) and the following</p> <p>2</p> <p>private companies since April 2010: Heritage Environmental Services in Louisiana; Waste Management Inc. in Mississippi, Florida, Louisiana and Alabama; and Republic Services in Florida. We also request information related to whether any of the oiled sand was remediated, cleaned and returned to the beaches as officials had planned. 4. Records pertaining BP's Waste Plan, approved June 13, 2010, and titled "Recovered Oil/Waste Management Plan Houma Incident Command." The federally approved plan allowed BP contractors to bag solid oily waste and transfer it to area landfills by waste management corporations including, but not limited to, Heritage Environmental Services in Louisiana, Waste Management Inc. in Mississippi, Florida, Louisiana and Alabama, and Republic Services in Florida. 5. Records pertaining to federal testing or other agency testing by CTEH and other private contractors on the DWH waste including but not limited to: testing that was done prior to the landfill dumping to determine the waste was not toxic; remediation carried out at the landfill sites listed below during the time that waste from the DHOS was disposed at each given site and continuing through the present.</p> <p>6. Records pertaining to state and local testing of the landfills including but not limited to leachate, affected aquifers, lateral collection sites, rivers, streams and retention ponds since January 2010 to present date. 7. Records and information regarding the below-listed landfills, including but not limited to: the age of the landfills, what type of liner each landfill utilized in 2010 and whether the DWH waste was dumped in pits with household garbage or in separate pits just for DWH waste. Include federally available information, and any state or local level records you maintain through federal oversight and/or through working in conjunction with state and local agencies. 8. More than 39,448 tons of oil garbage had been disposed of at nine approved landfills in Alabama, Florida, Louisiana, and Mississippi (listed below in Section 10) as of July 15, 2010. 2022-AO-02487	Howell, Mike	The Heritage Foundation, Daily Signal	<p>February 11, 2022</p> <p>Dear EPA FOIA office,</p> <p>On December 23, 2021 a Notice by the Office of the Administrator, Environmental Protection Agency (EPA) was posted on the Federal Register: The U.S. Environmental Protection Agency's (EPA), Office of the Administrator is giving notice that it proposes to modify the Reasonable Accommodation Management System (RAMS) pursuant to the provisions of the Privacy Act of 1974. This system of records stores and maintains reasonable accommodation request files for EPA employees and applicants for employment. EPA is updating the RAMS SORN to reflect the explicit inclusion of requests for religious accommodations in addition to medical accommodations.</p> <p>The notice can be located at <a href="https://www.federalregister.gov/documents/2021/12/08/2021-26432/privacy-act-of-1974-system-of-records">https://www.federalregister.gov/documents/2021/12/08/2021-26432/privacy-act-of-1974-system-of-records</a></p> <p>Pursuant to the Freedom of Information Act, I respectfully request the following documents (or documents containing the following information):</p> <ol style="list-style-type: none"> <li>1. <del>E</del>For the period of August 1, 2021 to the present, all communications (to include emails and text messages) exchanged between or amongst EPA employees, and White House staff, the National Institute of Health, the Office of Management and Budget, the Occupational Safety and Health Review Commission, and the Occupational Safety and Health Administration regarding the reference noticed.</li> <li>2. <del>A</del>ny memos, documents, or other papers related to the referenced notice.</li> <li>3. <del>A</del>ny correspondence with the White House or Office of Management and Budget directing the EPA to notice and modify system records as done in the referenced notice.</li> <li>4. <del>A</del>list of all meetings (virtual or in-person) or calls regarding the referenced notice.</li> <li>5. <del>A</del>sscreenshot of the system of records sufficient to identify all categories of collected information. Please redact all personally identifiable information.</li> <li>6. <del>D</del>ocuments sufficient to identify the total number of individuals who have their information stored in the system of records.</li> <li>7. <del>A</del>ny correspondence to EPA employees regarding the collection of information to be stored in the system of records.</li> <li>8. <del>A</del>ny correspondence between EPA employees and political appointees of other executive branch agencies regarding the collection of information of federal employees who have requests for exemptions from vaccine mandates.</li> <li>9. <del>A</del>ny correspondence sent to EPA who were not granted exemptions from any vaccine mandate.</li> </ol> <p>To the extent that potentially responsive documents contain agency notes or information on internal agency deliberations, I respectfully request that these records be provided with such information redacted. Additionally, if you believe that any potentially responsive records include any personal, commercial, or proprietary information, I respectfully request that these records be provided with such information completely redacted.</p> <p>Because this is a request by the news media for information of public interest, made in my capacity as an author for the Daily Signal (a major news outlet), I request that you waive all applicable fees associated with this request. Release of this information is in the public interest because it will significantly contribute to the public understanding of whether federal employees' constitutional rights are being protected as the government seeks to collect bulk information on said employees' religious beliefs. This issue has already generated major public interest and media attention (see: <a href="https://www.dailysignal.com/2022/01/15/18-more-federal-agencies-eye-making-vaccine-religious-objector-lists/">https://www.dailysignal.com/2022/01/15/18-more-federal-agencies-eye-making-vaccine-religious-objector-lists/</a>).</p> <p>130-acre property in the City of Barstow, County of San Bernardino, CA. The property is a vacant lot with Lenwood Road (nearest intersection is Lenwood Road and Tortoise Road) bordering the west and unidentified unpaved roads to the north, south and east of the property (see attachment). There is no known physical address for the property.</p> <p>Property APN # 0421-122-49; APN # 0421-122-50; APN # 0421-122-16; and APN # 0421-122-17</p> <p>I'm looking for any site specific documents, such environmental permits (air, wastewater, storm water, etc.); previous Phase I ESAs, Phase II subsurface assessments, soil and groundwater assessment, remediation, and/or other environmental reports; and documents describing past and current subject property use.</p>	02/11/2022

2022-OECA-02507	Rector, Lisa	NESCAUM	<p>Per 40 CFR60.534(g) The manufacturer of an affected wood heater model line must notify the Administrator of the date that certification testing is scheduled to begin by email to WoodHeaterReports@epa.gov. This notice must be received by the EPA at least 30 days before the start of testing. The notification of testing must include the manufacturer's name and physical and email addresses, the approved test laboratory's name and physical and email addresses, the third-party certifier name, the model name and number (or, if unavailable, some other way to distinguish between models), and the dates of testing.</p> <p>We are requesting the copies for all units that have submitted 30 day notice of a manufacturers intent to conduct certification testing since February 1, 2021. We respectfully request all data pertaining to those notification to include all required information including but not limited to the manufacturer names, models, date of test request, test lab and 3rd party certifier. This is a similar request to the one filed and granted in April of 2018.</p> <p>We believe that is information must be made publicly available pursuant to Clean Air Act Section 114(c) precludes emission data from being considered confidential and requires that such data be available to the public. This data request meets the definition of "emission data" at 40 CFR2.301(a)(2)(i). The definition specifically section C states that emission data includes a general description of the location and/or nature of the source to the extent necessary to identify the source and to distinguish it from other sources. Furthermore, the data contained in the thirty day notices to contain any substantive criteria for use in determining confidentiality determinations. (40 CFR 2.208)</p>	02/11/2022

REQUEST FOR INFORMATION ON PLOT No. 8 CHURCH STREET and PLOT Nos. 21, 22, 23 HOSPITAL STREET, CHRISTIANSTED, ST. CROIX, U.S VIRGIN ISLANDS  The purpose of this Freedom of Information Act request is to acquire information on any environmental evaluation by USEPA or other entity that may have occurred at the location described below referred to as the Old Barracks Complex. While the soil medium associated with the site is of PRIMARY interest, if there is available information on asbestos containing material or lead based paint in the buildings that would also be of value. This FOIA request pertains to a 2.12 acre parcel of land located on the island of St. Croix in the United States Virgin Islands. The property is on the eastern perimeter of the town of Christiansted at Plot No. 8 Church Street and Plot Nos. 21, 22, 23 Hospital Street, Christiansted, St. Croix U.S. Virgin Islands at latitude 17°44'41.60" N and longitude 64°43'03.77" W. See location map below.  Below find an aerial of the property where the numbers denote buildings on the site most of which are occupied by the USVI Department of Education except for buildings No. 1 and No. 2 which are presently unoccupied. Unfortunately, there is no specific period of interest except from 1970 to present.  Information such as, site investigations, studies, reports of environmental activity or enforcement actions associated with the site would be helpful. This site as the name suggests served an military barracks for the Danish personnel in the past before being occupied by at least 2 agencies of the Government of the Virgin Islands.	02/16/2022

Dear custodian of records,

This is a request under the Freedom of Information Act.

I am requesting a digital file containing a copy of all records in connection to the presence of any perfluoroalkyl substances or chemicals (PFAS) across the United States of America's land, groundwater, or water supply. This includes any memorandum of understanding and/or correspondence between government entities on the subject of PFAS regarding presence, contamination, filtering, monitoring or remediation of any contamination.

The findings should include specific origins of PFAS, levels of PFAS in natural and urban settings, and locations that PFAS were sampled around the country.

I request the information be supplied in PDF, CSV, or XLS format.

In order to help determine my status to help assess fees, you should know that I am a student at Marquette University, and this request is made for scholarly or scientific purposes and not for commercial use.

I am willing to pay fees up to a maximum of \$5. If you estimate that the fees will exceed the limit, please inform me first.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to further contribute to the public understanding of PFAS contamination and is not in my commercial interest.

Thank you for your consideration of this request.

Sincerely,

Timothy Littau

A full calendar, schedule and briefing book for Administrator Michael Stanley Regan. ☐

Please search your records from January 15th, 2022 to the current date. ☐

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications, especially as these meetings and communications may include non-governmental interested parties. ☐

The request concerns the operations or activities of the government. The topic of the request concerns calendars that point to the activities of the government, including activities related to creating policy and passing regulations that impact the health and safety of the public. Furthermore, the requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations. ☐

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of EPA officials during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process. ☐

2022-OMS-02654	Stanley, Chris	Functional Government Initiative	<p>"Dear Mr. Stanley, In reviewing your request below, we need to clarify if you are asking for "leave usage" or "leave requested?"</p> <p>Requester: "Usage was the intent of the request."</p> <p>Please see the attached letter for details. 2022-R01-02652	Edlich, Gouri	Citizens for the Preservation of Wainscott	<p>Regional Freedom of Information Officer U.S. EPA, Region 2 290 Broadway, 26th Floor New York, NY 10007-1866 (212) 637-3668</p> <p>Dear FOIA Officer:</p> <p>I am chairwoman of the Citizens for Preservation of Wainscott (CPW). CPW fully supports renewable energy and New York State's commitment to address the important issue of climate change. However, CPW has serious concerns regarding the South Fork Wind Farm (SFWF), located in eastern Long Island.</p> <p>This offshore project, sponsored by Ørsted and Eversource, will include 12 wind turbine generators, submarine cables, an offshore substation, an alternative current (AC) electric cable and interconnection facility that connects the SFWF to the existing mainland electric grid in East Hampton, New York.</p> <p>Our concern arises from SFWF's reckless and unprecedented proposal to construct a high-voltage transmission line, connecting electricity generated from offshore wind turbines to an onshore substation, directly through a residential community and adjacent to two state Superfund sites. The proposal is especially disconcerting considering CPW has proposed viable alternative routes that avoid residential areas while avoiding any potential environmental and public health concerns from the spread of PFAS. Time is of the essence given the immediate nature of the work that is to commence and the significant potential health impact of the work on the community.</p> <p>On behalf of CPW, I submit this request for records, regardless of format, medium, or physical characteristics, and including electronic records and information, audiotapes, videotapes, and photographs, pursuant to the Freedom of Information Act, 5 U.S.C. § 552, et seq.</p> <p>Within the next 5 days, I request access to, and copies of, all records from November 9, 2021, to the present that are related in any way to the SFWF Clean Water Act Section 404 permit (404), Clean Air Act permit, and per- and polyfluoroalkyl substances (PFAS). They include:</p> <ol style="list-style-type: none"> <li>1. <del>The</del> original and revised 404 and Clean Air Act permit applications and Corps (including the EPA Region 2) requests for additional information from the project sponsor;</li> <li>2. <del>The</del> project developer's proposed mitigation strategies and any Environmental Protection Agency (EPA) edits (including EPA Region 2) or federal agency-related edits;</li> <li>3. <del>The</del> final 404 permit issued along with any appendices and signature pages;</li> <li>4. <del>Any</del> communications between Ørsted and Eversource and EPA (including EPA Region 2) related to the final 404 permit and Clean Air Act Permit and any suggested and/or final conditions attached to them;</li> <li>5. <del>PFAS</del> test results and Geographic Information System (GIS) shapefiles of locations that were tested for PFAS;</li> <li>6. <del>GIS</del> shapefiles provided by the project developer to EPA for consideration in a final permit decision;</li> <li>7. <del>Any</del> communications or records between EPA (including EPA Region 2) and the Corps (including the Corps' New York District Office), the White House, and FPISC related to concerns raised by CPW in its letters related to the SFWF, the South Fork Export Cable, and PFAS;</li> <li>8. <del>FAST-41</del> Coordinated Project Plans and associated mitigation and minimization strategies sections from November 9, 2021 to the present;</li> <li>9. <del>Any</del> internal EPA communications, communications between FPISC and the EPA, and communications between the Corps (including the Corps' New York District Office) and EPA (including EPA Region 2) regarding the draft and final 404 Permit and Clean Air Act permit and any suggested and/or final</li> </ol> <p>I am requesting to see all evidential waste records on the coast of Maine</p>	02/22/2022

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

A full calendar, schedule and briefing book for Elizabeth Shaw, Deputy Assistant Administrator of EPA's Office of Air and Radiation.

Please search your records from January 15th, 2022 to February 18, 2022.

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications, especially as these meetings and communications may include non-governmental interested parties.

The request concerns the operations or activities of the government. The topic of the request concerns calendars that point to the activities of the government, including activities related to creating policy and passing regulations that impact the health and safety of the public. Furthermore, the requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations.

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of EPA officials during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process.

Disclosure of requested information will likely result in public understanding. The information will help the public better understand the EPA's activities and operations as it develops new environmental rules and regulations. Documented is seeking this information because it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire this type of information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented's work reaches a broad audience by being featured in television, radio, print and online news articles and interviews, including Bloomberg, the Guardian, the Huffington Post among others.

Documented plans to compile the information from this request into a distinct, original work that will be released to the public through the manner described above. Moreover, Documented has the expertise and experience to disseminate the information received and ensure that disclosure of records will contribute to public understanding of operations at EPA.

Disclosure of requested information will contribute significantly to public understanding. Information contained in material disclosed as a result of this request will contribute significantly to public understanding. Disclosure of information requested will provide new information to the public regarding agency operations during a time when a new administration has set ambitious climate goals and policy. This request is being sent during a time when there is immense urgency to address climate change and therefore, it is important that the public have a clear understanding of the EPA's activities and operations.

EPA-2022-002776	Nayar, Neel	Solon High school	1. Your agency's previous (FY21) and current (FY22) contract for you FOIA case processing software with cost information included. I'm interested in what your agency spends on this line of business and am analyzing it vs. other agencies to get a sense of what the federal government spends on FOIA software solutions. 2. Any additional contracts and costs directly related to FOIA processing (for example, Adobe, Video/Audio redaction software, contract support). I understand that costs can more than just your FOIA case processing software and want to paint a complete picture with my research. 3. Your agency's Annual Budget for your FOIA team- looking for a total cost of operation. I have the FTE's and costs from your annual report; however, I'm looking for the actual budget item to add to the analysis. 4. Training materials on FOIA case processing. This could be PowerPoints, Handbooks, Job Aides, Videos, Guidebooks, etc. I'm interested in comparing how agencies train their FOIA Officers to work with FOIA software.	02/28/2022

The EPA Office of Pesticide Programs Incident Data System. I would like to request all of the information behind the system that shows the number of incidents reported by product and outcomes of each of those reports. This should include product name, package and seq. #, Full Product Reg #, Product Name, Form., Total Inc., and each of the exposure severity codes (DA:WB). An example of what I am looking for (though this is only for one product) can be found here: <https://beta.documentcloud.org/documents/20473296-aggregate-incident-summary-report-for-epa-reg-no-11556-155-1-1-2012-to-6-16-2020> I would like this for all products and from the beginning of the system's existence to the present date. Please provide this information in a .csv file or other type of database file.

This is an update of a previous request: EPA-2021-002530.  
Please provide the same records as in that request, but through the date the search is conducted.

I have attached a sample request. I would just like to change the search date to the date the search is conducted.

2022-OAR-02897	Festa, Michelle	Festa Radon Technologies	<p>Please provide information (e.g. amount, dates, recipients, topic) concerning grants related to RADON, awarded to nonprofit organizations by EPA, including the regional EPA offices. This may or may not be under the SIRC program. Radon-related Nonprofits include, but are not limited to: AARST (American Association of Radon Scientists and Technologists), AARST Foundation, CANSAR (Cancer Survivors Against Radon), CR3 (Citizens for Radioactive Radon Reduction), NRPP (National Radon Proficiency Program, which is owned by AARST), NRSB (National Radon Safety Board), KARP (Kentucky Association of Radon Professionals. Please provide information for the years 2017, 2018, 2019 and 2020. I know records exist because AARST has mentioned that EPA has provided funding through the AARST foundation for radon standards development. Also, IRS tax return form 990 for CANSAR in 2017 shows a government grant in the amount of \$167,102 in Part VII Line 1e page 9 and shows disbursement of \$105,902 of this government grant to Kyle Hoylman, President of AARST, CANSAR and KARP in Part IV . I am asking about such documents that would have entered the enforcement case against Metalico Pittsburgh, Inc. between the completion of request FOIA EPA-R3-2020-003297 on 07/14/2020 and when my request was made on 03/07/2022. I understand there may be exemptions, such as CBI, exempting this type of information from release.

We are interested in any available information surrounding the following paragraphs of the Notice of Violation and Opportunity to Confer ("NOVOC") document dated October 4, 2021, issued to Metalico Pittsburgh Inc. (attached).

Specifically:

35. By a letter dated October 31, 2019, the EPA sent Metalico a "Notice of Noncompliance/Opportunity to Show Cause" ("NON"), describing potential violations of the PA SIP and the CAA at the Facility identified by the EPA after further investigation of the Facility's operations following the Inspection.

36. By email on November 21, 2019, the EPA provided Metalico with the emissions values used by EPA to evaluate the Facility's compliance. Subsequently, by email on July 30, 2020, the EPA provided Metalico with the performance test data it used to evaluate the Facility's compliance with applicable CAA requirements, which previously had been compiled and made public through EPA's Freedom of Information Act ("FOIA") process, as FOIA number EPA-R3-2020-003297.

37. The EPA has collected data from performance test reports from similar metal shredding facilities located across the United States, with feedstocks and feed rates comparable to Metalico's Facility.

38. The data from these performance test reports, referenced above in Paragraphs 36 and 37, was used by the EPA to formulate Metalico's PTE VOC for the metal shredder at its Facility. Utilizing the emissions data from these performance test reports, along with the maximum throughput of the Facility's shredder and maximum operational hours, the EPA calculated Metalico's PTE VOC to be at least 50 TPY.

39. On September 16, 2020, EPA and Metalico met by conference call to discuss the NON. During the meeting, Metalico presented its analysis of the emissions values and performance test data provided by EPA to Metalico.

From these paragraphs:

-From paragraph 38, EPA indicates that it utilized the "emissions data from these performance test reports, along with the maximum throughput of the Facility's shredder and maximum operational hours, the EPA calculated Metalico's PTE VOC to be at least 50 TPY."

oWe request any non-confidential information available from the file indicating and/or explaining what emission factor (or range of emission factors) EPA used to calculate these potential and/or actual projected VOC emissions from the Metalico facility, and how EPA arrived at that emission factor (or an emission factor range).

-From paragraph 39, EPA indicates that Metalico responded to the emission calculation prepared by EPA (as referenced in paragraph 38). Please provide all non-confidential information concerning this response, including:

oAny non-confidential response to the VOC emission factor (or range of VOC emission factors) suggested by EPA;

oAny proposed alternative emission factor (or range of emission factors) Metalico suggested using compared to those suggested by EPA; and

2022-R10-02967	Sammartino, Dorothy	-	<p>I am requesting the annual update for 2021-2022 and supporting files for the 4 Bros. Dairy, Inc. Nutrient Management Report which is required under their NPDES permitting process. 4 Bros. Dairy, Inc. 425N 250W, Shoshone, Idaho 83352, Manager: Andrew Fitzgerald. (I already have the 4 Bros. Dairy NMP from a previous request that I submitted back in 2021. The Dairy was convicted of an illegal discharge of waste into a US Waterway in December, 2020, sentenced in March, 2021.) The Annual Report and/or update to the NMP should include all field soil testing reports for all fields receiving waste/nutrients – both 4 Bros. owned land and all export partners and their land. It should contain physical addresses and contact information for the export farms receiving waste/nutrients. The Idaho Department of Agriculture inspects the dairy yearly and produces a report that is titled "EMP/NMP review" report. This document contains field soil testing data for all 4 Bros. Dairy fields and export partners fields that have received waste/nutrients in 2020-2021. The Annual Update to the NPDES permit should include all non-compliance notifications that were evident in the ISDA EMP/NMP Review documents. Thank you</p>	03/08/2022

2022-R06-02957	Symonds, Amy	Crowell & Moring	<p>In 2019, following nearly two years of discussion, EPA notified Chevron that the agency would be changing the 2010 Record of Decision ("ROD") for the Chevron Questa Mine Superfund Site ("Questa Mine") to switch EPA's management of the site's discharges from a NPDES permit to management under CERCLA authority ("the Proposed ROD Amendment"). (see <a href="https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.Stayup&amp;id=0600806#Stayup">https://cumulis.epa.gov/supercpad/SiteProfiles/index.cfm?fuseaction=second.Stayup&amp;id=0600806#Stayup</a>) Then, on February 2, 2022, EPA announced via phone calls to interested parties (and a February 15, 2022 letter to Chevron) that the Agency had determined that the NPDES permit for Questa Mine (permit NM0022306) should, instead, be updated and reissued. EPA has since published this determination on its website. (see <a href="https://www.epa.gov/nm/public-meeting-chevron-mining-inc-questa-mine">https://www.epa.gov/nm/public-meeting-chevron-mining-inc-questa-mine</a>) This determination reversed the Agency's 2019 Proposed ROD Amendment.</p> <p>We seek all documents from May 2017 until March 2022 relating to EPA's consideration of the Proposed ROD Amendment; the Agency's decision to abandon further consideration of the Proposed ROD Amendment; and EPA's 2022 determination regarding the Questa Mine NPDES permit, with the exception that this request does not seek correspondence with Chevron or documents that have been published on EPA's website. A "compelling need" exists where the requester is "primarily engaged in disseminating information" and can demonstrate an "urgency to inform the public about an actual or alleged Federal government activity." 40 C.F.R. § 1.104(e)(ii); see also 5 U.S.C. § 552(a)(6)(E)(v). Friends of the Earth is a non-profit organization primarily engaged in information dissemination, public education and advocacy on environmental issues. Friends of the Earth will be taking numerous steps to disseminate the requested information to the public, and have a demonstrated and longstanding capacity to do so. We typically disseminate similar information through direct communication to journalists and other members of the media, through press releases, through newsletters to all of our members, through our web sites, through public meetings, and through other legislative and executive fora. The "[a]ctual or alleged Federal government activity" to which the requested information pertains is to EPA's oversight and review of the monitoring data submitted to it by the cruise industry.</p> <p>Friends of the Earth urgently needs this information because the particular value of the information and our urgent need to inform the public regarding EPA's activities. 40 C.F.R. § 2.104(e)(3). The data EPA gathers regarding the cruise industry's discharges is not readily available to the public and the discharge information is urgently needed. To Whom It May Concern:

I am submitting this document request pursuant to the Freedom of Information Act, 5 U.S.C. § 552 et seq, as amended ("FOIA"). This request concerns United States Environmental Protections Agency, Region 5 ("EPA") files concerning the Allied Paper Company, Inc. with an address 2030 Portage Street, Kalamazoo, Michigan 49003 (the "Site"). This Site is now known as the Allied Paper Inc./Portage Creek/Kalamazoo River Superfund Site (EPA Site ID no.: MID006007306/MDEQ Reference no.: AOC-RRD-2007-002) located at 320 East Alcott Street, Kalamazoo, Allegan and Kalamazoo Counties, 49003 in Michigan.

In particular I am requesting through FOIA, documents and other media, including but not limited to the Michigan Department of Environmental Quality and Allied Paper Company, Inc.'s communications from June 1984 through December 1985 relating to remedial options, dredging, and remediation of Portage Creek from Cork Street to the confluence of the Kalamazoo River. In addition, I am requesting any supporting materials relating to the testing, analysis, remediation, clean-up, or removal of PCBs from Portage Creek from June 1984 through December 1985. Please note that this request is sufficiently specific and narrow, requires no forwarding to other offices for processing, and is a "simple" request. This request is not meant to exclude any other records that, although not specially requested, are reasonably related to the subject matter of this request which are contained in EPA's files for the period of January 1984 through December 1985. If EPA has destroyed or determines to withhold any records that could be reasonably construed to be responsive to this request, I ask that you identify the records destroyed or withheld and the reasons therefor in your response.

I appreciate your anticipated prompt attention in obtaining a determination on the requested records. Should you find that this request to be unclear please e-mail me at robert.lagravenis@klgates.com or telephone me at (b) (6) to further clarify and discuss the scope of this request.

Thank you,

Please provide the response communication from 4K Industrial Park, LLC to the US EPA Region 5 regarding the information requested by Region 5 on January 11, 2022 of 4K Industrial. On 2/17/22, Monica Onyszko of Region 5 told me the following: "Hi Beverly – 4K requested an extension on the due date for their information request response, so we don't have any information from them yet. I have nothing new to share with you at this time about the site. We can be in touch again after we receive their response and EPA has time to review it."
