Presenter

Erik Herzog has been with the EPA Office of Transportation and Air Quality for 35 years and has been working with SmartWay for the last seventeen. Prior to joining SmartWay, Erik worked on vehicle emission inspection programs, the use of economic incentives to reduce vehicle emissions, and sustainable commuting. With SmartWay, he has worked on development of the SmartWay partner tools; on many aspects of program evaluation, including data quality; emissions reduction benefits, and harmonizing SmartWay methodologies with other green freight protocols. He has a Bachelor's in Psychology from Bethany College, a Master's in Natural Resource Policy from the University of Michigan, and an Advanced Certificate in Sustainable Innovation from the University of Vermont.

Introducing the SmartWay Online Shipper Tool

Erik Herzog
November 21, 2024

- Very Quick SmartWay Background
- Detailed Demonstration

Background

- Voluntary Program
- Jointly developed with the freight industry
- Goal: reduce emissions- CO_2, NOx, PM
- Goal: Save partners money through efficiency improvements

SmartWay Timeline

- Program initiation: 2001
- Program launch: 2004
- SmartWay 1.0 Tools: Equipment based, Excel, 2004
- SmartWay 2.0 Tools: Performance based, Excel: 2008
- SmartWay 3.0 Tools (Online)
  - Online Truck Tools: 2020
  - Online Shipper Tool: 2021
  - Online Logistics Tool: 2022
  - Online Barge, Air, Rail Tools: 2025-2026
- Constant ongoing optimization (real time deployment with online tools)

Feedback Mechanism

Getting Started (Existing Partners)

🌿 log into your SmartWay partner portal by entering your SmartWay ID at https://app4.erg.com/smartwayweb/portal/login.cfm?language=ENG

🌿 If you don't receive a login, then your email may be blocking our database messages so ask your PAM for a login.

The SmartWay Portal

The SmartWay Portal is a resource for SmartWay Partners and eligible companies that are interested in partnering up with SmartWay. The portal options that are listed below reflect what type of partner, prospect, or applicant you are (e.g., a Truck Carrier), as well as whether you are working with the US Environment Protection Agency or Natural Resources Canada. For example, partners can use this portal to obtain their SmartWay Registration document and SmartWay Logo files. Partners and prospects who are either Logistics Carriers or Shippers can use the Carrier Matching function to assist them in filling out their tools. If you have any questions, please contact your SmartWay Partner Account Manager or SmartWay recruiter.

Tools

- SmartWay Online Shipper Tool (beta version)
  The Online Shipper Tool is the equivalent of the Excel-version of the SmartWay Shipper Tool. You may choose to download the Excel-based tool from the SmartWay website instead of using this online version. DO NOT complete more than one version of the Shipper Tool.
  - Begin Now
  - Provide Feedback for the Online Shipper Tool (10 question survey)
  - User Guide for the SmartWay Online Shipper Tool
  - Technical Documentation for the SmartWay Online Shipper Tool

- Provide feedback on your SmartWay Excel-based tool
- SmartWay Carrier Matching

4 Ways to Participate

- <u>Way 1</u>: Not an option in this tool and only for those who want to learn more about the program

- <u>Way 2</u>: Basic Assessment, Gives you your % SmartWay carrier usage.

- <u>Way 3</u>: Standard Assessment, Gives you CO2, NOx and PM inventory and the ability to generate a Shipper Performance Report.

- <u>Way 4</u>: Advanced Assessment, gives you everything in Way 3 plus strategy assessment and modal shift analysis options and the ability to generate a Shipper Performance Report.   An extra selection must be made for Way 4 by checking at least one of the Added Benefit boxes.

SmartWay Online Shipper Tool

Read the SmartWay Partnership agreement below and check the box at the bottom of the screen indicating you understand and accept the terms of this agreement. Select the 'Save and Continue' button to proceed.

Partnership Agreement for Shippers

With this annual agreement, your company joins the SmartWay Transport Partnership and commits to:

1. Measure and report to EPA on an annual basis the emissions performance of your company using EPA's SmartWay Shipper Tool. (Existing companies must report the 12 months of data for the prior year ending December 31. Newly formed companies require a minimum of 3 months of operational data.)
2. Agree to SmartWay listing your name on the SmartWay Transport Partnership website as a Partner company.
3. Agree to submit supporting documentation to EPA for any data used to complete this tool and agree to EPA audit of this data upon request by EPA.

In return, EPA commits to:

1. Promote company participation in the Partnership by posting Partner names on the SmartWay websites and in related educational, promotional, and media materials. EPA will obtain express written consent from the Partner before using the Partner's name, other than in the context of increasing public awareness of its participation as described here.
2. Provide companies with industry-wide performance benchmark data, as the data becomes available to EPA.
3. Assist Partners in achieving emission and fuel usage reduction goals (subject to Federal Government Appropriations).
4. Treat individual corporate data as sensitive business information.

General Terms

1. If the Partner or EPA defaults upon this agreement at any point, the agreement shall be considered null and void.
2. Either party can terminate the agreement at any time without prior notification or penalties or any further obligation.
3. EPA reserves the right to suspend or revoke Partner status for any Partner that fails to accomplish the specific actions to which it committed in the SmartWay Transport Partnership Agreement and subsequent annual agreements.
4. The Partner agrees that it will not claim or imply that its participation in the SmartWay Transport Partnership constitutes EPA's approval or endorsement of anything other than the Partner's commitment to the program. The Partner will not make statements or imply that EPA, or the United States, endorses the purchase and/or sale of the Partner's products and services or the views of the Partner
5. Submittal of this SmartWay Tool annually constitutes agreement to all terms in this Partnership Agreement. No separate agreement need be submitted.

By checking the box below, I declare that the information submitted via this Tool is, to the best of my knowledge, accurate. I understand that any person who, in the course of negotiating or performing under this Agreement, makes, presents or submits a false or misleading statement to the government, or any person who makes a material omission in the course of negotiating or performing under this Agreement, may be subject to liability under all applicable civil and criminal statutes including 18 U.S.C. 1001 (criminal liability for false statements), 31 U.S.C. 3801 - 3812 (civil liability for false statements) and 31 U.S.C. 3729-33 (The False Claims Act).

☑ I understand and agree to the terms of this agreement.

- Unchanged from last year.
- Check the box at the bottom and proceed.
- SmartWay does not share any submitted partner emission data outside EPA. *Only the emission 6 metric binned information is public.*

SmartWay Online Shipper Tool

Company and Contact Information

Note: You can auto populate all your previously submitted contact information

You can use the 'Auto Populate' button to populate this screen with your company's information from last year's tool. If you bring in last year's data, you must review and verify it. Alternatively you can enter the information yourself.

Auto Populate

Start with the Company Information section. **It is very important to fill out your Company Name correctly as this is how it will appear in the SmartWay Partner List.** Next click on the second and third gray bars to complete the Working Contact and Executive Contact information, respectively. *You must enter different names and emails for the Working and Executive Contacts before proceeding.* You may add additional contacts by selecting the 'Add Contact' button at the bottom.

After completing the Company and Contact sections, you may enter additional information by selecting the 'Optional Comment' bar if you wish.

When finished select the 'Save and Continue' button. Any missing/incorrect data will be flagged for your attention. If all of your entries pass validation you will be taken back to the Home screen. You may return to this screen later and add more contacts or change contact information.

* Denotes a required field

Company Information

Company Name: *	Morgan Enterprises
Address: *	1155 de la 103rd street
Address 2:	
City: *	Miami
State: *	Florida
Zip Code: *	33142
Main Phone: *	305-111-1111
Website:	MorganEnterprises.com

Contact Information

A **Working Contact** for any questions about your company's participation and tool submissions. The **Working Contact** is the individual designated by the Executive Contact to directly interface with SmartWay regarding specific tasks involved in the timely submission of the tool. The Working Contact is responsible for coordinating the assembly of information to complete/update carrier activity data; completing and updating the tool itself; maintaining direct communication with SmartWay; and keeping interested parties within the company apprised of relevant developments with SmartWay.

An **Executive Contact** for participation in recognition events and for authorizing participation in SmartWay. The **Executive Contact** is the company executive who is responsible for agreeing to the requirements in the SmartWay Partnership Annual Agreement, overseeing the Working Contact (as appropriate), and ensuring the timely submission of the tool to SmartWay. The Executive Contact also represents the company at awards/recognition events. This person should be a Vice President or higher-level representative for the company.

Additional contacts (optional) which may include alternative Working or Executive contacts, Sustainability contacts, consultants, or others that may be involved with SmartWay (e.g., press/media contact, fleet manager, etc.). Use the "Add Contact" button at the bottom of the screen to enter one or more additional contacts.

- Contacts have SPECIFIC roles
- Ability to add additional contacts such as Sustainability, Public Relations, or others
- Please keep these updated.

Name Your Company(ies)

Allows Multiple Subsidiaries

SmartWay Online Shipper Tool

Name your company(ies)

Your shipper company(ies) are shown below. If you would like to delete one, check the box to the left of the Shipper Company Name and then select the 'Delete Shipper Company(ies)' button. Use the 'Add Another Shipper Company' to add companies as needed.

If you have multiple North American Industrail Classification System (NAICS) codes associated with a company, separate them using commas. If you are not sure which NAICS code(s) you should enter, you can use https://www.census.gov/naics/ to search for the correct code.

* Denotes a required field

	Shipper Company Name *	🟡 NAICS *
☐ Shipper Company Name 1:	Morgan Enterprises	21110

Add Another Shipper Company **Delete Shipper Company(ies)**

Optional Comment

Return to Home Page **Save and Continue** **Help**

Note: Your Subsidiary Company Names will NOT appear on the SmartWay website, only your Partner Name. If you wish to have your companies/subsidiaries appear separately on the SmartWay website, please submit separate tools for each to SmartWay.

- You can add multiple subsidiaries
- Input your NAICS code for future benchmarking with other companies

Select Carriers: Shipper Company 1 — Transport Partnership

Select one or more of the links below to identify and select the carriers you used to move your freight in the current reporting period. These options are not mutually exclusive. For example, you can start by selecting 'Auto Populate Carriers' to load the carriers from your approved submission from last year. You can then modify this list of carriers using one or both of the 'View and Manually Select Carriers' options, allowing you to remove and/or add carriers. You can also Export your list of selected carriers, merge in the activity data for each carrier using Excel, and then import the updated file back into the tool.

When you are finished selecting your carriers, select the 'Enter Activity' button to proceed to the next step.

As you proceed through the steps below, make sure to address the following issues:

- You must select at least one SmartWay Carrier.

- You do not currently have any Non-SmartWay carriers in your list of carriers. If you do not use Non-SmartWay carriers, select the 'View and Manually Select Carrier Modes/Categories' link and check the 'I do not use Non-SmartWay Carriers' box to confirm this. If you do use Non-SmartWay carriers, select the 'View and Manually Select Carrier Modes/Categories' link to add them to your lists of carriers.

- You indicated on the Participation Level screen that you were going to subdivide your freight shipments, but no subdivisions have been made. Select the 'Carrier Subdivision' option to subdivide your freight. At least one carrier must be subdivided.

- Auto Populate Carriers - Use this option to load the carriers from your approved tool submission from last year. After you have brought in these carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.

- Import Carriers - Use this option to import your carriers from an Excel file. You can include each carrier's activity data. If you have selected Way 4 as your participation level and plan to use Carrier Subdivision, you can include the subdivision fields in the Excel file. After you have imported your carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year. NOTE: the format of the Excel file used in this tool is not the same format that is used in the SmartWay Excel Shipper Tool. The new format is described in the User Guide.

- View and Manually Select SmartWay Carriers - Use this option to identify and select your carriers from the current list of SmartWay partners. If you have a small number of carriers (e.g., 50 or less), this option might be your preferred approach. If you used the Auto Populate function, you can use this option to add and remove SmartWay carriers.

- View and Manually Select Non-SmartWay Carrier Modes/Categories - Use this option to select your Non-SmartWay carriers (e.g., Non-SmartWay Truckload/Dry Van, Non-SmartWay Logistics). If you used the Auto Populate function, you can use this option to add and remove Non-SmartWay carriers. If you do not use any Non-SmartWay Carriers you must still select this option to confirm that you do not use Non-SmartWay carriers.

- Carrier Subdivision - Use this option to subdivide your freight activity based on shipment borders (domestic or international), shipment movement (inbound, outbound, internal), discrete business units, and/or other criteria.

- Export Carriers - Use this option to export your current list of carriers or the entire set of SmartWay Carriers and Non-SmartWay Carrier Modes/Categories into an Excel file. You can then modify the file to edit your carrier list, activity data, and (if applicable) subdivision information for importing back into the tool.

- Identify Your In House Carrier Fleets - Use this option to identify the SmartWay Carriers that your company controlled and operated during the current reporting year.

- Select Carriers Screen
- Red box reminds you of remaining steps
- **Multiple** ways to Select your carriers and get them into your tool for data input

Select Carriers: Morgan Enterprises

Select one or more of the links below to identify and select the carriers you used to move your freight in the current reporting period. These options are not mutually exclusive. For example, you can start by selecting 'Auto Populate Carriers' to load the carriers from your approved submission from last year. You can then modify this list of carriers using one or both of the 'View and Manually Select Carriers' options, allowing you to remove and/or add carriers. You can also Export your list of selected carriers, merge in the activity data for each carrier using Excel, and then Import the updated file back into the tool.

When you are finished selecting your carriers, select the 'Enter Activity' button to proceed to the next step.

- Auto Populate Carriers - Use this option to load the carriers from your approved tool submission from last year. After you have brought in these carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.

- Import Carriers - Use this option to import your carriers from an Excel file. You can include each carrier's activity data. If you have selected Way 4 as your participation level and plan to use Carrier Subdivision, you can include the subdivision fields in the Excel file. After you have imported your carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.
  NOTE: the format of the Excel file used in this tool is not the same format that is used in the SmartWay Excel Shipper Tool. The new format is described in the User Guide.

- View and Manually Select SmartWay Carriers - Use this option to identify and select your carriers from the current list of SmartWay partners. If you have a small number of carriers (e.g., 50 or less), this option might be your preferred approach. If you used the Auto Populate function, you can use this option to add and remove SmartWay carriers.

- View and Manually Select Non-SmartWay Carrier Modes/Categories - Use this option to select your Non-SmartWay carriers (e.g., Non-SmartWay Truckload/Dry Van, Non-SmartWay Logistics). If you used the Auto Populate function, you can use this option to add and remove Non-SmartWay carriers. If you do not use any Non-SmartWay Carriers you must still select this option to confirm that you do not use Non-SmartWay carriers.

- Carrier Subdivision - Use this option to subdivide your freight activity based on shipment borders (domestic or international), shipment movement (inbound, outbound, internal), discrete business units, and/or other criteria.

- Export Carriers - Use this option to export your current list of carriers or the entire set of SmartWay Carriers and Non-SmartWay Carrier Modes/Categories into an Excel file. You can then modify the file to edit your carrier list, activity data, and (if applicable) subdivision information for importing back into the tool.

- Identify Your In House Carrier Fleets - Use this option to identify the SmartWay Carriers that your company controlled and operated during the current reporting year.

Note: You can auto populate last year's carriers if you submitted a SmartWay tool last year

Return to Home Page | **Enter Activity** | **Help**

- **Auto populate all your last year's carriers (Way 3 & 4)**
- Manually add and/or subtract individual carriers (Way 2, 3, 4)
- Import/Export Carriers with standardized formats (Way 3 & 4)

SmartWay Online Shipper Tool

Auto Populate Results: <u>Morgan Enterprises</u>

The following table lists the SmartWay Carriers and Non-SmartWay Carrier Type(s) from your approved shipper tool submission from last year. Please review this list to create your CURRENT year Carrier List. You can scroll through the list or filter to view selected categories.

Please take special note of each carrier's status:

- Carriers with a 'Current' status have submitted their fleet information for the current reporting year and are approved by SmartWay.
- Carriers with a status of 'Pending' have submitted their information but have not been approved by SmartWay and will be classified as Non-SmartWay carriers if you finalize your carriers before their submission is approved.
- Carriers who have a status of 'Didn't Report' will be categorized as Non-SmartWay carriers when you finalize your carriers. You can send an email to these carriers asking them to submit their current year data by using the 'Contact Non-Submitting Carriers' button below.
- Carriers who have a status of 'Selection Needed' have submitted their current year data to SmartWay, but the carrier has multiple fleets from which you may select. These carriers will be categorized as Non-SmartWay Carriers if you finalize your list without specifying which fleet they are.

Carrier Counts: Current = 103 | Pending = 4 | Didn't Report = 16 | Selection Needed = 1 ⓘ

You can remove specific carriers or non-SmartWay Carrier Types you no longer use by checking the 'Delete Carrier' box in the left-hand column and then selecting the 'Delete Carriers' button at the bottom of the screen. You may select multiple checkboxes at a time, but they must be visible for the carrier to be deleted.

Contact Non-Submitting Carriers: Trinity Industries

You have 18 carrier(s) who have not submitted data to SmartWay for the current reporting year. Select the 'Send Email(s)' button below to email these SmartWay partner's current Working Contact, asking them to submit their data.

The email that will be sent is shown below. The ~FIRST_NAME~ field will be replaced with the first name of the current Working Contact, and the ~PAM~ fields will be replaced with the partner's current Partner Account Manager information. This email cannot be edited. The email will be sent from the smartway_transport@epa.gov email account.

> You can only use this function once. Before selecting the 'Send Email(s)' button, make sure to delete any carriers you do not want to contact before sending the email on the previous screen. These are the carriers who have a Status of "Didn't Report".

To:	working.contact@partner.com
Subject:	Your customer, Trinity Industries, requests that you submit current year data to SmartWay

Dear ~FIRST_NAME~,

Your customer, Trinity Industries, requests that you submit your annual environmental emissions data to the U.S. EPA SmartWay program. Submitting your data allows Trinity Industries to calculate their own environmental footprint, which is needed for a variety of environmental and sustainability reporting purposes. If you have any questions on how to submit your information to SmartWay, please contact your SmartWay Partner Account Manager, ~PAM~, at ~PAM_PHONE~ or ~PAM_EMAIL~.

Thank you.

SmartWay Online Shipper Tool

Select Carriers: <u>Morgan Enterprises</u>

Select one or more of the links below to identify and select the carriers you used to move your freight in the current reporting period. These options are not mutually exclusive. For example, you can start by selecting 'Auto Populate Carriers' to load the carriers from your approved submission from last year. You can then modify this list of carriers using one or both of the 'View and Manually Select Carriers' options, allowing you to remove and/or add carriers. You can also Export your list of selected carriers, merge in the activity data for each carrier using Excel, and then Import the updated file back into the tool.

When you are finished selecting your carriers, select the 'Enter Activity' button to proceed to the next step.

- <u>Auto Populate Carriers</u> - Use this option to load the carriers from your approved tool submission from last year. After you have brought in these carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.

- <u>Import Carriers</u> - Use this option to import your carriers from an Excel file. You can include each carrier's activity data. If you have selected Way 4 as your participation level and plan to use Carrier Subdivision, you can include the subdivision fields in the Excel file. After you have imported your carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.
  NOTE: the format of the Excel file used in this tool is not the same format that is used in the SmartWay Excel Shipper Tool. <u>The new format is described in the User Guide.</u>

- <u>View and Manually Select SmartWay Carriers</u> - Use this option to identify and select your carriers from the current list of SmartWay partners. If you have a small number of carriers (e.g., 50 or less), this option might be your preferred approach. If you used the Auto Populate function, you can use this option to add and remove SmartWay carriers.

- <u>View and Manually Select Non-SmartWay Carrier Modes/Categories</u> - Use this option to select your Non-SmartWay carriers (e.g., Non-SmartWay Truckload/Dry Van, Non-SmartWay Logistics). If you used the Auto Populate function, you can use this option to add and remove Non-SmartWay carriers. If you do not use any Non-SmartWay Carriers you must still select this option to confirm that you do not use Non-SmartWay carriers.

- <u>Carrier Subdivision</u> - Use this option to subdivide your freight activity based on shipment borders (domestic or international), shipment movement (inbound, outbound, internal), discrete business units, and/or other criteria.

- <u>Export Carriers</u> - Use this option to export your current list of carriers or the entire set of SmartWay Carriers and Non-SmartWay Carrier Modes/Categories into an Excel file. You can then modify the file to edit your carrier list, activity data, and (if applicable) subdivision information for importing back into the tool.

- <u>Identify Your In House Carrier Fleets</u> - Use this option to identify the SmartWay Carriers that your company controlled and operated during the current reporting year.

Add Carrier(s) to my list: One

This page allows you to find and select carriers you use that are currently SmartWay Partners.

First use the filters and sorting arrows in the column headers below to narrow your search as needed. You may apply filters to multiple columns to quickly find your carriers. Once found, check the 'Add Carrier' box for that carrier and select the 'Add Carrier(s) to my list' button. You may check multiple carriers at a time before selecting the 'Add Carrier(s) to my list' button, but the Add Carrier checkbox must be visible when the button is pushed.

Import

SmartWay Online Shipper Tool

Importing Carriers: <u>Morgan Enterprises</u>

Shipper companies who use a large number of carriers during the reporting year (e.g. > 100) may prefer to prepare their carrier activity data using an offline application such as Excel, incorporating data outputs from their own freight management software or related data systems. Select the Help button below for more information on how to prepare an Excel file for importing data into the online Shipper tool.

> You previously autopopulated and finalized your carriers. You can import an Excel file, but this will replace all of your SmartWay Carriers and Non-SmartWay Carrier Types. Replacing all of your SmartWay Carriers and Non-SmartWay Carrier Types cannot be undone.

Click the Select File button to navigate to and select your Excel file. The tool will then import the file and report any errors and/or warning messages that may need to be addressed.

[Select File]

[Return to Home Page] [Return to Select Carriers] [Help]

- Save time by importing your carriers en masse
- Standard Format

Import

Import Carriers Screen (Way 3, 4)

Shipper companies that use a large number of carriers (e.g., greater than 100) during the reporting year may prefer to prepare their carrier activity data using an offline application such as Excel, incorporating data outputs from their own freight management software or related data systems. Users may import an XLSX file containing carrier data using the Import File button on the Import Carriers screen. The import file may be produced by:

1. Exporting carrier data from last year's Excel tool[3]
2. Selecting Auto Populate and/or Manually Selecting Carriers then using the tool's Export function, or
3. Exporting carrier data from an in-house application.

Details regarding the required import file data fields and format are presented in Appendix A.

Once the file is ready, select the Import File button to navigate to and select your Excel file. The tool will then import the file, validate activity data, and report any errors and/or warning messa[...] addressed.

- Can save time
- Need to follow the template and instructions <u>exactly</u> in the User Guide

SmartWay Online Shipper Tool

Importing Carriers: One

Shipper companies who use a large number of carriers during the reporting year (e.g. > 100) may prefer to prepare their carrier activity data using an offline application such as Excel, incorporating data outputs from their own freight management software or related data systems. Select the Help button below for more information on how to prepare an Excel file for importing data into the online Shipper tool.

Click the Select File button to navigate to and select your Excel file. The tool will then import the file and report any errors and/or warning messages that may need to be addressed.

Your Excel file has one or more warnings. These are shown below. These warnings can be ignored if you are confident they won't cause any issues. If you ignore these warnings, select the 'Continue' button to proceed to the next step.

- Errors:
  - None
- Warnings:
  - The Excel file you are importing has what appears to be Carrier Subdivision data starting in column O. You did not select Carrier Subdivision as one of your analyses on the Participation Level screen, so this data was not imported. If you would like to perform a Carrier Subdivision, please check that option on the Participation Level screen and then re-import your Excel file.
  - Payload_Distance was present in 1 row(s) [2]. Based on the Available Activity Data option for the carrier, this value will be recalculated.
  - Distance was present in 2 row(s) [4, 7]. Based on the Available Activity Data option for the carrier, this value will be recalculated.
  - Average_Payload was present in 35 row(s) [2, 3, 5, 6, 8...]. Based on the Available Activity Data option for the carrier, this value will be recalculated.
  - You have 3 carrier(s) with an Available Activity Data option of 'Miles Only'. This option is only valid for Truck Carriers who are NOT in either the 'LTL/Dry Van' or 'Package Delivery' SmartWay Category. This will be validated when you finalize your imported carriers. If any of your carriers with this 'Miles Only' option turn out to be invalid, their Available Activity Data option will be changed to 'Ton-Miles and Total Miles'.

Import Results

The Import Results screen lists all carriers included in the imported Excel file, along with the submittal status for each. You can remove carriers from the list by checking the Delete Carrier(s) box and then selecting the "Delete Carrier(s)" button at the bottom of the screen. Carrier status types include:

- "Current" carriers have an approved SmartWay tool submittal for the current Data Year.

- "Pending" carriers are SmartWay partners that have submitted their data for this reporting year, which is currently under review by SmartWay.

- "Didn't Report" carriers are SmartWay partners but have not submitted their data for the current reporting year.

- "Not Found" carriers could not be matched to the list of current SmartWay partners based on the information provided.

Import Results

Imported: Not Found

Find Carrier Screen (Way 3, 4)

For imported carriers that were "Not Found" on the list of current SmartWay Carriers, shippers can use the "Find My Carrier" function to search for a match. Shippers may search on multiple fields (Carrier Name, SCAC, or carrier address). If the correct carrier is listed in the search results, select the "This is the carrier" button, then select Save and Continue and the selection will be added to your carrier list with a status of "Current".

Figure 13: Find Carrier Screen

SmartWay Online Shipper Tool

Find Carrier For: One

Use this page to perform manual searches of the list of SmartWay carriers who have an approved submissions for the current reporting year. You can search on carrier name, address, or SCAC. Select the 'Help' button for more information on how to use this search function.

To search for a carrier, select which field you want to search on, enter the search value, and then select the 'Search' button. Any SmartWay carriers that match the search criteria will appear in the table. If you find your carrier, select the button in the leftmost column and click the 'Save and Continue' button.

Carrier identification you supplied in your carrier file:

- **Carrier Name:** VVVVV
- **SCAC:** ASXX

Field to search on: [Carrier Name ▾]   Value to Search For: [_____]   [Search]

[Return to Home Page] [Back] [Save and Continue] [Help]

- You can always add manually later if that is easier.
- The bigger the percentage of your freight that any particular carrier hauls, the more important it is to include them on your list.

Finalize Carriers

Finalize Imported Carriers Screen (Way 3, 4)

Figure 16: Finalize Imported Carriers Screen

SmartWay Online Shipper Tool

Results of Finalizing Your Carriers: One

The carriers you imported have been finalized.

- You had 36 carriers whose status was 'Current'. They have been finalized and are ready for use.
- You had 1 carriers whose status was Not Found. They have been dropped from your list of carriers. You will need to manually add them using the Non-SmartWay Carrier Types option to account for their activity.
- You had 2 carriers with an Average Payload that exceeded the maximum allowed value for that Mode and SmartWay Category. These Average Payloads have been removed. You can correct your data on the Activity Data screen.

  ▶ Show carriers who had an invalid Average Payload

Non-SmartWay Carriers (Manual)

Carrier Subdivision

Export Carriers

In-House Fleets

Carrier Subdivision (Way 4 Only)

Carrier Subdivision: Shipper Company 1

This screen allows you to subdivide your carriers' activity by various designations. For example, you may subdivide a carrier's activity by its inbound and outbound routes. Making a single designation for a carrier (e.g., defining all activity as outbound) does not constitute a "subdivision". You may subdivide each of your carriers a maximum of 20 times.

Your SmartWay Carriers and Non-SmartWay Carrier Types are listed in the table below. The Subdivision Status is either 'Not Done' or 'Done: #', where the # is the number of subdivisions done to that carrier. **To view, add, modify, or remove a subdivision for a carrier or carrier type, select the radio button in the first column then select the Subdivide button.**

Subdivide | Return to Home Page | Return to Select Carriers | Help

- Carrier Subdivision allows you to enter two (or more) lines of data per carrier
- You may want to track inbound and outbound separately.

Carrier Subdivision (Way 4 Only)

Divide by:
- Business unit
- ID Code
- Inbound/outbound/internal
- Domestic/international
- Internal designation (custom)

SmartWay Online Shipper Tool

Select Carriers: <u>Morgan Enterprises</u>

Select one or more of the links below to identify and select the carriers you used to move your freight in the current reporting period. These options are not mutually exclusive. For example, you can start by selecting 'Auto Populate Carriers' to load the carriers from your approved submission from last year. You can then modify this list of carriers using one or both of the 'View and Manually Select Carriers' options, allowing you to remove and/or add carriers. You can also Export your list of selected carriers, merge in the activity data for each carrier using Excel, and then Import the updated file back into the tool.

When you are finished selecting your carriers, select the 'Enter Activity' button to proceed to the next step.

- <u>Auto Populate Carriers</u> - Use this option to load the carriers from your approved tool submission from last year. After you have brought in these carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.

- <u>Import Carriers</u> - Use this option to import your carriers from an Excel file. You can include each carrier's activity data. If you have selected Way 4 as your participation level and plan to use Carrier Subdivision, you can include the subdivision fields in the Excel file. After you have imported your carriers, you can send a reminder email to those SmartWay carriers who haven't submitted their data for the current year.
  NOTE: the format of the Excel file used in this tool is not the same format that is used in the SmartWay Excel Shipper Tool. <u>The new format is described in the User Guide.</u>

- <u>View and Manually Select SmartWay Carriers</u> - Use this option to identify and select your carriers from the current list of SmartWay partners. If you have a small number of carriers (e.g., 50 or less), this option might be your preferred approach. If you used the Auto Populate function, you can use this option to add and remove SmartWay carriers.

- <u>View and Manually Select Non-SmartWay Carrier Modes/Categories</u> - Use this option to select your Non-SmartWay carriers (e.g., Non-SmartWay Truckload/Dry Van, Non-SmartWay Logistics). If you used the Auto Populate function, you can use this option to add and remove Non-SmartWay carriers. If you do not use any Non-SmartWay Carriers you must still select this option to confirm that you do not use Non-SmartWay carriers.

- <u>Carrier Subdivision</u> - Use this option to subdivide your freight activity based on shipment borders (domestic or international), shipment movement (inbound, outbound, internal), discrete business units, and/or other criteria.

- <u>Export Carriers</u> - Use this option to export your current list of carriers or the entire set of SmartWay Carriers and Non-SmartWay Carrier Modes/Categories into an Excel file. You can then modify the file to edit your carrier list, activity data, and (if applicable) subdivision information for importing back into the tool.

- <u>Identify Your In House Carrier Fleets</u> - Use this option to identify the SmartWay Carriers that your company controlled and operated during the current reporting year.

| Return to Home Page | Enter Activity | Help |

- Non-SmartWay Carriers (Manual) (Way 2, 3, 4)
- Carrier Subdivision (Way 4)
- **Export Carriers (Way 3, 4)**
- In-House Fleets (Way 3, 4)

Export Carriers (Way 3 and 4)

SmartWay Online Shipper Tool

Export: Morgan Enterprises

Select one of the following options to export carrier information to an Excel file for additional processing. Using Excel, you can enter or change activity data or merge the exported carrier information with data from your in-house shipping applications.

1. Select the 'Export Selected Carriers' button to export an Excel file containing the list of carriers you selected using the other online tool functions (Auto Populate, Import, and Manual Selection). You may then manipulate the file offline and import the updated file back into this tool.

2. Select the 'Export All SmartWay and Non-SmartWay Carriers' button to create and save an Excel file with a complete list of all current SmartWay Carriers and Non-SmartWay Carrier Modes/Categories. You may then manipulate the file offline, delete carriers you do not use and enter activity data for your carriers. Once complete you may import the updated file back into this tool.

| Export Your Selected Carriers | Export All SmartWay and Non-SmartWay Carriers |

| Return to Home Page | Return to Select Carriers | Help |

- Export is useful to generate a ready-made import file
- Select specific carriers and export
- Export all, and delete in Excel file

Out of Range and Overreported Alerts - this needs to be addressed

Data Quality Check Criteria

Payload Out of Range Alert: 'Yellow' and 'Red' entries in the Payload Out of Range Alert column indicate the average payload for a carrier is outside the expected range for typical carriers of the same Mode/SmartWay Category. 'Red' indicates payloads are far outside the expected range, while 'Yellow' indicates payloads are somewhat outside the expected range. Select the EDIT link to adjust your payload values if needed, otherwise you can enter explanations in the "Out of Range Explanation(s)" box below. Red entries require an explanation, while explanations for yellow entries are optional.

Overreported Alert: 'Red' entries in the Overreported Alert column indicate the Total Miles or Ton-Miles you reported for those carriers is greater than expected based on the activity reported by the carriers in their latest submission. This could be an error on your part, OR the carriers may not have reported all of their activity. Please make sure you selected the correct carrier fleet (some carriers report multiple fleets), and the activity level attributed to each carrier is accurate.

Can be edited in this screen!

Report created on: October 12, 2022

Inventory Year: 2021

Scope 3 Category	CO2 Emissions (metric tons)	Percent of emissions calculated using data from SmartWay carriers (%)
Category #4 - Upstream Transportation and Distribution	124,942	89.64%

Emissions of biogenic CO2 (metric tons):
Category #4: 2,200

Emissions of non-GHGs:

Pollutant	Amount (metric tons)
NOx	566.330
PM10	10.84500
PM2.5	10.51500
Black Carbon	6.60800

Notes:

- Scope 3 emissions for Category #4 - upstream transportation and distribution, at a minimum, includes the scope 1 and scope 2 emissions of contracted freight suppliers that occur during the use of vehicles and logistics facilities.
- For purposes of developing a corporate inventory using the SmartWay Shipper Tool, the relevant Scope 3 category only includes #4 - upstream transportation and distribution and therefore EXCLUDES Category #9 - downstream transportation and distribution as falling outside of the system boundary.
- Emissions from CH4, N2O, HFC's, PFC's, SF6 and NF3 have been deemed immaterial, comprising less than 5% of overall GHG emissions and are therefore EXCLUDED for reporting purposes.
- Biogenic CO2 emissions are derived by applying the US requirements for biomass-based diesel as coming from the EPA Renewable Fuel Standard (RFS) program final volume requirements, updated annually.

Review Reports: Carrier Subdivision

Year-to-Year Reports

SmartWay Online Shipper Tool

Compare this year's information with last year's submission

In order to run a comparison report, you must have submitted a completed Truck Tool last year that was approved by your Partner Account Manager.

If you defined multiple shipper companies for either your current or previous submission, select which shipper companies you wish to compare. Then select the 'Run Report' button to view the results.

Registration Documents

Registration Document

The U.S. Environmental Protection Agency recognizes

As a Registered

SmartWay® Transport Partner

Partnership Date: 10/31/2019

SmartWay ID:

Expires:

Center Director, SmartWay Transport Partnership

Sample

- SmartWay Registration Docs are for partners to display in their lobby, not as proof or participation

- To determine if a partner is up to date (has submitted) their SmartWay information
  - They will appear in the Shipper Tool
  - They will appear in the Carrier Data File @ https://www.epa.gov/smartway/smartway-carrier-performance-ranking

THANK YOU for being a SmartWay Partner!

Please contact your Partner Account Manager (PAM) with any additional questions

Please send any general feedback or suggestions on the tool to:
herzog.erik@epa.gov
Contact your PAM with any Questions as you fill out your tool.
