RE: No Further Action – FOL Tape LLC, St. Louis, MO  
Facility ID Number – 110018005433

Dear Registered Agent:

This letter is to advise you that the U.S. Environmental Protection Agency, Region 7, has completed its review of information collected during an on-site inspection of FOL Tape LLC (referred to as FOL Tape) located at 2025 Hitzert Court, Fenton, MO 63026 on September 28, 2023. Based on our review, we have determined that no violations were observed during that inspection. However, the EPA notes that possible emissions were observed at the coating line, particularly the infrared drying section, using the optical gas imaging camera FLIR GF-320®. The EPA encourages you to take all necessary steps to minimize potential emissions.

No further action on the part of FOL Tape is necessary at this time. Although no violations were identified and we are closing our investigation, please note that the EPA reserves its right to pursue appropriate enforcement actions, including penalties, for violations discovered as a result of this inspection, regardless of whether the violations were subsequently corrected.

If you have any questions concerning this matter, please contact a member of my staff, Jonathan Boyd at [boyd.jonathan@epa.gov](mailto:boyd.jonathan@epa.gov) or at (913) 551-7696.

Sincerely,

Tracey Casburn  
Chief, Air Branch  
Enforcement and Compliance Assurance Division
