

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
SHALLOW IRRIGATION SYSTEM/WELL INVENTORY REQUEST FORM

(Form adapted from OMB No. 2040-0042)

Shallow irrigation systems release fluids into or above shallow ground water. EPA's Underground Injection Control (UIC) Class V regulations require inventory information for all systems/wells and additional information for certain types of systems/wells.

**This form is designed to collect basic information on all subsurface drip irrigation systems to determine which are regulated under the EPA's Class V shallow injection well program.**

- If your business has more than one location within South Dakota, please copy and submit an Inventory Request Form for each facility.
- If you lease or rent the space for your business, as the operator of the business, you are responsible for submitting the inventory information for this facility.

I BASIC INVENTORY INFORMATION

**Inventory all subsurface drip irrigation systems separately. You may copy this form and use a copy for each system. If more space is needed, attach a separate sheet.**

Well/System # _____	Operating Status: AC=Active, AN=Abandoned, UC=Under Construction, TA=Temporarily Abandoned
Well/System # _____	Please attach a diagram of the system and include the construction design. Latitude and Longitude of Location:
Well/System # _____	Date of Construction:
Well/System # _____	Depth of System/Well:
Well/System # _____	Average Maximum Volumes of Fluids: gallons/day
Well/System # _____	Source and Nature of Fluids (For example, nutrients)
Well/System # _____	Depth of Groundwater (if known):

**What is the main purpose of this drip irrigation system?**

(For example, wastewater disposal, subsurface crop irrigation):
